About Colors.

These are the colors of lace curtains and curtain materials: Going from light to dark, ivory is the first shade darker than white. Cream is slightly darker than ivory. Ecru comes next, having a slightly yellowish cast. Beige, a soft, warm shade of light tan, is a deeper color than ecru.

About Sizes.

The curtains listed on these pages may vary from 1 to 2 inches from sizes given. They are all woven and come off the machine in the exact size we list, but due to the finishing process which they go through they will either shrink or stretch slightly. In ordering your curtains it is best to bear this in mind.

24H4030—White. **24H4031**—Beige. Price, Set 98c

MAYFLOWER
The Range With a Sure Oven

First and Foremost From Top to Bottom.
...of value and our most popular range. Quality ...remost is the slogan that has put it in the front ...up to the highest standard, not down to a price. ...best ranges made anywhere, it has no superiors ...and but few equals. You cannot match it any- ...the money; in fact, our prices save you at least ...probably more.

...goes clear through from top to bottom in this ...range. The more you use it, the better you will ...extra big, strong and lasting, just the range for ...and other homes where a great amount of cooking ...We know it will make good every time and all

...take pride in its beauty and joy in its satisfac- ...many splendid advantages of this range make ...enthusiastic. The solid cast iron body is made ...and durable. Good for twenty-five or thirty

...e Sure Oven Is the Supreme Feature.
...ef to give satisfaction every time. The house- ...has developed a reputation for cooking and baking ...recognizes her dependence on her stove. The ...VER oven never fails. It always bakes and ...perfection.

...the Satisfaction of a Polished Cooking Top.
...right and smooth, one of the beauty features of ...e. No blackening or polishing required; just wash ...dishcloth or wipe with an oily rag. A labor saver. ...o mark order very plainly if polished top is wanted.

Plain black cooking top is also furnished for those who prefer it.

The left section of top, over the fire, is hinged and can be raised by the handle; a catch holds it at any height wanted. You can toast or broil right over the hot coals or spread the fuel evenly. Height to cooking top, 31 to 33 inches, according to size of range.

Other Features of Interest and Convenience.

The nickel plating is handsome and easily kept bright. Fire boxes do quick baking and cooking without waste of fuel. Fire box length for wood, 20 to 22 inches, according to size of range. When range is ordered for burning wood only, the coal feed door is not furnished.

Reservoir is white porcelain enameled inside. If range is wanted without reservoir, deduct $5.25 from prices. Water front to fit in fire box to heat 30-gallon hot water boiler, $3.75 extra; for larger boiler, $4.75 extra. If you order water front, be sure to state if range is wanted with or without reservoir.

Range WITH RESERVOIR is shipped from Springfield, Mass., Albany, N. Y., Syracuse, N. Y., Philadelphia, Penna., Harrisburg, Penna., Atlanta, Ga., Newark, Ohio, Indianapolis, Ind., Chicago, Ill., St. Louis, Mo., Kansas City, Mo., Davenport, Iowa, Waterloo, Iowa, Omaha, Neb., Grand Rapids, Mich., Madison, Wis., St. Paul, Minn., Sioux Falls, S. Dak., Fargo, N. Dak.

Range WITHOUT RESERVOIR is shipped from Albany, N. Y., Philadelphia, Penna., Newark, Ohio, Chicago, Ill., St. Louis, Mo., Kansas City, Mo., St. Paul, Minn.

Sold only for cash in full with order.

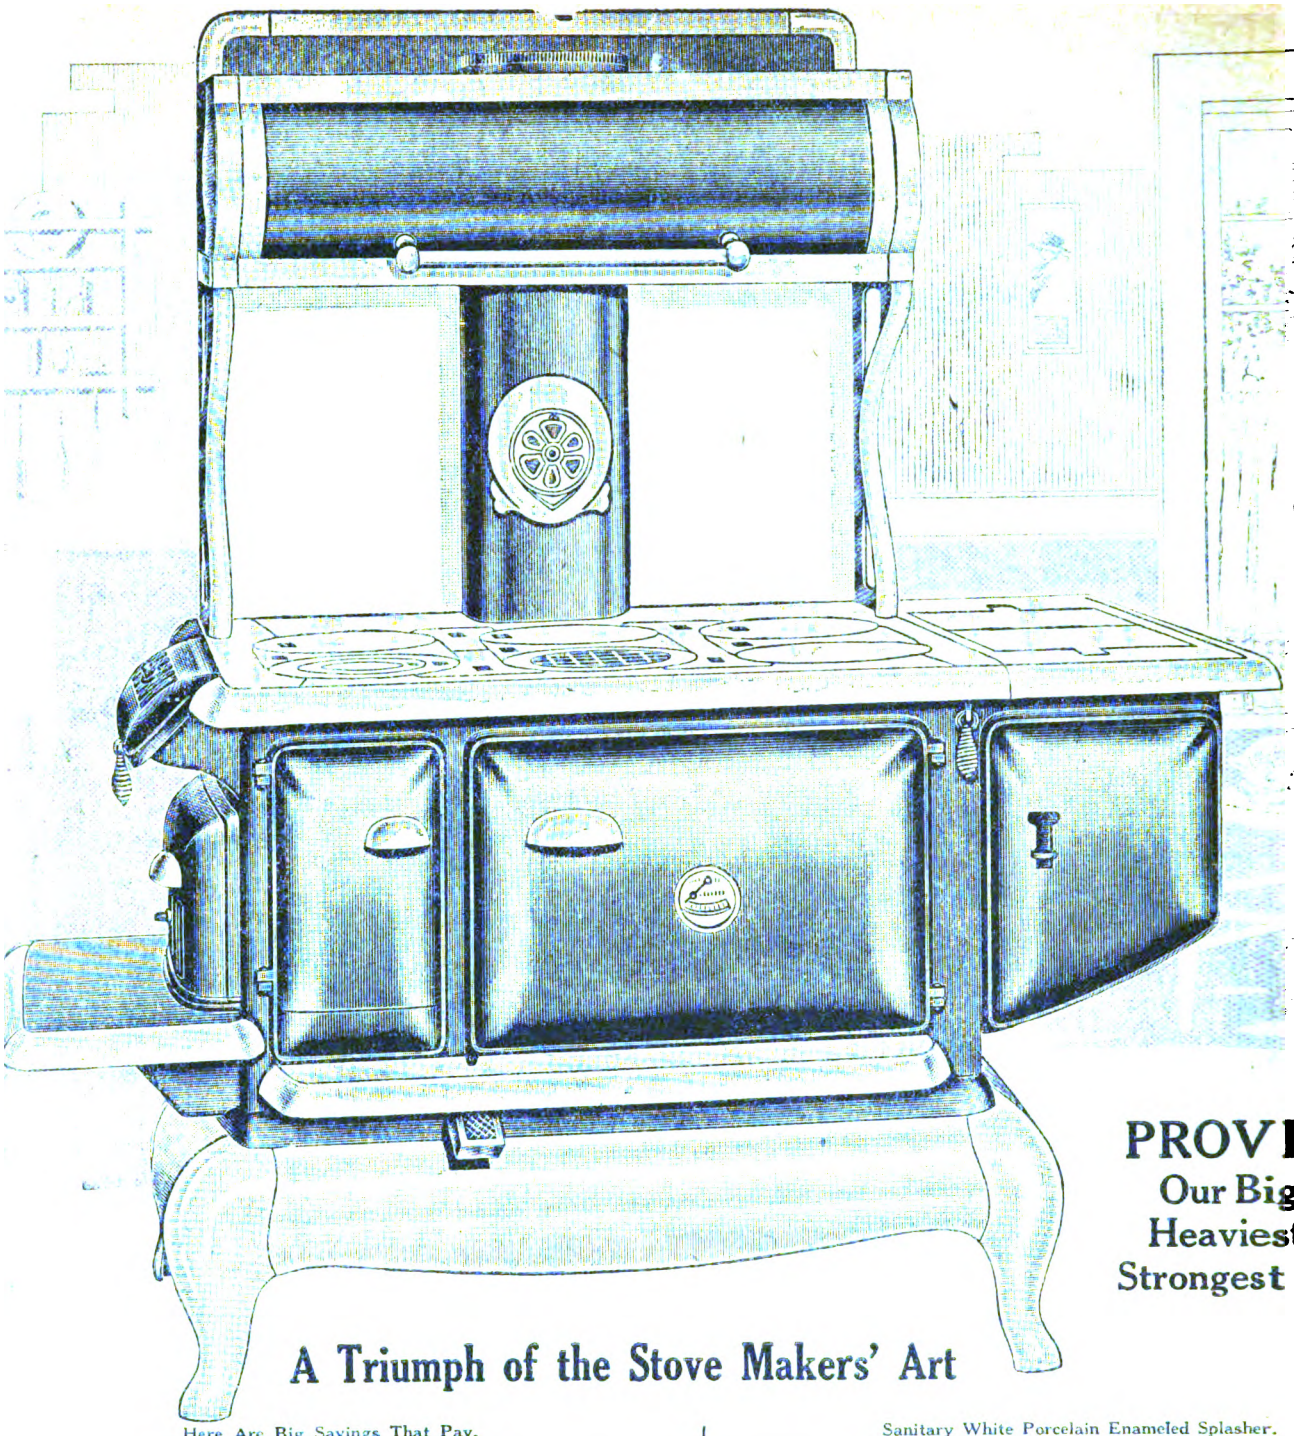
How to Compare Stove Values When Buying.

You must consider more than appearance and price. You must compare size and weight, quality and style. One of the most important points of a stove, that is often overlooked when buying from a catalog, is the weight. If you were to compare two stoves standing side by side you would quickly satisfy yourself as to the relative value by looking into the oven and fire pot, by lifting the lids, etc. When buying from a catalog always be sure to look at the weight as well as the other measurements; the heavier the stove is, the more value there is bound to be.

Our Stoves Are Made in Our Own Factories. We Guarantee Quality.

Our stoves are made in very large foundries using the latest and best machine equipment, and our enormous production eliminates wastes and losses frequent in smaller factories. This enables us to manufacture better stoves at lower costs than foundries not as large or well equipped as ours.

Our big sales make possible the low costs; low costs make possible our unusually low prices; and our low prices account for the big sales. Everyone benefits.



We Guarantee to Save You Money.

Size and quality being equal, we guarantee to save you 15 to 30 per cent in prices, sometimes more, even after you have paid the freight charges from one of our stove warehouses near you. The benefits of enormous factory production and our method of selling direct from factory to you are evident in our big stove values that emphasize the savings we make you without skimping one bit on quality.

We Offer the Greatest Variety of Sizes and Styles.

No other store anywhere offers such a variety as we do, so it is naturally a very easy matter for you to choose just the stove best suited to your own needs and wishes, and at a price much lower than you would pay elsewhere for equal value. Look over our complete line and be convinced.

PROVIDE
Our Biggest
Heaviest an
Strongest Rar

A Triumph of the Stove Makers' Art

Here Are Big Savings That Pay.

You cannot afford to save money at the sacrifice of quality. But here you ually make a big money saving, because you cannot buy a better range anyre at any price, so the difference between our price and what others ask for es of equal quality is all saved and the savings will be at least $20.00 and ably more.

Big and Strong. Made Right From Top to Bottom.

This smart, popular model embodies the best features and improvements of y's stove styles. The quality and merit of this big heavy range are not passed by any stove made. Made right from top to bottom, it will make good first day you use it and keep right on year after year. Buy it on our mmendation and guarantee of satisfaction.

Good for Twenty-Five Years' Work.

Quality first and foremost. Made of excellent materials by expert workmen and h proper care will last a lifetime. Extra large and strong, made of durable cast throughout, it will do its work as quickly and with as little work and fuel after y years as on the first day you use it. Recommended for farmers' use and in es where a great amount of cooking and baking is done and where a range ives hard usage.

Enjoy the Satisfaction of a Polished Cooking Top.

Always bright and smooth, one of the beauty features of this range. No blackg or polishing required; just wash it with a dishcloth or wipe with an oily rag. work saver. Be sure to mark order very plainly if polished top is wanted. Plain k cooking top is also furnished for those who prefer it. Extra large and strong.

Gas and Coal Combination Range With More Than Ordinary Capa

Two Stoves in One—Two Ovens, Double Cooki

The unusual capacity of this combination range makes it espec
ble for families that have a great deal of cooking and baking to
boarding houses and small restaurants. With the two ovens
cooking top you can prepare a great big meal for extra company
or fowl to roast, bread, pies and cakes to bake, and all the special
such occasions. You can do all that comfortably and conveni
double capacity range, where it would be almost if not quite impo
the same work on either a coal or gas range, or even on the ordina
tion range having only one oven.

Cook With the Fuel Best Suited to the Season.

Two ranges in one, a complete coal and wood range and a
range built into a single body. You get the conveniences of both
remarkably low price. In Summer you will cook and bake with
heating up your kitchen. In Winter most of the cooking and ba
done with a coal fire, so that the room will be warmed with the sam
out extra cost; at the same time you may want to do some espe
cooking, which can be done to better advantage over a gas fire.

Two Separate Ovens. Gas Broiler and Toaster.

Each oven is designed especially for its own kind of fuel. T
parts to move or change. The ovens are guaranteed bakers and r
gas broiler in warming closet will be found very convenient for
toasting.

Double Cooking Top Has Ten Cooking Holes.

Six coal cooking lids and five gas cooking burners, including
simmer burner and lighter for the other burners. Lights any bur
without matches and without reaching over the top or moving
burnt matches to litter the stove; no unlighted ones around
Quick, safe, convenient, clean. Range for naural gas has closed
trated; for manufactured gas round open grates are furnished
wood fire box is good size and does quick work.

Sanitary White Porcelain Enameled Splasher and Door

Easy to keep clean and sanitary with a damp cloth. Will
discolor. Very hard and durable, guaranteed not to chip or crac
Nickel plated door frames and closet trimmings make the range
tive. The stove body is made of steel. Double cooking top, 48x26
No. 8 and two No. 6 coal lids. Two ovens, each 16x19 inches. Fir
for wood, 20 inches. Takes 7-inch stovepipe. Shipping weight,

Water front to fit in fire box to heat hot water boiler, $4.75

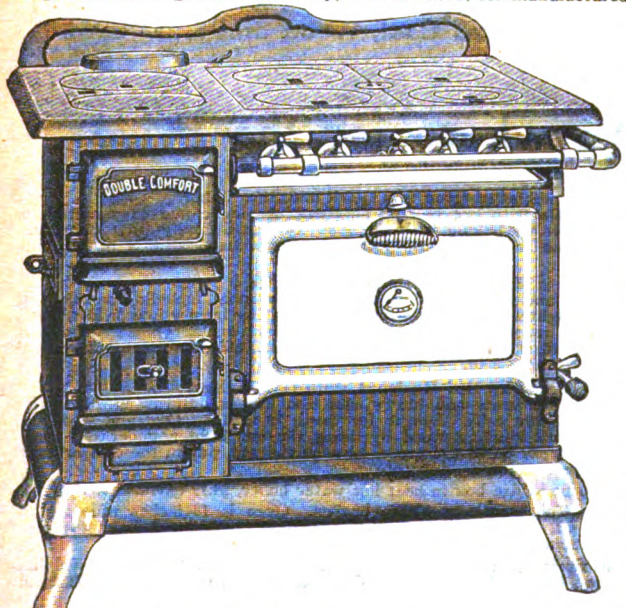
22H6305A—Range for coal and wood and manufactured
gas.....

22H6305N—Range for coal and wood and natural gas.....



Two-In-One Gas Range and Kitchen Heater

Keeps your kitchen cool in Summer when cooking and baking with gas; keeps it warm in Winter when cooking and heating with coal and wood.

Offers the advantages of the larger and more elaborate combination ranges at a much lower price than usual. This range is a combination of a kitchen heater and a gas range built into a single body. Two stoves in one, giving double convenience, double service and double comfort. Very compact, takes up only a small amount of space.

Gas baking oven operates entirely independent from the coal section of the range. Guaranteed to do very fine work, both baking and roasting. It is not a combination oven and cannot be heated by the coal fire. The coal and wood fire cooks and heats, but does not bake.

You can cook with two fuels at the same time, using all six lids at a time when desired. Has two coal and wood lids and five gas cooking burners, including a combination simmer burner and lighter for the other burners. Lights any burner without matches. Quick, convenient, clean. Range for natural gas has closed top, as illustrated; for manufactured gas large open grates are furnished.

Fire box burns hard and soft coal, coke, short wood, corn cobs, rubbish and kitchen waste. Cooks quickly and will furnish plenty of heat to warm your kitchen in the coldest weather.

Water front to fit in fire box to heat hot water boiler $4.75 extra.

The stove body is made of steel. Oven, 18x19 in. Top, 35½x25½ inches. Fire box length for wood, 16 inches. Takes 6-in. stovepipe. Shipping wt., about 358 pounds.

Shipped from Springfield, Mass., Albany, N. Y., Syracuse, N. Y., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, Chicago, Ill.

Warming closet, similar to that illustrated on stove 22H3156, page 704, can be furnished with this stove, if wanted. When stove is ordered with warming closet, shipment will be made from our factory at Newark, Ohio. Shipping weight of stove with closet, about 407 pounds.

If warming closet is wanted, order stove by the following numbers: **22H6307A**—Range for coal and wood and manufactured gas, **$50.50**; **22H6307N**—Range for coal and wood and natural gas, **$50.60.**

Sold only for cash in full with order.

22H63073A—Range for coal and wood and manufactured gas..... **$44.50**

22H63073N—Range for coal and wood and natural gas..**$44.60**

Kitchen Heater and Rubbish Burner

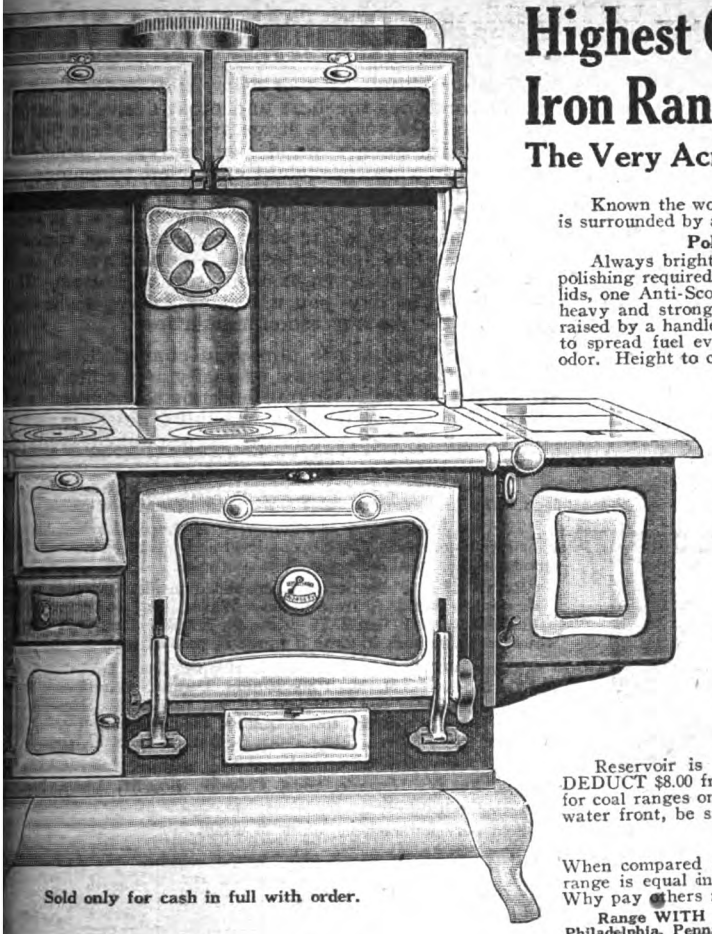
If you are using a gas stove for cooking, you should have this stove, too, to heat the kitchen and to burn your rubbish and waste. Very convenient for cooking and boiling, washing and ironing. Adjustable legs permit setting stove at any height wanted, or to line up with top of gas stove.

Thoroughly efficient. One of the most satisfactory stoves ever designed for this purpose. Small and compact, it takes up just a little room, but it will do wonders in the way of heating and cooking, using a minimum amount of fuel and disposing of waste and rubbish that would be a nuisance to throw away or destroy otherwise.

Will keep kitchen warm and comfortable in zero weather. Every inch of the stove radiates heat very quickly after the fire is started, for the smoke and heat travel through flues in the back and bottom of the stove before going into the stovepipe. Will heat a great big room on a small amount of fuel. The fire box is made just like our big coal ranges and burns any kind of coal, coke, wood, corn cobs and rubbish. Length for wood, 14 inches.

Stove is made of cast iron, much stronger and more b
similar stoves made with steel body. Top, 12x24 inches
lids. Takes 6-inch stovepipe. Shipping weight, about 19

Gas lighter for fire box can be connected with gas stov
to gas supply pipe.



Water front to fit fire box to heat hot water boiler
nished if wanted. See prices below.

Highest Quality Unbreakable Malleable Iron Range With Polished Cooking Top

The Very Acme of Quality—Super Value for Your Money

Unbreakable Malleable Iron Lasts a Lifetime.

Known the world over for its durability and lasting qualities. Every opening in the body is surrounded by a malleable iron frame, securely riveted and bolted.

Polished Malleable Iron Cooking Top Requires No Blackening.

Always bright and smooth, one of the beauty features of this range. No blackening or polishing required; just wash it with a damp cloth or wipe with an oily rag. Has four solid lids, one Anti-Scorch lid for special cooking, and a three-ring lid for small utensils. Top is heavy and strongly reinforced. The left section of top, over the fire, is hinged and can be raised by a handle. A catch holds it at any height wanted. This gives you free use of hands to spread fuel evenly, broil meat or toast bread directly over live coals without smoke or odor. Height to cooking top, 34 inches.

Built Extra Strong and Heavy to Stand Hard Usage.

Body is made of special high grade U-SO-NA Iron, our own brand, a rust-resisting iron especially tested for strength and long wearing qualities. This range is far superior to the ordinary steel range. One of the important points about a range that is often overlooked, especially when buying from a catalog, is the weight. If you were to see two ranges side by side you could quickly tell the relative value by looking into the oven and fire box, lifting the lids, etc. When you cannot actually see the stoves, always be sure to look at the weight, and the heavier the stove is, the more value there is bound to be. The weight of this range is properly distributed, every piece thick and strong and extra strength wherever there is extra wear or strain.

Splendid Baking Oven. Quick Heating Fire Box.

Baking and roasting oven is big size and does splendid work. The thermometer is a big help. Fire box is made to do quick cooking and baking without waste of fuel. When range is ordered for burning wood only, the coal feed door is not furnished. Fire box length for wood, 25 inches.

Beautifully Attractive Nickel Plated Trimmings.

A handsome range, good enough for the best homes and finest kitchens. Lots of beautiful nickel plating; durable and lasting, easy to keep bright. Nickel plated base and legs, doors, closet trimmings and towel bar across front.

Reservoir. Water Front.

Reservoir is white porcelain enameled inside. If range is wanted without reservoir, DEDUCT $8.00 from prices. Cast iron water front to fit in fire box to heat hot water boiler, for coal ranges only, $4.75 extra. Pipe coil water front for any fuel, $3.75 extra. If you order water front, be sure to state if range is wanted with or without reservoir.

Our Prices Save You $30.00 or More

When compared to prices asked elsewhere for malleable iron ranges of equal quality. This range is equal in every detail to the highest class malleable iron ranges made by anyone. Why pay others more when you cannot get a better range at any price?

Range WITH RESERVOIR is shipped from Springfield, Mass., Albany, N. Y., Syracuse, N. Y., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, Indianapolis, Ind., Chicago, Ill., St. Louis, Mo., Kansas City, Mo., Davenport, Iowa, Waterloo, Iowa, Omaha, Neb., Grand Rapids, Mich., Madison, Wis., St. Paul, Minn., Sioux Falls, S. Unusual Value at These Prices

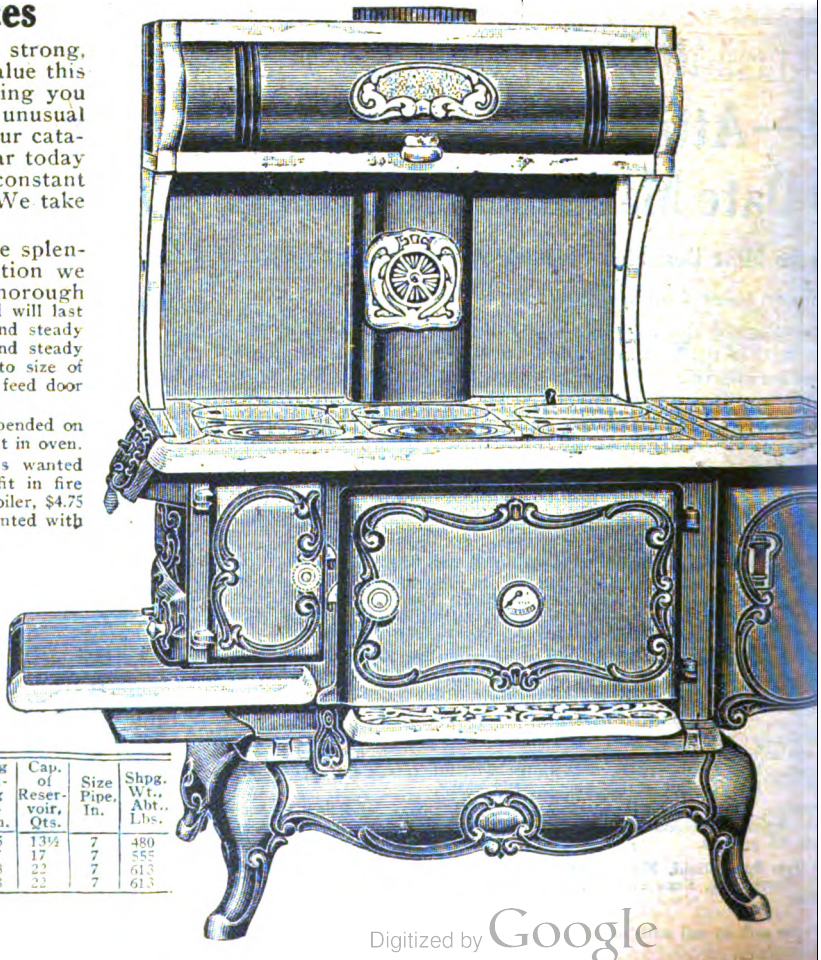
Many people prefer a range of this style, big, strong, plain. We have a great deal of confidence in the value this range represents and we invite comparison, believing you will be convinced quickly that it offers you very unusual value at our prices. We have listed this range in our catalog for more than a dozen years, and it is as popular today as ever before, proving that it still meets the constant demand for a big plain range at a medium price. We take modest pride in its continued success.

Thoroughly well made from top to bottom. The splendid results it gives are proof of the careful selection we make of strong and dependable materials and the thorough workmanship. The whole stove is made of heavy cast iron and will last for many years. Big cooking top is the right thickness to stand steady firing without warping or cracking. The fire box is a quick and steady heater. Fire box length for wood, 20 to 24 inches, according to size of range. When range is ordered for burning wood only the coal feed door is not furnished.



The big square baking and roasting oven can always be depended on for quick and satisfactory work. Reliable thermometer shows heat in oven.

Reservoir is white porcelain enameled inside. If range is wanted without reservoir, deduct $5.00 from prices. Water front to fit in fire box to heat 30-gallon hot water boiler, $3.75 extra; for larger boiler, $4.75 extra. Medium Size Cast Iron Range

Priced at a Very Low Figure

Made for families who do not need a great big range. Even though you need only a medium size range, you want it to be made just as good and as lasting as a big range, and this range was designed to take care of just such needs. Made of the same high grade materials used in our more expensive ranges and by the same skilled workmen. We have kept down the price to a very low figure by using just a few simple nickel plated trimmings.

The range is made of cast iron throughout, the most lasting stove construction. Six-lid cooking top heats quickly. Fire box does good work without waste of fuel. Fire box length for wood, 18 inches. Baking and roasting oven is always reliable. Equipped with a dependable thermometer. Closet is convenient for warming dishes and keeping cooked food warm until served.

Reservoir is white porcelain enameled inside. If range is wanted without reservoir, deduct $4.00 from prices. Water front to fit in fire box to heat hot water boiler; for coal and wood range, $4.75 extra; for wood only range, $3.75 extra. If you order water front, be sure to state if range is wanted with or without reservoir.

Measurements. Oven, 16x16 inches. Six No. 8 lids. Top, including reservoir, 42x25½ inches. Reservoir holds 13½ quarts. Takes 7-inch stovepipe. Shipping weight, about 443 pounds.

Range WITH RESERVOIR is shipped from Springfield, Mass., Albany, N. Y., Syracuse, N. Y., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, Chicago, Ill., Kansas City, Mo., St. Paul, Minn.

You Cannot Match This Stove Anywhere for the Money

Priced to Save You $5.00 or More.

The stove designs of different manufacturers vary a great deal, so that comparison is often difficult, but here is a stove that is as standard in design and construction as you will be able to find. A comparison of the size and weight will convince you that our price is very low for a stove of this kind. We recommend it to give complete satisfaction. It is strongly made of cast iron and will give good service. Neat and plain design and finish, easy to keep clean.

The oven is a good baker and roaster. Does the work quickly, with a little fuel. Two oven doors; the one on right side is provided with a kicker, so that door can be opened with the foot when hands are full. The fire box has two shaking and dumping flat grates, one for coal and one for wood. Large pouch feed opening for putting in fuel.

Reservoir is white porcelain enameled inside. If stove is wanted without reservoir, deduct $3.00 from price.

Shipped from Springfield, Mass., Albany, N. Y., Syracuse, N. Y., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, Chicago, Ill., St. Louis, Mo., Kansas City, Mo., St. Paul, Minn.

Common Sense High Oven Stoves
Efficient, Convenient, Compact

It has not been necessary to sacrifice one bit of efficiency in making these new type stoves. But they have added a great deal of comfort and convenience to the use of the oven. Built to save your back. You do not have to stoop over or get down on your knees when putting pans into the oven or taking them out. The oven is at the most comfortable height—right in front of you. Just as handy to reach into the oven as to handle utensils on the cooking top. These stoves will do the same satisfactory baking and cooking as all the other stoves we sell. The oven heats very quickly; can also be used for heating dishes and keeping cooked food warm until ready to serve.

Another advantage is the small floor space needed for a complete stove of this type. Especially recommended for small or crowded rooms.

22H3476

$35.00

High Grade

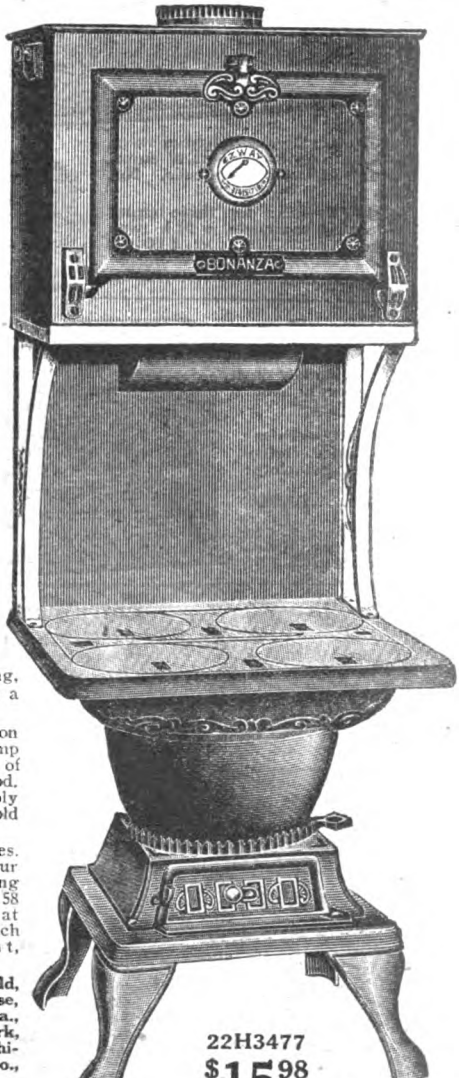
Large enough for almost any family. Made heavy and solid to stand hard wear and last for years. Full cast iron body. Oven section is made of steel. The fire box is the same kind we use in our regular style ranges. Has duplex grate for burning any kind of coal, corn cobs and short wood. Ash pan is furnished. Roomy cooking top; two side shelves.

Oven measures 16x16 inches. Four No. 8 lids. Top, 28½x21½ inches. Fire box length for wood, 14 inches. Takes 7-inch stovepipe. Height to cooking top, 27 inches. Total height 63 inches. Shipping wt., about 338 pounds.

Shipped from Newark, Ohio, Chicago, Ill., Waterloo, Iowa.

Sold only for cash in full with order.

Low Priced



This stove is not so large or heavy as the stove illustrated at left, but it is large enough to do all the cooking, baking and laundry work for a medium size family.

The stove is made of cast iron with steel oven. Round dump style grate. Burns any kind of coal, corn cobs and short wood. Will heat a room comfortably in real cold weather and hold fire all night.

Oven measures 16x16 inches. Cooking top, 21x21 inches. Four No. 8 lids. Height to cooking top, 22 inches. Total height, 58 inches. Diameter of fire pot at top, 12 inches. Takes 6-inch stovepipe. Shipping weight, about 200 pounds.

Shipped from Springfield, Mass., Albany, N. Y., Syracuse, N. Y., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, Indianapolis, Ind., Chicago, Ill., Kansas City, Mo., Waterloo, Iowa.

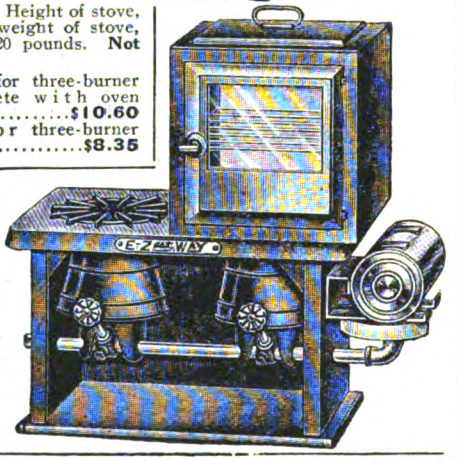
Low Priced E-Z-est-WAY Blue Flame Wickless Cooking Outfits

Lots of value for the money. Nowhere else can you buy stoves and ovens equal to these at such low prices. In fact, our prices save you about 20 per cent. **E-Z-est-Way** Blue Flame Wickless Burners are extra large and powerful, smokeless and odorless. Measure 4 inches, while most other makes have 3½-inch burners. These **E-Z-est-Way** Burners have 15 to 30 per cent greater heating power than 3½-inch burners, a decided advantage when lots of heat is wanted. Give ample heat for any cooking and baking, washing and ironing.

The stoves are strongly made and will stand lots of use. Closed cabinet style keeps drafts away from burners. Finished in rustproof baked on black enamel that can be cleaned with a damp cloth. Three-quart metal oil tank.

The ovens are quick and sure bakers. If a larger oven is wanted, see full line on page 711.



E-Z-est-Way Wickless Oil Stoves use asbestos lighting rings instead of wicks. Buy an extra dozen and have them when needed. **22H2401**—Price, per dozen, **$1.10.**

Shipped from Springfield, Mass., Albany, N. Y., Syracuse, N. Y., Philadelphia, Penna., Harrisburg, Penna., Atlanta, Ga., Chicago, Ill., Kankakee, Ill., St. Louis, Mo., Kansas City, Mo., Waterloo, Iowa, Omaha, Neb., or St. Paul, Minn.

Every Family Should Have an E-Z-est-WAY Oil Heater

We consider **E-Z-est-Way** Oil Heaters equal in every respect to any oil heaters made and superior to many makes in some features. Our one-piece base and legs is the best and strongest possible construction. A feature of unusual strength and safety; the stove will always stand steady. Many makes of oil heaters have bolted on legs that sometimes loosen, making the stove wabbly and unsafe.

Three heaters made just alike, the only difference being in the outside appearance. Will heat a medium size room very comfortably. Height to main top, 24¼ inches. Tank holds three quarts; will run heater about 8½ hours. Takes 8-inch round wick. Shipping weight, about 17 pounds.

Shipped from Philadelphia, Penna., Chicago, Ill., or Kankakee, Ill.

E-Z-est-WAY—The Mark of Highest Quality Oi

(Our Own Trade Mark, Reg. in U. S. Patent Office.)

Sold Only by Sears, Roebuck and Co.

Made in our own factory, the **E-Z-est-Way** Oil Stoves are a development of rience in manufacturing and selling oil stoves. The improvements and chan made from year to year have brought our stoves to an unusually high standa of materials and finish, big and roomy sizes, sturdy construction and dependa fire to any cooking and baking needs. Our trade mark—**E-Z-est-Way**—is a absolute satisfaction in oil stoves.

Cook With Kerosene Oil—the Ideal Fuel for Hot Weathe

We do not know of any cooking device available to farm and small town lessens the work like **E-Z-est-Way** Oil Stoves. They will cook meals complete time it takes to start a coal or wood fire and get it to cooking heat. Will do a can be done on any cooking stove. No kindling wood to chop or whittle, no to carry, no dusty ashes to carry out, no smoky fire, no dirty job of blackening **E-Z-est-Way** Oil Burners always burn a clean blue flame of intense heat, ea to any heat needed. The chimneys concentrate every bit of heat right on th prevent radiation. You can use an **E-Z-est-Way** Stove hour after hour on a day without heating up your kitchen.

Economical for Families of Two or a Dozen.

One of the best features of oil stoves is the way in which you can cook s at once and have just the right heat for each. Each burner is independent burners, so that you can simmer over one burner and fry over the next. Use burners as are needed for your work. No unnecessary fire, no waste of heat. to have a big fire to do a little work. Burns kerosene (coal oil), a low priced

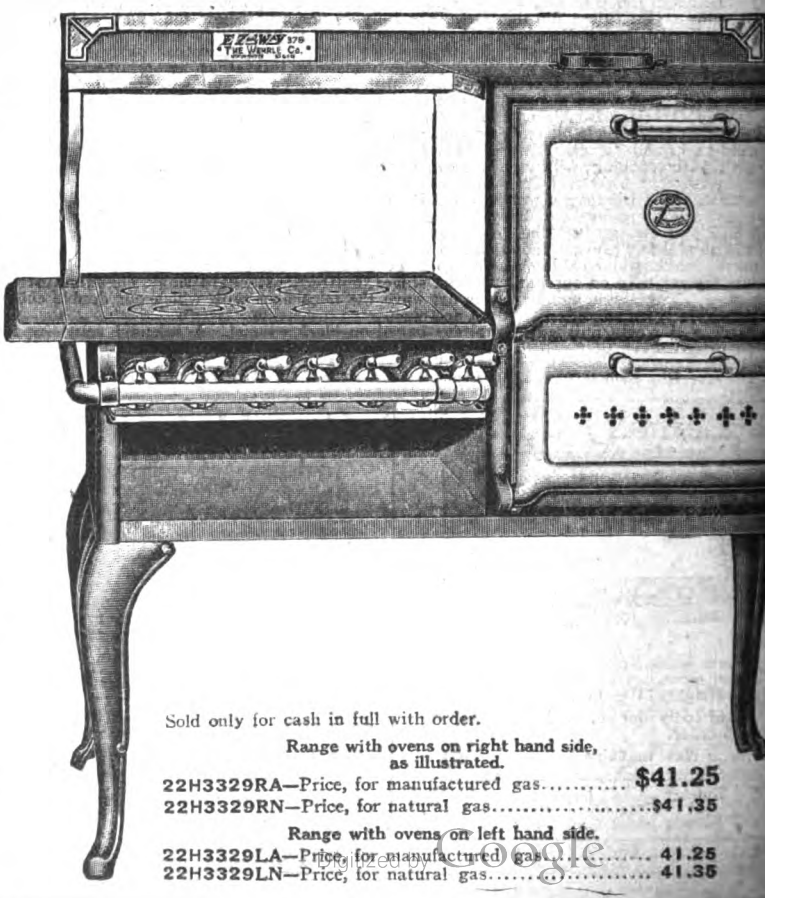
Outstanding Gas Range Value

This is by far the most popular style gas range now on the market, because cabinet gas ranges have so many conveniences that make your cooking and baking real pleasure and comfort, instead of just work. But you want your stove to be something more than a cooking machine. It should be a piece of kitchen furniture as well. You can show this range to your friends and neighbors with a great deal of pride and satisfaction. It's so easy to keep spick and span. The enamel is hard and durable, will not crack or chip from heat and will not spot or discolor from grease spatterings. Sanitary and rustproof, easily cleaned with a damp cloth.



You cannot buy such a high class range elsewhere at anywhere near our money saving prices. This range is very standard in style and size and can be readily compared with nationally advertised brands of about equal value that retail for $50.00 to $65.00. Our prices save you $10.00 or more. Made of good grade steel, with strong cast iron frame and legs. Good enough for any kitchen.

The ovens are good size and so arranged that a big amount of baking can be done at a time. Cast iron oven bottom will not rust out as steel oven bottoms so often do. This bottom has a removable lid so that vegetables can be cooked in the oven and have the odor go up the stovepipe instead of out into the room. Broiling oven is very convenient for broiling meat and fish, toasting, etc. Baking and broiling ovens are heated with two burners that heat both ovens at the same time. These burners are fitted with safety lighter.

Cooking top burners are easily lifted out for cleaning. Has three standard size burners, one giant and one combination simmer burner and lighter for the other burners. You can light any burner instantly without matches. Cooking top for natural gas is closed as shown in illustration. Range for manufactured gas has large open top grates. Be sure to state whether you burn manufactured or natural gas. Cannot be used for acetylene or gasoline gas.

Measurements—Baking oven, 18 inches wide, 20 inches deep. Cooking top, 28x23 inches. Height to cooking top, 32 inches. Length over all, 51 inches. Floor space, 46x24 inches. Size pipe, 5 inches. Shipping weight, about 335 pounds.

Recommended for All Around Satisfaction

A very stylish stove that is popular with many housewives. Tasty design, smooth finish, elegant appearance, always a reliable and dependable performer. Desirable for kitchens too small or too crowded to accommodate a large cabinet range. Has ample capacity for every family cooking and baking requirement, confined in minimum space. These stoves combine the qualities that insure all around satisfaction—good work, high quality materials, first class workmanship, popular design and low prices.

White porcelain enameled door panels and splasher are sanitary and easy to keep clean. Durable and lasting, will not chip or crack from heat and will not spot or discolor from grease spatterings. Nickel plated door frames and trimmings are plain and smooth and brilliantly polished. What a satisfaction it is to have a stove that you can keep clean with a cloth.

These ranges are excellent bakers. The ovens are good size and a big amount of baking can be done at a time. Cast iron oven bottom will not rust out as steel oven bottoms so often do. This bottom has a removable lid so that vegetables can be cooked in the oven and have the odor go up the stovepipe instead of out into the room. Broiling oven is very convenient for broiling meat and fish, toasting, etc. Baking and broiling ovens are heated with two burners that heat both ovens at the same time. These burners are fitted with safety lighter.

Cooking top burners can be easily lifted out for cleaning. Has three standard size burners, one giant and one combination simmering burner and lighter for the other burners. You can light any burner instantly without matches. Quick, convenient, clean. Cooking top for natural gas is closed as shown in illustration. Range for manufactured gas has large open top grates.

Stove is made of good quality steel, strongly put together and carefully fitted at all joints. The cast iron parts are the proper weight and strength to be lasting. Good workmanship can be seen in every feature.

Shipped from Springfield, Mass., Albany, N. Y., Syracuse, N. Y., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, Chicago, Ill.

Coal Burning Hot Water Heaters

These stoves burn hard and soft coal, coke and short wood. Gas Water Heaters are listed on page 732.

These water heaters are to be used in connection with hot water tank or range boiler for running water systems having constant pressure through pipes. For range boilers to be used with these heaters see page 732.

100 Gallons per Hour Capacity.

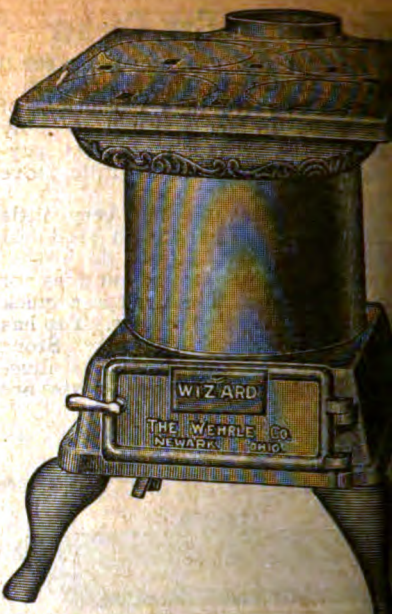
A very powerful and efficient heater. Will heat 100 gallons an hour to temperature suitable to ordinary household purposes.

This heater will furnish the great amount of hot water required in large homes, flat and apartment buildings, for bath, shower, kitchen and laundry; can also be used for small hot water heating systems in garages, greenhouses, poultry buildings, etc. Capacity of radiation, 160 square feet. Quick and economical. Must be connected to hot water boiler or storage tank before starting fire.

Made of cast iron, extra thick, strong and lasting. Draw center shaking grate. Inside diameter of fire pot, 12 inches. Height, 27 in. 1¼-in. water pipe connection. Takes 6-inch stovepipe. Shipping weight, about 276 pounds.

Shipped from Springfield, Mass., Albany, N. Y., Syracuse, N. Y., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, or Chicago, Ill.

Sold only for cash in full with order.



22H6481—Price **$28.50**

30 Gallons per Hour Capacity.

This stove is particularly desirable for laundry and kitchen. Will heat more than 30 gallons per hour to temperature suitable to ordinary household purposes.

Will supply plenty of hot water for all household needs, washing, bath and kitchen, and can be used for heating wash boiler and cooking at same time. The fire pot is made hollow, and the water heats very quickly as it circulates all around the fire. The stove must be connected to water boiler before starting fire.

Made of cast iron, heavy and strong. Draw center shaking grate. Inside diameter of fire pot, 9½ in. Top measures 21x21 inches, has four No. 8 lids. Height, 26¼ inches. ¾-inch water pipe connection. Takes 6 inch stovepipe. Shipping weight, about 199 pounds.

Shipped from Springfield, Mass., Albany, N. Y., Syracuse, N. Y., Philadelphia, Penna., Harrisburg, Penna., Atlanta, Ga., Newark, Ohio, Indianapolis, Ind., or Chicago, Ill.

Sold only for cash in full with order.

22H3480—Price .....

Standard Laundry Stoves in a Variety of Sizes at Money Saving Prices

Every size is priced to show you a good money saving, compared with prices asked elsewhere for stoves of similar size and quality.

This complete line of Laundry Stoves represents an unusual opportunity to select a style and size exactly suited to your needs. Made with two or four lids, in small, medium and large sizes. Full standard sizes and full weight castings. Strong and lasting. Quick heaters. Burn any kind of coal, coke, corn cobs, short wood and rubbish.

We recommend that you order a Stovepipe Baking Oven with laundry stove, for often you may find it convenient to get a quick meal on the laundry stove. The oven is a quick and satisfactory baker, using the waste heat going up the pipe. See description below.

These stoves are shipped from Springfield, Mass., Albany, N. Y., Syracuse, N. Y., Philadelphia, Pa., Harrisburg, Penna., Atlanta, Ga., Newark, Ohio, Indianapolis, Ind., Chicago, Ill., St. Louis, Mo., Kansas City, Mo., Davenport, Iowa, Waterloo, Iowa, Omaha, Neb., Grand Rapids, Mich., Madison, Wis., St. Paul, Minn., Sioux Falls, S. Dak., or Fargo, N. Dak.

Made With Four or Two Lids.

Four-Lid Size, $7.38

Two-Lid Size, $6.50

Stoves With Sadiron Heaters

Made with four or two lids; two-lid size has front pouch feed door for putting in fuel.

These stoves are especially desirable and convenient when you want to heat sadirons at the same time that you are using the entire top for cooking, or heating a wash boiler or other purposes. The irons fit snugly against the sides of the stove, close to the fire, and heat very quickly. You can heat as many as eight sadirons at a time. Sadiron shown is not included in price.

The top of the four-lid stove is big enough for a wash boiler and cooking utensils at the same time. Firepots are large and strongly made to stand intense heat and hard firing. Grate is shaking and dumping style.

These prices usually save you a dollar or two after paying the freight.

Sold only for cash in full with order.

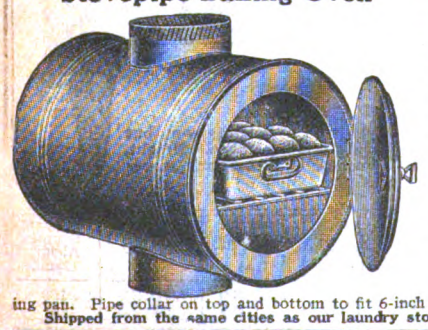
Four-Lid Size, $6.58
Two-Lid Sizes, $5.20 and $5.80

Standard Laundry Stoves

Made with four or two lids; two-lid sizes have front pouch feed door for putting in fuel.



These stoves are our biggest sellers and are giving splendid service and satisfaction wherever used. Made of good grade cast iron, strong and substantial, they will stand the hard use to which a laundry stove is often put. These stoves are equal in quality to high grade stoves sold elsewhere, but our prices are a great deal lower than others ask for stoves of this grade. These prices usually save you a dollar or two after the freight.

The top of the four-lid stove is big enough for a wash boiler and cooking utensils at the same time. Fire pots are strongly made to stand intense heat and hard firing. Grate is shaking and dumping style.

Sold only for cash in full with order.

Stovepipe Baking Oven

You should have one of these Stovepipe Baking Ovens attached to your laundry stove, for often you will find it convenient to get a quick meal on the laundry stove. It is a quick and satisfactory baker, uses the waste heat passing up the pipe. We especially recommend that in ordering a laundry stove or a small heating stove you order a Stovepipe Baking Oven. (This oven will not work satisfactorily with water heating laundry stoves, such as 22H3480 and 22H6481 listed at top of page.)

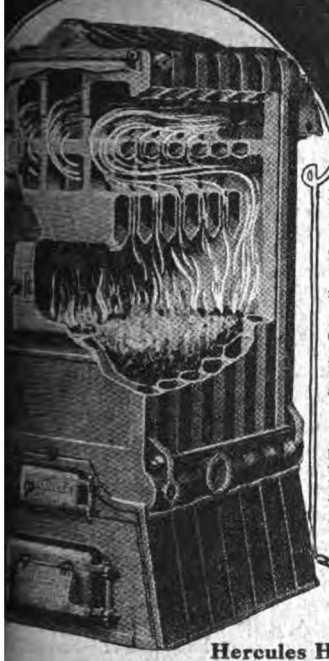
The oven is strongly made of steel. Furnished with one joint of stovepipe to connect oven to stove as illustrated. Wire oven rack is removable. Oven measures 9 inches wide and 17¾ inches long inside; will hold two 8-inch pie plates or an 8x17-inch baking or roasting pan. Pipe collar on top and bottom to fit 6-inch stovepipe. Shipping weight, 21 pounds.

Shipped from the same cities as our laundry stoves. See list above.

This illustration shows the big capacity of four-lid laundry stove and Stovepipe Baking Oven. Our prices do not include articles shown.

Small Laundry Stove

If a small stove will serve your needs and do your work, here is the one to buy. Be sure to notice the measurements and order a stove large enough to do your work properly. Has two No. 7 lids, front feed door, flat style grate. Burns coal, coke, corn cobs and short wood. Top measures 18x15 inches. Height, 17½ inches. Fire pot diameter at top, 9¼ inches. Takes 6-inch stovepipe. Shipping weight, about 64 pounds.



Shipped from the same cities as our other laundry stoves listed above.

Steam and Hot Water Heating Systems

A Real Home Comfort.

If you haven't a Hercules Heating System in your home you are missing one of the greatest of all modern comforts. Just think of what it means to have your entire house heated to a comfortable and even temperature throughout the coldest Winter weather. No smoke, dust or gas in your living rooms; no carrying of coal and ashes over your rugs and carpets. House cleaning a real pleasure.

You can get up on the coldest Winter morning in a nice warm bedroom, have the bathroom as warm as any other room in the house, and you can use a modern oil or gas stove for cooking in the kitchen if you want to.

Only one fire to attend to, and twice a day is as often as you will need to attend to that. The best part of it all is that this great comfort and convenience is easily within your means.

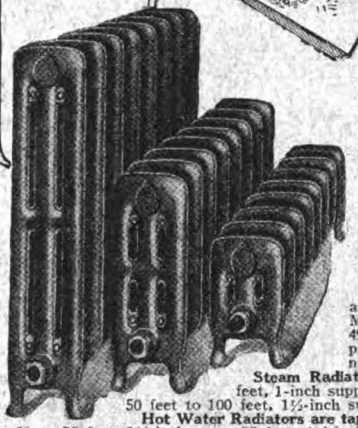
Every Hercules Heating System Guaranteed.

Remember, every Hercules Heating System is backed by an absolute guarantee of satisfaction. We have the facilities and the organization which assure you of satisfactory service, and you can place your order with us feeling confident that you will obtain a heating system that will prove satisfactory in every respect.

Whether you are interested in a modern Steam, Hot Water, Warm Air Heating System or a Pipeless Furnace you should **write today for our Special Heating Catalog 498GC.**

Write for Our Special Heating Catalog Sent Postpaid on Request

Easily Installed. Plans and Instructions Free.



It is not difficult by any means to install either a Hercules Steam or Hot Water Heating System. The great majority of our customers install their own heating systems. Any man with a little mechanical ability, who can cut and thread ordinary iron pipe and screw it together, or who is at all handy with tools, can easily install any Hercules Steam or Hot Water System by following our simple plans and instructions.

We cut and thread all the larger size pipe for you to the exact length required, and all you have to do is to screw the pipes together. The smaller branch pipes leading to the radiators are easily cut and threaded, and it is really surprising how easy the work becomes after the job is once started.

Cast Iron Radiators for Steam or Hot Water.

Good quality cast iron, properly machined and tested. Graceful, latest style, plain design. The smooth surfaces do not collect dust and dirt, and appeal to the housekeeper.

Only three and five-column radiators are listed below. For other styles see our Modern Heating Systems Catalog No. 498GC, which we will gladly send postpaid on request. When ordering state number of sections and height wanted.

Steam Radiators are tapped as follows: Up to 24 feet, 1-inch supply; 24 feet to 50 feet, 1¼-inch supply; 50 feet to 100 feet, 1½-inch supply; over 100 feet, 2-inch supply.

Hot Water Radiators are tapped as follows: Up to 50 feet, 1-inch; 50 to 75 feet, 1¼-inch; over 75 feet, 1½-inch.

Hercules Thermostat Heat Regulator Saves Coal.

This device will not only keep the temperature in your rooms regulated to an even and exact degree throughout the entire Winter, but it will open up the dampers on your heating system for you one hour before you arise in the morning so that the house will be heated to a normal temperature when you are ready to get up.

Maintains any temperature you set it for. You can set it for 60 degrees before going to bed and then set the clock so as to throw it over to 70 degrees an hour or so before you arise in the morning, and when you get up your rooms will be heated to a comfortable temperature.

It saves coal. Night or day it is always on the job and it will pay for itself the first Winter used. You will need to give your heating system only about one-half the attention, as the draft doors will be regulated automatically. Furnished with or without clock attachment. We recommend device with clock attachment, as outfit without clock does not have feature of opening draft before you arise in the morning.

ates either with ordinary bell ringing trans- dry batteries. Two dry batteries included in utfit. For bell ringing transformers see page

Pipeless Furnace

Revolving Triangular Grate Bars.

EIGHT BIG ADVANTAGES.

1—No more coal, smoke or ashes in your living rooms.
2—No putting up or taking down every six months.
3—Costs little more than old and out of date heating methods.
4—Easy to install.
5—Keeps entire house warm.
6—Gives you more space in your li which would otherwise be take old time heating methods are us
7—Economical in fuel.
8—Burns hard coal, soft coal, wood

Simplest and Most Economical of All Heating Systems.

Our Pipeless Furnaces are the simplest of all systems of heating and, by reason of the simplicity, they are without any question the most economical in fuel. The heat is delive rooms almost instantaneously, without passing through any long system of pipes, so the tically no heat wasted in the basement, and your basement will always be cool vegetables. For every shovelful of coal you put into this furnace you will get big actual heat units in your rooms.

A Strictly High Grade Furnace.

This is a quality furnace in every respect and represents the very best in furnace construction. Made of heavy cast iron throughout, with corrugated fire pot castings an radiator. Inner casing lined with corrugated sheet tin and asbestos. Has rocking trian bars. High ash pit prevents burning out grate. Liberal size fuel door. Every furnace is our binding money back guarantee.

Fuel Economy Unsurpassed.

Here you have a furnace which positively cannot waste heat. The cold air coming upstairs surrounds the entire heating chamber and carries all stray heat units right ba heating chamber, from which they are delivered up into your rooms. You will readil this means in fuel economy? We positively cannot point to a single heating device of an on the market, barring none, that will deliver more actual heat units to your rooms pe coal consumed than our Hercules Pipeless Furnace illustrated here. It is really rema heating results you can get with this furnace from a surprisingly small amount of fuel. air rises through the center of the large register and circulates to all parts of the house. combination registers in the ceiling the warm air will circulate to the bedrooms, bathroo the second floor, and you will be able to maintain an even and comfortable warmth throu room in the house.

Size to Order.

Figure up the total cubic contents of your building and select a furnace of correspondi from the table on this page.

If you live in a real cold climate, or your house is unusually hard to heat; if y keep your house unusually warm, or if you will burn wood or soft coal, we would recom ing one size larger furnace. It is always better to have a furnace a little larger than required.

The 18-inch fire pot furnace makes an excellent furnace for small houses, b etc., but is not recommended for houses having more than five rooms.

If you prefer we will estimate the size furnace you require for your building. Wr of our special heating information blanks, fill it out carefully and return it to us. Our will figure the correct size furnace and we will quote a price, including all freight your station if you wish.

Hot Water Coil for Hercules Furnace, $1.75 extra. If wanted with Gas Burner in coal grate, write for prices.

Smoke pipe not included at above prices. When ordering state amount of smoke p and we will include it with your order at our net catalog price.

Prices are subject to market changes.

For heating churches, schools, large halls, stores, etc., our pipeless furnaces are unexcelled. Two or more furnaces are often used to heat large rooms. In mild weather only one furnace is fired; in colder weather two or more are fired, etc. This has been found to be a highly satisfactory and very economical plan.

Volcano Pipeless Furnace

Solid Comfort in Your Home All Winter Long.

Burns Hard Coal, Soft Coal or Wood.

Our Volcano Pipeless Furnace illustrated at the right is made the same as our Hercules Pipeless Furnace illustrated and described above, except that it has only one outer casing and the cold air, instead of being drawn down around the outer edge of the large register, as with our Hercules Pipeless Furnace, is taken in at the bottom of the casing in the basement through screened cold air intakes. This gives the full capacity of the large register for warm air circulation. By providing a hinged window in the basement to admit fresh cold air, excellent results are obtained. This is one of the simplest, most efficient pipeless furnaces on the market, and is recommended with the assurance that it will give you highly satisfactory service.

This furnace, like all of our pipeless furnaces, is made of high quality material throughout. The castings are heavy and well designed for greatest efficiency. Casing is of heavy galvanized iron well insulated to prevent loss of heat. Upper half is lined with bright corrugated tin and sheet asbestos, as shown in illustration.

The furnace has heavy cast iron radiator, two-piece corrugated fire pot, corrugated fire dome and revolving triangular grate bars. A cold air duct can easily be connected to furnace at any future time so you can take the cold air from upstairs should you wish to do so.

Draft dampers can be controlled from upstairs. Furnace is easily installed. It is economical in fuel and easily operated. It is without a doubt one of the best, simplest and most efficient home heating furnaces on the market and is very moderate in price.

Shipped from factory in OHIO. Read information above regarding correct size to order.

"The Little Fireman"

Damper Operator.

Opens the dampers on your heating system an hour before you get up in the morning, so that when you arise every room in your house will be warm and cozy.

It works equally well on a steam or hot water heating system, a warm air furnace or a pipeless furnace.

Saves Coal

It saves coal, because it permits you to bank the fire well during the night without the discomfort of getting up in cold rooms in the morning.

Just set it like any ordinary alarm clock and it will open the damper at any hour for which you set it.

Considering the small cost of this device, it will easily pay for itself in one month's time. Outfit includes clock, pulleys and 25 feet of chain ready to install, with full instructions. Anyone can easily attach it in a few minutes. Shipping weight, 6 pounds.

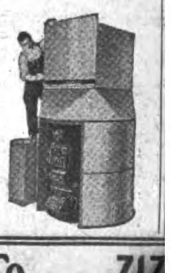
42H1772—"Little Fireman" damper operator, complete as described. Price.....**$3.95**

ny Handy Man Can Easily Install Our Furnaces

A Most Interesting Job for You

The Pleasure of Doing.

All of us like to do things. No greater satisfaction can come to a man than the pride he takes in something he has built or made for himself. The small boy enjoys tearing a thing to pieces to see what it is made of, and in after years one still delights in taking a piece of machinery apart to discover the "why" of it. But far greater pleasure lies in putting something together, beginning with the smallest parts, and then seeing it work perfectly.



An Honest Pride.

hink of doing something really worth while; something er tried before, and perhaps never thought you could do; ng mighty interesting in its theory and construction; something that you would always feel a pride in having urself, a well deserved pride. Think of saying to your and neighbors: "Yes, I put this furnace in practically all self. My brother Jack helped a little, which enabled me through a little sooner, but that was all. And I have a lot about furnaces. Mighty interesting they are, too."

Are You Handy?

It is a little work, of course. But, much more than that, it is really fun to see the furnace grow under your hands to completion, and then work perfectly when you have it finished. It is just common sense, after all, combined with a little practical knowledge, and the real pleasure comes in seeing the thing accomplished.

Save Needless Expense.

Even if you do not intend to do the work yourself you do not need an expert. We repeat that any reasonably handy man can install one of our pipeless furnaces with the directions we supply.

But do it yourself if you possibly can. Not only is it interesting and not difficult, but by doing it yourself you will save a tidy sum. You can use that money as well as the other fellow, if not better.

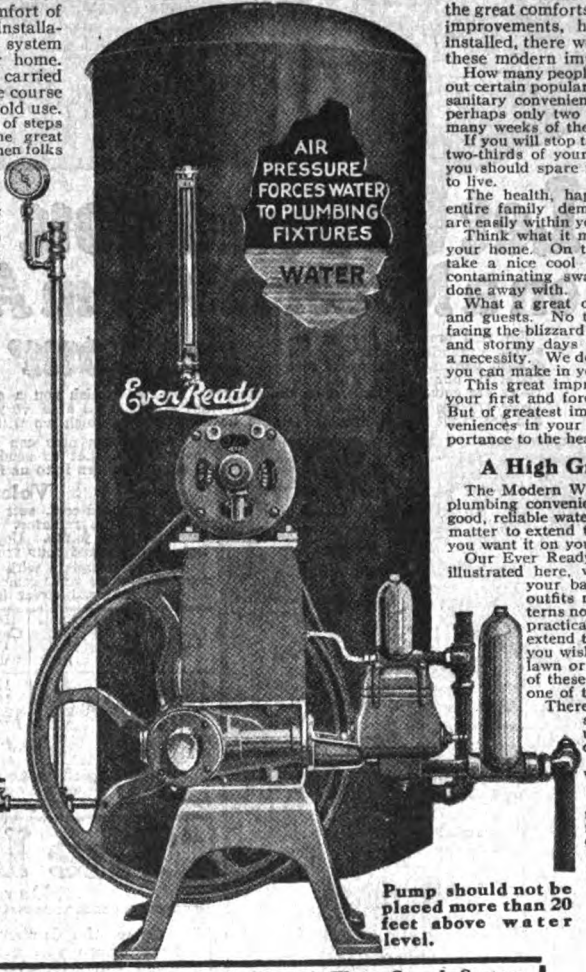
Ever Ready Automatic Electr Water Supply Syste Requires Practically No Attentio

"Ever Ready" is our own trade mark.

It Starts Itself — It Stops Itself
Night or Day It Never Forgets to Pump
When Water Is Needed

Why Be Without This Great Convenience?

There is not a single investment we know of that will add more to the health, happiness and comfort of your entire family than the installation of a modern plumbing system with running water in your home. Just think of the tons of water carried by your wife or children in the course of a year for ordinary household use.



Think of the many thousands of steps which could be saved and the great relief from drudgery for the women folks if you had a modern sanitary sink with running hot and cold water in your kitchen and a set of laundry tubs in your basement.

What a tremendous amount of work you could save yourself by having a modern automatic electric water supply system, such as described on this page, in your home or on your farm. When tired out after coming in from the field, you could just open a faucet and fill the tank to water the stock, instead of having to pump water by hand for half an hour or more.

You Can Easily Do Away With This Drudgery on the Farm.

President Cook, of the Mississippi Normal College, of Hattiesburg, Miss., contends that possibly **nine-tenths of the drudgery on the farm consists in carrying water from the source of supply to the point of application and in the disposition of the water after use.** He points out that a bucket of water contains 2 gallons, weighs about 20 pounds, and when handled six times the total weight lifted is 120 pounds. He estimates that the use of water in cooking, bathing, scrubbing and weekly washing will raise the lift per day easily to a ton, and that **this will "take the elasticity out of a woman's step, the bloom out of her cheek and the enjoyment out of her life."** He mentions that this daily lift can be eliminated "if the farmer can be brought to see that the farm is also the heir to modern invention."

Pump should not be placed more than 20 feet above water level.

Here is Real Value

Steel tank and pump with motor and automatic switch on all above outfits shipped from factory in CENTRAL ILLINOIS, or from our PHILADELPHIA store; gauges and valves shipped from our CHICAGO or PHILADELPHIA store.

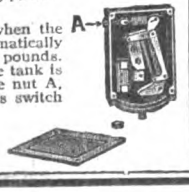
Write for our Special Catalog of Farm Electric Lighting Plants, 775GC.

The Electric Motor

The motor furnished with this outfit is a well known standard make of motor, which is one of the best on the market. Excellent materials are used and the workmanship is high grade throughout.

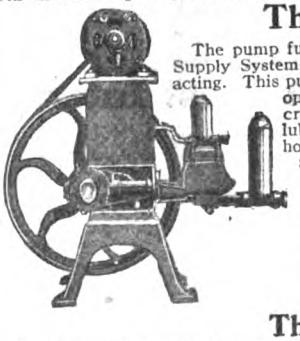
Figuring cost of current at 10 cents per kilowatt-hour, it will cost you only 3 cents to pump 180 gal. of water.

Important—Read This.



These outfits are furnished for four types of electric current only, as follows: No. 1—110-volt, A. C., single phase, 60-cycle. No. 2—115-volt, A. C., single phase, 60-cycle. No. 3—110-volt, D. C., and No. 4—32-volt, D. C. **When ordering be sure to state which is wanted.**

You can get this information from the people who supply you with electric current. We cannot furnish motors for current other than the four types stated above.



These outfits can be used with any ordinary 32-volt farm lighting plant.

The Automatic Switch.

The automatic switch automatically breaks the electric circuit when the tank has been pumped up to about 45 pounds pressure, and it automatically opens the circuit again when the pressure gets down to about 15 pounds. This starts the motor again, and the outfit keeps pumping until the tank is again pumped up to about 45 pounds pressure. By adjusting the nut A, the pressure at which the switch operates can be regulated. This switch is simple, positive acting and not likely to get out of order.

The Noiseless Pump

The pump furnished with our Ever Ready Electri Supply System is exceptionally well designed. It is acting. This pump has no gears. It is practically noi operation. Crank case is enclosed. crosshead main bearings and wrist lubricated by the splash system. Primi holds prime after pump is once started.

Stroke of pump, 2 inches; bore, 1¾ Capacity, 180 gallons per hour. Cyl brass lined. Piston rod is solid brass. leather packed. A spring tension idle automatically keeps belt tight, so that p ways operates to best efficiency.

The entire pump and motor are nicely in an attractive color and the entire ou sents a very pleasing appearance.

This pump will draw water from wells terns not over 20 feet deep.

The Outfit

Complete outfit includes pump and motor with automatic switch, tank, water pressure gauge, relief valve, drain cock, shut-off cock, pipe connections and fitt shown. Suction pipe to well or supply pipe to plumbing fixtures not included. For pipe to well order ¾-inch galvanized pipe. For supply pipe to plumbing fixture ½-inch galvanized pipe.

Modern Plumbing E Within Your Mea

President Cook is right! If thos now living on farms throughout the where no modern plumbing fixtures or water has been installed could fully a the great comforts to be derived from these modern improvements, how moderate the cost and ho installed, there would be few farm homes, indeed these modern improvements.

Modern Plumbing in Your Home

Sanitary System of Sewage Disposal for the Farm or Small Town Home

A Reliable Health Insurance
No Chemicals Used
No Operating Cost

Capacity.
Outfit shown here fills all requirements of average family of about 6 persons. Capacity may be increased by installing a battery of two or more units such as shown here. Tile disposal system should cover a ground area of about 50 feet square and should be located not less than 100 feet from house.

ll instructions for installing furnished each outfit. Any handy man can y install it.

The Great Danger of the Old Seeping Cess Pool Is Now Fully Recognized. Typhoid and Malarial Contagion Have Been Directly Traced to It. Contaminated Well Water Spreads Disease.

By Bacterial Action This Sanitary System Purifies the Sewage and Changes It Into a Clear and Harmless Liquid.

Protect Your Well From Disease Germs.

ntrary to common opinion, and in spite of the far better atmospheric conditions country, statistics show that the death rate is much higher in rural districts than e cities. It would be reasonable to assume that the rate of mortality in the more y populated area amid the soot and smoke of the large city would run high in arison, but such is not the case.

ufficient thought has not been given to sanitary conditions on the farm. lear and cool glass of water fresh from the well is often laden with disease breeding not visible to the naked eye, but readily detected by laboratory tests. Drinking wa- a common carrier of disease germs. Contagion spreading throughout entire dis- has been directly traced to it.

No Farm Home Should Be Without It.

ur sanitary system of sewage disposal purifies the sewage by bacterial action and nitrifying process which kills the germs; the solid matter is automatically decom- and liquified, and the sewage changed into a clear and harmless liquid. It ely prevents contamination of the well water by house sewage, and no farm home d be without it.

his system is not new. It is the same type of system as recommended by leading authorities as the most practicable solution of the problem of sanitary sewage al on the farm.

this system we simply take advantage of nature's own process for purifying It is the same process which is always found working in every stagnant pool contains any great amount of solid matter. If you watch such a pool closely ll see gas bubbles rising to the top, which means that solid matter is becoming posed and nature is constantly striving to purify the water.

Bacterial Action Kills All Germs.

This action is due entirely to certain bacteria or germs which form in millions and feed on the waste matter entirely decomposing it. The waste matter is transformed into a liquid and certain gases are liberated, which rise to the top of the water in the form of bubbles.

In our system this same process is constantly going on, but much more efficiently for the reason that we make the conditions ideal by more efficient design, so that the bacteria can work to better advantage.

Two tanks or compartments are necessary for the reason that there are two kinds of bacteria involved in this process, each working separately in its own compartment.

Simple, Inexpensive and Easy to Install.

We furnish the two cement tanks or compartments only. Each compartment has a removable cover and both are entirely buried in the ground as illustrated, so that the covers come about 6 inches below the surface of the ground.

The sewage is discharged into the large tank with ordinary cast iron soil pipe or glazed sewer tile. Tanks are also inter-connected at top with sewer pipe. Outlet discharges into a system of ordinary porous field drain tile for final purification, as shown. Tanks are made of cement composition well reinforced with steel rods. They are made in one solid piece with removable covers, no seams, no chance for leakage.

Size large tank, 24 inches by 24 inches by 52 inches. Small tank, 24 inches by 24 inches by 36 inches. Thickness of walls 1½ inch. Drilled for connections as shown.

Shipping weight, both tanks, 900 pounds. **Shipped from factory in Northern Illinois.**

Any handy man can easily install it. Full instructions furnished.

42H3560½—Two tanks only, for sanitary sewage disposal system as described with covers, no tile or pipe included. Price..... **$19.60**

For cast iron soil pipe and fittings see page 733.

and Power Water Supply Systems

Pump the Water Like You Grind the Coffee

Suction Limit, 20 Feet.

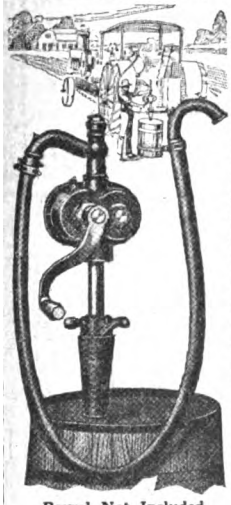
Drive Shaft Passes Through Tank in a Hermetically Sealed Tube. There Are No Stuffing Boxes, and No Chance for Air Leakage.

Our "Water Boy" Air Pressure Water Supply System illustrated here is designed to fill a big need in every home which has no running water or where the running water supplied by the town waterworks is too hard for household use, making cistern water a necessity. It presents a much nicer appearance in your kitchen and is far more sanitary than the old style kitchen spout or force pump on the sink board. You can place it right in your kitchen if you wish, alongside of your kitchen sink or in any convenient corner. The entire outfit is so neatly designed that it will present a pleasing appearance in your kitchen. It takes up floor space of only 27x22 inches. You can, of course, place it in your basement or elsewhere if you prefer to do so and you can locate it any distance away from the house, the well, or the cistern. The outfit will still furnish a plentiful supply of water to your bathroom fixtures on the second floor as well as to the kitchen sink on the first floor or to any other plumbing fixtures in your home. Tank can be pumped up with ease in ten minutes and pumping once or twice a day will fill all the requirements of the average family. Outfit is so reasonable in price that you can have two outfits, one for hard and one for soft water, at no great expense. Being conveniently placed in your kitchen, it saves many trips to basement to pump water, as is necessary with a larger outfit. It automatically pumps air and water. It is one of the most scientific pumping outfits ever placed on the market for the farm home. Pump has brass rod and 2¼-inch brass cylinder; tank size, 20x60 in.; total capacity, 82 gallons. **Shipped from factory in NORTHERN ILLINOIS.**

42H3630½—"Water Boy" Pneumatic Water Supply System, complete with black tank, all valves, gauges, etc., as illustrated, ready for service. Shipping weight, about 325 pounds. Price **$49.75**

42H3631½—"Water Boy" Outfit, same as above, with tank galvanized inside and out. Shipping weight, about 325 pounds. Price **56.75**

Every Farmer Needs This Sanitary Iceless Cooler



Keeps Provisions Cool in Hottest Weather Without Ice

This Sanitary Iceless Cooler serves exactly the purpose of an ice box with no expense for ice and is a practical necessity on every farm.

It may be installed in any open or dug well as shown in the illustration, or if you have a drilled or driven well which cannot accommodate it you can make an excavation in your cellar or other convenient place 8 to 10 feet deep and line with 18-inch tile. At this depth the temperature is as low as 38 degrees. You can locate this excavation directly under your kitchen if you wish and the outfit can then be set right in your kitchen where it will be ready at all times. It is simply a "dumb waiter" and anything you want may be obtained in a moment. Saves expense for ice. First cost only cost. Any handy man can easily install. Provision chamber is bug and animal proof, protects your foodstuffs from insects and marauding animals as well as keeping them cool, preventing their spoiling even in hottest summer weather. Provision chamber is 24 inches high and 14 inches in diameter with three adjustable shelves. **Shipped from factory in**

42H3635½—Outfit complete with 8 feet galvanized steel cable, and guide rods to 8 feet into well, as shown. Shipping weight, 95 pounds. Price .....

Note—If guide rods longer than 8 feet are wanted, add 25 cents for each additional foot.

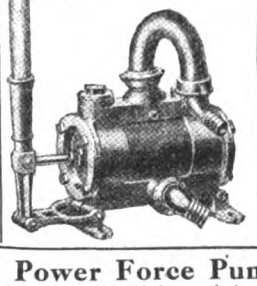
Rotary Barrel Pump.

Hand Rotary Barrel Pump. For pumping oil, syrup or other liquids out of barrels and forcing them into a tank or other receptacle. Much used for filling gasoline tanks on traction engines, automobiles, etc. Forces liquids 15 to 20 feet above pump. Works same as Acme Rotary Power Force Pump, shown on this page. Made of iron. Has 3-foot suction pipe, 5-foot discharge hose and goose neck. Pumps 13 gallons per minute. Shipping wt., 65 pounds.

42H2260¼ Hand Rotary Barrel Pump.

Price, **$11.20**

Barrel Not Included in Price.



Large Capacity Tank Pump.

For filling thresher tanks, stock watering tanks, etc.; pumping from shallow wells or cisterns. Used also as a deck pump, trench pump or for emptying cesspools, etc., or for any purpose where it is desired to pump a large volume of water. Pumps 50 gallons per minute. This is a strictly high grade pump. Has brass valve seats. Cylinder, 5 inches in diameter, 5-inch stroke; suction and discharge, 2 inches. Has extra connection for discharge, to connect 1-inch hose for sprinkling, etc. Shipping weight, 78 pounds.

42H2266¼—Pump as described. Price **$11.95**

42H828—5-Inch Crimped Plunger Leathers. Shipping weight, 8 ounces. Price, per set of two **85c**

For Suction Hose See Page 856.

Galvanized Malleable Strainers.

42H826—Used with pumps 42H2266¼, 42H2188¼, 42H2186¼, 42H2187¼, also rotary pumps 42H2270¼, etc. Placed at end of suction pipe to keep out foreign matter. Covered with brass wire cloth.

Easy working. Geared head drive. High efficiency. For water supply systems. Pumps air and water at same time.

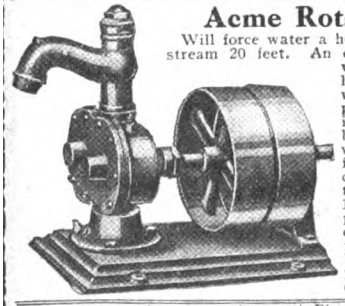
Double Acting Air and Hand Force Pump.

Illustrated Below.

Double Acting Hydropneumatic Force Pump with geared head drive, very popular and highly efficient for pumping water from cisterns or wells into pneumatic pressure tanks; with all brass valves; brass plunger; provided for draining water from cylinder to prevent freezing and for priming when necessary. 1¼-inch suction and 1-inch discharge pipes, both sides. 4-inch stroke; threaded suction pipe, 3-in. brass lined cylinder. Shpg. wt.,

42H2188¼—Pump, as described. Price .....

Double Acting Water Pump.

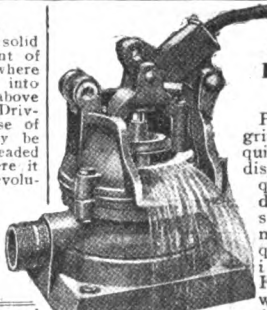


Same as 42H2188¼, illustrated at left, except it does not have brass air pump attached at cylinder. Pumps liquid only. One of the best and most powerful pumps on the market. Made for pumping water from deep wells and cisterns to elevated tanks. Also used for cleaning, filling, testing boilers and tanks, fire protection and as a deck

Shipping wt.,

42H21 With 3-inch cylinder. Price

42H21 With 3-in. cylinder. Price



Acme Rotary Power Force Pump.

Will force water a horizontal distance of 200 feet and throw a solid stream 20 feet. An excellent pump for raising a large amount of water with minimum amount of power where lift is not over 15 feet and elevated tank into which water is forced not over 50 feet above pump. Reliable protection in case of fire. Driving shaft made long enough to allow use of balance wheel with handle so pump may be worked by hand when desired. Spout threaded for iron pipe at end and also at top where it connects to pump. Can be run at 200 revolutions per minute without injury, although 100 is recommended. One of the simplest and most satisfactory power pumps on the market. High speed permits belting direct to engine. If wanted with balance wheel and handle for hand power, allow $5.50 extra. Prices quoted do not include pipe or belt.

erviceable Pumps for the Farm

How to Order Your Pump Outfit.

If the distance from pump platform to the lowest water level is less than 25 feet, you can use one of our set length pumps, quoted on this page, and order sufficient extra pipe to reach to about 3 feet below water. In that case the cylinder need not be let down. Just screw the pipe into the bottom of the cylinder and extend the pipe down below the water. This simplifies the installation very much.

If the distance to the lowest water level is over 25 feet, then you will have to extend the cylinder down, and in that case we recommend that the cylinder be immersed in the water and sufficient extra pipe and pump rod ordered to place it in that position. We call your attention to our complete pump outfits, ready cut and fitted, ready to assemble for various depths of wells, as quoted on page 722. Lift pumps draw water to the pump spout only. Force pumps will force water to an elevated tank. If you just want to pump water to a bucket or tank at the pump spout, a lift pump will do. If you want to force it to an elevated tank or a pressure tank, order a force pump.

We charge 2 cents per foot in addition to cost of pump rod and pipe for cutting and fitting pump outfits to order.

Note Our Complete Ready Made Pump Outfits for Various Depths of Wells as Quoted on Page 722. For Drive Well Points, Pump Rod Cylinders, Etc., See Page 723.

NOTE—Prices quoted on pump standards only do not include any pipe, pump rod or cylinder.

42H2396¼—Windmill Force Pump Standard only as illustrated, 6-in. stroke. Tapped for 2-inch pipe or smaller. Shipping weight, 65 lbs. Price **$6.50**

42H2397¼—Windmill Force Pump Standard only as illustrated, 10-in. stroke. Tapped for 2-inch pipe or smaller. Shipping wt., 70 lbs. Price **$7.15**

42H2413¼—Pump Standard only as illustrated, except without windmill extension. This pump standard is same as Standard furnished with pumps 42H2409¼, etc., as listed at the left. For hand pumping only. **No windmill attachment,** 6-inch stroke. Tapped for 1¼-inch pipe. Shipping weight, 45 pounds. Price **$5.65**

Windmill Lift Pump Standard.

This pump standard is the same as furnished with set length pump 42H2400¼, described above.

Takes 1¼, Inch Pipe.

Prices include standard only as illustrated, but no pipe, pump rod or cylinder.

42H2404¼ Windmill Lift Pump Standard only as illustrated, 6-inch stroke. Tapped for 2-in. pipe or smaller. Shpg. wt., 50 lbs. Price...**$4.60**

42H2405¼ Windmill Lift Pump Standard only as illustrated. 10-inch stroke. Tapped for 2-inch pipe or smaller. Shpg. wt., 55 lbs. Price ...**$5.45**

Extra Heavy Set Length Anti-Freezing Lift Pump.

Large pumping capacity and extra heavy construction. Bottom of cylinder comes 4 feet below platform.

For wells up to 25 feet deep order set length pump and extra pipe to reach to water. For deeper wells order pump standard only, cylinder and extra pipe and pump rod to let cylinder down into water.

42H2382¼ Set Length Pump with 3½-inch cylinder. Shipping wt., 80 lbs. Price **$7.95**

42H2383¼—Same Pump with 4-inch cylinder. Shipping wt., 85 lbs. Price **$8.95**

For galvanized pipe add 25 cents.

42H2386¼—Pump Standard only, without cylinder, pipe or pump rod. Shipping weight, 50 lbs. Price.....**$4.60**

Takes 1½-Inch Pipe.

Windmill Force Pump for Deep Wells. Underground Pipe.

Anti-Freezing

For wells up to 150 feet deep. This pump is single acting. Underground valve is operated by wheel handle on spout. Furnished for 6 or 10-inch stroke. This pump is much used for deep tubular wells. It is especially adapted for use with our special tubular well cylinders shown on page 723.

42H2424¼—Single Acting Windmill Force Pump, 2½-in. cylinder, 6-in. stroke. Shipping weight, 130 lbs. Price **$14.30**

42H2425¼—Same Pump with 3-inch cylinder. Shipping weight, 135 pounds. Price **$14.55**

42H2428¼—Same Pump with 2½-in. cylinder and 10-inch stroke. Shpg. wt., 135 lbs. Price..... **$15.00**

42H2429¼—Same as 42H2428¼, with 3-in. cylinder. Shipping wt., 140 lbs. Price **$15.20**

42H2430¼—Same as 42H2428¼, with 3½-in. cylinder. Shipping wt., 145 lbs. Price **$15.75**

Takes 1¼, 1½, and 2-Inch Pipe.

Easy Working Wood Farm Lift Pumps.

The light acting, easy working feature of the wood pump outfit and its large pumping capacity makes it very popular. This type of pump is suitable and recommended for wells or cisterns up to 30 feet deep. Has 3½-inch cylinder. Made from first grade 6x6-inch stock measuring about 5½ inches square when dressed. Nicely painted, striped and varnished. Iron handle brackets and iron spout. When ordering include tubing listed below to reach from bottom of pump to bottom of well. When more than 9 feet of tubing is required order coupling for each joint to connect tubing. Shipping weight, 38 lbs.

42H2192¼—Length, 6 feet, for wells up to 20 feet deep.
Price, plain pump.**$5.10**
Price, with porcelain lined cylinder **$6.30**

42H2193¼—Length, 7 feet, for wells 20 to 25 feet deep.
Price, plain pump..... **$5.55**
Price, with porcelain lined cylinder **$6.75**

42H2194¼—Length, 8 ft., for wells 25 to 30 feet deep.
Price, plain pump..... **$6.00**
Price, with porcelain lined cylinder **$7.20**

42H2197¼ — Tubing to fit above pumps, 4 inches square, with 1¾-inch bore in random lengths from 6 to 9 ft. Shpg. wt., per foot, about 1¼ lbs. Price, per foot. **18c**

42H2198¼ — Couplings for Tubing. Shipping weight, each, about 5 pounds. Price, each. **54c**

42H832¼ — Pioneer Leathers, size, 3½ inches, for above pumps. High quality. Far superior to cross grained leathers. Shipping weight, each, about 8 oz. Price, each **18c**

Iron pipe cannot be used with wood pumps.

Ready Made Pumping Outfits

High Spout Anti-Freezing Windmill Lift Pumping Outfit for Dug or Drilled Wells.

A strong, well made Pumping Outfit especially adapted for farm pumping service. Extra high spout feature makes it easy to deliver water to stock watering tanks, etc., near pump.

Complete outfit includes 42H2400¼ pump as described on page 721, with cylinder pipe and galvanized pump rod all cut and fitted ready to install in depths of wells specified. **State if black or galvanized pipe is wanted.**

42H2464¼—Pumping Outfit as described, for **30-foot well.** Shipping weight, 150 pounds.
Price, with black pipe.**$11.20**
With galvanized pipe. **12.10**

42H2466¼—Same Outfit, for **40-foot well.** Shpg wt., 175 lbs.
Price, with black pipe.**$12.75**
With galvanized pipe.. **13.95**

42H2468¼—Same Outfit, for **50-foot well.** Shpg. wt., 202 lbs.
Price, with black pipe.**$14.30**
With galvanized pipe.. **15.80**

42H2470¼—Same Outfit, for **60-foot well.** Shpg. wt., 230 lbs.
Price, with black pipe.**$15.85**
With galvanized pipe.. **17.70**

42H2472¼—Same Outfit, for **70-foot well.** Shpg. wt., 256 lbs.
Price, with black pipe.**$17.40**
With galvanized pipe.. **19.25**

Outfits quoted below same as above, except Hand Pump 42H2360¼, as described and illustrated on page 721, is furnished instead of windmill pump.

42H2440¼—Pumping Outfit as described, with hand pump instead of windmill pump for **30-foot well.** Shipping wt., 145 lbs.
Price, with black pipe.**$10.80**
With galvanized pipe. **11.70**

42H2442¼—Same Outfit, for **40-foot well.** Shpg. wt., 170 lbs.
Price, with black pipe.**$12.35**
With galvanized pipe. **13.55**

42H2444¼—Same Outfit, for **50-foot well.** Shpg. wt., 197 lbs.
Price, with black pipe.**$13.90**
With galvanized pipe. **15.40**

42H2446¼—Same Outfit, for **60-foot well.** Shpg wt., 225 lbs.
Price, with black pipe.**$15.45**
With galvanized pipe. **17.30**

42H2448¼—Same Outfit, for **70-foot well.** Shpg. wt., 251 lbs.
Price, with black pipe.**$17.00**
With galvanized pipe. **18.85**

For Brass Body Cylinder instead of iron cylinder on any of above outfits, add $2.10 to the price quoted.

When ordering repair parts for any of our pumps, please give casting number of part wanted.

Anti-Freezing Windmill Lift Pumping Outfit for Drive Well.

Same as Outfits 42H2464¼, etc., as described at left, except that it is furnished with 1¼-inch 60-gauze well point, 30 inches long, for drive well. **State if black or galvanized pipe is wanted.**

42H2492¼ Drive Well Pumping Outfit as described, for **10-foot well.** Shpg. wt., 97 lbs.
Price, with black pipe **$9.20**
With galvanized pipe **$9.50**

42H2493¼ Same Outfit, for **15-foot well.** Shpg. wt., 110 lbs. Price, with black pipe....**$9.65**
With galvanized pipe **$10.10**

42H2494¼—Same Outfit, for **20-foot well.** Shpg. wt., 120 lbs. Price, with black pipe.**$10.10**
With galvanized pipe **$10.70**

42H2495¼—Same Outfit, for **25-foot well.** Shpg. wt., 130 lbs. Price, with black pipe.**$10.55**
With galvanized pipe **$11.30**

Outfits quoted below are same as above, except Hand Lift Pump, same as 42H2360¼, described and illustrated on page 721, is furnished instead of Windmill Pump.

42H2498¼ — Drive Well Pumping Outfit as described, with hand pump instead of windmill pump for **10-foot well.** Shpg. wt., 87 lbs.
Price, with black pipe **$8.80**
With galvanized pipe **$9.10**

42H2499¼ — Same Outfit, for **15-foot well.** Shpg. wt., 100 lbs. Price, with black pipe..**$9.25**
With galvanized pipe **$9.70**

42H2500¼ — Same Outfit, for **20-foot well.** Shpg. wt., 110 lbs. Price, with black pipe..**$9.70**
With galvanized pipe **$10.30**

42H2501¼ — Same Outfit, for **25-foot well.** Shpg. wt., 120 lbs. Price, with black pipe.**$10.15**
With galvanized pipe **$10.90**

For Brass Body Cylinder instead of iron cylinder on any of above outfits, add $2.10.

Extra Heavy Windmill Force Pumping Outfit for Dug or Drilled Wells.

Complete outfit includes 42H2393¼ pump as described on page 721, with cylinder pipe and galvanized pump rod all cut and fitted ready to install in depths of wells specified. **State if black or galvanized pipe is wanted.**

42H2474¼ Pumping Outfit as described, for **30-foot well.** Shpg. wt., 172 lbs. Price, with black pipe **$13.25**
With galvanized pipe **$14.15**

42H2476¼ — Same Outfit, for **40-foot well.** Shpg. weight, 200 lbs. Price, with black pipe **$14.80**
With galvanized pipe. **16.00**

42H2478¼—Same Outfit for **50-foot well.** Shipping wt., 227 pounds.
Price, with black pipe.**$16.35**
With galvanized pipe. **17.85**

42H2480¼—Same Outfit, for **60-foot well.** Shpg. wt., 254 lbs.
Price, with black pipe.**$17.90**
With galvanized pipe. **19.70**

42H2482¼—Same Outfit, for **70-foot well.** Shpg. wt., 282 lbs.
Price, with black pipe.**$19.45**
With galvanized pipe. **21.55**

42H2484¼—Same Outfit, for **80-foot well.** Shpg. wt., 310 lbs.
Price, with black pipe.**$20.00**
With galvanized pipe. **23.40**

42H2486¼—Same Outfit, for **90-foot well.** Shpg. wt., 337 lbs.
Price, with black pipe.**$21.55**
With galvanized pipe. **25.25**

Outfits quoted below are same as above, except Hand Pump 42H2410¼, as described on page 721, is furnished instead of Windmill Pump.

42H2450¼—Pumping Outfit as described, with hand pump instead of windmill pump for **30-foot well.** Shpg. wt., 150 lbs.
Price, with black pipe.**$12.00**
With galvanized pipe. **12.90**

42H2452¼—Same Outfit, for **40-foot well.** Shpg. wt., 176 lbs.
Price, with black pipe.**$13.55**
With galvanized pipe. **14.80**

42H2454¼—Same Outfit, for **50-foot well.** Shpg. wt., 203 lbs.
Price, with black pipe.**$15.10**
With galvanized pipe. **16.35**

42H2456¼—Same Outfit, for **60-foot well.** Shpg. wt., 231 lbs.
Price, with black pipe.**$16.65**
With galvanized pipe. **17.90**

42H2458¼—Same Outfit, for **70-foot well.** Shpg. wt., 258 lbs.
Price, with black pipe.**$18.20**
With galvanized pipe. **19.45**

42H2460¼—Same Outfit, for **80-foot well.** Shpg. wt., 285 lbs.
Price, with black pipe.**$19.75**
With galvanized pipe. **21.60**

42H2462¼—Same Outfit, for **90-foot well.** Shpg. wt., 312 lbs.
Price, with black pipe.**$21.30**
With galvanized pipe. **23.15**

For Brass Body Cylinder instead of iron cylinder on any of above outfits, add $2.10.

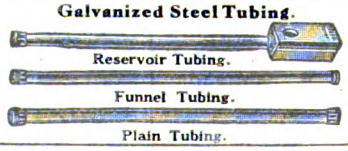
Let Our Simplex Hydraulic Ram Pump Water for You.

No engine, electric motor or other artificial source of power necessary to drive this pump. It makes the water pump itself by its own power.

Our Simplex Hydraulic Ram, illustrated at the right, will pump water anywhere from 20 to 120 feet above point where it is placed, depending upon height of fall of water to ram. It works continuously night and day and never gets tired.



Will elevate water to a high tank or reservoir or will force it a long distance from the source of supply. Set the ram below a spring or body of water at a distance of from 25 to 50 feet. Will lift water 4 to 10 feet for every foot of fall (difference in level) between water and ram. The ram lifts about one-seventh of the water which runs into it; the balance of the water runs out of the ram at the valve in the operation of lifting. All you have to do is to connect the supply or feed pipe to ram and place one end in the water. Connect the discharge pipe to the other side of ram and run it to your storage tank. Ram will not work with less than 2 feet of fall. We furnish all directions for installing. Better write and tell us just what conditions you have to operate a ram and we will prepare a special estimate. Ask for our Hydraulic Ram Circular No. 7429GC, sent postpaid on request.

Catalog No.	Gallons of Water per Minute Necessary to Operate Ram	Size of Supply Pipe	Size of Discharge Pipe	Shipping Weight, About, Lbs.	Price
42H2300¼	½ to 2	¾ in.	½ in.	32	$10.95

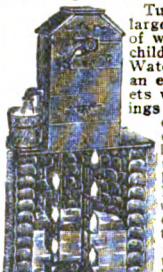
Used in connection with 42H2221¼ and 42H2201¼ Chain Pumps as listed at the right. Furnished in 5, 6, 7 or 8-foot lengths. Reservoir tubing is used in connection with the pump curb. Funnel tubing goes at bottom of pump and plain tubing connects reservoir and funnel tubing where the two are not sufficient. Shpg. wt., per foot, about 12 oz. **State length and kind wanted.**

Galvanized Steel Tubing.

42H2256¼
Price, per foot 15c

Galvanized Pump Chain.



Extra chain for chain pumps. Shipping weight, per foot, about 5 ounces.
42H370—Price, per foot 4c

Chain Pump Buckets.

Rubber Buckets for chain pumps. Shpg. wt., about 3 oz.
42H368

Challenge Wood Curb Purifying Pumps.

Turning of crank gives large, continuous steady flow of water at pump spout. A child can easily operate it. Water is raised by means of an endless chain with buckets which pass around bearings in pump and well. Buckets carry air to bottom of well, where it is released and works its way to the surface in small bubbles. These bubbles liberate the gases the water contains, while the oxygen in the air helps to purify the water. Order outfit that will reach to within 2 feet of well bottom, as water is cooler and fresher at this point. Pumps consist of wood curb nicely painted, galvanized endless chain with buckets and lower bearing all ready to place in well. Shipping weight, about 90 pounds.

42H2221¼—For 10-foot well.....**$ 7.95**

Well Boring Outfit.

Bores wells 25 feet deep, 8, 9, 10, 11, 12, 13 or 14 inches in diameter, or digs post holes quickly and with little effort. Requires no special machinery for boring wells; simply place auger on ground where you want well and turn handle. Bores through sand, gravel, sticky clay, mud or hard pan. Will dig under water; works easily and rapidly. When auger is full, draw it out of hole, pull up release catch and it opens, allowing earth to drop out without shaking or pounding. Can be used for digging holes for foundation piling for barns, etc.

Outfit consists of a new type earth auger, extension rods with malleable couplings for boring down 25 feet, extension blade for increasing diameter of hole and a smooth finish hardwood handle. Shipping weight, about 50 pounds.

42H1778¼—Hercules Well Boring Outfit and Post Hole Digger, complete as described above.....$7.45

For complete line of Post Hole Implements see page 845.

Spiral Earth Augers.

...—Price $29.75

No Pipes or Plumbing Work Necessary.

Just fill the heater tank with water and light the burner. Water will be heated sufficiently for bath in thirty minutes. The water runs right into the tub by simply opening the faucet. To drain the water out of the tub, a 6-foot length of hose is provided which you can attach to the water outlet and let the water run outdoors. Water heater holds 12 gallons.

Tub is 5 feet long and 30 inches wide. It is made of galvanized sheet steel. Entire top, including the upright stand, is heavily coated with white paint enamel, giving the outfit a handsome and sanitary appearance. Tub is enameled white. Hardwood rim around entire top of tub, white enameled coated to match tub. Heater has galvanized steel inner casing covered with an outer casing of light nickel plated sheet steel, highly polished.

Light, Portable, Easily Handled.

The entire outfit is on roller bearing rollers and can be pushed out of the way into some convenient storeroom or clothes closet. Water circulates through a copper tube in the heater directly over the burner, so that it heats quickly. Heater may be provided with gas or kerosene oil burner, as desired. **State which is wanted.** This outfit fulfills a real necessity in every rural home where there is no modern plumbing installed. Shipping weight, 165 pounds. **Shipped from factory at DETROIT, MICH.**

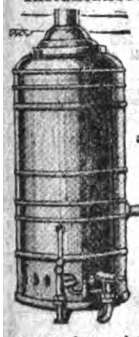
Running Hot Water in Your Hom

High Speed Water Motor.

Sharpens Knives, Scissors, Tools and Skates.

For Other Grinding Wheels See Page 865.

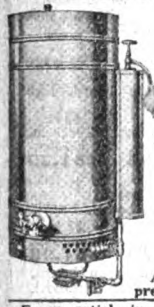


Useful and Practical.

Not a toy—a real, useful, practical household article. Requires only 20 pounds water, steam or air pressure. Higher pressure gives greater power. Attaches to any common hose faucet. Quickly sharpens knives, tools or skates. Polishes silverware or brass articles. Operates jewelers' or dentists' lathes, etc.

42H400—Hercules Motor, complete, includes corundum wheel, steel disc, sand paper, 4-inch buffing wheel, polishing stick and V grooved pulley. Shipping weight, 8 pounds.
Price **$4.70**

42H402—Rotary Brush Attachment, not included in above, for washing bottles, glasses or fruit jars. Shipping weight, 8 ounces. Price **45c**

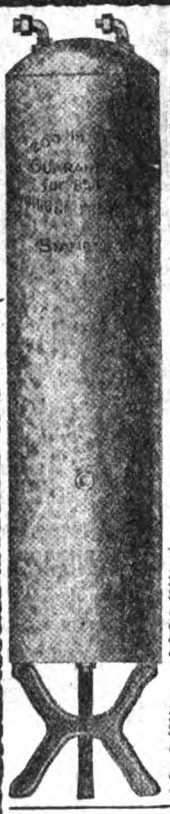


Instantaneous Water Heater.

42H1816¼ Instantaneous Gas Water Heater. Connected direct to city pressure. No boiler necessary. Water flows out of side of heater, but water cannot be forced to fixture above heater. Copper, nickel plated. Diameter, 11 inches; height, 30 inches; heats 1½ to 2 gallons per minute to a temperature suitable for all household purposes. ½-in water pipe and ¼-inch gas pipe. Shipping weight, 65 pounds.
Price **$32.25**

State if wanted for natural or artificial gas.

Kerosene Water Heater.



Just the Thing Where Neither City Gas Nor Water Pressure Are Available.

42H1836¼ Kerosene Water Heater. Made of galvanized iron, nickel plated outside. Reservoir holds about 9 gallons of water. Draft chimney is entirely surrounded by water. This makes the water heat quicker. Will heat enough water for bath in fifteen to twenty minutes. Shipping weight, 28 pounds.
Price **$11.75**

Above cannot be connected with water pressure. No range boiler is required.

Hercules Galvanized Range Boilers.

Hercules Range Boilers are strongly made of sheet steel to withstand full water pressure stated below. Cold water connection is made to top of boiler, and a tube extends from this connection down inside of boiler to within twelve inches of bottom. This keeps the cold water from mixing with the hot water, which rises to the top. By connecting one of these range boilers to any of the copper coil heaters quoted on this page or to a coil in your stove or your furnace you can always have a plentiful supply of running hot water at your kitchen sink or other plumbing fixtures.

Our Hercules Range Boilers are well made, heavily galvanized inside and out, and are fully tested and guaranteed for pressures stated.

Prices quoted below on vertical boilers complete include stand, tube and couplings. Prices on horizontal boilers complete include tube and couplings. Stand not required with horizontal boilers. Prices quoted for range boilers only do not include anything except range boiler.

Shipping weights given are for boilers complete. If boiler only is ordered, deduct 10 pounds.

Couplings furnished with complete boilers are for lead pipe; if couplings for iron pipe connections are wanted, add **20 cents** to prices of boilers complete.

Standard Weight Range Boilers.

Tested to 200 pounds and guaranteed for 85 pounds working pressure.

Large Capacity Double Copper Coil Gas Water Heater.

42H1824¼—Large Capacity Double Copper Coil Gas Water Heater. Heats 30 gallons of water to temperature suitable for ordinary household purposes in 40 minutes at a gas consumption of from 50 to 60 cubic feet per hour. Has two coils of ¾-inch copper tubing as shown, cast iron jacket with door. ¾-inch water connection and ½-inch gas connection. Iron pipe threads. One of the most efficient gas heaters on the market. Being constructed entirely of cast iron and copper, it is very durable.

In Summer, when you are not using your stove or furnace, one of these heaters is a necessity.

If you want plenty of hot water and want it quickly, this is the heater to buy. Artificial or natural gas. Shipping weight, 28 pounds.
Price **$7.95**

Large Capacity Hot Water Steel Storage Tanks.

For coal burning water heaters to be used with these tanks see page 714.

Standard Weight Steel Storage Tanks, quoted below, are tested to 100 pounds hydrostatic pressure and are guaranteed for a working pressure up to 65 pounds. Extra heavy tanks are tested to 150 pounds hydrostatic pressure and are guaranteed for a working pressure of 100 pounds. All hot water storage tanks have sufficient tappings so that they can be connected either to stand vertically or lay horizontally. Shipped from factory in CENTRAL ILLINOIS.

42H311 1½ in., for sinks. Price $3.80

Above threaded for iron pipe, 50 cents extra.

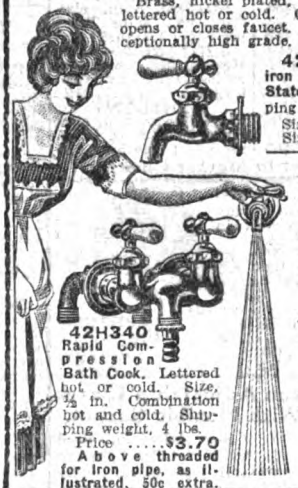
Protect Your Home Against Fire With Our Chemical Fire Extinguisher.



Approved by the National Board of Fire Underwriters.

One of the most effective fire extinguishers on the market. Puts fire out almost instantly. **"Hercules" is our own registered trade mark.** How much would you be willing to pay for a reliable extinguisher in case of an actual fire starting in your home? How long would it take a fire to burn $14.40 worth of clothing, property, etc., to say nothing of a possible loss of life? Think it over. To operate, turn extinguisher upside down and direct stream to base of fire. Pressure is automatically generated, and liquid chemical when coming in contact with fire generates gas which envelopes the fire and quickly smothers flame. Shipping weight, about 23 lbs.

42H1776¼—Price $14.40

Rapid Compression Faucets. **"One-Quarter Turn Does It."**

Brass, nickel plated, with white China handles, lettered hot or cold. One-quarter turn of handle opens or closes faucet. Very latest pattern. Exceptionally high grade. Well made, well finished.

Standard Pipe Nipples.

Our nipples are classified as close and short and long, and are furnished in black or galvanized, for pipe sizes from ¼ inch to 6 inches. When ordering state if close and short nipple is wanted and whether black or galvanized; also state pipe size. We do not carry nipples to exact lengths, as our stock is limited sizes, but if you will specify exact length we will furnish nipples as close as possible to lengths you specify. Close nipples are ½ inches long. Short nipples are 2½ inches long. Nipples longer than 2½ inches are called long nipples.

Standard Steam, Gas and Water Pipe

Black and galvanized standard pipe for carrying steam, gas or liquids. Made of good quality evenly rolled stock, carefully welded and free from imperfections.

Use black pipe and fittings for steam and hot water heating systems, oil or gas, irrigation or air pipe lines, etc.

Use galvanized pipe and fittings for supply and waste pipes on plumbing systems, drinking water pipe lines, etc.

Sizes, ⅛-inch to 6-inch, black and galvanized, in stock at our store. Prices on larger sizes quoted on application.

Prices quoted below are for pipe furnished in random mill lengths, about 20 feet long, threaded both ends. One coupling furnished with each piece of pipe. If pipe is wanted cut to specified lengths and threaded, couplings are not included and an extra charge is made for threading each end of each piece of pipe, as quoted below. Allow cost of two threads for each piece of pipe.

6 inches	18¾	83c	1.10	45c

Prices Subject to Market Changes.

Read Before Ordering Fittings, Valves, Etc.

The sizes of standard pipe and fittings, as given in this catalog, refer to the INSIDE diameter of the pipe. The pipe sizes given for fittings, valves, oil cups, etc., refer to the inside diameter of the pipe to which they connect, and not to the diameter of the tapping on the inside or outside of the fitting itself.

SHIPPING WEIGHTS.

The shipping weight of pipe fittings varies, according to the number ordered and the method of shipment. An estimate of the shipping weights and freight, express or parcel post charges will be furnished, if desired, upon receipt of a list of the fittings in which you are interested.

ELGIN Bicycles

Diamond Frame Model ✣ Youths' Motor-Bike

Our ELGIN Diamond Frame Model Bicycle combines a high grade construction with well selected equipment, representing up to date ideas in bicycle design.

Details of ELGIN Diamond Frame Construction and Equipment.

FRAME—1-inch steel tubing, with thoroughly reinforced flush joints. Furnished in 20 or 22-inch sizes only. **State size.**

WHEELS and RIMS—Maple rims, laced with 36 spokes, both front and rear, for 28-in. tires. Hubs are one-piece spindle type.

HANDLE BARS—Box type handle bars, forward extension style, with about 6-inch sewed leather bulldog grips. These bars offer a comfortable riding position similar to a motor-bike.

SADDLE—Popular Troxel Tip Top Saddle with good grade black leather top and beehive type black finish springs. Length of top, about 10 inches; width, about 7½ inches.

MUD GUARDS AND STAND—Arched and corrugated light weight type mud guards, with black supporting braces. Front guard is fitted with rubber splasher, rear guard with stand lock clip. Substantial bicycle stand of dull nickel finish; can be securely engaged to stand clip when bicycle is being ridden.

TIRES—High grade JUSTICE Auto-Bike Tires with black studded tread and white side walls. 28-inch size. (For complete description and illustration of these splendid tires, see page 739.)

PEDALS—Comfortable riding motor-bike type corrugated rubber pedals, with pedal rubbers adjustable or removable.

CHAIN—⅜x1-inch Diamond Roller Chain.

HANGER—One-piece drop forged crank, with 7-inch diamond faced tapering pedal cranks. Sprocket has 26 teeth and is of light weight recessed type.

TOOL EQUIPMENT—Substantial heavy leather tool bag, reinforced with black metal ends. Tool equipment comprises wrench, hand pump, tube of tire repair cement and oiler.

FINISH—Furnished in attractive bright cochin red, with black striping. Rims and mud guards are enameled to match the finish of the frame.

We can also furnish our ELGIN Diamond Frame Bicycle in up to date Arizona brown, offset by a broad black panel, edged with white striping, with rims and mud guards enameled to match the frame finish.

28H1366¼—Our ELGIN Diamond Frame Bicycle, equipped with New Departure Coaster Brake. Furnished in bright cochin red with black striping, or in Arizona brown with broad black panel edged with white striping. **State finish wanted.** Shipping wt., about 50 lbs. Price **$24.95**

NOTE—Furnished in 20 or 22-in. frame. Order 20-inch frame for leg measurement of 28 to 32 inches from crotch to heel, and 22-inch frame for 32 to 35 inches. **In ordering be sure to state size.**

Our Youths' Model ELGIN Motor-Bike is especially designed for riders of regulation style bicycles of 20 or 22-inch diamond frame and will therefore interest the many youths who want their own size motor-bike. Furnished in one (motor-bike) size only. The illustration of this model shows its attractiveness from the standpoint of design, equipment and general appearance.

The frame is 1-inch bicycle tubing with flush joint reinforcements. The dip in top frame bar permits wide adjustment of the seat post. The fork crown is of up to date late type triple truss keystone arch design.

The tire equipment is our splendid JUSTICE Auto-Bike Tires with black studded tread and white side walls. (See page 739.) De Luxe handle bars with reinforcing bar; 6-inch sewed leather bulldog grips. Troxel Tip Top saddle, with black leather top and beehive cushion springs, black finish. The mud guards are of drop side style, with flat braces. The front mud guard is fitted with splasher, the rear guard with clip for fastening stand, which is furnished in dull nickel finish. Comfortable, durable rubber pedals, with adjustable removable pedal rubbers. ⅜x1-inch pitch Diamond roller chain, drop forged one-piece crank hanger with 7-inch diamond faced tapering pedal cranks and a light weight 26-tooth sprocket. Rims are maple, of crescent cement type, and laced with 36 spokes. A substantial leather tool bag with our regulation tool equipment. The distinctive ELGIN finish, bright cochin red, black striped.

We can also furnish our Youths' Model ELGIN Motor-Bike in black and green finish. Furnished with dark green frame head and seat post mast, black enameled top and lower bars with contrasting color darts, gold color edged. Rims and mud guards are enameled to match the frame.

28H1368¼—Our Youths' Model ELGIN Motor-Bike, equipped with New Departure Coaster Brake. Furnished in bright cochin red with black striping or in black and green finish. **State finish wanted.** Price **$24.95**

Shipping weight, about 60 pounds.

ELGIN Bicycles

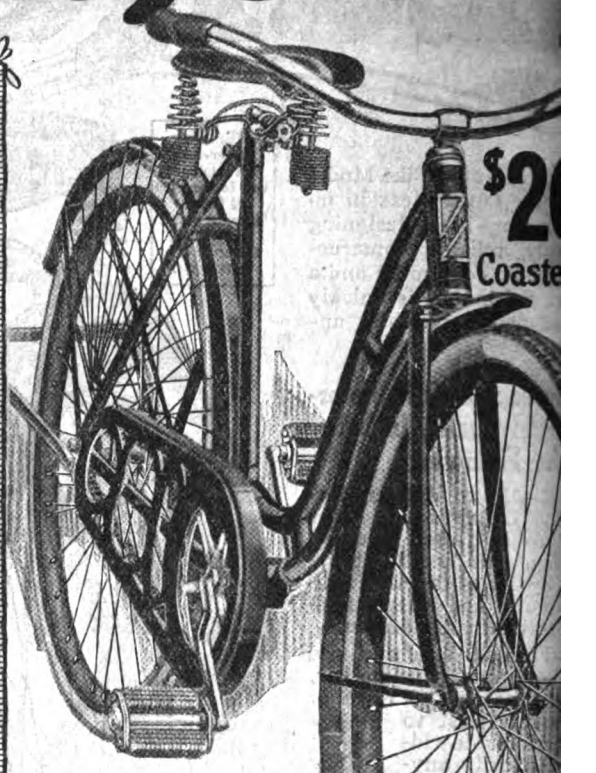
for Boys and Girls

Our Boys' and Girls' Model ELGIN Bicycles have the same type of construction as our adults' model ELGIN Bicycles, but are furnished in a smaller size. These bicycles are made with a 16-inch combination frame, with 26-inch wheels. A dip in the top frame bar of the boys' or diamond frame model permits adjusting the seat post for comfortable riding on the part of any boy who can ride a 16 or 18-inch model bicycle, which will include leg measurements from crotch to heel of 18 to 26 inches. These bicycles are equipped with adjustable reversible handle bars fitted with the popular sewed leather grips. The tire equipment is our celebrated JUSTICE Auto-Bike Tires, 26-inch size, with black studded tread and white sides. (See page 739.) Both front and rear wheels are equipped with mud guards, the front guard being fitted with splasher, the rear guard with stand lock clip. Stand comes in dull nickel finish. Equipped with Juvenile Troxel Saddle with beehive cushion springs. Special rubber pedals, comfortable and durable, with adjustable pedal rubbers. Has a 1-inch pitch roller chain.

The girls' model is furnished with drop style frame instead of diamond and is equipped with skirt guard. All models are furnished in the new ELGIN bright cochin red, with black striping.



We can also furnish our Boys' and Girls' ELGIN Model Bicycles in khaki brown and cream color, with cream color frame head and seat post mast, khaki brown top and lower frame bars (khaki brown drop frame bars on the Girls' model), with constrasting color darts. Rims and mud guards enameled with cream color centers and khaki brown sides to match frame.

Prices of Our Boys' and Girls' Model ELGIN Bicycles.

28H1357¼—Boys' Model ELGIN Bicycle, equipped with New Departure Coaster Brake. Furnished in cochin red with black striping or in khaki brown and cream finish. **State finish wanted.**

merica Red or Blue udded Tread Tires

America Bicycle Tires stand the test of time. America Studded Tread Tires, although introduced only a few years ago, proved their worth so quickly that today they are our fastest selling bicycle tires. America Studded Tread Tires owe their splendid reputation to their many excellent features. A number of closely woven fabric layers are united into a one-piece several-ply construction by layers of frictioned rubber. The tough anti-skid studded tread with its large, thick studs offers a combination of long wear, protection from skidding and attractive appearance. They are not too heavy to affect their resiliency or liveliness. An inside rubber air chamber is treated to make most small punctures self healing.

Bicycle Tires are noted for their puncture healing qualities.
JARANTEE to replace or repair without extra charge any America Tread or America Tough Tread Tire which develops defects in use.
not cover punctured or cut tires or tires worn out in actual service.

COLUMBIA ncher Tires

$5.45 A Pair

Columbia Clincher Tires meet every requirement, from the standpoint of price, service and usefulness, of the many bicycle riders who prefer Clincher tire equipment. They fit both G. & J. style wood rims and steel Clincher rims. They have a corrugated, wear resisting, anti-skid tread. They are easily attached and detached, punctures being repaired without removing the wheel from the frame.

NOTE—We will furnish these tires on your new bicycle at an additional price of $2.75 to the catalog price of the bicycle fitted with JUSTICE Auto-Bike Tires.

28H1800—Columbia Combination Clincher Tires. Size, 28x1¾ inches or 28x1⅜ inches. **Specify size wanted.** Shipping weight, per pair, about 7 lbs. Price, per pair, two tires and two inner tubes **$5.45**

28H1801—Casings only. **State size.** Shpg. wt., abt. 3 lbs. Each **$2.20**

We guarantee to replace or repair without extra charge any Columbia or JUSTICE Auto-Bike Tire which develops defects in use. This does not cover punctures or cuts or tires worn out in actual

to G. & J. Style Rim.

JUSTICE Auto-Bike Tires.

$4.45 A PAIR

JUSTICE Is Our Own Trade Mark, Registered in U. S. Patent Office.

We furnish JUSTICE Auto-Bike Tires as regular equipment on every ELGIN Bicycle. They are a high grade tire with a studded tread noted both for its anti-skid and wear resisting qualities. They are of puncture healing type, a feature responsible in no small measure for their great popularity. They have a two-ply construction, being heavy enough to give splendid wear on motor-bikes and lively enough for comfortable riding. They are furnished in red or blue tread, with white side walls, in 28-inch size only, and with black tread and white side walls in either 26 or 28-inch sizes. Average shipping weight, per pair, about 6 pounds.

28H1848—JUSTICE Auto-Bike Tires, black tread and white side walls. Size, 26x1½ inches. Price, per pair **$4.45**
28H1854—JUSTICE Auto-Bike Tires, black tread and white side walls. Sizes, 28x1½ inches. Price, per pair **$4.45**

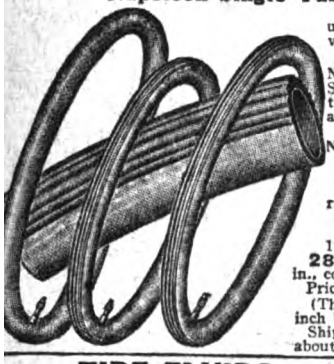
NOTE—Be sure that tires are properly cemented to rims and that they are kept well inflated to avoid torn valve stems, etc., conditions which are NOT due to

$3.75 A PAIR

America Tough Tread Tires

Our most popular single tube bicycle tires until the introduction of America Studded Tread Tires a few years ago. They have many of the qualities which have caused America Studded Tread Tires to be so widely used, having a similar fabric construction and puncture healing qualities. If you do not care to pay a slightly higher price for America Studded Tread Tires with their distinctive blue or red tread and heavy anti-skid studs, buy America Tough Tread Tires and get the same satisfactory tire service that made them our leading single tube bicycle tires for so many years.



28H1805—America Tough Tread Tires. Size, 28x1½ inches only. Price, per pair **$3.75**
28H1806—Same as above, single tire only. Price, each **1.90**

Shipping weight, each, about 3 pounds; per pair, about 5¾ pounds.

NOTICE—America Tough Tread Tires will only fit adults' model bicycles. Juvenile bicycles (16 and 18-inch frames) should be equipped with our America Studded Tread Tires in 24 or 26-inch sizes.

Other Favorite Bicycle Tires

Napoleon Single Tube Tires.

A well known tire, an unusually good value at a very low price.

JUSTICE CORD Tire

We guarantee JUSTICE CORD Tires against defects in material or workmanship on the basis of 10,000 miles' service. We will repair or replace a DEFECTIVE casing on the above basis, charging only for the mileage received from the tire.

More and more car owners are equipping their cars with cord tires as the real solution of the tire problem. Their experience has proved most important advantages from the use of cord tires—economy in gasoline consumption, greater tire mileage and increased tire resiliency, hence an easier riding car.

We furnish JUSTICE CORD Tires in regulation ribbed tread, also in our regular JUSTICE anti-skid tread, in the sizes listed on this page, straight side style only, except 30x3½-inch size, which is furnished in Clincher style only.

Small Car Owners! JUSTICE CORD Tires for Ford, Maxwell, Chevrolet, Dort, Briscoe and all other cars using 30x3½-inch Clincher rims offer you the same class of tire equipment that owners of larger cars are choosing today in greater and greater numbers.

JUSTICE CORD Tires for these cars are furnished in 30x3½-inch size, ribbed or anti-skid tread, Clincher style only. Order a set or a pair NOW and learn what real tire satisfaction awaits you.

VULCANIZERS

Shaler Five-Minute Vulcanizer.

A thoroughly vulcanized patch on your inner tube in five minutes! Heat is produced by igniting disc. Apply rubber patch to tube surface, clamp container, with disc in place, over patch and ignite heat unit. Outfit includes twelve patches and heat units. Shipping weight, about 1 pound.

28H10556—Shaler Five-Minute Vulcanizer, complete with patches and heat units. Price **95c**

28H10558—Box of Twelve Patches and Heat Units. Shpg. wt., about 8 ounces. Price **59c**

Self Curing Tire Repair Kit.

For making quick, lasting repairs of inner tube punctures or tears and cuts or holes in casings without vulcanizing.

Repairs can be quickly made and the tube put into use at once. Repairing casing cuts or holes lengthens the life of the tire, preventing dirt and water from causing early ruin to tire. Outfit comprises can of Tire Gum containing sufficient material for repairing from thirty to fifty tube punctures or small casing holes and can of Cement. Complete with directions for using. Shipping weight, about 10 ounces.

28H9384—Tire Gum Self Curing Repair Kit. Price **39c**

Vulcanizing Cement.

Quick-Fix No-Cement Rubber Patching Outfit.

For Inner Tubes.

You can make any inner tube repair, either puncture or blowout tear, quickly and successfully, without either vulcanizing or using cement. No waiting for a vulcanized patch to cool or for a "cold" patch to "set." The repaired tube can be put into the casing AT ONCE and the repair will last indefinitely.

Outfit comprises patching material, tube of cleaning compound and tube buffer. Instructions furnished for making quick, satisfactory, permanent repairs. Comes in two sizes.

28H10481 — Quick-Fix Patching Outfit, with about 30 square inches of patching rubber. Shipping weight, about 6 ounces. Price **29c**

28H10561 — Quick-Fix Patching Outfit, with about 72 square inches of patching rubber. Shipping weight, about 10 ounces. Price **49c**

Cactus Rubber Patching Outfit.

For Inner Tubes.

An efficient low priced patching outfit for inner tubes. Outfit comprises patching material, rubber cement and tube buffer. Instructions furnished for making a simple, sure repair. Heat generated from friction vulcanizes patch onto tube. Made of high grade rubber, stretches with tube and will make any size repair from a puncture to a blowout.

28H11226—Cactus Rubber Patching Outfit, with about 30 square inches patching rubber. Shipping weight, about 6 ounces. Price **17c**

28H11221—Cactus Rubber Patching Outfit, with about 72 square inches patching rubber. Shipping weight, about 10 ounces. Price **23c**

TRIUMPH RELINERS.

Make Your Tires Last Longer.

Don't Throw Away Partly Worn Tires.

A Reliner will often help you get considerably more mileage from them.

Put reliners in your tires when the treads begin to show signs of wear. You can usually get considerably more mileage service from the tires by doing so. Many car owners put them in comparatively new tires to help avoid punctures. Triumph Reliners are made of several plies of frictioned tire fabric. Wipe out inside of casing and moisten dark (cemented) side of reliner with gasoline saturated cloth; press reliner into place, a small section at a time.

Peerless Starting Batteri

Guaranteed for On

Always Give Us the Make, Year and Model of Car

Standard Guaranteed Peerless Batteries.

Peerless Starting Batteries are the standard guaranteed product of a well known manufacturer of high grade starting batteries. They are furnished to fit any make of car. The Peerless Battery we ship on your order will duplicate your present battery in every important respect—voltage, terminals, size and shape. Peerless Batteries are guaranteed for one year against defects in material or workmanship.

Features of Peerless Battery Construction.

Peerless Battery plates consist of carefully designed lead castings or "grids" divided by a network of lines into small oblong spaces. The "grids" are filled with lead oxides of correctly varied proportions to produce negative and positive plates. These plates are then alternated and assembled in groups with an insulator or separator between each negative and positive plate and placed in a rubber jar. The separators are made from choice porous wood chemically treated to toughen the wood fiber, remove all harmful substances and allow free action of the electrolyte within the cell while providing for complete insulation against short circuits. The rubber jars are made of a compound especially suitable for combining proper tensile strength and leakproof batteries. Every jar must pass a rigid high voltage electrical test for leakag covers are Uni-Seal type, hav surrounding the post to permi bushing and proper application compound. This prevents any of corrosion from the electroly or leaking. A large splash provided to improve ventilation nate internal resistance cause heating.

The terminals are interchan those on the battery originall with the car. The electrolyte us less Batteries is a carefully p mixture of sulphuric acid a water. A 6-volt Peerless Batter jars or cells, each cell containi of plates submerged in the elect cell cover is a hard rubber put over each cell and sealed The cells are connected by he lead connectors.

Peerless Battery cases are ma fully selected hardwood, thor dried, bottom tongued and gr forced with lead coated screws, dovetailed and locked with oak

Guaranteed for one year against defects. Shipped fully charged, ready to install.

Exactly duplicates your present battery in every important respect.

Furnished in 6-volt type, unless otherwise specified.

We have a Peerless Battery for any car.

We usually ship your battery the same day our factory gets the order.

Always give the make, model and year of car so that we can furnish the correct terminals. If you are not absolutely sure of the year and model of your car, also tell us the length and width of your battery and height to top of handles. Also give us the name of your present battery as well as any information shown on the name plate.

Write for prices on special batteries, specifying make, year and model of car, name of starting system, voltage, length and width of battery and height to top of handles on present battery.

Every battery is equipped with thoroughly substantial metal handles securely under any method used for securing the battery in place.

Every Peerless Battery is thoroughly inspected before shipping a fully charged and ready to install. It is carefully packed in a spec crate so as to reach you in perfect condition.

For Dry Batteries See Page 818.

Spark Plug Intensifier.

Produces hot spark, tending to explode entire gas charge at one time. Strengthens spark, aids it in burning through carbon and oil and removing carbon and oil deposits on sparking points, and indicates plug which is not sparking. Attach to spark plug terminal and wire.
28H11493—Spark Plug Intensifier. Shpg. wt., ...

Peerless Storage Batteries.
(For Lighting or Ignition Only.)
(Not for Use With Electric Self Starters.)
Guaranteed for One Year.

Sizes and Prices of Peerless Storage Batteries.

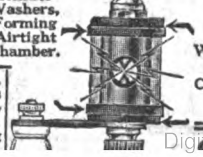
Catalog No.	Type of Battery	Discharge Rate, Hrs., 1 Amp.	No. Plates	Price
28H8521¼	6-V. 40-Am.	40	15	$12.45
28H8516¼	6-V. 60-Am.	57	21	16.45
28H8510¼	6-V. 80-Am.	80	27	19.25
28H8507¼	6-V.100-Am.	97	33	21.95
28H8505¼	6-V.120-Am.	115	39	26.45

Length of batteries, 7¼, 8, 9½, 10 and 11½ inches, respectively. The two smaller sizes are for ignition and are 6¾ and 7¼ inches wide, respectively, and 8¾ inches high; the three larger sizes are for lighting or ignition and are 7½ inches wide and 9 inches high. Shipping weight, about 20, 36, 42, 49 and 57 pounds, respectively.

Battery sizes given above are over all.

One ampere lamp load is equivalent to 6-candle power at 6 volts. In ordinary use the battery will give approximately 10 to 25 per cent more capacity than the rate given above.

Battery Testing Meters.

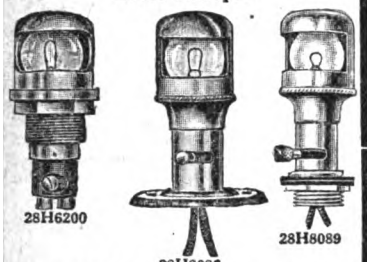


Designed to meet demand for moderate accuracy and low cost. Measure rapidly the polarity, approximate amperage and approximate voltage of dry cells.

Volt-Ammeter.
Combination. Registers from 0 to 35 amperes and from 0 to 8 volts. Use as voltmeter to test voltage of dry cells or storage batteries. Nickel plated. Shipping wt., about 5 ounces.
28H5204—... **64**

Soft Rubber Washers, Forming Airtight Chamber.

Fiber Compression Washers, Non-Conducting.



Triumph Spark Intensifier.
For strengthening spark to make spark plugs fire when points are covered with carbon deposits or oil and aiding in burning up such deposits on sparking points. Gap is adjustable. Insulated to prevent short circuiting and consequent damage to coil. Shipping weight, 4 ounces.
28H6606—Triumph Spark Intensifier. Price, each **29c**

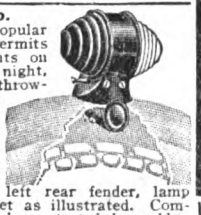
28H6039—Same as above, with single contact bulb. Price..... **58c**

28H8086—Dash Lamp with Switch, for wood dash. Price..... **55c**

28H6042—Same as above, with single contact bulb. Price..... **55c**

Shpg. wt., any of above lamps, abt. 8 oz.



Challenge Dash Lamp.

Furnished with 2-C. P. 6-8-volt tungsten lamp with Ediswan socket, on and off switch and wire leads. Nickel plated. Length, about 3½ inches. Shipping weight, about 8 oz.

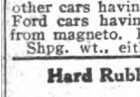
28H6255—Challenge Dash Lamp. Price..... **63c**

Parking Lamp.

An up to date, popular accessory. Its use permits turning off all lights on car when parking at night, the parking lamp throwing a white light ahead and red light behind. Has both red and white etched oval dome lens, 6-volt bulb, on and off switch. Attach to left rear fender, lamp having clamp bracket as illustrated. Complete with wire leads protected by rubber ring at lamp connection. Shipping weight, about 1½ pounds.

28H12529—Parking Lamp. Price..... **$1.39**

Stop Signal.



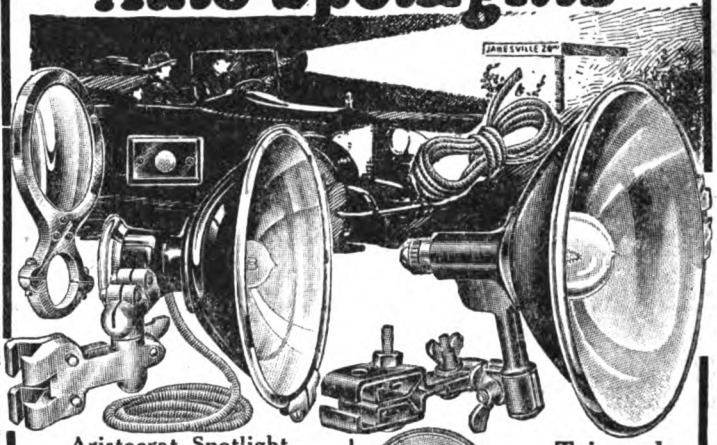
Equip your car with this popular new accessory. Indispensable for safe driving. Lamp has rust resisting all brass shell, baked black enamel finish, 4-inch red lens, 21-candle power bulb. Complete with bracket for attaching. Has practical, substantial switch with strong positive spring action, necessary lamp cord connecting lamp, switch and battery, and wire with clamp for brake rod. Operating brake pedal makes electrical contact, lighting bulb in signal lamp and brightly illuminating lamp lens. Furnished as listed below. Complete with instructions for attaching.

28H6252—Stop Signal, with 6-8-volt bulb. Price..... **$1.75**

28H5584—Stop Signal, with suitable bulb for Dodge, Franklin, Maxwell and any other cars having 12-16-volt battery, and for Ford cars having lights operated from magneto. Price..... **$1.80**

Shpg. wt., either of above, about 2¼ lbs.

Hard Rubber Screw Cap Plugs.



28H8166—Screw Cap Plug, double contact base. Price..... **9c**

28H8165—Same. Single contact base. (Not illustrated.) **9c**

Price.....

Shipping weight, either style, about 3 oz.

Auto Spotlights

Aristocrat Spotlight.

Furnished in black enamel finish, nickel plated trimmings. Has heavy brass body reflector shell. Reflector is silver plated. Convex lens, nickel plated rim, push and pull type switch separate from lamp, to be installed on dash or within car body. Has about 4½ feet of armored cord and strong light weight aluminum bracket. Has 6-8, 12-16 or 18-24 volt high candle power nitrogen bulb with outside type focusing device. Comes with or without mirror and fits all but flat type wind shield frames. Mirror has nickel plated rim, about 3-inch face of reducing type and can be adjusted.

28H6603—Aristocrat Spotlight, 6-8-volt bulb, without mirror. Price..... **$5.28**

28H10108—Aristocrat Spotlight, 12-16-volt bulb, without mirror. Price..... **$5.35**

28H11470—Aristocrat Spotlight, 18-24-volt bulb, for use with magneto on Ford cars, without mirror. Price..... **$5.60**

28H9056—Mirror for above spotlights. Shipping wt., about 1 lb. Price..... **80c**

Shipping weight, any of above spotlight, about 3 pounds.

Spotlight Bracket for Closed Cars.

For use on closed cars. Can be screwed to car body and spotlight clamped to bracket without interfering with operation of wind shield. Shipping weight, about 8 ounces.

28H9110—Spotlight Bracket for closed cars. Price..... **35c**

For Mirror See Below.

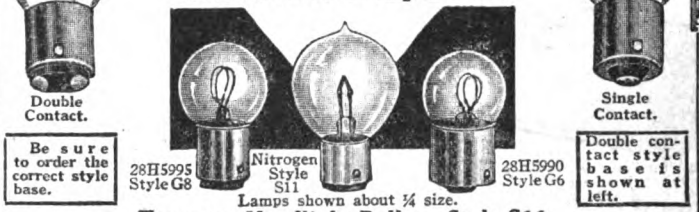
Triumph Spotlight.

An attractive spotlight of up to date design, black enamel finish. Furnished with about 7-inch front and high quality brass reflector forming body of lamp, with 6-8-volt high candle power nitrogen bulb; also with 12-16 or 18-24-volt bulb. Has swivel action and conforms to state laws regulating height of spotlight rays from ground. Fitted with about 3½ feet of lighting cord, terminals, on and off switch at handle end and focusing device. Furnished with universal bracket jaws fitting practically any wind shield frame, instructions being furnished for converting bracket to fit on closed cars. For use on Ford cars order 28H5234 Spotlight if spotlight is to be operated from magneto, and 28H5230 if for use with 6-8-volt battery. Shpg. wt., about 3½ lbs.

28H5230—Auto Spotlight, 6-8-volt bulb, without mirror. Price..... **$2.95**

28H5232—Same, 12-16-volt bulb. Price..... **2.98**

28H5234—Same, 18-24-volt bulb, for Ford cars. Price..... **3.10**



For extra bulbs suitable for above spotlights see 28H6991, 28H6993 and 28H6995 below.

Spotlight Mirror.

Neat, inexpensive Mirror, fitting above spotlight. Clamps to bracket. Comes in black and nickel finish, with 3-inch face Shipping weight, about 6 ounces.

28H5318—Spotlight Mirror. Price..... **45c**

Automobile Lamp Bulbs.

Lamps shown about ¼ size.

Be sure to order the correct style base.

★For Ford cars. Shipping wt., any of above, about 4 oz.

Poor compression and loss of power are often due to the worn condition of piston rings. The excess oil passing worn rings forms carbon and fouls the spark plugs, causing irregular firing.

NOTE—In ordering be sure to state make, year and model of car and size of ring. Measure diameter of ring with the points of ring separated by about the thickness of a sheet of paper. Also state width (height) of ring.

Chain Valve Lifter.

Attach as illustrated for compressing valve spring and lifting out valve for grinding, etc., excellent leverage being obtained. Outfit comprises spring compressor valve lifter, complete with chain and hook. Shpg. wt., abt. 2 lbs.

28H12568—Chain Valve Lifter. Price **39c**

Master Valve Grinder.

An excellently designed and well made valve grinder. Turning handle steadily in one direction gives the reciprocating or forward and backward movement needed for satisfactory valve grinding. Insures even grinding, alternating a full turn in one direction with a three-quarter turn in the opposite direction. Complete with long extension shank, screwdriver bit and three driving points, fitting valves on Fords and most other small cars. Has ball bearing action, insuring easy operation. Shipping wt., about 2½ lbs.

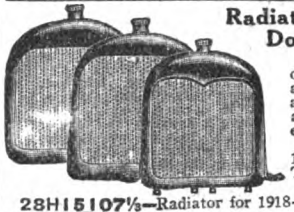
28H12960 Master Valve Grinder. **$2.65**

Valve Lifter-Spring Compressor.

Combination valve lifter - spring compressor. Shipping wt. 12 ounces.

36c

Bearing Scrapers.



95c

Steel Carbon Scrapers.

For reaching practically any point where carbon accumulates. Length of scrapers, about 13½ inches. Shipping weight, about 1 lb.

Radiators for Chevrolet 490, Dodge and Maxwell Cars.

High grade all brass radiators of square core construction. Core and connections are made of rust and corrosion proof alloy. Shells are pressed steel and black enameled.

28H15105½—Radiator for 1915-1917 model 490 Chevrolet, Thermo-Syphon Type. Price **$37.50**

28H15107½—Radiator for 1918-1922 model 490 Chevrolet, pump system. Price **$30.00**

28H15109½—Radiator for 1917-1922 Dodge Cars. Price **42.55**

28H15111½—Radiator for 1916-1919 Maxwell Cars. Price **39.40**

28H15117½—Radiator for 1920-1922 Maxwell Cars. Price **39.40**

Shipping weight, any of above, about 45 lbs. (28H15109½, 50 lbs.)

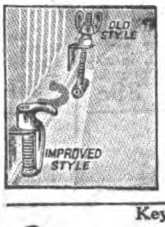
NOTE—Shipped from factory in NORTHEASTERN ILLINOIS.

Boyce Motometers.

Boyce Motometers warn you when motor is overheating from lack of water, oil, etc.

Will not fit Overland or Willys-Knight cars.

Standard Model. The largest and best model Boyce Motometer. Large dial, improved construction. Dial, black, with nickel plated trimmings. Shipping weight, about 1½ pounds.



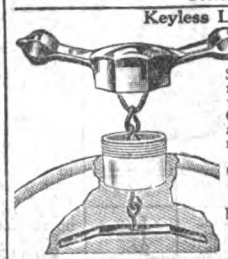
28H4828—Boyce Standard Motometer. Price **$8.95**

Boyce Midget. Comes with about 2¼-inch dial, black, with nickel plated trimming, without radiator cap. (Not illustrated.) Shipping wt., abt. 6 oz.

28H8197—Boyce Midget Motometer. Price **$2.49**

28H4828

Spring Hood Clips. For Chevrolet Cars.



Replace the regular wing nut type hood fasteners on Chevrolet cars. Use present hood bracket and bolt, attaching spring clip as shown in illustration. Furnished in set of four. Shipping weight, per set, about 1 pound.

28H7105—Spring Hood Clips, black enameled finish, for model 490 Chevrolet cars. Price, per set of four **$1.15**

28H7021—Same, nickel plated finish. Price, per set of four **$1.40**

28H7821—Same, for F. B. model Chevrolet cars (not illustrated). Black enameled finish. Price, per set of four **$1.15**

Keyless Locking Radiator Caps.

High grade extra heavy all brass heavily nickel plated Keyless Locking Radiator Caps of attractive octagonal design. Simple effective anchor chain lock permits removing cap for adding water to radiator, while leaving cap anchored to radiator neck. Cap and lock installed by simply dropping anchor through radiator opening. Requires no drilling nor keys. For sizes see below.

28H6214—Keyless Locking Radiator Cap for Buick and Oakland 1917-1921 cars. Price **$1.85**

28H8767—Same, for Dodge and Studebaker cars. Price **$1.70**

28H8769—Same, for Ford cars **1.45**

28H7454—Same, for Chevrolet 490 and Maxwell 1916-1917 cars **$1.45**

Mossberg Valve Spring Lifter-Compressor.

A handy, well made valve spring lifter-compressor of improved design. Can be inserted under the spring washer readily, raised with slight pressure of the fingers and locked where you wish it by ratchet. Ratchet can be quickly released, thereby driving the levers together for further use. Shipping weight, 1½ pounds.

28H9496—Mossberg Valve Spring Lifter Compressor. Price **98c**

Iron Cement.

For repairing cracks in engine cylinder castings, water jackets, leaky iron radiators, etc. Withstands heat, steam, oil, etc. Instructions furnished for using. Comes in about 1-pound cans. Shipping weight, about 1⅛ lbs.

28H10654—Price, per 1-pound can **48c**

Triumph Iron Cement, in about ½-pound cans. (Not illustrated.) Shipping weight, about 1 pound.

28H11480—Price **25c**

Best-Ov-All Radiator Compound.

For stopping small leaks in radiator tubes. Comes in about ½-pound cans. Directions for using. Shipping weight, about 1 pound.

28H11494—Radiator Compound. Price **39c**

Worko Carbon Remover.

Furnished with instructions. Use two tablets to clean each cylinder thoroughly.

28H10678

Worko Carbon Remover in can of about twenty-four tablets. Shipping wt., about 6 oz. Price **79c**

Premier Valve Grinding Compound.

Comes in cans, about 1 inch high, containing equal divisions fine and coarse compound. Shipping wt., about 8 ounces.

28H10730 Price **19c**

Johnson's Carbon Remover.

28H13156

Johnson's Carbon Remover, about ½-pint can. Shpg. wt., about 1½ lbs. Price, per can **58c**

28H13158

Same, about 1-pint can. Shipping wt., about 2¼ lbs. Price, per can **95c**

Radiator Hose.

Comes in 1, 2 or 3-ft. lengths only, in inside diameter sizes as listed.

For lining external brake bands 10 to 16 inches in diameter, cut lining ⅜ inch longer than brake band. Attach ends, allowing lining to bulge in center. To attach ends, mark position of holes, pierce lining with awl, drill the four holes, then countersink holes so rivet head will be at least 1/32 inch below lining surface. Hold ends of lining in position so holes in lining and brake band line up and insert rivets with heads on lining side. Head over end of rivets after flattening lining against band, locate holes, drill lining and countersink as before, using ½-inch rivets as illustrated at right.

Copper Rivets.

For attaching brake band lining. Sold only in ¼-pound packages. Average shipping wt., 12 oz.

Carshine Wax and Cleaner.

Get a lasting, lustrous finish on the car body, hood and fenders. Apply it to a new car to keep the finish perfect. Apply it to old cars to revive the finish, first applying Carshine Cleaner to remove grease, dirt, etc. Occasionally wipe the waxed surface with a cloth to remove dust and mud without injuring the finish.

28H13104—Carshine Wax, about 5-ounce cans. Price..... **30c**

28H13105—Carshine Cleaner, about 9-ounce cans. Price..... **30c**

Shipping weight, either, about 1¼ pounds.

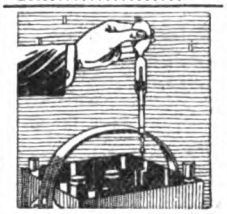
Simoniz Polish.

Simoniz gives a lustrous finish that protects the car body surfaces splendidly against wind, rain and sun. You can remove dust, dirt and road splashes from a "Simonized" car without scratching the finish or even washing the body surface. Apply Simoniz to a new car to keep the finish perfect.

Use Simon's Kleaner to clean the car body before applying Simoniz. It removes greasy, dirty spots and stains.

28H13106—Simoniz (Paste Polish). Price, per 5-ounce can..... **47c**

28H13107—Simon's Kleener. Price, per 9-ounce can..... **47c**



Shipping weight, either size, about 1¼ lbs.

For White Cotton Waste See Page 872.

Safety Hydrometer.

A practical, inexpensive battery acid testing outfit, comprising hydrometer, rubber bulb, glass and rubber tube. Instructions for using. Shipping weight, 1 pound.

28H10192—Safety Hydrometer. Price..... **69c**

A hydrometer is inexpensive, practical insurance against storage battery troubles due to lack of proper systematic battery inspection. Test your battery regularly and help keep it in good condition by using a hydrometer. Use it both to test the strength of acid solution (specific gravity) in the battery cells, and to add distilled water to cells when necessary. Keep solution slightly above top of battery plates to avoid danger of ruining plates.

Battery Filler Jar Outfit.

Outfit comprises heavy glass jar, one-half gallon size, for storing distilled water for battery, hydrometer, rubber bulb, glass tube and rubber tubing. Jar has bail or handle for handy carrying and cork top with opening for inserting hydrometer when not in use. Label on jar has spaces for recording battery reading systematically. Shipping wt., about 5 pounds.

28H10824

Battery Filler Jar Outfit, complete with hydrometer. Price.... **$1.25**

Mechanics' Assortment.

This outfit comprises an assortment of cap screws, set screws, nuts, bolts, cotter pins, rivets, lock washers, etc., in sizes most commonly needed on automobiles, trucks, tractors and farm machinery. Shipping wt., about 4¼ pounds.

28H12574—Mechanics' Assortment. Price..... **$1.08**

Spring Cotters.

Average 100, assorted sizes, ¾ to about 1¼ inches. Shipping weight, about 6 ounces.

28H11325

Price..... **10c**

Lock Washers.

Average thirty-nine, assorted sizes. Shipping weight, about 6 ounces.

28H11318

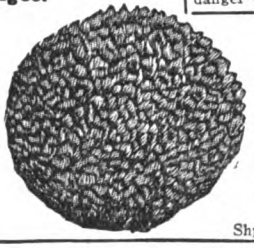
Price..... **12c**

Castellated Nuts.

Fifteen, assorted sizes, S. A. E. (A. L. A. M.) thread. Shipping wt., about 1 pound.

28H11310 Price..... **35c**

Campbell Cotter Pins.



Can be locked in place without spreading. Insert pin and drive on head until points are same length. Average 100 pins to a box. Shipping wt., about 8 oz.

28H11328

Campbell Cotter Pins. Price, box **15c**

Chamois and Sponges.

Sheepskin Chamois.

Sheepskin Chamois in pieces about 26x28 or 24x27 inches. Shipping wt., either size, about 8 ounces.

28H11858—Size, 24x27 inches. Price, each..... **$1.19**

28H10850—Size, 26x28 inches. Price, each..... **1.25**

For Other Sponges See Pages 463 and 959, and Chamois in Other Sizes See Page 463.

Sponges.

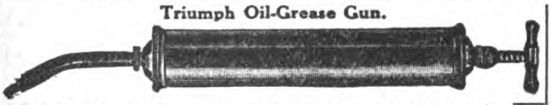
Especially adapted for automobile use. Commercially called Rock Island Wool. Diam., abt. 5½ in.

28H10855

Auto Sponge..... **55c**

28H10859—High Duty Sponge. Known as a Velvet Sponge. (Not illustrated.)

Price..... **39c**



Shpg. wt., either, about 6 oz.

Reserve Gasoline Tank.

Substantial heavy galvanized can for carrying one gallon of gasoline in reserve. Can is 10½ inches high, 8½ inches wide and 3 inches from front to back. Painted red. Stores under rear seat, etc. Shipping weight, 2¾ pounds.

28H13192—Reserve Gasoline Tank. Price..... **65c**

Triumph Oil-Grease Gun.

Durable brass barrel, about 9¼ inches long and 1¼ inches in diameter. Shank has spiral worm action. Small tip at spout end is for oil use. Loosen thumbnut near handle to secure pushing action for plunger in oiling. Spout about 3¾ inches long. Shipping weight, about 1½ pounds.

28H8092—Triumph Oil-Grease Gun. Price..... **$1.39**

Oil Grease Guns

Leader Oil-Grease Gun.

Has brass barrel, about 1¼ inches in diameter and 7 inches long. Has tip for spout, for use as oil gun. A practical, inexpensive gun. Shipping weight, about 1 pound.

28H13188—Leader Oil-Grease Gun. Price..... **39c**

Quick Action Oil-Grease Gun.

An unusually substantial brass grease g inches long and 2 inches in diameter. Has worm action. Small tip at spout end is for o thumb nut near handle to secure pushing action oiling. Spout, about 5 inches long. Shpg. wt.

28H10930—Quick Action Oil-Grease Gun. Price.....

Radiator Never-Leak.

Accessories for Ford Cars.

Spring Hood Clips.

Handy, substantial, quick working, up to date Spring Hood Clips. Installed in place of present clips, as illustrated. Furnished in sets of four. Shipping weight, per set, about 1 pound.

28H7103—Spring Hood Clips, black enameled finish. Per set of 4. **$1.15**

28H11671—Same, nickel plated finish. Price, per set of four **$1.40**

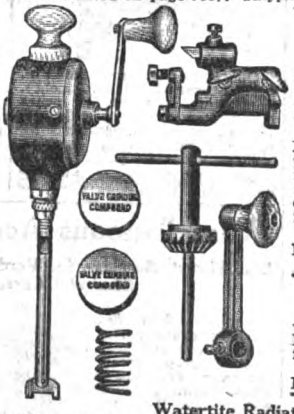
Winged Radiator Cap.

A very substantial, attractive radiator cap of winged type. Made of heavy brass casting, nickel plated. Length, over all, about 6½ inches. Top inside cut for tapping out with center punch for attaching motometer.

28H4829—Winged Radiator Cap. Price **55c**

28H12315—Same, black enameled finish. Price **35c**

Shipping wt., either of above, abt. 1¼ lbs.



Hyklas Radiator Caps.

High grade extra heavy all brass, heavily nickel plated Radiator Cap of attractive octagonal design. Shipping weight, about 1½ pounds.

28H6520—Hyklas Radiator Cap. Price **$1.10**

28H8769—Above cap with anchor chain lock, permitting removal of cap for adding water to radiator, but leaving cap anchored to radiator neck. (Described and illustrated on page 755). Shipping weight, about 1½ pounds. Price **$1.45**

Master Valve Repair Tool Set.

A splendid set of high grade tools, comprising valve grinder, valve seat reamer, valve refacing tool, handy valve spring and small can each of fine and coarse valve grinding compound, complete with excellent instruction book clearly illustrating and describing every operation from draining the radiator to the replacing of cylinder head. Practically any Ford owner by following the simple and complete directions furnished can satisfactorily ream out the valve seats, reface and grind the valves of his Ford engine and keep his engine running smoothly. Shipping weight, complete outfit, about 3 pounds.

28H10631—Master Valve Repair Tool Set. Price, complete outfit **$5.45**

Master Valve Refacer.

Valve Refacer from above set. Smooths face of valve quickly, working like a small lathe. Requires only a few turns to make valve fit perfectly to valve seat. Shipping weight, about 1 lb.

28H11609—Master Valve Refacer. Price **$1.30**

Watertite Radiator Hose.

Is absolutely watertight, requires no hose clamps, withstands steam, boiling water and all radiator solutions. Made of red rubber throughout, with inside diameter smaller than radiator stub. Hose stretches on and maintains constant pressure against radiator stub. Has inside grooves forming seal between hose walls and stub, when hose inside and stub are shellacked, preventing water leaking through.

28H11332—Inlet Hose, about 1¾x2⅞ inches. Shipping weight, 7 oz. Price **28c**

28H11462—Outlet Hose, about 2x4½ inches. Shipping weight, 10 ounces. Price **39c**

Diamond Roller Chain.

Furnished ¼ inch wide, ⅝-inch pitch. Shipping weight, per foot, about 12 ounces.

28H617—Diamond Motorcycle Roller Chain. Price, per foot **64c**

28H618—Roller Chain Single Connecting Link; one link and one connector. (Not illustrated.) Price, each **14c**

28H619—Roller Chain Double Connecting Link; two connectors and one link. (Not illstd.) Price, each **22c**

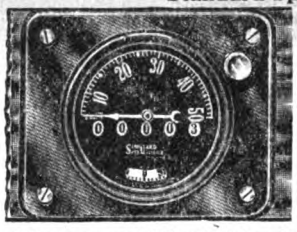
Shipping weight, either of above, 3 ounces.

Schebler Model H Motorcycle Carburetor.

Horizontal style only.

28H452

28H451—Schebler Model H Motorcycle Carburetor. Size, ¾ inch. (Not illustrated.) Shipping wt., abt. 2½ lbs. Price **$10.50**



28H470—Same, 1-inch size. (Not illustrated.) Shipping weight, about 3¼ lbs. Price **$10.75**

28H452—Schebler Model H Carburetor, complete with manifold fittings, for 7 H.-P. Indian motorcycle. Shipping weight, about 4½ pounds. Price **$11.55**

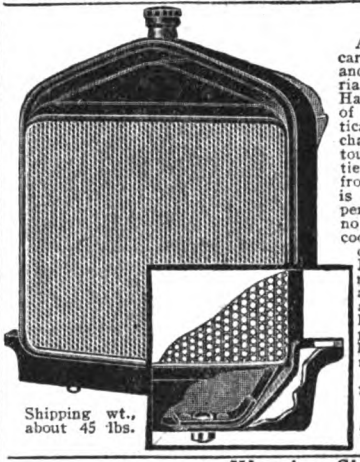
Radiators.

Radiator for 1917-1921 models illustrated.

Furnished for 1909-1916 and 1917-1921 models.



Honeycomb style radiators in black finish for 1909-1916 Ford cars; also for 1917-1921 Ford cars.

28H13250¼ Radiator for 1909-1916 Ford cars. Price, **$14.95**

28H13255¼ Radiator for 1917-1921 Ford cars. Price, **$14.95**

Shipping wt., either style, about 40 lbs.

Master Radiator.

Shipping wt., about 45 lbs.

A splendid radiator for Ford cars, of excellent construction and unusually high grade materials, with many special features. Has bronze water channels made of one-piece material and practically seamless, eliminating chance of leaks. Has necessary toughness and resisting qualities to prevent ready corrosion from alkali and lime water. Core is frostproof, cell construction permitting expansion and having no seams to open. Keeps motor cool regardless of weather or other unfavorable conditions. Has spring steel bracket, removing the strain on radiator and core caused by spreading action of car frame, a cause of leaks. Radiators are complete with pressed steel shell with lustrous hard black baked enamel finish. Furnished in two styles as listed below.

28H15100¼—Master Radiator for 1909-16 Ford cars. Price **$19.95**

28H15102¼—Master Radiator for 1917-21 Ford cars. Price **$19.95**

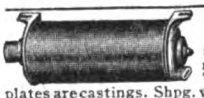
Master Cut-Out Outfit.

A well made, extra heavy cut-out. Has 1½-inch opening; top of valve is open, valve being attached to exhaust pipe by clamps. Outfit is complete with substantial locking pedal and cable. No pulley is needed, action of pedal opening cut-out. Valve and pedal furnished in black finish. Shipping weight, about 3 pounds.

28H12584—Master Cut-Out Outfit. Price **$1.23**

Warning Signals.

Magneto Horn.

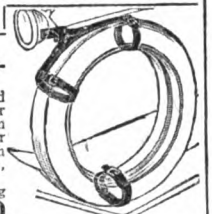


Operates from magneto. Length over all, about 7 inches. Diaphragm is about 5½ inches in diameter. Complete with push button, wire and bracket for mounting under hood. Shipping weight, about 2½ pounds.

28H6324—Magneto Horn. Price **$2.45**

Muffler Cut-Out. Outfit includes cut-out valve, 1½-in. size, for steel tubing, locking pedal, cable and pulley. Cut a V in exhaust pipe and clamp valve on. Shipping weight, complete, about 2½ pounds.

28H11715 Muffler Cut-Out, complete. Price **69c**



Muffler.

An unusually substantial, high grade muffler for all Model T Ford cars. End plates are castings. Shpg. wt., 4½ lbs.

28H10051—Muffler. Price **$1.35**

TIRE HOLDERS.

Running Board Tire Holders, Cowl Type.

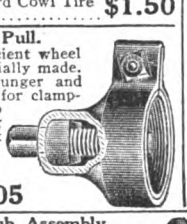
For all cowl dash Ford cars. Adapted for one or two tires, either mounted on demountable rim or wheel or casing only. Complete with web straps. Shipping weight, about 3¼ pounds.

28H12562 — Running Board Tire Holders. Price, per set **$1.10**

Running Board Cowl Tire Holder.

For cowl dash Ford cars. The load is carried by two vertical supports, one inside and one outside the body. Adapted only for carrying deflated tires, preferably one each 30x3 and 30x3½-inch size casing. Metal strap holds tires in place at top, use padlock (not furnished) at bottom. Fasten tire holder to running board by regular running board bolts. Black finish. Shipping wt., about 5¼ lbs.

28H10914—Running Board Cowl Tire Holder. Price **$1.50**



Wheel Pull.

Adjustable for clamping tightly to hub. Has heavy set screw. Shipping weight, about 2 lbs.

28H11734 Adjustable Wheel Pull. Price **45c**

Wheel Pull.

A very efficient wheel pull, substantially made. Has loose plunger and is adjustable for clamping tightly to hub. Shipping weight, about 3 pounds.

28H8195 Wheel Pull. Price **$1.05**

Rear Hub Assembly.

Rear Hub Assembly. (Ford No. 2815C.) Tapered. Less flange, bolts or nuts. Shipping weight, about 4¼ pounds.

28H12582—Rear Hub Assembly. Price **89c**

Front Hub Assembly.

Front Hub Assembly. (Ford No. 2803.) Complete, without hub flange, bolts or nuts. Shipping wt., about 4½ lbs.

28H12578—Front Hub Assembly. Price **$1.39**

Make opening and closing of doors a simple, convenient operation. Well made, nickel plated. Instructions for attaching. Sets of three. Shipping wt., about 10 oz.

28H10942 Ball Grip Handles. Price, per set of 3 **42c**

Ball Grip Handles.

Miscellaneous Accessories.

Ball Thrust Bearings for Ford and Model 490 Chevrolet Cars.

Replace plain flat washers regularly used in rear axle and keep gears in proper mesh, preventing breaking of gear teeth, grinding and jerking. Hardened steel balls between outer plates take pressure on a rotating, frictionless, wear resisting surface. Come one to a set. Shipping wt., about 1 lb.

28H11724—Ball Thrust Bearings. Price **$1.50**

Washers and Gaskets.

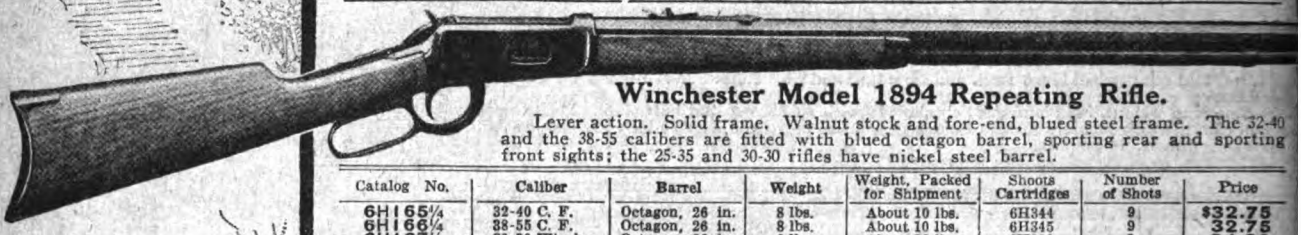
Winchester Fire Arms



IN CASE OF REDUCTION IN PRICE AFTER THIS CATALOG ISSUED, WE WILL FILL ALL ORDERS AT THE REDUCED PRI

Winchester Repeating Takedown Shotgun.

Winchester Repeating Takedown Shotgun, 1897 Model. Made in 12-gauge and is six-shot. Has a 30-inch steel barrel, fitted with a solid blued frame, the shell being ejected entirely from the side. Plain pistol grip stock, not checkered, 13⅞ inches long, 1¾-inch drop at the comb and 2⅜-inch drop at the heel. The takedown is strong and simple. Is made with a full choke bored barrel, great care being taken that none goes out which will not make a good target. Will shoot black or smokeless shells and accommodate shells 2¾ inches or 2⅝ inches in length. Weight, about 7¾ pounds. Packed for shipment, 12 pounds.

6H180¼—Winchester 12-Gauge Repeating Shotgun. Price..... **$42.50**

Winchester Model 1894 Repeating Rifle.

Lever action. Solid frame. Walnut stock and fore-end, blued steel frame. The 32-40 and the 38-55 calibers are fitted with blued octagon barrel, sporting rear and sporting front sights; the 25-35 and 30-30 rifles have nickel steel barrel.

Catalog No.	Caliber	Barrel	Weight	Weight, Packed for Shipment	Shoots Cartridges	Number of Shots	Price

Winchester Model 1894 Repeating Carbine, 30-30 Caliber.

Same as Winchester Model 1894 rifle, but with a 20-inch round nickel steel barrel. Full magazine with six-cartridge capacity. Weighs 6½ pounds only, making it a very desirable fire arm and saddle rifle. Comes in 30-30 caliber only, using our cartridges 6H379 and 6H380. Shipping weight, about 9 pounds.

6H163¼—Price..... **$29.70**

For Hunting Clothing See Page 777.

Winchester Model 1892 Repeater.

This model superseded the old Model 1873. It is an improvement over the old one. Lever action. Solid frame. Plain polished walnut stock and fore-end. Steel butt plate, blued steel frame, and 24-inch barrel.

	Caliber	Barrel	Weight	Weight, Packed for Shipment	Shoots Cartridges	Number of Shots	Price

Winchester Model 1906 Repeater.

The 1906 Model is very similar to the 1890 Model. Has a plain fore-end, a 20-inch round barrel and a straight grip stock. Fitted with a sporting front sight and adjustable open rear sight. A light weight, compact takedown rifle. It chambers three styles of cartridges, 22 short, 22 long and 22 long rifle. Cannot be furnished otherwise.

Catalog No.	Model	Caliber, All Rim Fire	Barrel	Weight	Weight, Packed for Shipment	Shoots Cartridges	Number of Shots	Price
6H174¼	1906	22	20-in. Round	5 lbs.	About 10 lbs.	6H316 6H317 6H318	15 12 10	$21.50

Winchester Model 1890 Repeating Rifle.

One of the older models, but quite popular. This rifle is fitted with 24-inch blued octagon barrel; adjustable rear sight and sporting front sight. Made in 22-caliber rim fire only, and although we can furnish rifles for three different sizes of 22-caliber rim fire cartridges, each style will chamber but one size cartridge. A rifle chambered for 22 short cartridges will not take 22 long rifle or 22 Winchester Special.

Catalog No.	Model	Caliber	Barrel, Inches	Weight	Weight, Packed for Shipment	Shoots Cartridges	Number of Shots	Price
6H175¼	1890	22 Short	24 Octagon	5¾ pounds	About 14 lbs.	6H316	15	$24.75

6H176¼	1890	22 Winch. Special	24 Octagon	5¾ pounds	About 14 lbs.	6H319	10	

Winchester .351-Caliber Self Loading Rifle.

Model 1907. The recoil of the exploded cartridge ejects the empty shell, cocks the hammer and feeds a fresh cartridge from the magazine into the chamber. Rifle is provided with a trigger lock, allowing it to be carried with the hammer at full cock. Has 20-inch round nickel steel barrel, plain pistol grip walnut stock. Number of shots, six. Shoots cartridges 6H372 and 6H373. 6H910 Cover fits this rifle. Weight, 8 pounds. Shipping weight, 10 lbs.

6H177¼—Price..... **$54.50**

Winchester Model 1902 Rifle.

22-caliber rifle. Single shot, 18-inch round barrel, 12¾-inch stock, 2¾-inch drop, and fitted with plain front and rear sights. Can be taken apart instantly. The action used on the rifle is of the bolt type, strong and simple in construction. The easiest way to clean this rifle is to take it down and remove the breechblock. This permits unobstructed access to the barrel. Shoots cartridges 6H316 and 6H317. Weight, 3 pounds. Shipping weight, 6 pounds.

6H178¼—Price..... **$7.50**

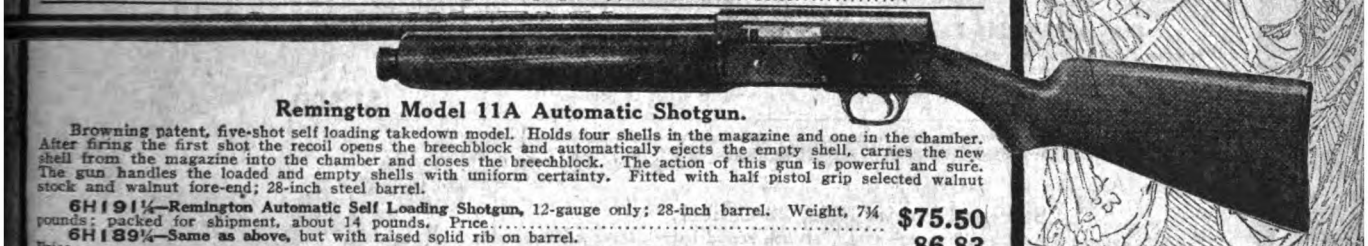
IN CASE OF REDUCTION IN PRICE AFTER THIS CATALOG IS ISSUED, WE WILL FILL ALL ORDERS AT THE REDUCED PRICE.

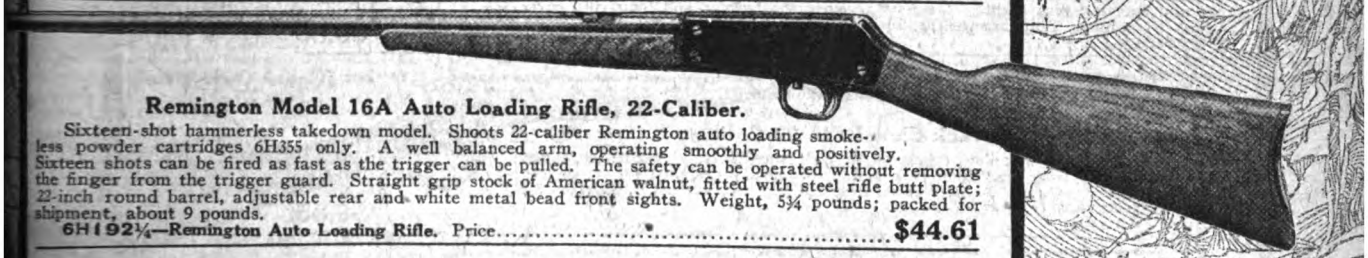


Remington Fire Arms

Remington Model 10A Repeating Shotgun.

Six-shot, takedown model. Made in 12-gauge only. It has a 30-inch blued barrel and a matted top frame; solid breech; American walnut pistol grip stock. The stock is 13¾ inches long and has a 2¾-inch drop. This gun is of the hammerless type, a favorite feature with many shooters. The operation, is smooth and positive and the gun can be fired very rapidly. Ample safety devices are provided. It is a takedown model, so arranged that the magazine and barrel can be taken from the receiver without the aid of any tools; simply a quarter turn. It is also fitted with an adjustable bushing which takes up any looseness that might develop from wear. Weight, about 7¼ pounds; packed for shipment, about 12 pounds.

6H190¼—Remington Repeating Takedown Shotgun. 12-gauge only; 30-inch barrel. Price..... **$60.92**



Remington Model 11A Automatic Shotgun.

Browning patent, five-shot self loading takedown model. Holds four shells in the magazine and one in the chamber. After firing the first shot the recoil opens the breechblock and automatically ejects the empty shell, carries the new shell from the magazine into the chamber and closes the breechblock. The action of this gun is powerful and sure. The gun handles the loaded and empty shells with uniform certainty. Fitted with half pistol grip selected walnut stock and walnut fore-end; 28-inch steel barrel.

6H191¼—Remington Automatic Self Loading Shotgun, 12-gauge only; 28-inch barrel. Weight, 7¼ pounds; packed for shipment, about 14 pounds. Price..... **$75.50**

6H189¼—Same as above, but with raised solid rib on barrel. Price..... **86.83**

Remington Model 16A Auto Loading Rifle, 22-Caliber.

Sixteen-shot hammerless takedown model. Shoots 22-caliber Remington auto loading smokeless powder cartridges 6H355 only. A well balanced arm, operating smoothly and positively. Sixteen shots can be fired as fast as the trigger can be pulled. The safety can be operated without removing the finger from the trigger guard. Straight grip stock of American walnut, fitted with steel rifle butt plate; 22-inch round barrel, adjustable rear and white metal bead front sights. Weight, 5¾ pounds; packed for shipment, about 9 pounds.

6H192¼—Remington Auto Loading Rifle. Price..... **$44.61**

Remington Model 12 Hammerless Repeater, 22-Caliber.

Marble's Flexible Rear Sight.
The Marble Flexible Rear Sight is one of the best rear sights we sell. It is furnished with two interchangeable discs with large and small apertures. **When ordering state the name of your rifle, also the caliber and model of same,** as these sights are made to fit each particular model and caliber of rifle. When using this sight the regular rear sight should be removed and blank piece 6H835 should be used. Shipping weight, 6 ounces.
6H840—Price $2.98

Marble's Vickers-Maxim Front Sight.
This is a very popular front sight. Made of hard steel. The face and lining of the aperture are made of an alloy of copper commonly known as Pope's Island gold. It is visible in the dimmest light. For quick shooting we recommend this sight. **When ordering be sure to give name, model and caliber of rifle.** Shipping weight, 2 ounces.
6H841—Price $1.35

Marble's Simplex Rear Sight.
Made for 22-caliber rifles only. It is furnished with two interchangeable discs, with large and small apertures. **When ordering state the name and model of your 22-caliber rifle.** When using this sight the regular rear sight should be removed and blank piece 6H835 or folding leaf sight 6H834 should be used. Shipping wt., 4 oz.
6H842—Price $1.60

Discs for Marble's Flexible and Simplex Rear Sights.
These cup discs can be attached to Marble's Flexible and Simplex rear sights as listed above. The target disc greatly assists in accuracy. It is especially adapted for target shooting. In dim light and for failing eyesight the side light disc is invaluable. Order by catalog number. Shipping weight, 2 oz.
6H843—Target Disc. Price 48c
6H844—Side Light Disc. Price 48c

Our Own Patent Globe Front Sight for double barrel shotguns. For 10, 12 and 16-gauge breech loaders. Shipping weight, 2 ounces.
6H847—For double barrel shotguns. Price 30c

DOG COLLARS.

How to Measure. Do not measure the old collar, but measure the dog's neck with tape measure as shown in illustration. Draw the tape measure tight around the dog's neck, as illustrated, and give us the exact measure. The measurements of our collars are first hole or inside hole measurements, with two extra holes, or 1½ to 2 inches allowance for growing dogs. If your dog's neck measures 11 or 12 inches, our 11-inch collars will fit, etc. This illustration shows a dog's neck measuring 14 inches, in which case our 14-inch collar will fit, with plenty of room for enlarging. **Prices on collars do not include locks. Name engraved on collar for 5 cents a letter. Write plainly name to be engraved.**

Tents

FULTON BRAND TENTS and COVERS are made only from full weight 29-inch duck. The standard way of measuring the weight of duck is the weight of a yard 29 inches wide. Thus our 8-ounce duck will weigh 8 ounces to the yard, 29 inches wide, and our 10-ounce duck, 10 ounces to the yard, 29 inches wide, etc. Occasionally you may find that some firms will specify the weight measured by the square yard.

For the purpose of comparison with our qualities and prices, it is well to know that if we measured our duck by the square yard, our 8-ounce duck would be rated as weighing over 9½ ounces; our 10-ounce duck over 12 ounces, our 12-ounce duck over 14½ ounces.

Fulton Brand Canvas Goods are sold exclusively by us, and by reason of being made in our own factory and under close supervision, we are able to rigidly maintain the quality.

Weight of Tents is given above in 8-ounce with poles; 10-ounce will weigh about one-quarter more than 8-ounce; 12-ounce about one-half more than 8-ounce. The weight may vary slightly, as the poles do not always run alike.

We Carry in Stock all sizes of wall tents from 7x7 to 12x18 feet, and immediate shipment can be made. On all other sizes allow three to five days' time to make; in June and July allow from six to twelve days. If a stock tent is ordered with a fly, the order requires special handling. Allow four to eight days for making.

If Poles Are Not Wanted deduct 5 per cent of the price of 8-ounce tent.

We do not ship made to order tents C. O. D.

A Sod Cloth on a tent is a strip of canvas 9 inches wide, sewed to the bottom of the ends and sides of the tent, upon which are placed stones or earth to keep out wind, flies, etc. In measuring amount of sod cloth required, measure distance around tent. A 12x16-foot tent would require 56 lineal feet of sod cloth. Can be had sewed on or separate as desired.

6H7617½—Price, per lineal foot.....5c

Extras for Fulton Wall Tents.

A Tent Fly is an extra removable roof spread over the top of tent and is staked down, leaving an air space between it and tent. The extra roof provides additional protection from cold and dampness. Buy a tent fly if the roof of tent leaks. The cost of a fly is one-half the price of a wall tent of corresponding size and weight of duck. For example, a fly for a $20.00 wall tent would cost $10.00. Necessary stakes and ropes always included without extra charge. Allow three to six days for making. **In ordering specify 6H7658½.**

Extension Fly covers not only the roof of the tent, but extends in front, forming a shade or awning. The cost of an extension fly is in the same proportion as the length of the extension is to the length of the regular fly. A 6-foot extension on a fly 12 feet long would increase the length of the fly one-half and would increase the cost a like amount; in other words, if the cost of a fly 12 feet long were $10.00, the cost of a 12-foot fly with a 6-foot extension would be $15.00. Allow three to six days for making. **In ordering specify 6H7674½.**

When Higher Wall than regularly quoted is wanted, add 5 per cent of the cost of the tent for each additional 6 inches. Allow three to six days for making. **When ordering specify 6H7604½.**

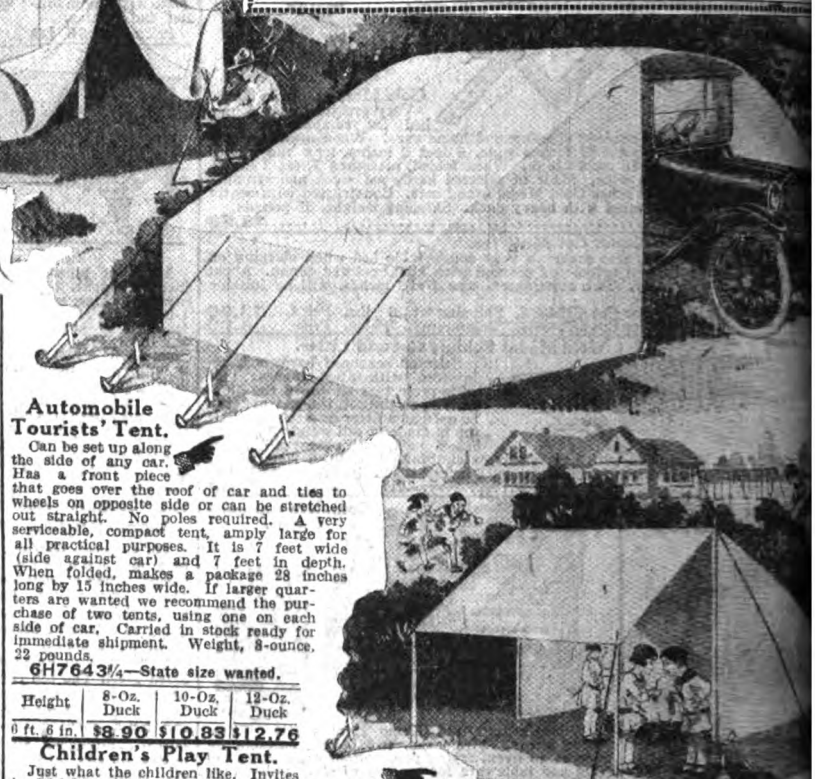
Extra Door at back end of tent is furnished without additional charge on all tents over 16x24 feet if wanted. On all tents under this size where extra door is wanted we make an additional charge of 60c. **In ordering specify 6H7615½.**

Window and Ventilator.

Can be instantly attached to any style tent by slitting seam open about 10 inches and clamping the ventilator in place. This ventilator has an oval opening 8½ inches long and 5¼ inches wide. Made with a removable mosquito screen and removable transparent window. These ventilators are usually placed in the front and rear gable ends of tent.

6H7651½—Attached to any tent. Price, each.....$1.05

We can furnish ventilator separate, not attached to tent, at the above price. Shipping weight, 1 lb. 5 oz.



Stovepipe Hole Protector.

Galvanized sheet metal. Can be placed in any seam of the tent without special fitting or sewing. Comes in 4, 5 and 6-inch hole. **State which is wanted.** Sold separately at same price. Shipping wt., 1 lb.

6H7650½—Attached to any wall tent. Price, each.....55c

6H5481—Same as above. Size, 3 in. Price, each...55c

Automobile Tourists' Tent.

Can be set up along the side of any car. Has a front piece that goes over the roof of car and ties to wheels on opposite side or can be stretched out straight. No poles required. A very serviceable, compact tent, amply large for all practical purposes. It is 7 feet wide (side against car) and 7 feet in depth. When folded, makes a package 28 inches long by 15 inches wide. If larger quarters are wanted we recommend the purchase of two tents, using one on each side of car. Carried in stock ready for immediate shipment. Weight, 8-ounce, 22 pounds.

6H7643¼—State size wanted.

Height	8-Oz. Duck	10-Oz. Duck	12-Oz. Duck
6 ft. 6 in.	$8.90	$10.83	$12.76

Children's Play Tent.

Just what the children like. Invites healthful, joyful outdoor play. Ideal for yard or lawn. The front of the tent, as illustrated, can be raised as an awning or let down, closing it on all four sides. Made without wall, the roof sloping direct from ridge to ground, as shown. Material is a good weight, plain white drill; well finished throughout, the same as a regular tent. Size, 6 feet wide by 6 feet long. Height, 5½ feet. Height of extra poles used to support the awning, 4½ feet. Carried in stock for immediate shipment. Weight, packed for shipment, 26 pounds.

6H7641¼—Price, including poles, ropes and stakes.....$5.22

The Fulton Brand Miners' Tents.

Used largely by miners and prospectors, as they can be very conveniently carried and require but one pole for erecting. May also be used as play tents for children. The weights which we give include pole. If wanted without pole deduct 20 cents from price quoted. Carried in stock ready for immediate shipment.

6H7622¼—State size wanted.

Ringed Fish Hooks.

Genuine imported brand. The illustrations to the right represent as nearly as possible the actual sizes of Carlisle, Limerick, Kirby and Cincinnati Bass Hooks. Nos. 2, 2-0, 4-0 and 6-0 are a trifle wider from point to shank than illustrated. The Limerick has a straight shank. The Kirby, Carlisle and Cincinnati Bass have a side bend. The Carlisle has a trifle longer shank. The Limerick, Kirby and Cincinnati Bass have extra large eyes and the Carlisle regular eyes. The Cincinnati Bass is of a bright finish. **In ordering give catalog number and size of hook wanted. We do not sell less than 100 hooks of a size.**

6H3265—Price.....**59c**

Trout Flies.

We have selected only such flies as we know from experience to be killers. Our flies are excellent in beauty, quality and workmanship. We do not carry the very cheap grade of trout flies.

A grade, high quality, with Pennell turned eye which prevents the feathers and silk wrappings from becoming loose and whipped off. Hollow point sneck hook, full silk body with divided wings, and silk tied to first quality selected full length clear round gut.

B Grade, a good grade silk body fly, plain wings, well finished, tied to full length clear gut on file point sneck hook.

NOTICE—When ordering give number of fly, also size of hooks wanted, and whether A or B grade. We do not sell less than one-half dozen flies nor less than two flies of one kind and size of hook. Shipping weight, per dozen, about 2 oz.

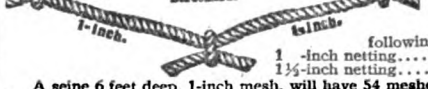
FISH

Superior Straight Drag Seines.

Our straight seines are hung on a good grade of tarred sisal net rope with a single line at top and double lines at bottom. These double lines have one rope right lay, the other rope left lay, which prevent the bottom lines from rolling up. The size of the rope used on seines 75 feet and less is 3/16 inch. On seines over 75 feet, 1/4 inch in diameter.

Fittings.



On seines 4 and 5 feet deep, 2½x3-inch floats are used, spaced 3 feet apart; on seines 6, 7 and 8 feet deep, 2½x4-inch floats are used, spaced 3 feet apart; and on seines 10 and 12 feet deep, 3x4-inch floats, spaced 3 feet apart. All depths are fitted with No. 9 leads, spaced 18 inches apart, one under each float and one between.

This applies to seines 100 feet or less, whereas on seines over 100 feet in length and 8 feet in depth and deeper, we would use 3x4-inch floats, spaced 3 feet apart.

Shipping Weights of Seines.

A seine 4 feet deep, 1-inch mesh, made of No. 12 twine, weighs (packed) about 8 ounces to the running yard; 4 feet deep, ¾-inch mesh, No. 12 twine, about 12 ounces to the running yard; 6 feet deep, 1-inch mesh, No. 12 twine, about 14 ounces to the running yard; 10 feet deep, 1-inch mesh, No. 12 twine, about 1¼ pounds to the running yard.

Seines made of No. 16 twine weigh about one-third more than seines made of No. 12 twine. Weights on other sizes in proportion.

Why You Should Buy Your Fish Nets of U

We hang our seines on a basis of one-third in both le depth, which means that our nets are hung with a sufficient to allow a full one-third for slack or bag. The illustratio a 1-inch square mesh. All sizes of mesh given are square a 1-inch square mesh measures 1 inch on each of the fo or from knot to knot and 2 inches from point to point when stretched.

Netting hung in the customary diamond shape req following number of meshes to every foot, allowing one-third for

1 -inch netting.....9 meshes to a foot | 2-inch netting.....4½ meshes
1½-inch netting.....6 meshes to a foot | 3-inch netting.....3 meshes

A seine 6 feet deep, 1-inch mesh, will have 54 meshes in depth; 8 feet deep, 1¼-inch mesh, will have 48 meshes. Our meshes are absolutely true to size. High quality seine twine, the yarn used being of an especially high qu To determine the size of twine, unravel the strands and count the number of threads.

These seines are furnished only in sizes listed below. Carried in stock for immediate shipment.

When ordering seines be sure to give catalog nu state length, depth and size of mesh want

Superior Hoop Nets and Fyke Nets

Our Fyke and Hoop Nets are made with ample amount of netting around the hoops, which makes a perfect, serviceable net, so that when in use the netting will not draw in between the hoops. Made of first quality cotton twine. The wings are hung on rope, fitted with floats and leads ready for use. Hoop nets are wrapped for shipping.

If Fyke Net Web is wanted, with wings, without hoops, deduct one-third from price of complete Fyke net.

If Tarred Hoop Net is wanted, add one-third more to prices shown. Tarred nets cannot be returned, if sent as ordered. Allow four to six days to ship.

6H2852— Per yard....**24c**

Superior Minnow Seines.

Our Superior Minnow Seines are hung on a good grade of cotton line with single top and single bottom lines; floats are spaced 2 feet apart and there are three leads to each float—one under each float and two between—except the ½-inch mesh minnow seines, which are hung on still heavier lines with larger floats, spaced 2½ feet apart, and heavier leads, two to every float. We fit these nets with plenty of floats and leads, as it is very important to have plenty of leads to keep line on the bottom. **Allow four to six days to ship. State depth.**

A minnow seine, 10 feet long, 4 feet deep, ½-inch mesh, packed for shipment about 2½ pounds; 10 feet long, 4 feet deep, ¾-inch mesh, about 2¼ pounds; 4 feet deep, ½-inch mesh, about 2 pounds.

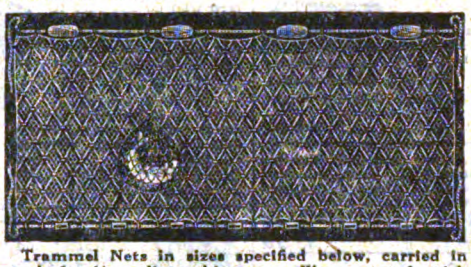
NETS



Superior Trammel Nets

r Trammel Nets are fitted with an extra quantity netting. We allow 50 per cent more inside netting than the depth of the net. For instance, in a net p the inside netting is 9 feet deep, hung measure, s 3 feet extra netting to pocket the fish. The etting and inside netting are both hung on one- is in length, so that the netting for a 100-yard yards stretched, hung into 100 yards. We list er of mesh in depth of inside netting so you can act depth you will get in your net. Our nets are ample amount of floats and leads.

a good quality of linen netting in all our trammel the outside netting is all made of No. 16 cotton . Shipping weight, per yard, about 10 ounces.

es of linen thread we use are as follows: 2⅝ in ¾-inch mesh; 1⅝ in 1½ and 1¾-inch mesh; 1⅛ ¼-inch mesh; 1⅜ in 2¼-inch mesh and larger. e netting or walling is made of No. 16 soft cotton .

supply the inside filling for old nets and if you the size of your old net, we shall be glad to give timate of weight and cost.

Trammel Nets in sizes specified below, carried in stock for immediate shipment. We cannot furnish shorter than 5 yards. If longer or special lengths are wanted, order two nets which you can tie together.

an furnish deeper Trammel Nets on which we will gladly quote prices.

Rigged Complete. Ready for Use.

Linen Gill or Set Nets.

All our Gill Nets are hung on one-half basis, or, in other words, in a net 100 feet long we would hang 200 feet of stretched netting. The size of twine used is No. 30½ linen in all sizes of mesh except 1-inch, which is No. 40½. We find that No. 30½ linen twine is the best size for 1¼-inch mesh and larger for ordinary use, as it is strong, durable twine and will give satisfaction. We also furnish gill nets made of sturgeon twine Nos. 16½, 15½ and 14½, in 3-inch mesh and larger. Prices quoted on application. **Sizes listed below carried in stock for immediate shipment. We do not furnish gill nets shorter than 5 yards. If longer lengths or special lengths are wanted, order two nets which you can tie together.** Shipping weight, per yard, about 6 ounces.

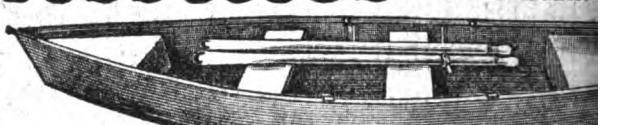
Knockdown Flat Bottom Fishing and Hunting Boats. Boats and Accessories



Build your own boat and save money on labor, freight and hauling. We furnish the material. All you need is a hammer and screwdriver. The boats, when put together, are safe, comfortable and easy rowing. When you buy a boat ready made, you pay three or four times first class freight or express charges. Buying your boat knocked down, as above, means that all you have to pay is second class freight rate, which in itself is a very considerable saving.

The lumber we furnish is selected, seasoned material from our own yards, of the proper thickness, with strong reinforcements. The stem is hardwood; the stern is reinforced with extra brackets and has a plate board attached for outboard motor. The rear seat is extra wide. Bottom is in three sections, calked and reinforced with shaped strips. Everything necessary, including nails, screws, calking cotton and oar sockets, with one pair of copper tipped oars with plates and oarlocks attached. The 14, 15 and 16-foot boats are fitted with two pairs of sockets. The materials are all smoothly finished with one coat of paint. Full directions for assembling the boat accompany each shipment. **Shipped from factory in OHIO.**

The "Knickerbocker" Brand Billiard Cloth.

Our "Knickerbocker" brand of billiard cloth is a grade of cloth we highly recommend for first class use. It is an all wool cloth of an excellent shade of green, and is adapted for either billiard or pocket billiard use. It is evenly and firmly woven and possesses a very high finish. It is a quality cloth in all respects.

An Important SHURLITE Improvement.

Shurlite "Safety-Shutoff" feature saves your batteries and insures light. No more accidental lighting, which is liable to occur any time with the old type flash light not equipped with "Safety-Shutoff." A slight backward turn of the end cap operates shut off and makes accidental lighting impossible, which might otherwise occur in old type flash lights when pushed into pocket, through jarring, carrying in tool box, etc.

This improvement saves money for you and greatly increases the value of the flash light.

Flash Light Batteries. SHURLITE Flash Light Batteries.

Our flash light batteries are very high grade. They store an unusual amount of energy, and have great recuperative power. Our large volume of sales insures fresh stock at all times. Purchase an extra battery and have one available when the first one has served its usefulness.

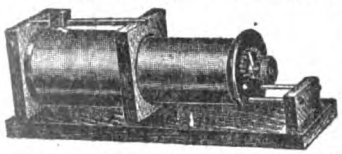
RADIO APPARATUS

Laboratory Variable Air Condensers.

Plates made from number 22-gauge hard steel aluminum. Spacers are turned from brass stock and gauged for accuracy. All insulation cut from grade M Formica sheet, 5/16-inch thick. Rotary plates have coil spring balance which holds them in any position desired. Panel mounting type fitted with engraved Bakelite dial, 3 inches in diameter, and knob. Portable type mounted in polished nickel plated brass container which will hold oil. This type fitted with engraved steel dial 0-100.

These condensers must be seen and used to be appreciated.



We list them in two sizes, suitable for all classes of radio telegraph and telephone work. Can be used on 1/8, 3/16 or 1/4-inch panel.

Panel mounting, 43 plate; 21 rotary, 22 stationary. Capacity, .001 MFD. Shipping weight, about 2¼ pounds.
6H9293—Price, each $4.80

Panel mounting, 21 plate; 10 rotary, 11 stationary. Capacity, .0005 MFD. Shipping weight, 1¼ pounds.
6H9295—Price, each $4.30

"NAA" Receiving Transformer.

Bakelite Coil Head. Capacity, 3,500 Meters.

An efficient, well made, long wave length tuner at a low price. With it you can tune in with the big wireless stations using wave lengths of 2,500 meters and more. Coil head is of turned Bakelite. All binding posts mounted on primary coil end. The windings of both coils are of green silk-cotton covered wire. The primary slider is mounted on a brass rod and works freely and with minimum wear on the wire. The slider is very selective, as it will make contact on a single turn. The secondary inductance is varied by means of a 10-point switch, mounted directly on the Bakelite head. All woodwork is beautifully finished in mahogany. All metal parts are of brass, finished in polished nickel plate. Size of base, 18½x6 inches. Shipping weight, about 14 pounds.
6H9362—Price $7.80

Junior Panel Rheostat.

Designed for compact panel mounting. Resistance unit mounted on Bakelite disc 2 inches in diameter; 4 ohms resistance, carrying capacity 1½ amperes. Especially designed for filament control of vacuum tubes operating on 4 or 6 volts. Resistance unit is a non-corrosive alloy and can be readily renewed. All metal parts are nickel plated. An "off" position is provided, obviating the necessity of a filament switch.

Furnished complete with model 1¾-inch Bakelite knob, shaft, nickel plated pointer and supporting screw.

This rheostat will increase your detector sensitiveness because of its ease of adjustment and the close control it provides.
6H9371—Junior Panel Rheostat, 4 ohms resistance. Shipping weight, 5 ounces. Price 94c

Reliable Wireless Key.

Nickel plated steel lever; lacquered brass frame. Two adjustments on lever. Contacts are of a hard metal, known as platina. Electrose key knob. Shipping weight, about 1 pound.
6H9205—Price $2.35

Marine Mineral Detector.

This type of mineral detector has been used extensively on various styles of ship sets, both as a regular service detector and as a "standby." We believe this is the finest mineral detector made, and recommend it to every amateur and experimenter. Detector shaft is mounted in a tube container. This tube container is mounted in a ball which in turn is supported by a socket joint which gives maximum adjustment range. A spiral spring is used on detector shaft and is mounted inside the tube. The tube slides through the ball and the coil spring insures permanent position. Cat whisker contact wire is held by means of clutch and is easily removed for changing wire, etc. Mineral is supported in brass cup by three screws. Cup is mounted on brass pillar. Detector is mounted on black molded base, 6x2½x3¼ inch. All metal parts are made from brass, heavily nickel plated and polished. Tested piece of galena is furnished. Shipping wt., 2 lbs.
6H9297—Marine Mineral Detector. Price $2.38

Radio Apparatus and Electrical Goods Catalog.

Sent Postpaid on Request.

Write for our Radio Apparatus and Electrical Goods Catalog No. 520GC. We send it postpaid on request. Everyone interested in wireless should have this book. Complete line of radio apparatus, heating devices, telephones, line material, motors, etc. Satisfaction guaranteed or your money will be returned without question.

Telephones and Accessories

Description of Magneto Telephones.

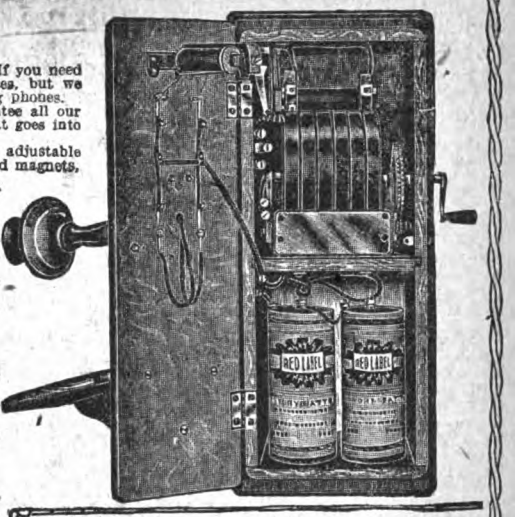
What Kind to Order.

Bridging magneto telephones as here listed are the standard for party lines. If you need series phones for private line and city exchange work we will gladly quote prices, but we recommend bridging phones for this work also. Party lines can use only bridging phones.

All telephones on one line should be of the same ohms resistance. We guarantee all our telephones to be a standard make and high grade in every respect. Every part that goes into the telephone is new. We do not sell rebuilt phones.

Every telephone is equipped with solid back transmitter, bi-polar receiver, adjustable ringers with 2½-inch brass gongs, lightning arresters and generators with laminated magnets, each magnet consisting of three laminations, tempered and magnetized separately, producing a powerful generator. In other words, our six-bar generator has eighteen of these magnets.

These phones are shipped from factory near CHICAGO. Shipping weight, each, about 43 pounds. If you do not want batteries, deduct 76 cents per telephone.



Compact Bridging Telephones With 6-Bar Generator, Including Two Dry Batteries per Phone.

Catalog No.	Type of Ringer	Price, Each	Price of Six
6H8112⅔	1,000-ohm	$14.76	$87.56

Our Desk Telephones—Bridging Type.

This desk set is made for us under our direction and combines excellent quality with a very low price. It is a standard bridging magneto telephone and can be used on any magneto telephone line with bridging phones. Our prices include a complete desk telephone, and generator and ringer box with a lightning arrester mounted on the box. We also furnish two dry batteries with each instrument. The generator and ringer box is highly polished oak and all exposed metal parts are finished in black enamel and nickel plate. The generators have ¾-inch laminated magnets. See further description above.

In ordering for a new line it is always best to select telephones all with the same ohms resistance. When adding telephones to a line, order those of the same ohms resistance as the ones already installed. **Shipped from factory near CHICAGO.** Shipping weight of each, about 45 pounds. If you do not want batteries, deduct 76 cents per telephone.

Flexible Cord With Terminals and Plug.

6H9690—To use with power motors. Cord of standard quality. Leng
Shipping weight, about 1½ pounds. Price, complete .....

Utility Motors for Farm Lighting Plants, 32-Volt.

This motor is intended for operating many of the household and dairy machines which you now operate by hand. It will run cream separators, grindstones, churns, washing machines, small pumps and many other machines.

The motor is a ¼ horse-power back geared type, mounted on a tripod and furnished with about 19 feet of flexible cord and plug to attach to lamp sockets. The tripod feet can be quickly removed if you want to place the motor on a bench. It is equipped with a handle so that it can be moved about conveniently.

The motor proper runs at a speed of 2,000 R. P. M. and for running high speed machines there is a grooved pulley for ¾-inch round belt; effective diameter, 1¼ inches. Since most of your machines run at a very much slower speed, three other pulleys are furnished and these are geared down so as to run at approximately 350 revolutions per minute. There is a pulley for ¾-inch round belt having an effective diameter of 2¼ inches, a larger one 3⅜ inches in diameter and a pulley 6½ inches in diameter for using a flat belt. The over all height of the tripod motor is about 23½ inches and the length of motor shaft about 12½ inches. Weight of motor, complete, about 36 pounds. Shipping weight, about 44 pounds.

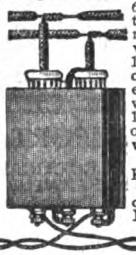
6H9643¼—Utility Motor. Price **$41.00**

Electric Bell Outfit.

For Door and Call Bell Service.

Consists of one Red Label dry battery, one push button, one 2½-inch bell, 75 feet of annunciator wire and necessary staples. Directions for installing furnished. Shipping weight, 4¼ pounds.

6H8522



Price **$1.35**

If more than 75 feet of wire is needed to connect as pictured, order wire 6H9900 shown on page 818.

SAVE BELL BATTERY EXPENSE.

Why not save the expense of renewing from time to time the batteries that ring your door bell or operate your buzzer or door opener?

A bell ringing transformer connected into your electric lighting circuit will do the work beautifully, uses no current to speak of and once installed will last indefinitely without further attention. Easily installed. We furnish full directions.

Transformer, suitable for ordinary city current (105 to 115-volt, 60 to 133-cycle, alternating). Has range of three voltages, 6, 8 and 14. Strong metal case, black enameled, 2½ inches wide, 4 in. high, 1⅝ inches thick over all. Shipping wt., about 2¼ lbs.

6H8516
Price **$1.16**
(Price does not include Bell, Push Button or Wire.)

Miniature Electric Lamp Outfit.

An interesting toy which is also useful for lighting dark closets, etc. Consists of three cells Red Label dry battery, a 1½-candle power miniature Mazda tungsten electric lamp, a receptacle, switch and 30 ft. of insulated wire. Shipping weight, 8¼ pounds.

6H9030—Price **$1.55**

Electric Door Bells.

High grade bell, 2½-inch gong; cover, stamped sheet steel, finished black. Guaranteed to ring clearly through 200 feet of No. 18 annunciator wire (100 feet from bell to battery) on one battery cell. To get maximum sound, two batteries should be used. Add one cell for each additional 50 feet of wire. Suitable for use with transformer. Shpg. wt., 1⅛ lbs.

6H8501—Price, each **55c**

Same as above, but with 3-inch gong. Shipping weight, 1⅛ pounds.

6H8500—Price **60c**

Same as above, but with 4-inch gong. Not suitable to use with transformer. Shipping weight, 1⅝ pounds.

6H8502—Price, each **78c**

NOTE—These bells cannot be used with telephones. Send for our Electrical Goods Catalog No. 520GC for Telephone Bells.

Make and Break Coil.

For use with any engine of make and break ignition. Mounted in a strong steel case, 2¼ x 2¼ x 6½ in. Takes up about same space as a dry battery. Easily inserted in battery box. Shipping wt., 3 lbs.

GASOLINE ENGINE MAGNETOS.

This illustration shows our make & break magneto with friction compe

Made with two large powerful magnets and completely enclosed armature, affording protection from dirt and moisture. Equipped with governor, which regulates the speed of the magneto, preventing burning out the spark coil or contact points. A uniform spark at all times, insuring full engine efficiency. Once mounted on the engine, they require practically no attention aside from oiling and renewal of brushes about once in from twelve to eighteen months. These magnetos are not suitable for use on automobiles or motor boats.

6H9524¼—Friction Drive Magneto, for make and break ignition, without coil. Price **$10.88**

6H9525¼—Friction Drive Magneto, for make and break ignition, with coil mounted in the magnets. Price **$11.65**

6H9526¼—Belt Drive Magneto, for make and break ignition, without coil. Price **$11.20**

6H9527¼—Belt Drive Magneto, for make and break ignition, with coil mounted in the magnets. Price .**$11.85**

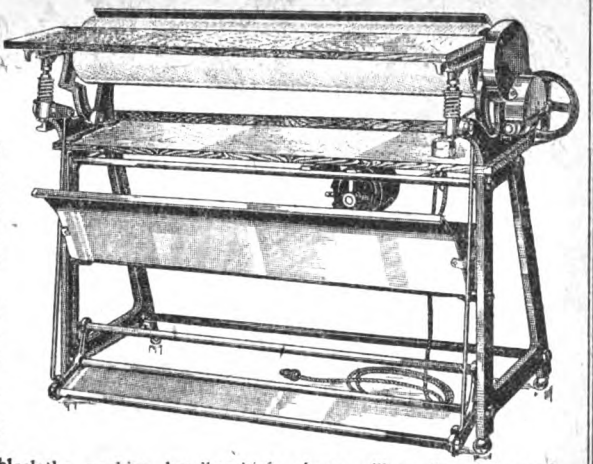
Shipping weight of all make and break magnetos, 18 lbs.

6H9528¼—Friction Drive Magneto, for jump spark ignition. Price **$10.70**

6H9529¼—Belt Drive Magneto, for jump spark ignition. Price **$11.08**

Shpg. wt., jump spark magnetos, 20 lbs.

NOTE—We do not furnish jump spark magnetos with coil mounted in the magnets.



This illustration shows spark magneto with belt

NOTE—Make and break ignition is also known as "wiper" or "hammerbreak" ignition. If your en a spark plug it is jump spark ignition. If it does not use a spark plug it is make and break ignition.

he Allen Ironer

Electrically Operated—Gas Heated

Allen Ironer is the result of a long series of experiments made with a view of providing g machine that is easily controlled, simple enough to be sold without personal demonstra- at a price that is reasonable. If you will do one ironing on an Allen Ironer, that is all d to prove that we have succeeded in our efforts. So sure are we of this that we sell it understanding that you can try it out in comparison with any other ironer on the nd if you can find a machine that is easier to handle, that will do better work, a greater of work, or sells at a lower price than the Allen, you can return it at our expense and we rn your money.

highly polished shoe of the Allen Ironer is 46 inches long, curved to fit the padded roll, an ironing surface of more than 250 square inches. The movement of the roll is d by a foot pedal arrangement extending the entire length of the machine, so it can be d from any position. Machine can be used in a sitting position as well as standing. of roll against the shoe is maintained by two oil tempered steel springs, with means for adjusting the pressure as desired. Gearing is very simple, consisting of a steel worm, bronze worm wheel and a pair of spur gears. Drive is by belt. No complicated adjustments to make.

the open end shoe; nvenience for ironing neckbands of shirts, d similar articles.

Saves three to four hours' time every ironing day. For the benefit of those who are not familiar with ironing machines, will state that the plain flat pieces, heavy or light, such as tablecloths, napkins, handkerchiefs, sheets, pillow slips, bedspreads, blankets, towels, doilies, centerpieces, curtains and similar articles which take so much time and strength, can be ironed in the Allen in about one-fifth the time it takes to do them up by hand and the result will be much more pleasing. The design in table linens will stand out like new and the finish will be more perfect than you can possibly get by hand. The embossing in a bedspread and the embroidery of doilies, centerpieces and similar articles stand out beautifully. Wearing apparel, such as shirts, kitchen aprons, house dresses, underwear, nightgowns, pajamas, children's rompers, dresses and all similar articles, can be almost completely ironed on the Allen. Ruffles and frills may require a slight finishing with a hand iron.

The machine is furnished complete, with high grade electric motor, cord and plug for connection to any electric light socket and flexible metal gas hose with rubber ends for connection with gas supply. Gas burner is fitted with control valve and is covered with a sheet metal shield. Shipping weight, about 350 pounds. **Shipped from factory in CENTRAL OHIO.**

High Speed Wizard

This is the most popular hand washer we have ever sold. It will wash the clothes clean, runs easily, and will give good service. The design of our High Speed gearing is such that it requires very little effort to keep the machine in operation. All parts are much heavier than you will usually find in a machine of this type, so that it will give long service. Handle socket is arranged so that you can operate it from either a sitting or standing position. Sold subject to our well known "money back if not satisfied" guarantee, and you have full thirty days' trial before you decide whether you will keep it. **Shipped from CHICAGO, PHILADELPHIA or factory in CENTRAL OHIO, whichever is nearest you.** Shipping weight, 90 pounds.

44H7513—High Speed Wizard Washer. Price..... **$17.95**

Golden Crown Washer

The Golden Crown Washer is a high grade full size rotary machine and ranks next to our High Speed Wizard in popularity. Turning the flywheel in one direction causes the dolly inside the tub to turn a three-quarter revolution and then automatically reverse. Gearing is finished in aluminum bronze. **Shipped from CHICAGO or factory in NEW YORK, whichever is nearer.** Shipping weight, 85 pounds.

Wizard Power and Electric Washing Machines

44H7532
Wizard Electric Washer.

These machines are similar to the High Speed Wizard Washer, but the working parts are heavier and so arranged that lid can be raised without removing belt from pulley. Be sure to read the description of the Liberty Washer on page 823. Consider carefully the advantages offered by the use of the Liberty Washer. It is a stronger machine. It has a power driven wringer, so all the hard work of hand wringing as well as hand washing is done away with. **If you do not care for these advantages** and simply want a power driven washer at a moderate price, the Wizard will please you. The Wizard Power Machine is fitted with pulley 8 inches in diameter, 2¼-inch face. Should be driven at 200 revolutions per minute. **Shipped from CHICAGO, PHILADELPHIA or factory in CENTRAL OHIO, whichever is nearest you.** Shipping weight, 95 pounds.

44H7537—Wizard Power Washing Machine for engine operation. Price..... **$18.95**

The Wizard Electric Washer is similar to the power machine described above, but is equipped with grooved pulley and high grade electric motor, complete with cord and plug ready to attach to any lamp socket.

Washing Machi

$99.75

All Latest Improvemen

Complete Enclosed Cabinet
Swinging Reversible Wringer
Oscillating Wood Cylinder

Our Allen Cabinet Electric Washer embodies every feature that is desirable in a washing machine and is sold on thirty days' trial.

You save $15.00 to $25.00 by buying the Allen, as it compares favorably in appearance, washing efficiency and durability with machines usually selling for $125.00 and up.

If you can find any washer that will do better work or which you think is better constructed, or which you think is a better value than the Allen, we want you to return it at our expense, and your money, together with freight you paid, will be returned to you.

The Allen is entirely enclosed, so your child can play about it with perfect safety. One hinged panel is locked by a simple catch, which is easily released so gearing can be exposed. Another small hinged panel is easily raised to expose the brass drain faucet. It is fitted with a standard full size power wringer, which is reversible and can be swung to various positi illustrated below. The outer casing and water contai built of a special grade galvanized iron and are practicall proof. The frame is securely supported by the heavy angles, which also form the legs, and machine is mou large, easy rolling casters.

The Allen Cabinet Electric Washer measures 37½ high, not including wringer, 24½ inches wide and 27 inch outside measurements. It is handsomely finished in enamel with green trimming. Extra tubs, bench and illustrated are not included. For stationary laundry tu page 732. For other laundry tubs and utensils see pag and 825. Shipped from factory in SOUTHERN MICH Shipping weight, 345 pounds.

44H7564—Allen Electric Washing Machine.
Price.....$

Showing the operation of the oscillating cylinder. The clothes are placed inside of this cylinder, which, in operation, rocks back and forth and dashes the clothes through the suds, cleaning them very rapidly and without wear or tear. You can safely wash anything washable, from the finest materials to the heaviest blankets. The cylinder can be easily removed if desired.

Wringing from washer into first rinse water.

While another lot of clothes is being washed, you wring clothes from rinse water into bluing water.

Wringing from water into basket, while ing another lot of cloth

With an Allen Washer the entire washing can be completed in a **remarkably short time, becaus** shown in above illustrations, the operations of rinsing, bluing and wringing can be carried on while are washing in the machine. No time lost when you wash the Allen way.

You'll Enjoy It!

THE "SANITARY SPECIAL" NON-ELECTRIC VACUUM CLEANER

Makes Homes Cleaner, Brighter, Healthier and Happier.

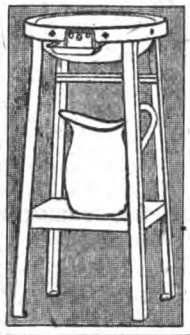
NO ELECTRICITY REQUIRED.

Nothing to get out of order. Requires no more effort to operate than an ordinary carpet sweeper.

Suits Every Home.
Suits Every Pocketbook.

Powerful suction gets dust and dirt. Revolving brush gathers up threads and lint. Costs nothing to operate. You don't need to have electricity. All you do is put it down on the floor and push. No work to it at all. Any child can push it around the room, **and it cleans in just the same manner** as electrically operated vacuum cleaners.

Is gear driven. The wheels drive gears propelling a fan, which in turn draws the dust, dirt and lint by SUCTION, just as do electric cleaners.



It is sturdy, well made, and will give you long service. The brush is removable, permitting you to operate the machine for suction cleaning alone, without brushing the surface to be cleaned.

Body is cast aluminum. Wheels are rubber tired. Bag is made of dust-proof fabric and readily removed for emptying. Actual weight, 8½ pounds. Shipping weight, about 10 pounds.

99H2141

Our "Best Made" Aluminum Waterless Cooker.

ROASTS AND COOKS MEATS AND VEGETABLES IN THEIR OWN JUICES—WITHOUT WATER.

Retains the natural flavor complete. No shrinkage or loss of nutriment. Cannot be scorched or burnt. Economical because it not only makes delicious and tender the cheapest and toughest cuts of meat, which cost about half the price of fancy cuts, but also requires less fuel, as only one-half the usual amount of gas is necessary. Apples baked in the Waterless Cooker have that luscious and delicious flavor that is not present when they are baked in the ordinary manner. Utensil of heavy gauge, solid aluminum, excepting extra bottom, which is steel. Furnished with booklet containing complete directions and recipes for preparing many delicious dishes.

Kantburn Kooker.

$1.20

Saves Fuel! For Roasting, Baking, Etc., on Top of Gas, Gasoline or Oil Stove.

Cooks without heating the kitchen. Used on single burner of any kind of stove or range. Consumes a great deal less fuel than required to heat an ordinary oven. Bakes potatoes, apples, bread, biscuits, pies, etc.; also for roasting, boiling, frying and toasting, heating flatirons, etc. Every kitchen should have one. Diameter of plate, 10¼ inches; seamless tin steel cover, 5 inches high. Shipping weight, 2¾ pounds.

99H2700—Kantburn Kooker (consisting of steel plate, wire rack and cover).
Price $1.20

Safety Kettle of Cast Iron. $2.80

The Ware That Improves With Age.

A modernized old fashioned kettle with improved safety cover for pouring the hot contents without danger of scalding or disfiguring your hands.

In addition to being used for all kinds of cooking or sewing, has a perforated tin plate for converting kettle into a steamer, thus permitting the cooking of dumplings or puddings over hot water or hot stews, making them lighter and more delicate than when boiled directly in the liquid. Cap., 8 qts. Shpg. wt., 13 lbs.

Dairy Supplies

$3.80 Wisconsin Pattern Riveted Milk Cans.

8-Gal.

We recommend these cans for wagon use, but for shipping purposes we recommend our Elgin Pattern Railroad Cans.

Made of smooth sheet steel, double seamed and riveted throughout. Neck and bowl drawn in one piece. Breast is joined to body in such a manner as to form a very strong and rigid edge. Heavy steel bottom is riveted to body. Wisconsin pattern cans are tinned and retinned, and inside seams are soldered, have full rounded breast and bottom and are easily cleaned.

BUTTER In Three Minutes!

The "Holstein" Butter Reaper

By Actual Tests Makes Butter From Sweet or Ripened Cream in From 3 to 5 Minutes.

The peculiar construction of the dasher gives a violent action to the cream and, without breaking their granular form, quickly extracts all butter fat particles, forming solid first quality butter in from three to five minutes' time.

Save Your Time! Save Your Strength!

Why waste valuable time using the old time slow and hard method of churning when by using modern methods you can obtain better results in but a few minutes' time?

Churn is light in weight and easy running. Can made of heavy tin plate and holds 3½ gallons. Churns up to 1½ gallons. Shipping weight, 23 lbs.

Dilution Cream Separators $3.90 10-Gal.

Separates cream from milk in three to four hours; gives sweet diluted milk, which is far superior to sour milk as stock food. Saves several hours' waiting for cream to rise. As water mixes with the milk, cream separates and rises to top; this can be watched through gauges. Heavy tin, securely seamed and soldered. Enameled on outside. Prices include tin tubes, strainer, faucet and legs.

Crystalline Farm Bells.

Every farm, no matter how small, should have a good bell. Our bells are standard in every detail and are unexcelled for service. The metal in crystalline bells is properly distributed to insure a clear, pleasing tone that can be heard for a long distance; and tone will always remain the same as when new. Will with use. We recommend size No. on the average farm.

Our "CHICKADEE" Galvanized Chick Feeder.

Without Rain Top for Indoor Use. 70c

The best device of its kind. Keeps the feed in, the chick out, prevents waste and with top keeps older birds from eating the chick feed, as well as protecting the feed from rain and sun. Indorsed by the world's greatest poultry experts, Prof. T. E. Quisenberry, Prof. H. R. Lewis, U. R. Fishel and others. Prevents pollution of the feed. Give chicks polluted feed and they are sure to die. Give them clean feed and they will live and grow. Use this feeder and save your chicks. Can be used for feed, water or sour milk with equal satisfaction. Galvanized trough, cast iron end supports. Length, 20 inches.

Our "Best Made" Garden Hose Outfits

COMPLETE HOSE OUTFITS SPELL HOSE ECONOMY.

$13.00 For 50-Foot Outfit.

Do you realize that, aside from the great convenience and cleanliness of keeping garden hose on a reel, the life of the hose is more than doubled thereby? The reel drains the water from the hose, thus allowing it to dry inside and pays for itself many times over.

"An Outfit You Will Be Proud Of."

This "De Luxe" outfit comprises our "Best Made" Red Corrugated Seamless Garden Hose, our "Best Made" Rubber Tired Stand Fast Hose Reel and a heavy cast brass hose nozzle. One of the best Garden Hose Outfits ever offered.

Steel Cultivator

$8.45

Compound Lever Expander.

For other cultivators see pages 916 to 918.
Send for Farm Implement Catalog 645GC.

For larger Farm Implements see pages 908 to 918.

A high quality garden cultivator. Solid and rigid in construction. Has horse hoes, lever wheel, rear wheel depth regulator and outside handle braces. Lever wheel and rear wheel depth regulator enable operator to control the working depth of teeth. This enables the cultivator to run steadily and relieves the operator from strain of holding cultivator from running too deep. Teeth can be raised entirely out of ground for moving from one field to another. Lever expander widens or narrows width of cultivator to suit different widths of rows. Shipping weight, 82 pounds.

99H6231—★Price, complete..... (★ Not Mailable.) $8.45

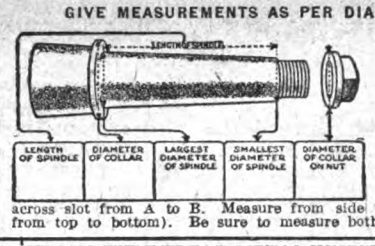
"Wearwell" Steel Wheels for Farm Wagons and Trucks



MAKE STRONG, PRACTICAL AND ECONOMICAL VEHICLES. WILL OUTWEAR SEVERAL SETS OF WOOD WHEELS.

$6.65 For Metal Wheels complete with skeins to fit see page 852.

Low wide tread steel wheels are just the thing for use on soft, spongy or freshly plowed ground. They pull easy and do not cut up your field or roads. Also save useless waste of energy required to load and unload the high truck with wooden wheels. **Made to order only and shipped direct from factory near CHICAGO. We usually make shipment in from 5 to 10 days after order is received. Metal wheels are not mallable.**

GIVE MEASUREMENTS AS PER DIAGRAM BELOW.

MEASURE BETWEEN A-B

Cut a piece of cardboard, as shown above, to fit over each part to be measured and then measure across slot from A to B. Measure from side to side of spindle (not from top to bottom). Be sure to measure both front and rear axles.

EXTRA STRONG WIDE TREAD METAL WHEELS.

Sarven Pattern Buggy and Light Wagon Wheels

COMPLETE WITH ROUND EDGE TIRES.

IMPORTANT! Read This Before Ordering Wheels.

Sarven Pattern Wheels are furnished in the white only, oil finished, not painted or varnished, and in two heights, as follows:
LOW WHEELS—Fronts, 35 inches high; hinds, 39 inches high.
REGULAR WHEELS—Fronts, 39 inches high; hinds, 43 inches high.

Be Sure to State Height Wanted. Wheels are furnished without boxes. We do not set axle boxes in hubs. We Cannot Furnish Painted Wheels.

Extra Grade Wheels.

Our Extra Grade Wheels are well made, properly fitted and trued up. White straight grained second growth seasoned hickory spokes. Rims are screwed on each side of each spoke to prevent splitting. Have extended malleable flanges and tires bolted between spokes.
Extra Grade Wheels cost a little more than ordinary wheels, but will give you double the service and save you money in the end.

FULTON CIRCULAR MILL SAWS.

Made to order only and shipped from factory near CHICAGO, usually within ten days. In ordering be sure to give us all specifications of saw desired as mentioned below, so we can make the saw to suit your requirements and avoid the delay which would be necessary if we have to write you for additional information. All saws 40 inches and larger should have 2-inch mandrel holes, with two ⅝-inch pin holes, spaced 3 inches center to center.

IN ORDERING BE SURE TO GIVE ALL SPECIFICATIONS AS FOLLOWS: Number of teeth wanted in saw, gauge at rim, gauge at center, whether spring or swage set, temper, speed, feed, whether to cut hard or soft wood, right or left hand, size of mandrel holes, size and distance center to center of pin holes.

Fulton Inserted Tooth Mill Saws.

We will make any size saw with more teeth, if desired, at an additional price of 40 cents for each extra tooth. Revolutions per minute, 500. Feed, 4 inches. **Shipped direct from factory near CHICAGO.**

EMERY WHEEL STANDS AND COLUMNS

Stands and Columns Are Sold Separately.

If you desire grinder mounted on column, order a column at the same time you order the stand. Stands are equipped with dustproof brass oil cups and furnished with bolts for attaching to columns. Columns have raised edge around top to prevent tools from falling off, are bored and furnished with lag screws for fastening to the floor. These grinders are well made, properly fitted and guaranteed to give satisfactory service.

Red Stitched Canvas Belts in Cut Lengths.

Made of heavy cotton duck or canvas, woven very hard and with rows of stitching close together. Thoroughly soaked in oil to keep it flexible and waterproof and then painted red with a special composition paint which gives it an excellent friction. Thoroughly stretched before leaving the factory. Especially recommended for threshers, sawmills, quarries, woodworking plants and similar uses.

Our "Garage Special" Produces Profits

Only to Be Compared in Value With Lathes Sold at $225.00 or More.

$142.00 As Illustrated.

Designed and manufactured exclusively for us to meet the demand for a sturdy, practical, accurate and economical lathe capable of handling the thousand and one metal working jobs that come to garage, machine and repair shops.

A GUARANTEED QUALITY LATHE AT A REMARKABLE PRICE.

A screw cutting engine lathe adaptable for the garage, machine and repair shop, for electrical work, or any place where fine, accurate machine work is required. The headstock is equipped with an improved reverse, the spindle cone has 3-step for 1-inch belt, spindle has ¾-inch hole and the centers are No. 2 Morse Taper. The bearings are the best phosphor bronze and are adjustable for wear.

The tailstock is offset to allow compound rest to swivel parallel with the bed and is provided with set over for turning taper.

The carriage is fitted with a graduated compound rest which may be set on any angle for turning or boring. The feed of the carriage is operated by clamping the split nuts on the lead screw.

The lathe will cut threads 4 to 40, right or left, including 11½-inch pipe thread, and by compounding gears many other threads may be cut.

The equipment as shown in the illustration is included in the price of the lathe and consists of large and small face plates, compound rest, two steel centers, center rest, change gears for screw cutting, chuck back fitted to spindle nose, adjustable stop for screw cutting and double friction countershaft.

The lathe swings 10½ inches over the bed, length of bed is 4 feet, takes between centers 29½ inches and swings over the carriage 7¼ inches. Tool post takes ⅝x⅝-inch tool, countershaft speed is 290 revolutions per minute. Approximate weight, crated ready for shipment, 500 pounds.

Shipped direct from factory near CHICAGO.

99H8275⅓—"Garage Special," complete as illustrated. Price..... $142.00

99H8276⅔—Bench Lathe, same as above, with short legs. Shipping weight, 450 pounds. Price..... $132.00

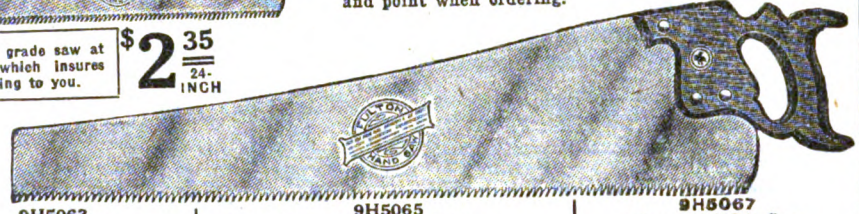
FULTON HAND SAWS



Fulton Hand Saws are of standard grade, and for all ordinary work where an extra fine saw is not required they will give satisfactory service. Are made of good grade saw steel, ground four gauges thinner on the back; are hand filed, carefully set and polished. Handle is of correct shape and is properly attached.

If you buy a Fulton Saw and are not satisfied with it in every way we will return your money on request. Straight and skew back patterns, as below, in lengths and points as given. Be sure to mention length and point when ordering.

A high grade saw at a price which insures a big saving to you.

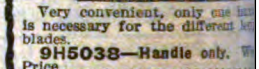
Fulton Nail Cutter Saw



$1.90

Mechanics—Don't spoil your high grade saws on repair work, house wrecking or second hand lumber. BUY ONE OF OUR NAIL CUTTER SAWS. They are especially suited for carpenters, plumbers, electricians, tinners or anyone who requires a saw that will actually cut right through wood, nails, sheet metal, wire, gas pipe, etc. This Fulton Nail Cutter Saw is made of special saw steel, hand filed and tempered by a process which makes it exceedingly hard, but very tough. The Fulton Nail Cutter Saws can be filed when they become dull, but do not require setting, being taper ground. Made in one size only, with 18-inch blade. Weight, 1¼ pounds.

$2.20 — The Improved Fulton Special Ratchet Bit Brace

Frictionless roller bearings. Well made and nicely finished throughout.

SWEEP—High grade steel, 15/32 inch in diameter.

HEAD—Select hardwood, steel clad to protect it from being split or bruised. It is attached to the sweep by means of a steel quill that revolves on roller bearings.

HANDLE—Select hardwood, babbitt metal bushings inserted in the end to prevent it from splitting. Revolves on patent adjustable tapered steel collars and bearings. By means of set screws any looseness from wear may be instantly taken up.

RATCHET—Simple in construction, easily operated, strong and durable. The ratchet teeth are cut on the end of the steel body that revolves in the socket attached to the sweep and are concealed and protected by this socket.

SLEEVE—Made of malleable iron; has knurled grip.

CHUCK—Has forged steel jaws. Takes regular square shank bits and round shank bits up to ⅝ inch in diameter. Will take a large size expansive bit.

Frictionless Roller Bearing.

Machinists' Suit Case Pattern Tool Chests.

A convenient chest for carrying tools from job to job. Light in weight, yet strong enough to stand the knocks and bumps of everyday use. The lid when raised slides back out of the way like the door of a sectional bookcase and when closed swings down in front of the drawers, locking all of them. Equipped with lock and key and well finished throughout.

Gasoline Blue Blast Blow Torch.

Saves Plumbers' Bills.

For soldering, burning off old paint, thawing frozen water pipes, etc.

A necessity in every workshop.

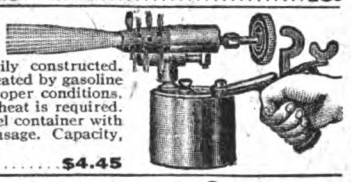
For soldering, burning off old paint, thawing frozen water pipes, tempering tools, vulcanizing automobile tires, etc. In the garage workshop it is a necessity.

It is a portable blast furnace, giving intense heat wherever you need it. For plumbing repair jobs around the home it pays for itself the first time used.

Has soldering copper attachment. High quality brass.

42H1450—Capacity, 1 pint. Shipping weight, 4½ pounds. Price..... **$3.65**

42H1451—Capacity, about 1 quart. Shipping weight, 5½ pounds. Price..... **$4.20**



Brass Spray Nozzle.

Fits above torch for exterminating bugs, etc., or for any other purpose for which a fine stream of gasoline is desired. Fits quart size only. Shipping weight, 8 ounces.

42H1420—Price..... **15c**

Gasoline Brazing Torch.

Gives Intense Heat.

With soldering copper attachment. Heavily constructed. Neat, compact design. No pump. Pressure created by gasoline vaporizing. Gives 1,800 degrees heat under proper conditions. Suitable for all purposes for which an intense heat is required. Can be held in any position. Copper plated steel container with oxyacetylene welded joints; adapted for rough usage. Capacity, ⅔ pint. Shipping weight, about 4½ pounds.

42H1452—Price..... **$4.45**

Genuine Trimo Pipe Wrench.

A very satisfactory, widely used pipe wrench. Used by best tradesmen. The special feature of this wrench is its strength and durability. Grips the pipe but does not crush it, readily releasing its hold. Made of steel with hardened jaws. Movable jaw and nut are made with round top and bottom thread. Guaranteed not to strip or burr. Parts can be renewed at a small expense.

Prices on repairs for Trimo Wrenches quoted on request.

$14.50 FULTON All Steel One-Piece ANVIL $21.00

75 Pounds — Rings Like a Bell. — 125 Pounds

TAKES ¾-IN. HARDIES.

Tempered and Finished Right.

Molded in one piece of fine alloy steel; the face cannot loosen or come off.

ONE-PIECE CONSTRUCTION insures anvil against breaking at the waist.

Correct Design.

Horn is long, well shaped and round its entire length, permitting the forging and welding of rings at any point. Tail is long and formed so as to permit the bending of small V shapes. Base has a wide spread, insuring stability and prevents tipping when doing heavy work near ends of anvil.

Chain Harness
For Horses or Mules

There is always much rough work around a farm that requires the use of a strong harness, but where the question of cost is to be considered in such cases, the purchase of a good chain harness is advised.

"The Rough and Ready Work Harness."

We believe that every farmer in the country would, in a short time, find the possession of one or more sets of chain harness a good investment as well as a great convenience. They are also extensively used in the lumber districts and by contractors doing railroad work or work on public roads.

We are especially well prepared to supply our customers with harness of various styles to suit their individual needs. **The quality is guaranteed and our prices will stand searching comparison.**

To Possess Good Work Harness Is Wise and Profitable

May we suggest to you, as a prospective harness buyer, the careful consideration of the harness shown here? They represent the popular styles used extensively in different localities throughout the United States and, in our opinion, are decidedly "good buys."

We Don't Overlook **Quality**—that which gives good harness its **Value.** The real (in fact, the ONLY reliable) test of harness is the length and quality of service it gives. This can be decided only by actual use, as even poor harness may **look fine** when it is new. Here is where our guarantee comes in. We guarantee to replace free of charge any part of a harness that wears out **at any time** because of poor quality of material or workmanship.

WE JUDGE QUALITY BY ACTUAL SERVICE

"Ambrose" Farm Harness.

A plain leather farm harness that has an extensive sale. It is furnished with either the all leather traces, with hame tugs, or the full length steel wire cable traces, leather covered. The combination front and winker brace on the bridle and the single strap leather pads are favorite features in certain localities. The whole harness is substantially made and offered at a reasonable price.

Look to the Quality and Quantity of Your Harness

Now comes the season for the greatest and most profitable use of harness. Make sure that you are fully supplied with harness for all the horses that you intend to work on your land or in connection with your business.

Quite likely the harness you have has given its full measure of service and should have been replaced some time ago. On these pages we show a wide range of styles—all harness of quality—and fully guaranteed, so that YOU SIMPLY CANNOT LOSE. It is to our interest to supply you with harness that will stand the strictest tests of service or we will exchange, free of charge, any part that does not wear as well or as long as YOU THINK IT SHOULD. Could any guarantee be fairer or more liberal?

Our prices are based on lower costs of materials, therefore, our customers may order with the knowledge and assurance that our prices are as low as they can possibly be made.

WHY NOT BUY A NEW SET NOW?

Read Our Guarantee on Harness

So that our customers may fully satisfy themselves of the good quality and workmanship of our harness, we invite them to send us their orders with the express understanding that the entire harness or any part of it may be returned at any time and at our expense, if its use should disclose any defect whatsoever in the material or construction.

The leather used in our harness is selected with care. Every strap must be of good quality, carefully cut, fitted, stitched and finished, of maximum strength, so as to warrant the strong guarantee by which we back it.

"Quality first" is the thought kept in mind while our harness is in the making, which assures well made and thoroughly efficient harness that will last for years if ordinary care is taken.

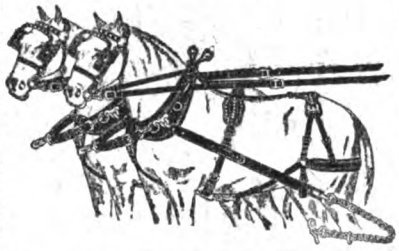
What Makes Good Harness?

FIRST—The leather must be good. In our harness this is assured by the use of leather that **we know**—of which we supervise the tanning. Good leather is produced by right methods of tanning, and these methods put life and strength into the hide.

SECOND—The leather must be cut so as to place the strongest parts where the heaviest wear comes. This is done by experienced workmen who have spent years at the trade and "know how."

THIRD—Good fitting, stitching and riveting—branches of our harness making that are done by some of the most efficient mechanics in the country.

RESULT—Harness unexcelled in strength and appearance, that we can and do guarantee in the strongest terms. Our harness gives daily satisfaction and valuable service to thousands of users.



The "Burton" Harness.

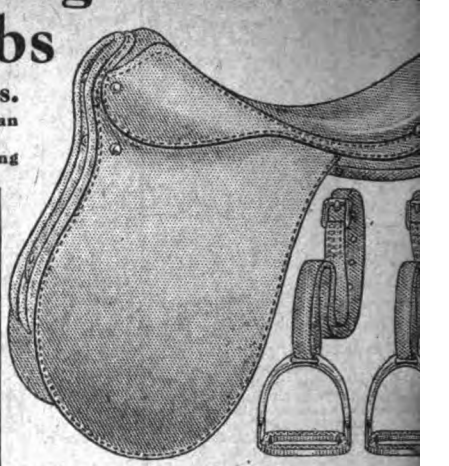
Fashionable Equipment for Riding Academies & Equestrian Clubs

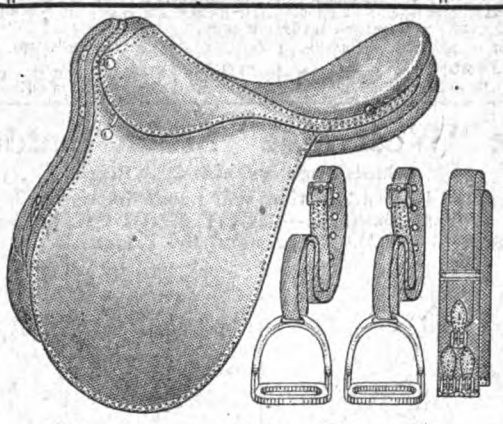


The Popular Colonial Style Saddles.

Enjoying Favor Just Now on Numerous American Bridle Paths.

For the Use of Men or Women—Pleasure Riding or Exercise.

These are American made saddles, constructed of domestic and imported materials and built along the popular and correct Colonial riding saddle lines. The trees are standard cut back style, with safety release bar for the stirrup straps. The seats, jockeys and skirts are of genuine pigskin, **imported;** the stirrup straps of **imported** cowhide leather and the girths of **imported** Colonial wool serge. The pads are soft calfskin covered and built up of two layers of fine felt and one layer of sheepskin wool pelt nearest the horse's back. These pads make the saddles delightfully easy on the horse and produce that comfortable, springlike effect so much wanted by the majority of riders. These saddles cannot fail to please any owner of a saddle horse and will be admired by all judges of first class horse and leather goods. Prices considerably higher than ours are generally asked and cheerfully paid for saddles similar to these.



The "Brighton" Park Saddle

Light Russet Color.

Regular 17-inch Colonial style tree, deep cut back, recommended by many experienced riders. The seat is of imported pigskin and very roomy, so that the weight is distributed over a large surface of the horse's back and the rider enjoys perfect comfort. The back of the seat or cantle is made in two different shapes, round or fantail. The skirts, of genuine imported pigskin, are 11½ inches wide and 19½ inches long from center of seat; the stirrup straps are of fine imported cowhide leather, 1¼ inches wide, with "Never-Rust" park stirrups; the calfskin covered pad is remarkably easy on the horse; the girth is of imported Colonial double serge, Fitz-William style. Weight of saddle, about 14 pounds. Shipping wt., about 20 lbs.

10H47120¼—Saddle with round cantle. Price... **$47.85**

10H47120¼—Saddle with fantail cantle. Price... **$47.95**

The "Ascot" Park Saddle

Light Russet Color.

Designed for those who ride with the stirrup leathers extended to allow for only a slight bend at the knee. The cantle is slightly raised, thereby deepening the seat. It assures to the rider the highest degree of comfort and provides added safety, which two features make this particular style of saddle especially desirable for the use of horsewomen. Made with the large 18-inch Colonial style cut back tree; imported pigskin seat, jockeys and skirts; skirts are 21 inches long from center of seat and 12½ inches wide. The calfskin covered pad, described at the top of this page, is an important feature; imported cowhide leather stirrup straps, 1¼ inches wide with "Never-Rust" stirrups. Fitz-William style double cinch of imported Colonial wool serge, with three buckles at each end. Weight of saddle, about 15 pounds. Shipping weight, about 21 pounds.

Colonial Style Halter.

This is the correct style of halter for fine saddle horses and the kind generally used in European and Colonial stables. It is made of fine russet leather, selected for its firmness and uniformity of quality. All straps are cut 1 inch wide and the laps are sewed; has round throatlatch, double chin strap and is trimmed with heavy brass buckles and rings. Shipping weight, each, about 2 pounds.

The Genuine "Baker" Horse Blanket.

The Favorite of Turfmen and Riding Clubs.

The Baker trade mark—a horse—is stamped on the inside of each blanket, as a mark of distinction and guarantee of merit. Those who have used the Baker blanket are familiar with its remarkable construction and many good points. For the benefit of those who have not, we briefly describe its nature. It is made of an extra heavy, closely woven, cotton fabric plaid cloth of a texture and strength not usually found in horse blanket material. **"A wonderful piece of goods,"** is generally the comment of all who examine it for the first time and realize its splendid wearing properties.

The Baker blanket is reinforced and bound all around and along the back; has a double surcingle arrangement stitched securely to the blanket, that crosses under the horse's body and a long stay extending past the rear surcingle. It fastens at the front with buckle and billet. A size for small, medium and large horses.

10H15533¼—Size, 68 inches. Shipping weight, about 8 pounds. Price, each..... **$8.50**

Plow or Wagon Lines.

10H2172—"Dixie" Plow or Wagon Lines. Made of B grade harness leather; ⅞ inch wide. Snaps riveted on and riveted laps. For general farm use this line will give very satisfactory service. Shipping weight, per set, for two horses, about 4 pounds.

15-Foot Lines. Per set..... **$3.85** | 18-Foot Lines. Per set..... **$4.35**

"Hagerman" Double Lines.

10H2155—Made of B grade black harness leather, the kind used in medium priced team harness. Special buckles and snaps at the bits. Bar rein buckle in the center. Full length and 1 inch wide. Shipping weight, per set, about 4½ to 5 pounds.

15-Foot Lines. Per set..... **$4.55** | 18-Foot Lines. Per set..... **$5.27** | 20-Foot Lines. Per set..... **$5.65**

"Waterman" Two-Horse Lines.

Three rows stitching in the laps. Special line buckle that will not catch your fly nets. Extra good quality black leather, the standard of value for years. The heavy thread used in sewing the laps and the special line buckle makes this one of the best team lines sold: 1 inch or 1⅛ inches wide. Shipping weight, per set, about 4 to 6 pounds.

10H2165—Lines 1 inch wide.

15-Foot Lines. Per set.. **$4.95** | 18-Ft. Lines. Per set.. **$5.75** | 20-Foot Lines. Per set.... **$6.25** | 22-Foot Lines. Per set.. **$6.75**

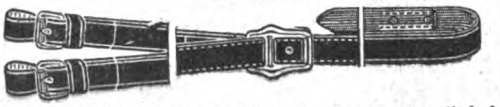
"Sawyer" Two-Horse Lines.

Made of heavy B grade black harness leather, with three rows of stitching in the laps. Round center bar buckle and special buckle and snap at the bits. Shipping weight, per set, for two horses, about 5½ to 6 pounds.



10H2170

1½ inch by 18 feet. Per set.... **$6.19** | 1½ in. by 20 ft. Per set.. **$6.59**

10H2171

1¼ inch by 18 feet. Per set.... **$6.79** | 1¼ in. by 20 feet. Per set.. **$7.25**

"Jackson" Farm Harness Lines.

10H2176—Extra good quality stock, durable and stitched at the center; stitched and riveted laps; heavy japanned roller buckles at bits, special center buckle; 1 inch wide. Two lengths. This is an exceptionally strong and serviceable line. Shipping weight, per set, about 4½ and 5 pounds.

18-Foot Lines. Per set..... **$6.50** | 20-Foot Lines. Per set..... **$6.95**

Woven Web Team Lines.

Made of black webbing, 1¼ inches wide. For double harness; snaps riveted on. Shipping weight, per set, about 2½ to 3 pounds.

We sell these lines for those of our customers who want a low priced article for temporary use, but recommend the purchase of leather lines for more satisfactory service, as web lines will wear badly or unravel, in a short time, where they rub through the hame terrets or backband rings.

10H2159—18 ft. long. Per set..... **$2.10** | **10H2160**—20 ft. long. Per set..... **$2.25**

Team Breeching Lead-Ups.

HEAVY TEAM OR WORK TRACES.

Leather Covered Flexible Galvanized Steel Wire Cable Traces.

Made of same material and constructed on same principle as that used for elevators, cranes, dredges and other weight lifting machinery, which must be of great strength. Entirely covered with leather, stitched at top and bottom, two or four rows. Cable traces are stronger than leather traces, cost less and will wear better and last longer. Each trace withstood a pulling test of over 2,000 pounds dead weight. These traces should be used by every owner of harness who has in mind the idea of long and satisfactory service at low cost. Traces are 6 feet 2 inches long, not measuring heel chains. Shipping weight, per set, about 22 pounds.

10H2765—Cable Traces, leather covered and two-row stitched. Price, per set, **$16.50**

10H2767—Cable Traces, leather covered and reinforced, four-row stitched. Price, per set, **$17.50**

Custom Made Concord Truck Traces.

Body made up 6 feet 4 inches long. Two-ply, with an all leather filling. Fitted for bolt at one end and with six-link heel chain at the other. Heavy bellyband billets. Shipping weights, per set, about 14, 17 and 20 pounds.

10H2754—1½ inches. Per Set, **$16.75**
10H2755—1¾ inches. Per Set, **$18.25**
10H2756—2 inches. Per Set, **$21.85**

Our Horse Collars Are Suitable for Use in Any Part of the United States

Duck Collars for Farm Work.

The "Jackson."
10H3404¼

Canvas collar with heavy web rim. Half Sweeney pattern for horses with thick necks and big shoulders; wide leather top pad, buckle top; split wear leathers at hame terrets and draft, around entire bottom of collar; cloth face, 18-in. draft. Well stuffed and splendidly made throughout. Shipping weight, about 9 pounds.

Size, In.	Each	Size, In.	Each
17	$2.45	21	$2.57

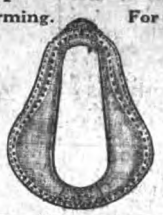
The "Weston."
10H3405¼

Duck horse collar, heavy rim; shoulder and face well stuffed; split leather hame chafes at draft and terrets. Buckle top, leather pad. 17-in. draft. Shpg. wt., each, 8½ lbs.

Size, In.	Each	Size, In.	Each
17	$1.80	21	$1.84
18	1.81	22	1.85
19	1.82	23	1.86
20	1.83	24	1.87

One kind is the same as another in all its essential points. "Proper fit" is the most important consideration in making your selection. Our collars are built on standardized collar blocks—wide blocks for horses, narrow blocks for mules. Decide of what material you wish your collars made, leather or duck, what size draft you need and how heavy a collar is the most suitable for your particular work. Be sure to give the proper measurement, as explained below, and you can then order your collars from us with confidence that they will fit your horses' necks exactly and move any load that you are accustomed to pull **with any style of collar you may have used heretofore.**



The Right Way to Measure Horse Collars.

Measure your horse's neck from top to throat, where the collar sets, **on one side only and in a straight line.** The number of inches will be the size needed.

Three Splendid Values Here.

For Farming. **For Teaming.**

The "Boston."
10H3443¼

Heavy Eastern team collar with hair face. Easy on the horse's shoulder when pulling a load. Black leather; thong stitched. Buckle top; leather pad. Draft, 16 inches. Shpg. wt., about 8 to 10¾ lbs.

10H4879¼

$14.75

Eclipse Hand Power Sheep Shearing Machine.

The body and stand of this machine are the same as those used on the Eclipse Clean Cutting Horse and Cattle Clipping Machine, the difference between the two machines being in the shaft, head and knives. The sheep shearing machine has a flexible jointed, ball bearing arm shaft in place of the web covered coil chain drive shaft which is on the horse clipping machine.

This machine is furnished complete with the Eclipse ball bearing sheep shearing head and four combs and cutters. Buy the Eclipse and make sure of getting a machine that for shearing efficiency is most reliable and which is fully guaranteed. Shipping wt., about 45 lbs.

10H4883—Extra Cutters. Shipping weight, 3 oz. Price, each.....**16c**

10H4884—Extra Combs. Shipping weight, 4 ounces. Price, each.....**47c**

ABOUT REPAIRS—After you have finished your shearing or clipping, send the cutting head and knives to us to be overhauled. We will charge you only for any new parts needed and for sharpening the knives. **We charge 50 cents per pair for sharpening knives of horse clipping machines** and 35 cents per pair for those of sheep shearing machines. Send parts to us by parcel post, and instructions in a separate letter, including postage to return the goods to you. Eight to ten days' time is required for repairing and sharpening combs and cutters.

Eclipse Sheep Shearing Attachment for Horse Clipping Machine.

10H4681¼—The attachment consists of jointed ball bearing arm shaft with sheep shearing head and four pairs of combs and cutters, to attach to the "Eclipse" horse clipping machine in place of the web covered flexible chain shaft and horse clipping head. If you now have the "Eclipse" Clean Cutting Horse Clipping Machine you can easily convert it into a sheep shearing machine by the use of this attachment. Shipping weight, about 10 pounds. Price **$10.75**

Cutting Head for Horse Clipping Machine.

10H4685 Eclipse Clean Cutting Horse and Cattle Clipping Machine Head. Shipping weight, 1½ pounds. Furnished complete with one pair of knives.

$3.25

10H7771—Harness Leather Bellies, in pieces weighing from about 4 to 8 pounds each, used for repairing or making light strap work.
Price, per pound **27c**

Bark tanning insures for our harness leather uniform good quality. It is plump, well tanned, thoroughly curried and finished, will wear long and give excellent service. Our harness leather is selected from packers' steer hides and we guarantee it to be the equal of any harness leather sold. Weights run from 16 to 24 pounds per side, and backs from 13 to 19 pounds each. We will send you as near the weight you order as we can. **We do not cut the sides or pieces.**

Special Note—Owing to the uncertainty of the leather and hide market, the prices on leather are subject to change without notice.

Myer's Famous Lockstitch Sewing Awl.

One of the handiest tools you can have for the house or barn. For repairing harness, saddles, shoes, carpets, rugs, tents, awnings, etc., it is invaluable. Fine Hand Forged Steel Bits and Spurs.

Hand forging is the surest method known, as well as the oldest, of manufacturing bits and spurs of quality and as near perfect in construction as possible. Very seldom is a flaw found in a piece of hand forged steel, and for that reason we most strongly recommend the use of these goods to owners of spirited or vicious saddle horses.

10H8132—"Kelley" Cowboys' Hand Forged Bit; very strong; 5-inch low port mouth bar, 6-inch cheeks, blued finish. Shipping wt., about 1½ pounds.

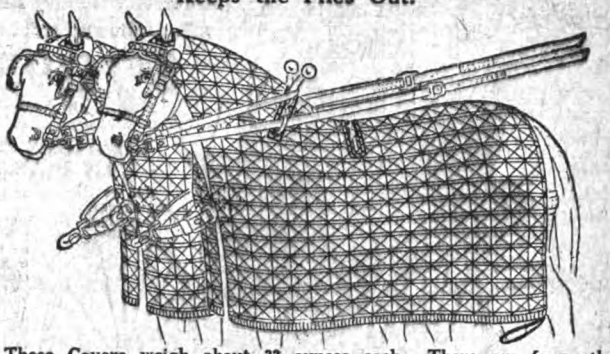
ination Fly Net Covers and Lash Nets.

are among the most practical horse covers for the Summer They may be used to good advantage when the horse is in the well as when in harness. The cotton scrim netting or burlap flies from the back and the cotton cord lashes dangling on the across the breast give protection to the breast and lower part of The lashes are fastened through a woven web bar stitched rlap or netting. Length, about 60 inches along the back, which he average size horse. Shipping weight, each, about 1¾ pounds.

68—Made with plain burlap body.
ch, for one horse.....**$1.50**

10H9069—Made with woven scrim netting over the body.
Price, each, for one horse.....**$2.00**

Special Glazed Cord or Shoe String Buggy Net.



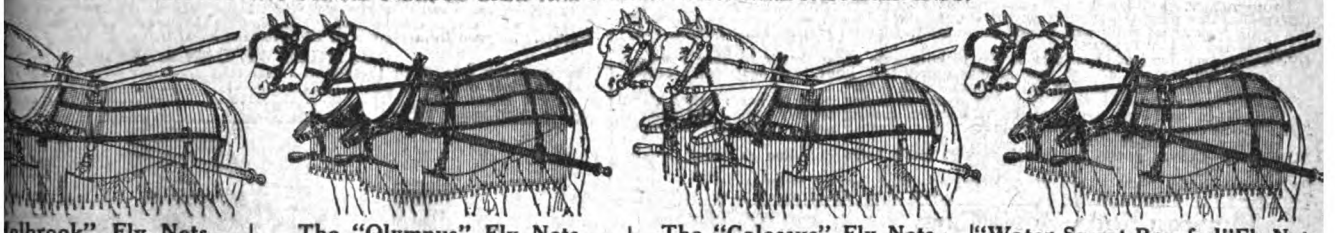
Made with hand braided bars with lashes braided through the bars to prevent them slipping. A net that is light and durable but low in price. Seventy lashes in the body with breast piece extra. Black lashes with white and black bars. This net has a large sale. Shipping weight, about 1⅝ pounds.

10H9188—Price, each.....**$2.50**

Old Gold Color Woven Net Fly Covers

A Woven Cotton Scrim That Allows Proper Ventilation and Keeps the Flies Out.

These Covers weigh about 32 ounces each. There are four other weights made. One is heavier and three are lighter than those we offer. When ordering it will be well to keep this information in mind.



Highly recommended for hot weather when the flies are bad. Comfortable for the horse, being light weight. These covers will be found very practical, both for excluding the fly and keeping the horse cool. The material is a special weave of cotton scrim netting through which air readily circulates, made specially strong for fly covers. Leather and duck trimmed. Hemmed edges. Shipping weight, each, about 2½ pounds.

10H9059—100-Inch Fly Cover.
Price, each, for one horse.....**$2.15**

10H9060—110-Inch Fly Cover.
Price, each, for one horse.....**$2.30**

32H7043	With back No. 4. Set of four	2.79

ARROW HEAD CULTIVATOR SHOVELS.

A new shaped shovel, the object of which is to better pulverize the soil, cover more space and with lighter draft. Made of soft center steel, hard tempered. The 5½-inch size weighs about 2½ pounds. The 7-inch, about 3 lbs.

32H7046—Shovel to fit 1¼-inch round standard. Each, 5½-in., **56c**; 7-in. **70c**

32H7047—Shovel to fit slotted standard (see No. 3 back at top of column). Price, each, 5½-in., **57c**; 7-in. **71c**

CULTIVATOR SWEEP.

Made of solid steel, drawn and polished, furnished in 8 and 10-inch sizes, with adjustable back to fit round shanks 1⅛ and 1¼ inches diameter, also with No. 3 shovel back as shown at top of column to fit Bradley and other cultivators having slotted standard with convex front. Weight, pounds and 3½ pounds, respectively.

32H7044—Cultivator Sweep for round standard. Price, each, 8-inch, **39c**; 10-inch **45c**

32H7045—Cultivator Sweep for slotted standard (see No. 3 back at top of column). Price, each, 8-inch, **40c**; 10-inch **46c**

LISTER SHARES

Finished and fitted with bolts. Made of solid steel of natural temper, known to the trade as crucible steel. **When ordering be sure to mention name of lister and marks on back of old share if any.** It will be

High Crown, Square Cut Pattern.

Low Crown, Forked Pattern.

well to send us a full size paper pattern of the old share showing shape and location of bolt holes. Average shipping weight, about 10 pounds each.

32H7087—Lister Share, low crown, forked pattern. Price, each **$1.58**

Canton, 14-Inch. No. 6. Deere, 14-Inch. O14 and 54. Emerson, 14-Inch. EL14. Moline, 14-Inch. 230½. Oliver, 14-Inch.

32H7088—Lister Share, high crown, square cut pattern. Each **$1.73**

Case, 14-inch. Regular. Rock Island, 14-Inch.

David Bradley Shares, Shovels and Other Parts for David Bradley plows, cultivators, mowers, etc., will be found listed with the implements on following pages.

To Fit Leading Makes of Implements.

We guarantee these repairs to fit the plows or implements for which they are intended whenever the original parts made by the manufacturer will fit.

PARTLY FINISHED PLOWSHARES.

Extra Quality. Made at the Bradley Factory.

Fully welded and point finished. Can be easily fitted to the different makes of plows by any blacksmith. Soft center shares must be tempered after fitting. Landside extends at heel and is long enough to cut to fit any plow. **State size and whether right or left hand is wanted.** Shares weigh 13, 14 and 15 pounds packed for shipment.

GUARD BOLTS. To fit above guards. Tell us name and number of guard; bolts vary in size and style of heads. Put up in boxes of twenty—ten long and ten short bolts, making a full set. Weight, per box, about 2½ lbs.

32H7110—Box of 20 Guard Bolts. Price **48c**

FINISHED FITTED PLOWSHARES

With Bolts Ready to Attach.

Right Hand Only.

Right Hand Shares to fit plows only as listed. Solid Steel Shares (known to the trade as crucible) should be used in sandy, gravelly or stony soils which are apt to break hard tempered shares. No manufacturer can guarantee hard tempered shares against such breakage or against breakage through improperly bolted to the plow bottom.

Hard Tempered Soft Center Steel Shares are for use in sticky soils and ground practically free from stone, otherwise we recommend the use of Solid Steel Shares.

IMPORTANT—READ BEFORE ORDERING.

When ordering give our catalog number, size wanted, the name or make of your plow and figures and letters which appear on the back of share. Average weights, 12, 14 and 16 pounds.

Shares for Bradley plows are listed on following pages with our plows.

VEYOR CANVASES FOR BINDERS

COMPLETE ASSORTMENT FOR ALL LEADING MAKES.

Elevator, platform and adjuster or butter conveyor canvases to fit the leading makes of binders. They are of standard weight, size and construction. We guarantee them to be made of as good material as the original ones on a new machine, and they will fit perfectly if you will give the correct numbers and sizes when ordering. End of canvas forms a flap which covers the straps and buckles. Slats are of smooth finished hardwood, well riveted, and stapled to the canvas.

Number and sizes listed below correspond with those printed on the canvases received with your new machine. **State size and name of binder, number and size of canvas, and whether for upper or lower elevator.** If impossible to find numbers and sizes on old canvases, use a string and measure around rollers to find length, and for width measure from outside to outside of canvas guides on your binder. Our measurements are from buckle to end of strap. A new canvas will stretch from 3 to 4 inches after being exposed to the sun a short while. We do not furnish canvas other than with numbers and sizes

Quality Guaranteed.
120—CONVEYOR CANVASES.
w. We include with each canvas a tightener or buckle device which makes it an easy matter to draw up in the buckle without injuring the strap. Platform conveyors weigh about: 6 feet, 13 pounds; 7 feet, 15 feet, 16 pounds. Upper and lower elevators, 10 pounds. Adjusters, 2 pounds.

David Bradley Garden City Clipper Walking Plow

Every David Bradley plow is sold subject to a fair test in **your own field** and with the standing that it must please you perfectly, that it must satisfy you both as to quality of mate work performed, or we expect you to return it to us at our expense and we will return to you purchase price, together with the freight charges you paid.

MOLDBOARDS, SHARES AND LANDSIDES are made of hard tempered soft cente SHARES are 5/16-inch thick and have reinforced points, insuring long wear.

MOLDBOARDS are double shinned, that is, an extra thickness of hard steel is welded o the front of the moldboard, the point where the wear is the greatest.

LANDSIDES are medium high and are double thickness at the heel, wh wear is the greatest. They are bolted to an inner steel landside bar, which is welded to the steel frog underneath the moldboard and share.

TEMPERING: Moldboard share and landside are all uniformly h pered by the David Bradley process, insuring long wearing and easy qualities. They are carefully ground and highly polished, the grindi plow bottoms being done in the same direction the furrow slice follow moldboard. That is one reason why David Bradley plows scour so w

STEEL BEAMS are made of double beaded high quality beam st are heavy enough to insure ample strength and are formed with hig as to clear in trashy land. Clevises are malleable iron, broad and a in all directions. Beams on 12 and 14-inch plows are set for two h on 16-inch plows for three horses.

WOOD BEAMS are made of first quality o are rigidly braced and can be adjusted to cut less land. **Right hand only.**

HANDLES are first quality steam bent oak attached and braced to the beam with flat ste

For Coulters, Gauge Wheels, Jointers, Etc., plows see page 909.

David Bradley Brush Plows.

Wood Beam. Right Hand Only.

For tough plowing and heavy general purpose work among vines, berry bushes and in timber or stony land. Moldboard, share and landside are solid steel, with mild or natural temper. Moldboard is double shinned and share has reinforced point. Beam is heavy seasoned oak and has a steel strap underneath. Standard cap and all braces are steel. Handles first quality oak. Malleable clevis has ample adjustment. Price is for plow, as shown, with Quincy reversible coulter and gauge shoe.

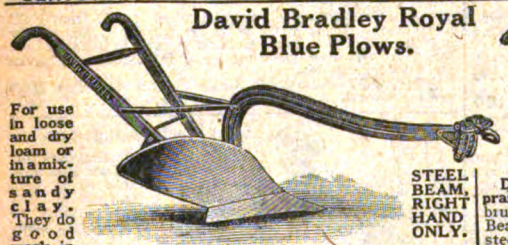
Bradley Riding Attachment for Walking Pl



GREAT TIME AND LABOR SAVER.

Makes a first class frameless sulky plow out of any wood or steel beam plow or middle breaker. It will make your plow run steadily without side draft and without making the work a bit harder on your team. It can be set for any depth furrow. Being tongueless, the attachment cannot be backed up by the team; neither does it carry the plow high from the ground. By placing the attachment back of a drag harrow and connecting to the harrow drawbar by a long pole or 2x4-inch timber you have a splendid harrow cart. Made entirely of malleable iron and steel. Wheels are the regular type of riding plow wheels with wide oval tires and dustproof hubs. The attachment is not intended for use on smaller than 10-inch plows and cannot be used on rod breakers, upon which the beams are too low. Price is for the complete attachment, everything shown in the illustration, excepting the plow.

David Bradley Royal Blue Plows.

For use in loose and dry loam or in a mixture of sandy clay. They do good work in stubble or tame sod, also stony land. The moldboard, share and landside are solid steel with mild or natural temper. They are securely bolted to a steel frog, and outer landside secured to a cast inner landside which has an adjustable slip heel. Bottoms are ground and highly polished. Moldboards are double shinned, insuring good wearing qualities. Beam is heavy steel, highly arched. Handles are of first quality oak. Shipping weights, 95, 100 and 110 pounds, according to size.

Catalog No.	Size, In.	Price, Shipped From BRADLEY, ILL.: Plow	Extra Share	Price, Shipped From KANSAS CITY, MO.: Plow	Extra Share

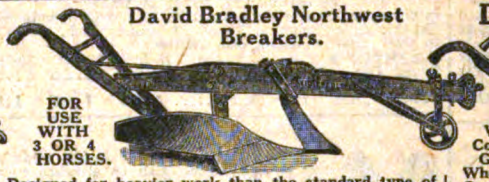
32H127	14	13.98	2.47	14.80	2.57



David Bradley New Ground Plow.

Designed especially for use in new ground where stumps and roots are too plentiful to permit the use of the regular type of breaking plow. It is not intended to serve the purpose of a regular moldboard plow. Jumping coulter either severs the root or carries the plow over it, after which the plow immediately re-enters the ground. Moldboard and share are in one piece and are solid steel. The moldboard is welded to a narrow steel landside which is bolted to the beam, the lower end of which curves to conform to the shape of the moldboard. Beam is heavy forged steel, highly arched. **Shipped from BRADLEY, ILL.**

32H168—9-Inch New Ground Plow. Weight, about 100 pounds. Price **$9.98**

David Bradley Northwest Breakers.

Designed for heavier work than the standard type of prairie breaker. Splendid plows for heavy prairie sod and brush work, also for road making and grading purposes. Beam is extra heavy selected oak. Standard is heavy steel solidly braced. Moldboard, share and long bar landside are solid steel, with natural temper. The heavy steel coulter is made with a shoe at the point, into which the point of the share is inserted, making it absolutely solid. Rolling coulter cannot be used. Gauge wheel is adjustable. Handles are steam bent selected oak, extra heavy and strongly braced. Weights, 170 and 176 pounds. Prices include wheel and coulter.

David Bradley Cast Plows.

Materials used in the bottoms are a special mixture of metals of extreme hardness, yet possessed of strength and toughness. Beam is oak and adjustable for more or less land. A jointer should be used with 32H175 and larger plows when plowing trashy ground. **NOTICE**—Cast iron plows are for use only in sandy or gravelly soils and should never be used in black or sticky soils. This type of plow is always made with slanting landside and is measured from top of moldboard to outer edge of share. The bottom of share measures about 2 inches less than full cut of plow. Price includes one extra share, wrench and adjustable malleable clevis. Jointer and gauge wheel are extra. **Shipped from BRADLEY, ILLINOIS.**

David Bradley Riding Plows

X-Rays Sulky Plow

High Lift.
Foot Lift.

These famous plows are the product of the David Bradley factory's ninety years of successful plow building experience. Consequently, they need little, if any introduction to farmers. They are made from the best materials procurable and designed to meet the hardest plowing conditions with the least possible draft. So perfect is the design of their foot lift and lever arrangement that a small boy can operate them with remarkable ease.

Frames are formed from extra heavy first quality bar steel, 2¼ inches wide by ⅝ inch thick, making one of the heaviest frames put on any riding plow.

Beams are highest quality double beaded beam steel, 1¼ inches thick, formed with high arch for ample clearance in trashy ground. Beam braces on gang plows are 1¼-inch round steel bars, flattened at the ends and hot pressed to fit perfectly the channels of the beams and for additional strength extend clear down to the frog.

Bottoms are the famous David Bradley Garden City Clipper Bottoms, with double shin moldboards made of hard tempered soft centered steel and polished in the same direction the furrow slice follows over their surfaces. They take the soil polish more quickly because it is a continuation of the factory process.

Shares are hard tempered soft center steel, 5/16-inch thick, and are reinforced by welding a ¼-inch slab of steel on top, the point where wear is greatest. Uniformly tempered, finely ground and polished.

Wheels are steel, with staggered spokes set into long dust-proof "long distance" hubs, and have wide half oval tires. Land wheels are 34 inches high, front furrow wheels 24 inches high and rear wheels 20 inches high. Wheel bearing surfaces are 9 inches long. An adjustable steel rod connects furrow wheels to pole. The pole plate lever permits quick adjustment of the furrow wheel from the seat. Rear wheel casters automatically and is set to relieve landside of friction, thus the draft is distributed on the thoroughly lubricated wheels.

...rs are made of finest coulter steel, 15 inches in diameter, and revolve on dustproof chilled ...which are adjustable for wear. Yokes swivel on long standards which are adjustable. **...ill be furnished in place of coulters if so ordered.**

...itch on these plows is a valuable feature, adjustment being accomplished by simply ...a bolt and sliding clevis to right or left. Adjustment to the finest point is possible, ...greater accuracy than when limited to a number of holes spaced a given distance apart.

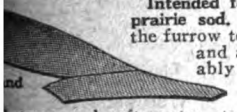
...ry David Bradley implement is sold with the understanding that the purchaser may ...t to a fair trial in his own field before he decides to keep it, and if he is not perfectly ... and will notify us promptly, we guarantee to immediately make the implement ... satisfactory to him, or will instruct him to return it to our factory to be exchanged ...atisfactory implement, at our expense, or, if he desires, we will return the money he ... it and freight charges.

David Bradley Garden City Clipper Bottoms.

Furnished on All David Bradley Riding Plows.

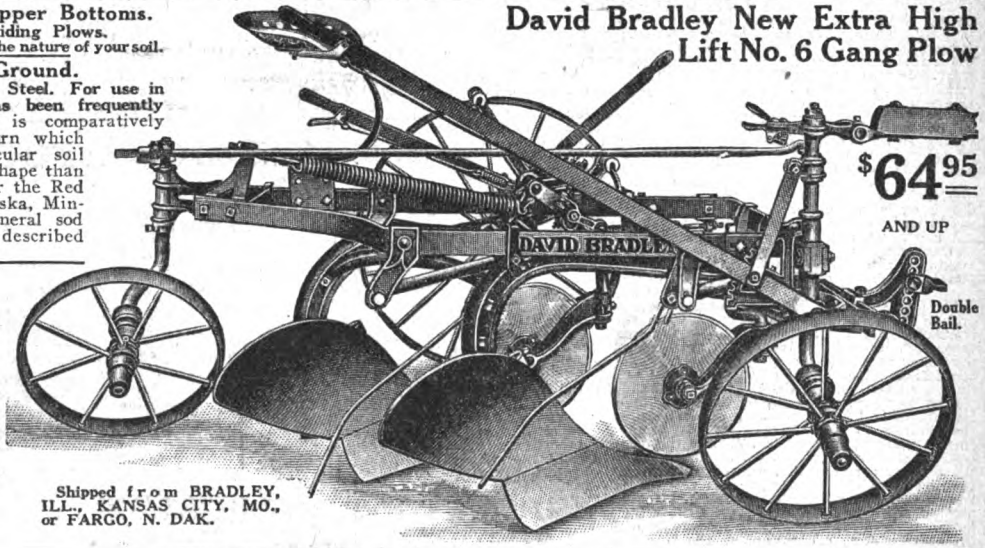
...tion of a plow bottom should be governed by the nature of your soil.

Stubble or Old Ground.



Hard Tempered Soft Center Steel. For use in stubble or ground which has been frequently cultivated. The moldboard is comparatively short with a bluff turn which pulverizes this particular soil and puts it in better shape than ... style. The bottom we recommend for the Red ...lley and most parts of Kansas, Nebraska, Min-...d the Dakotas. Not intended for general sod ...for which our General Purpose shape described ...best adapted.

Purpose or Stubble and Sod.



Hard Tempered Soft Center Steel. The General Purpose shape has a longer turn moldboard which turns timothy, clover, tame sod, etc., clear ...e recommend this shape for plowing ...dy ground, clover, timothy or blue ... and for deep stubble plowing.

Prairie Breaker Shape.

Intended for breaking prairie sod. They turn the furrow to perfection and are remarkably light of draft. Moldboard ... tempered soft center steel, share is ...l of mild temper, and each bottom is ... with one extra share.

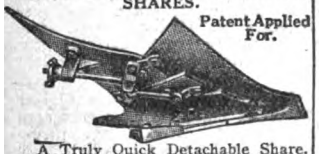
A proved plow that has successfully met the most difficult plowing conditions in all territories and recommended by hundreds of satisfied users throughout the country.

Guaranteed to work satisfactorily with any tractor. A tractor has neither sense nor temperament—it knows nothing of trade names, it pulls just so many pounds at the drawbar and handles a plow easier only when that plow is of lighter draft, regardless of the trade mark on it, and when you can buy a better plow than the one which happens to be offered with a tractor you should be privileged to use your judgment in selecting the plow as well as the tractor, especially when equal or better quality can be had for less money. We guarantee the Bradley Tractor Plow to be as stanchly constructed, as conveniently handled, to do as good work, regardless of conditions, and pull with as light draft as any other plow cutting the same number of furrows of same width and depth, and in the event this plow for any other reason does not perfectly satisfy the purchaser he may return it to us and we will return all money paid for it and the freight charges. Dealers desiring to recommend this plow for use with their tractors can assure their customers of the protection of our guarantee.

Bradley Quick Detachable Shares Are Regular Equipment.

Lifts to full height in less than 3 feet of travel. The plow has an extremely quick lift, so essential for plowing close to the ends of the row. However, this quickness of lift has not increased the power demand on the land wheel, as advantage is taken of the natural tendency of a plow. The first movement of the lifting device turns the plow points upward, causing them to **automatically run out of the ground,** power being required only from the ground up and from which point two heavy counterbalancing springs assist in the work. So easy is this action that **wheel lugs are seldom used.** Likewise, immediate return, **points first,** to full depth is accomplished by another slight jerk on the single trip rope which serves to both raise and lower the plows.

Powerful, Simple Lift. The unique lifting device consists only of two cog toothed quadrant gears and a simple clutch. The lower gear is supported on the land wheel axle and when the clutch is engaged by pull rope, rotates with the wheel, lifting with it the upper gear, which is part of the frame, and at the same time bringing the arch of the front axles to a vertical position, thus lifting the plow to full height in less than 3 feet of travel.



A compound lever connecting the front bail with the toggle joint on rear wheel gives a uniform lift to all bottoms, and automatically locks in either raised or lowered position.

Levers extend well forward in easy reach of operator on tractor. Their closely spaced locking notches permit the finest adjustment and a plowing depth of from 2 to 10 inches.

Garden City Clipper Tractor Plow Bottoms hold a pleasant surprise for those who have yet to try them. The peculiar roll of these moldboards permits much greater traveling speed without affecting the lay of the slice, which makes a graceful turn at any reasonable speed, working equally well in tame sod and old ground stubble plowing. **Moldboards and Shares** are made of hard tempered first quality soft center steel. Moldboards are double shinned with an extra thickness of steel welded to the front which stands the greater wear. Shares are made from 5/16-inch soft center steel, and are reinforced at the point by welding a ¼-inch slab of steel on top where the wear is greatest.

BRADLEY QUICK DETACHABLE SHARES.

Patent Applied For.

A Truly Quick Detachable Share. Simply loosen the hand wheel and it is unlocked from frog without removing a single bolt. With equal ease the share is drawn up and locked into place as the hand wheel is tightened.

BEAMS.

Beams are heavy double beaded steel I beams, 2⅛ inches thick and arched a clearance of 22 inches from the bottom of the furrow. This liberal cl together with the 24-inch clearance from moldboard to moldboard, is evidence plow will not clog even in the most foul plowing.

WHEELS.

Front wheels are 26 inches in diameter with 4-inch oval tires; stagger spokes are welded into long greasetight hubs which are provided with larg cups. The rear caster wheel, 20 inches in diameter, is pressed from solid prevent the gathering of trash.

DRAWBAR.

Drawbar is made with length and up and down adjustments to fit any tr provided with wood break pins to protect plows from hidden obstructions. T bar permits backing the plows by power.

COULTERS.

The 15-inch self castering coulters are made of the finest coulter steel and on adjustable, chilled cone, dustproof bearings with large receptacles for hard **Steel Moldboard Jointers** are furnished as an attachment at an extra price be ordered at any time.

Plows are furnished complete with Quick Detachable Shares and Rolling Jointers are extra.

NOTICE—When ordering shares for a plow you have, always tell us the and letters which appear on the back of old share.

Bradley Tractor Disc Harr

One needs but to consider the meritorious features of this David Bradley Heavy Duty Tractor Harrow to be convinced that the Bradley factory has scored another triumph in having overcome the well known faults that have been common to the many makes of tractor harrows.

ALL BEARINGS RELIEVED OF SIDE THRUST.

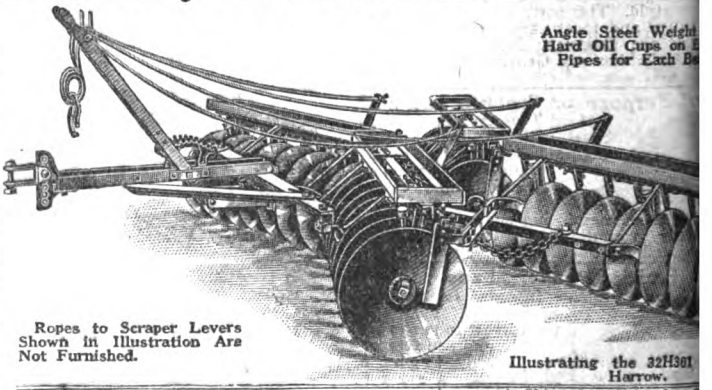
Disc blades do their work entirely by side thrust. The end strain of a disc gang is in the same proportion as the forward pull, and all of this strain would be borne by end thrust on the bearings if the "bumper" principle were not used. This is the way horse drawn harrows are made and the way the forward gangs of tandem harrows are made, but with others when it comes to making the trailer or rear gangs of tandem harrows, they abandon the very principle that has added so many years to the life of disc harrows.

SWIVEL CHAIN END THRUST EQUALIZER.

Flexible swiveling chain connection between rear gangs equalizes the end pull of the gang just the same as when the forward gangs roll together on bumper washers. The only strain on the bearings is the forward pull. Though the gangs usually revolve at the same speed, the chain revolving with them, provision is made for either gang rolling independently by chilled swivel connections at each end of the chain.

CROSS ARM COMPENSATING TRAILER CONNECTIONS.

Our rear gangs are guided and rear discs held to splitting the furrow of forward discs by compensating connections or drawbars. Every farmer knows the tendency of a disc harrow to "buckle up" in the center and the inner discs to run shallow; in a tandem harrow the discs of rear gangs being reversed, it is the tendency of inner discs to run too deep, and by the manner of crossing the Bradley compensating drawbars these forces are equalized. Thus the deep running discs of rear gangs exert their force on the shallow running discs of front gangs and all are kept cutting at a uniform depth. Straight line draft is accomplished for the rear gangs. The draft is direct from the tractor to the bearings on the front gangs and direct from the same front draw irons through the **compensating connections** to the rear bearings. The front bearings carry none of the weight of rear gangs. **BEARINGS.**



Here again Bradley construction scores an advantage. We use oil soaked hard maple liners in all bearing boxes. Both front and rear boxes are interchangeable, a big advantage in repairs.

FRAME AND WEIGHT BOXES.

The forward frame and stub pole is made into one solid unit from heavy angle steel. Weight boxes are formed from angle steel and are regular equipment. **DISC BLADES.**

These are of the highest quality disc steel, fully tempered and highly polished. The oscillating spring steel scrapers, furnished at the extra price, have throw-off levers which instantly free them from the discs when not needed.

Bradley Rotary Harrow Attachmer

With our Rotary Harrow Attachment you can plow and harrow at one operation, and besides saving a gre of work, you get a better seed bed because the ground is in better condition right then than at any other time. moisture is conserved and conditioning made most favorable for growth of the seed.

The cutting blades are curved. They cut throughout their entire length. They are self cleaning, will not clo they bury the trash well under the soil. Blades are malleable iron, cast in one piece and will not break. Du roller bearings make attachment run so easily it adds practically nothing to draft of plow. Blades are station the revolving axle, so each blade does its share of the work. Conveniently placed lifting lever, assisted by spring, holds harrow to its work. We guarantee it to do satisfactory work in any soil. Attachment for sulky has six blades and cuts 18 inches. Attachment for gang plows or two-bottom tractor plow has nine blades an 28 inches. Attachment for three-bottom tractor gang has 14 blades and cuts 42 inches. Easily attached to the of any riding plow.

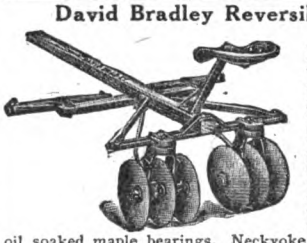
David Bradley Tongue Truck.

Dustproof Magazine Hubs and Hard Oil Cups.



For use with disc harrows, seeders, land rollers, etc. The same truck furnished with the David Bradley Tongueless Disc Harrow. Made with cast iron wheels, 15 inches high, with flanged tires 2 inches wide. They have long, oil retaining dustproof hubs and hard grease cups. Distance between wheels is 24 inches. The high arch steel axle allows the wheels to pass clear under the tongue. The casting which attaches to the stub pole is adjustable up or down on the standard, so as to accommodate all heights of hitches and insure direct draft. The construction of this casting is such as to permit the wheels to oscillate and adjust themselves to uneven ground. We furnish at extra prices quoted a pole plate, which can be used with two or four-horse hitches whenever it is desired to use a forward pole with the truck, or an offset pole attachment for forward pole with three or five-horse hitch. The truck is easily attached. It is only necessary to saw off but about 4 feet of the tongue and bolt the truck to the stub with bolts we furnish.

David Bradley Reversible Disc Harrow and Cultivator.

It serves the purpose of a disc harrow or a disc cultivator. The discs can be set at any angle desired and can be reversed to throw the dirt in or out. Can be set close together for harrowing or separated so as to straddle the row. Distance between gangs adjustable up to 18 inches. When set close together inside discs will be 6 inches apart. When discs are close together the six-disc machine cuts about 3 and the eight-disc machine about 4 feet. Discs are 16 inches in diameter, tempered and polished. Aside from cultivating grain, hilling potatoes, cultivating tobacco, etc., this implement can be used to run between rows of berries, grapes, etc., for which work the ordinary disc harrow is too wide. Discs can be tilted either way so as to hill or trench. They have oil soaked maple bearings. Neckyoke and pole with two-horse hitch furnished regularly. Scrapers furnished at extra prices shown. Can furnish with shafts for one horse, for light work, in place of pole, for $1.25 extra.

avid Bradley Stalk Cutters.

A high grade cotton and corn stalk cutter of unusually stanch construction. The cylinder revolves easily and the blow which cuts the stalks is accelerated by two spiral springs which can be compressed to suit the work. When lever is thrown forward, frame and cylinder are raised from the ground. Drag hooks rise automatically with the cylinder. They can also be raised independently. Knives of the six-knife cutter are 13 inches apart and on the seven-knife cutter, 11 inches apart. Wheels are steel, 36 in. high, strongly built, with 2-inch tires.

X-L-All Lime and Fertilizer Sower.

Strongly built to handle all kinds of commercial fertilizers, ashes, lime, marl, pulverized and limestone.

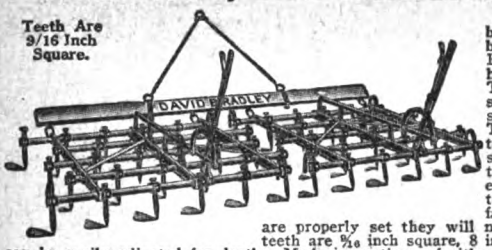
The agitator and force feed consists of heavy cast paddles or propeller wheels mounted on the 1¼-inch square steel shaft axles and driven from both wheels. Drive shaft has a center bearing and each wheel drives half the shaft independently of the other half. A clutch on each wheel, operated by a hand lever, enables operator to throw out one or both drives.

The feed wheels are spaced 6 inches apart the entire length of hopper, one directly over each discharge opening in hopper bottom. Two steel rods extending full length pass through each feed wheel and in addition to strengthening the feed they serve as agitators. This arrangement of feed wheels and agitators gives a steady, uniform feed of any material, light or heavy.

Hopper holds 10 bushels, is strongly built of good lumber, well braced, with hinged lid and sheet iron bottom. A removable galvanized screen keeps out obstructions which would not pass through discharge openings. A deflecting board underneath distributes fertilizer uniformly. Size of openings regulated by hand lever to sow any desired quantity. Width of sowing, 8 feet. Steel wheels, 30 inches in diameter, 4-inch concave tires. Price includes pole, without neckyoke or eveners. **Shipped from factory in WESTERN OHIO.**

32H1133—Lime and Fertilizer Sower. Weight, 385 pounds. Price..... **$43.95**

David Bradley Transport Truck for Disc Harrows.



Distance between wheels, 3 feet 2 inches. Wheels, 11¾ inches in diameter. Tires, 2 inches wide.

A very practical and useful device. Intended for use with Bradley Tongueless Disc Harrows or others with similar frame construction. The forward arms are placed under the disc axles of both gangs and hooked on to the forward frame. When the lever is thrown up the disc gangs are automatically raised from the ground and the harrow is ready for transporting on the road or from field to field, while the driver rides in the seat without danger of tipping over. Saves your discs and makes the work easier for horses. Strongly made entirely of iron and steel and should last a lifetime.

David Bradley Steel U-Bar Lever Harrows.

Frames are heavy U-bar steel diagonally braced with steel braces. Each section has five heavy steel tooth bars. Teeth are attached by steel clips with set screws and lock nuts. Tooth clips are movable to any place on the bars, so you can use as many teeth as you want on each bar. The Bradley tooth clip is most satisfactory; when the teeth are properly set they will not become loose. The teeth are ⅞ inch square, 8 inches long, headed, and can be easily adjusted for depth. Made in sections of either 25 or 30 teeth. Each 30-tooth section cuts 5 feet wide and the 25-tooth section 4 feet 3 inches. Each section has runner teeth at corners. The teeth can be reversed to renew the cutting edge. Illustration shows the 60-tooth two-section harrow. Wood drawbar and irons furnished with two, three and four-section harrows. Draw irons only furnished with one-section harrows.

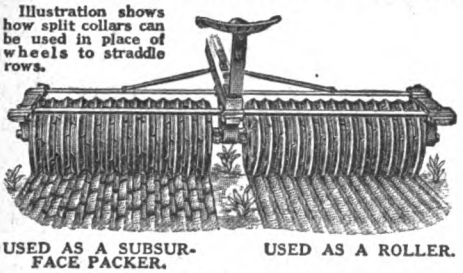
David Bradley All Steel Harrow Cart.



Can be attached to any style of drag harrow and will save many a day's hard tramp. It is strongly built and simple in construction. The driver is always in line with and facing his team. The seat is mounted on a steel seat spring which is attached to the frame and axle. As the axle is pivoted to the frame there is no cramping nor straining in turning. By tripping a foot lever when turning, the axle pivots to allow the cart to follow around after the harrow, and when straightened it automatically locks itself. The cart rides steadily and does not drift on side hill work. Furnished with either 24 or 42-inch wheels with 3-inch oval tires. Distance between wheels on 24-inch cart is 25½ inches, on the 42-inch cart 43 inches. The shafts or connecting bars are heavy angle iron, attached to harrow evener by means of steel clasps.

Bradley Combined Land Roller, Pulverizer, Crusher and Packer.

Illustration shows how split collars can be used in place of wheels to straddle rows.

USED AS A SUBSURFACE PACKER. USED AS A ROLLER.

For thorough preparation of seed bed, pulverizing and packing the soil about the roots of growing plants this machine is without a superior. The 7-foot roller is particularly adapted for rolling corn, it being just the right size to use among standard widths of rows. The heavy cast iron discs turn independently on a 1½-inch steel shaft. Discs are 18 inches in diameter, 3 inches wide and have crushing lugs. These catch and pulverize the clods instead of pushing them along. Run the smooth face of the lugs forward and you have an ideal smoothing roller. Transfer the pole to the other side and run in opposite direction and the machine acts as a pulverizer and subsurface packer. Works the clods down and leaves small loose ridges on the surface so rain can soak away. For rolling young corn, wheat, clover and meadow in the Spring, preparing seed bed for wheat in the Fall, and for use in irrigated land and alfalfa culture it is invaluable and will often pay for itself in a single season on a 50-acre crop, because ground will hold moisture better and cause grain to germinate and mature earlier. Frame is heavy bar steel to which are attached the end and center hangers through which shaft runs. By removing one or two of the discs and using the two split collars furnished, roller will straddle rows if desired. If more than two split collars are wanted, we can furnish them at the extra price quoted. **Price does not include eveners or neckyoke. We will furnish with stub pole for tractor hitch in place of regular pole if so ordered.**

avid Bradley No. 1 Corn Planter

David Bradley No. 1 Planter has stood the most severe tests in all of the country for more than thirty years. It has given excellent ion under the most trying conditions. We therefore do not hesitate mend it to our customers as a planter in which the utmost depend- be placed.

Accurate and Reliable Under All Conditions.

A Seed Corn Tester Included With Each Planter.

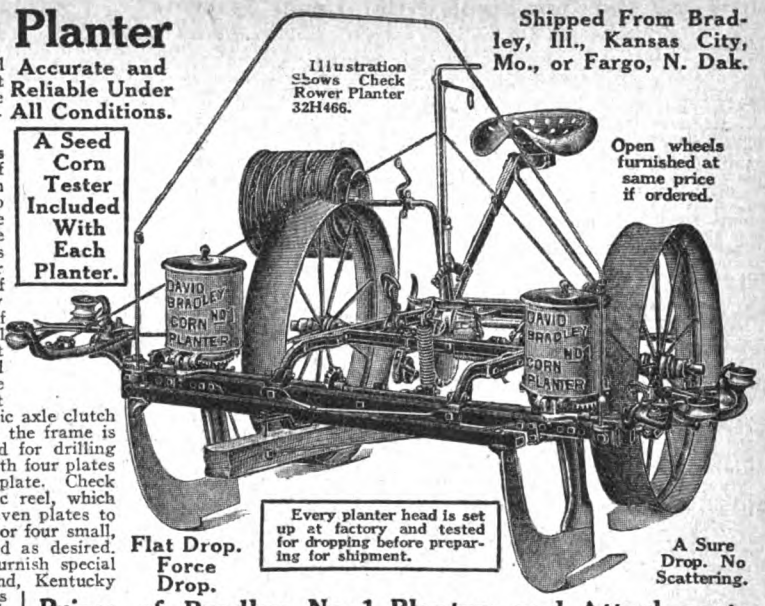

Illustration Shows Check Rower Planter 32H466.

Shipped From Bradley, Ill., Kansas City, Mo., or Fargo, N. Dak.

Open wheels furnished at same price if ordered.

Every planter head is set up at factory and tested for dropping before preparing for shipment.

Flat Drop. Force Drop.

A Sure Drop. No Scattering.

s all the convenient features found in the most up to date planters ype. It will successfully handle all kinds and sizes of seed, and if the same care in grading and sorting the seed as is required with complicated edge drop style of planter, equal accuracy of drop btained and a far greater degree of reliability. The plates of the radley No. 1 are revolved by a pinion, which is operated by the d, and deposits the corn in the boots, where it is held by valves check is made. Then the plunger automatically forces the lower n, depositing the corn in the furrow without scattering. It is of igid construction, yet light enough to be easily handled by any The simplicity of mechanism, ease of adjustment and uniformity of its most striking features. The frame is made of heavy channel connections are steel or malleable iron; it will stand the hardest out danger of breakage. The runners are large and strong and th can be regulated independently. Seed boxes are large and are nd tilt forward, making it an easy matter to change plates without seed. Wheels are steel and of strong construction. An automatic axle clutch tops the drilling device when the front frame is raised, and when the frame is the sprocket is automatically thrown in gear. The planter fitted for drilling s not have the check rower and its attachments. It is furnished with four plates single kernels of corn 12, 17 or 21 inches apart, and one blank plate. Check anter is complete with anchor stakes, 80 rods wire and automaic reel, which es the wire evenly. With the check rower planter we furnish seven plates to le kernels of corn, 12, 17 or 21 inches apart, and to drop two, three or four small, or large kernels, and one blank drill plate, which can be drilled as desired. lates can be furnished if you will send samples of seed. Can furnish special r kaffir corn, shoe peg and pop corn; also for large Maryland, Kentucky essee corn. The new automatic reel is operated by friction. The reel is y foot lever and the friction wheel fits outer rim of planter wheel, which it and winds the wire. An anchor stake is placed through the eye on seat nd the wire is placed on the hook at the end of anchor stake which, if ck and forth, insures even winding of wire. The spring anchor stake the strain on the check wire and adds to its life.

s are adjustable for rows 3 feet 4 inches, 3 feet 6 inches or 3 feet 8 inches ut all planters are set at 3 feet 6 inches when shipped. Can furnish check e with buttons 3 feet, 3 feet 4 inches, 3 feet 6 inches, 3 feet 8 inches, 3 ches or 4 feet apart.

price quoted we furnish a steel fertilizer attachment which attaches to frame between seed boxes and wheels. When used with check rower is attachment drops the fertilizer 2 inches to the rear of the hill and with the drill planter it drills the fertilizer continuously in the rows.

Planter Wire.

This Check Rower Wire is used on all standard planters and is sold in bundles of 10, 20, 40 and 80 rods, and with buttons 3 feet, 3 feet 4 inches, 3 feet 6 inches, 3 feet 8 inches, 3 feet 10 inches or 4 feet apart. **Be sure to state desired between buttons. Shipped from BRADLEY, ILL.**

9—Check Rower Wire. Weight, 8 oz. per rod. Price, per rod **5c**

Prices of Bradley No. 1 Planters and Attachments.

Prices include pole, disc marker and arch for marker rope to pass over. Regular wheels have concave tires and are 30 inches high. See extra prices below for other wheel equipment.

Important—Don't fail to state whether you want concave or open wheels and height; also distance between buttons on check rower wire. Concave tires shipped unless otherwise ordered.	Price Shipped From Bradley, Ill.	Price Shipped From Kansas City, Mo.	Price From Fargo, N. D., With Plates for Northern Seed

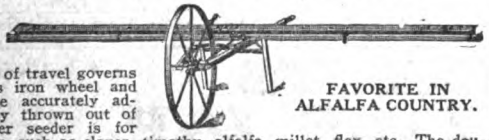
When ordering Fertilizer Attachment **only,** advise whether your planter has 30 or 38-inch wheels.

In place of regular 30-inch concave wheels we will furnish 30-inch open tire wheels without extra charge if so ordered; and we will furnish 38-inch concave tire wheels, or 38-inch open tire wheels for **$2.95** extra.

l Bradley No. 3 Champion Combined Cotton nd Corn Planter.



L FRAME
RSE DRILL.

A highly satisfactory combination cotton and corn planter. It has the reliable Bradley Champion force feed which has made David Bradley cotton planters so successful. A slide in the bottom of cotton box regulates the amount of cotton seed dropped. Machine can be regulated to plant from 1 peck to 2 bushels of cotton seed to the acre. Will not clog, does not injure or bunch the seed and plants it as it comes from the gin, without any previous preparation. Machine can be thrown out of gear at end of rows by means of throwout rod attached to handle. For planting corn, the same seed box is used, and we furnish plates for drilling one corn every 17 or 25 inches and a blank plate which can be drilled for small rain to suit. The change from a cotton to a corn planter is quickly made. anks have a friction break and a depth gauge runner is at the end of each The machine is made of iron and steel excepting handles, which are of oak. rom BRADLEY, ILL.

459—No. 3 Combined Cotton and Corn Planter. Wt., 83 lbs. **$10.48**

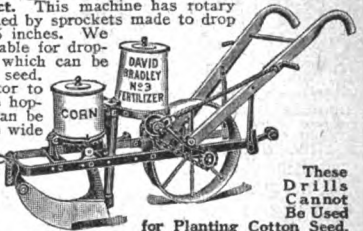
wo-Cylinder Rotary Seed Corn Grader.



d from factory in
WESTERN OHIO.

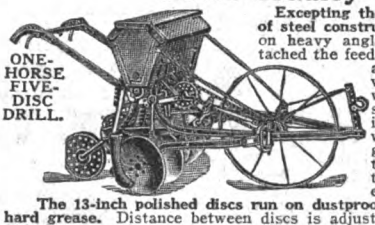
This grader is a wonder for capacity and precision of grading. The inner cylinder, to which corn is first delivered by positive screw feed in the supply passage, handles the coarser grades first, getting them out of the way without going into the second or larger cylinder, which handles the smaller grades, thus relieving it of unnecessary volume. Overloading is positively prevented by the screw feed. Its big capacity is accounted for by the deep corrugation of both cylinders, which forces the kernel to stand on edge or on end for different grades ready to pass out the desired opening. Unlike a flat grader, the rotary motion prevents clogging. By raising the feed end ½ inch and running through again, two extra grades are obtained, making five grades possible. The grader is 30 inches high, 32 inches long and 15 inches wide. Is simple to operate and has a capacity of 10 to 12 bushels per hour. It is crated, with legs detached, to insure the best freight rate. Price does not include measures shown in illustration.

7075—Two-Cylinder Corn Grader. Weight, 45 pounds. Price..... **$9.25**

maller Seed Corn Graders see page 842.

David Bradley Nos. 2 and 3 Presser Wheel One-Horse Corn Drills.

These Drills Cannot Be Used for Planting Cotton Seed.



A high grade machine in every respect. This machine has rotary force feed dropping device which is controlled by sprockets made to drop one kernel of corn every 10, 15, 20 or 26 inches. We furnish four sprockets and two plates suitable for dropping large or small corn and blank plate which can be drilled to plant peas, beans, cane or other seed. An opening in the boot enables the operator to see the corn at all times as it leaves the hopper. By means of a slip clutch the drill can be backed without throwing out of gear. The wide presser wheel is provided with a steel scraper. It properly covers every hill. No. 3 drill is shown in illustration at the right. No. 2 drill is the same, excepting that it is not provided with a fertilizer attachment. It sows any quantity of fertilizer desired. Machine is strongly made. Prices are for the machine complete, as illustrated.

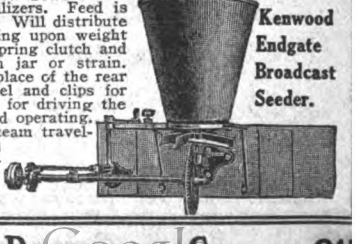
David Bradley Grain Drill.

ONE-HORSE FIVE-DISC DRILL.

Excepting the sides and lid of seed box, this drill is of steel construction throughout. The box is mounted on heavy angle bars and to these bars are also attached the feed cups, making a solid unit in which true alignment is assured. The feed is of the well known fluted force feed type which will sow any small grain or larger seeds, such as cowpeas or corn, without cracking. Feed is chain driven from front wheel and amount sown is shown on gauge, which is changeable while in motion; agitator furnished regular, hence their adaptability to handling long bearded oats.

The 13-inch polished discs run on dustproof bearings, having large receptacles for hard grease. Distance between discs is adjustable and they cut an extreme width of 34 inches.



Weight of drill is carried on front wheel and two rear caster wheels, allowing discs to float at any desired depth, which is maintained by the pressure springs above each disc. Depth adjustment is instantly regulated by releasing hand latch and raising or lowering the handles.

The two outside discs are pivoted at the clevis and swing against compression springs which allow them to give when striking obstructions.

Drill is equipped with steel ribbon tubes, covering chains and hand guards. Shipped from factory at BRADLEY, ILL.

32H1113—Five-Disc Drill. Weight, 350 pounds. Price..... **$29.90**

A good Agitator Endgate Broadcast Seeder. Sows broadcast all kinds of small seeds and dry fertilizers. Feed is adjustable, no loose plates to lose or mislay. Will distribute seed evenly 12 to 40 feet in width, depending upon weight and kind of seed. Seeder is fitted with a spring clutch and in starting or stopping there is no sudden jar or strain. Machine is attached to a board, taking the place of the rear endgate. Price includes large sprocket wheel and clips for fastening it on the wagon wheel; also chain for driving the machine and full directions for attaching and operating. Will sow 100 acres of wheat per day with team traveling at the rate of 2½ miles per hour. **Shipped from factory in SOUTHEASTERN WISCONSIN.**

Kenwood Endgate Broadcast Seeder.

32H1150—Kenwood Endgate Seeder. Wt., abt. 95 lbs. Price **$11.28**

For Hand Seeders see page 844.

David Bradley Little Jap Cultivator

PATENTED.

Some cultivators are sold on the merit of a "Balanced Frame," some on the merit of "Pivot Wheels" and some are claimed to excel because of the "Parallel Gang" feature, but to the original patented Little Jap belongs the distinction of having all three of these meritorious features and others as well.

Pivot Wheels and Parallel Gangs: Pivot wheels not only accomplish the quickest and easiest dodge for out of line hills but make possible the gangs remaining parallel even when working on a hillside, thus preventing rear shovels trailing the forward ones. This patented feature of controlling the direction of the wheels and shifting the gangs by swinging the seat bar, was first used on the Little Jap and has never been surpassed in efficiency or convenience by any other devices intended to accomplish Little Jap results. Notice that the open seat bar gives an unobstructed view of the row. It is pivoted on the main arch but extends on to the small arch in front which holds the forward ends of both gangs. To the seat bar are also attached the cranks that pivot the wheels. Hence, slight foot pressure on either gang sways the seat bar in the opposite direction, **shifting the gangs at their forward ends** and at the same time pivoting the wheels for the direction they should go. The pull by the horses moves the whole cultivator as a unit for the quickest dodge ever produced, the gangs following the true line of draft and always parallel, each shovel cutting its full width and uniform depth.

Balance Frame: This prevents the flying up of the tongue and preserves a level tongue regardless of the weight of the operator or whether gangs are raised or lowered. It is accomplished on the Little Jap by allowing the main arch to rock forward or back of the wheel centers and is regulated by the combination **lifting** and **balancing lever.** When this long lever is lowered it raises both gangs without changing the depth adjustment of either and at the same time tilts the arch forward of the axle bearings. Thus the weight of the operator and the pull of the horses assist in lifting the gangs.

Flexible Arch: The Bradley Little Jap method of holding the disc and surface gangs together with the patented flexible arch, one gang counterbalancing the side thrust of the other and shifting their direction at the forward end of the beams, solved the problem, at the same time permitting either gang to raise over obstructions independently of the other with their distance apart ever the same and always parallel.

Disc Bearings have hard maple dustproof bushings and hard grease cups.

No tools necessary to change angle of discs or reverse to throw dirt in or out.

Scrapers are not regularly furnished for disc gangs. If wanted, they must be ordered at the extra price.

The Hitch on the Little Jap is short, allowing horses to pull the plows closer to the fence and with lighter draft.

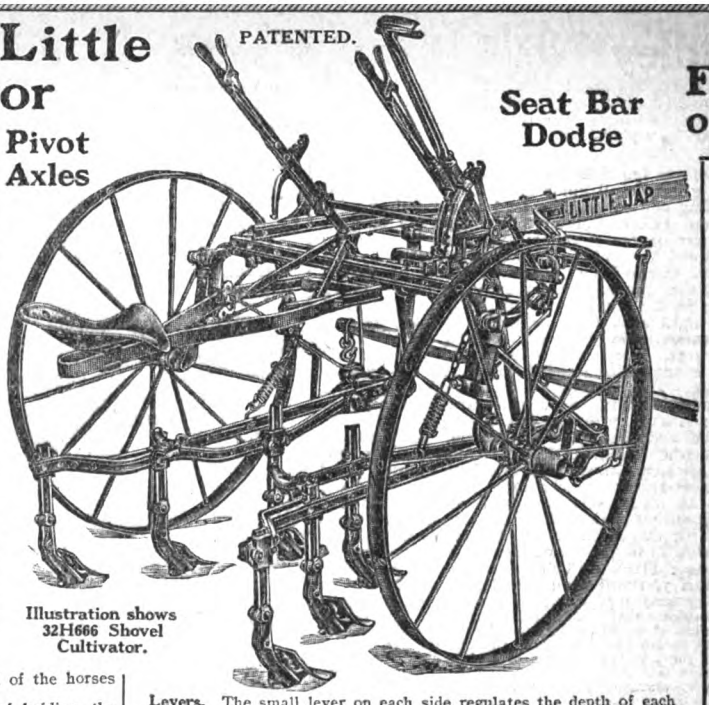


Illustration shows 32H666 Shovel Cultivator.

Levers. The small lever on each side regulates the depth of each gang independent of the other. The long lever automatically balances the frame, raises both gangs for turning and lowers them to former positions without changing depth adjustment. When gangs are raised the axles are automatically locked in straight ahead position so that cultivator may be driven or trailed without wheels shifting.

Wheels are steel, 42 inches high, with concave tires 2½ inches wide (flat tires furnished if desired); heavy staggered spokes. Space between wheels on all Little Japs is adjustable from 44 to 52 inches.

Shovels are hard tempered soft center steel and guaranteed to scour in any soil.

The Little Jap is absolutely a standardized cultivator. Whether you have high land, low land, stones or stumps, there is a gang for every need. Buy either of the complete cultivators we list below and the purchase of extra gangs converts it to any type of cultivator. All Little Japs are alike except the gang equipment.

David Bradley Hammock Seat Balance Frame Cultivator

Extremely convenient for the use of men or women, boys or girls, and a variety of gangs is offered to suit most any condition. Gangs are long, which contribute to easy shifting. They are pivoted on a common draw bar at the front, where distance between gangs is adjusted. Heavy lifting springs in connection with the lifting arms allow full play for the natural "suck" of the plows when at work and provide a quick, easy lift. The hammock seat is adjustable forward or backward, or upward and downward; the foot stirrups reverse to top of gang for shorter reach. Balancing lever maintains a level tongue regardless of weight of driver and the main arch telescopes, allowing adjustment of distance between wheels from 43 to 53 inches. Wheels are 42 inches high, have staggered spokes set into long, dustproof hubs and have 2½-inch tires. The convenience of the hammock seat and open view possible with its use, together with the balancing feature, the easily operated gangs and rigid steel construction, recommend this plow for thorough cultivation, long wearing qualities and comfort for the operator.

Prices are for cultivator complete with pole, neckyoke, whiffletrees, shovels and fenders. See page 916 for extra gangs, shovels and attachments.

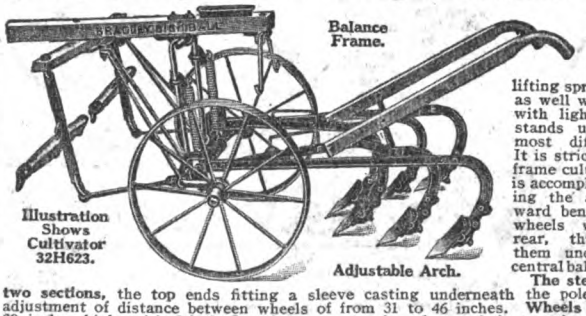
d Bradley No. 2 Riding and Walking Cultivator

strating ultivator 32H653.



See Gangs Illustrated on Page 916.

The balance frame, regulated by the long balancing lever, keeps a level tongue with any weight driver and whether riding or walking. Independent lifting and depth adjusting lever for each gang. Gangs of any weight are counterbalanced by the large springs on the arch and the springs connected to lifting chains permit the gangs to float with flexibility. Distance between the high 42-inch wheels is adjustable from 48 to 58 inches. **The same shovel gangs, excepting their connections, are used as on the Little Jap.**

For No. 83 gangs listed below, see illustration of Highball Walking Cultivator at the right. For other type of gangs, see illustrations on page 916. **Prices are for cultivator complete, including whiffletrees, pole, neckyoke, handles, shovels and fenders.**

Bradley Highball Walking Cultivator

Balance Frame.

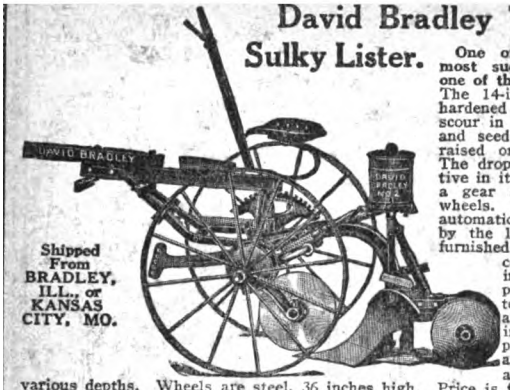

Illustration Shows Cultivator 32H623.

Adjustable Arch.

The strongest and best walking cultivator we make. On account of its large coil lifting springs it works as well with heavy as with light gangs and stands up under the most difficult work. It is strictly a balance frame cultivator. This is accomplished by giving the axle a rearward bend to set the wheels well to the rear, thus bringing them underneath the central balancing point. **The steel arch is in two sections,** the top ends fitting a sleeve casting underneath the pole, permitting adjustment of distance between wheels of from 31 to 46 inches. **Wheels are of steel,** 30 inches high, with 2-inch flat tires, staggered spokes and dustproof, oiltight hubs. The evener is a wood bar with pendant steel bars. Price is for the cultivator complete with shovels, fenders, pole, handles, hang up hooks, whiffletrees and neckyoke. For illustration of gangs see page 916.

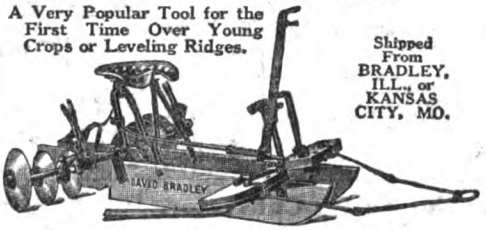
David Bradley Two-Wheel Sulky Lister.



Shipped From BRADLEY, ILL., or KANSAS CITY, MO.

One of the Bradley factory's most successful productions and one of the best of its class made. The 14-inch bottom is made of hardened soft center steel and will scour in any soil. The subsoiler and seed spout can be operated, raised or lowered independently. The dropping mechanism is positive in its action and is driven by a gear attached to one of the wheels. Is thrown out of gear automatically when plow is raised by the lever. Three plates are furnished to drop one kernel of corn every 12, 15 or 18 inches, also one blank plate which can be drilled to suit. Seed box is hinged and tilts backward, making it easy to change plates. The disc coverers are adjustable up and down and permit planting at various depths. Wheels are steel, 36 inches high. Price is for the machine complete with disc coverers, 14-inch coulter, pole, combination three or four-horse evener and neckyoke.

32H417—Two-Wheel Sulky Lister. Weight, 415 pounds.
Price, **shipped from BRADLEY, ILL.** **$46.95**
Price, **shipped from KANSAS CITY, MO** **50.05**
See Four-Wheel Sulky Lister for prices of extra shares.

Bradley Cricket Listed Corn Cultivator.

A Very Popular Tool for the First Time Over Young Crops or Leveling Ridges.

Shipped From BRADLEY, ILL., or KANSAS CITY, MO.

Adjustable Disc Gangs. Wood Lined Bearings.

The disc gangs are adjustable in or out on the arch to vary the distance from the corn, and they can be tilted to the desired angle by using the hand levers. Gangs can be reversed to throw dirt to or from the row. Inner discs are 10 inches; center discs, 11 inches, and outer discs, 12 inches in diameter. Oil soaked wood lined bearings like a disc harrow. The discs are controlled by a lever by which they can be easily raised to clear trash and at the end of rows. The shields raise automatically with the discs. The arches are high enough to permit the working of corn of good height. This cultivator is strongly built. Runners are wood, 3½ feet long and shod with heavy steel plates, and steel side knives are attached to runners for cutting the middle.

32H600—Cricket Listed Corn Cultivator. Weight, 185 pounds.
Price, **shipped from BRADLEY, ILL.** **$16.98**
Price, **shipped from KANSAS CITY, MO** **18.25**

Improved Manweight Garden Seeder and Cultivator.

$8.65
Seeder Only.

Seeder has agitator force feed and will drill seed continuously or drop it in hills from 3 to 28 inches apart, accurately planting any kind of seed from the very smallest up to lima beans. It sows and covers the seed, packs the ground and marks the next row, all at one operation.

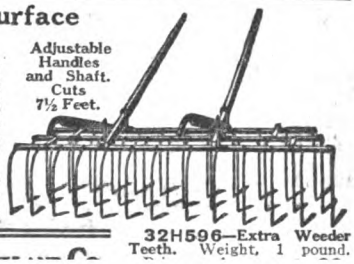
The cultivator retains the Manweight principle, which is the great advantage over other garden tools. It is propelled by a push bar having a cushioned yoke to rest against operator's body. This leaves the handles and plows free so they can be swung to one side, raised or lowered. This makes it possible to do a perfect job of cultivation on any garden crop.

$6.95
Cultivator Only.

Cultivator can be used as either a single or double wheel tool. Wheels are 18 inches high. Beams are independent of each other and you can straddle a row and cultivate or hill both sides, or the beams can be locked together for working in the furrow or weeding. **Equipment of cultivator** includes two pairs cultivator teeth, one pair small plows, one pair hoes, one pair rakes, one pair leaf guards and wrench.

$4.65
Disc Harrow Only.

Disc harrow and cultivator enable one to cultivate small rowed crops with much greater speed and more ease than would be possible with a hoe. Gangs may be set to throw in or out at various angles and various distances apart, or run between or astride rows. The discs cut deep and pulverize the ground thoroughly, breaking up all lumps, and work the soil fine and loose. Discs are 6 inches in diameter.

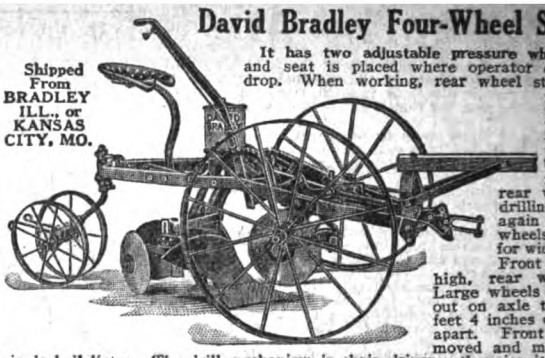


We recommend the Manweight tools, as they are simple and strong and will do a perfect job of seeding or cultivating and are equally suitable for small gardens or the largest truck farms. **Shipped from our store.**

32H1145—Manweight Combined Seeder and Cultivator. Weight, 80 pounds. Price **$12.75**
32H1147—Manweight Seeder only. Weight, 40 pounds. Price **$8.65**
32H1146—Manweight Cultivator only. Weight, 50 pounds. Price **6.95**
32H1149—Disc Hoe Gangs only. Weight, 10 pounds. Price, per pair **2.98**
32H1148—Manweight Disc Harrow. Weight, 20 pounds. Price **4.65**
Disc Hoe Gangs 32H1149 listed above are the same as used on the Manweight Disc Harrow.

Bradley Weeder and Surface Cultivator.

A tool that is growing in popularity every year. The flat oval spring teeth with round points possess great elasticity; create a finer mulch and do not injure crops. The frame is made of heavy angle steel and is strongly braced. Weeder has thirty-nine teeth, held firmly by individual fastenings. Teeth can be removed as desired to straddle rows. Adapted for use in any soil. **Shipped from BRADLEY, ILL.**



32H595—Steel Frame Weeder. Weight, 90 pounds. Price **$8.93**

Adjustable Handles and Shaft. Cuts 7½ Feet.

32H596—Extra Weeder Teeth. Weight, 1 pound.

David Bradley Four-Wheel Sulky Lister

Shipped From BRADLEY ILL., or KANSAS CITY, MO.

It has two adjustable pressure wheels at the and seat is placed where operator can see the drop. When working, rear wheel standard is lo making the run steadie hillside w Raising plow the lever aut ically re rear wheels and drilling until plo again lowered. wheels can be ad for wide or narrow Front wheels are high, rear wheels 18 Large wheels can be set out on axle to tread 3 feet 4 inches or 3 feet 8 apart. Front bail can moved and machine used single bail lister. The drill mechanism is chain driven, otherwise it is practical same as on the two-wheel sulky lister. Three plates furnished to drop one ker corn every 12, 15 or 19 inches, and one blank plate which can be drilled to suit. box is hinged and tilts backward, making it easy to change plates. Price is fo machine complete, with disc coverers, 14-inch coulter, pole, combination three or horse evener and neckyoke.

Bradley-Schofield Potato Planters and Diggers.

The combination of planter and digger is a convenient feature and gives two machines at a low price.

The Planter is especially suitable for use in light soils. Strongly made entirely of iron and steel. It has convenient lifting and depth regulating device, adjustable to plant or dig to any depth desired. Planter is operated by a driver and a boy. The boy on the seat feeds potatoes to the droppers, insuring an accurate drop. Axle is tubular and wheels run any desired distance apart, from 30 to 42 inches, thus determining the distance between rows, as one horse follows the last wheel track. Machine will plant 13, 16 or 19 inches apart in a row. Covering discs can be adjusted to gather more or less dirt and run deep or shallow. Slanting knife coulter prevents clogging in ground. Plants 5 to 10 acres a day, ac to the soil and width and length of rows soil is not heavy and if free from ston roots this machine will give good satisf If, however, you have a large acreage or conditions are severe, we recommend the chase of one of our heavier planters separate digger. **Shipped from BRADLEY,**

32H425—Potato Planter and Digger bined. Weight, 260 pounds.
Price, complete $42

32H426—Potato Planter only. Weig pounds. Price $2

32H427—Potato Digger only. Weig pounds. Price $3

Bradley-Schofield No. 5 Potato Planter.

A stronger built machine than Bradley-Schofield Planter 32H426 and suited for heavier soil conditions. The main frame is made of heavy 2-inch steel angles, riveted, bolted and braced. The furrow opener will open a clean furrow, and seed is dropped at uniform depth. Furrow opener blade is heavy and strongly braced. Depth can be instantly changed to vary from 2 to 6 inches. Steel covering discs are adjustable up and down, in or out, to suit any condition. Lever for raising furrow opener and covering discs is in front of seed hopper, convenient to driver. Automatic dropper consists of malleable chain with cups for conveying seed to the spout. Seed is fed into conveyor from both sides of tray, which is kept replenished by sloping hopper bottom. Sprocket wheels furnished to drop 13, 16 or 19 inches apart. Seed marker is reversible, adjustable for different widths or rows, and can be locked in upright position out of the way. The axle is made of hard steel. Wheels are 30 inches in diameter, with 3-inch cave tires and are very heavy and strong. Steel hopper has extra large cap Planter is operated by a driver who sits on the hopper, and a boy who s the rear and feeds the seed to the dropper. **Shipped from BRADLEY,**

32H445—No. 5 Potato Planter. Weight, 240 pounds.
Price ..... **$37.**

David Bradley Steel Beam Potato Hillers and Diggers.

The beams are made of forged steel with high arch to clear in trashy patches and an adjustable rear gauge wheel regulates the depth. Blades are ground and polished. The digger blade has six round steel rods in addition to the flat side blades. It works with light draft and throws potatoes out of the ground without cutting them. The hiller or wing shovel blade has hinged wings, which are adjustable for width. Either the hiller or digger blade can be used on the same beam and it is but a moment's work to detach one and replace it with the other. If front gauge wheel is wanted it must be ordered and paid for extra. We recommend its use especially in hard ground. Buy the combined and digger. Every farmer has need for and the combination will serve as **Shipped from BRADLEY, ILL., or KAN CITY, MO.**

These mowers can be shipped from Bradley, Ill., Kansas City, Mo., or Fargo, N. Dak.

GENERAL PURPOSE MOWER.

adley Mower is designed and built to meet condi- ll sections of the country. It will do good work in est cutting on level ground and in the heaviest n rough, hilly ground. Customers write us from ns of the country that the Bradley Mower is giving satisfaction under the most difficult conditions. If a general purpose mower, one that will do good matter when or where it is used, order the Bradley; anteed to please you.

THE VERTICAL LIFT.

adley Mower is equipped with a vertical lift device ables the operator to easily lift cutter bar to an osition without leaving seat or stopping the team. The operator can up to a tree, stump or other obstruction and, by an easy pull on the raise cutter bar to pass the tree and drop it on opposite side without the mower, and leaving very little grass uncut. When the outer end bar is raised to a point about 23 inches from the ground, the tically thrown out of gear; when bar is lowered, machine is again in goes right ahead cutting without further attention from the operator.

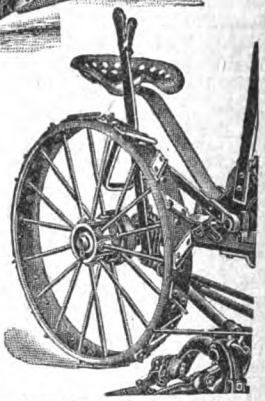
THE HAND LEVER.

and lift lever locks in two positions on the lever rack. The first position ner shoe about 6 inches from ground and holds the cutter bar in a horizontal ut still in gear. When run in this position the machine does excellent work ting. When the lever is thrown clear back, or in the second position, the is automatically thrown out of gear and brought to a complete vertical When in this position the hand lever locks firmly in place and the machine ely backed or transported from field to field without danger of cutting bar The flexibility of the cutting apparatus of the Bradley Mower and the of adjustment to meet all conditions are unsurpassed in any other mower.

BEARINGS.

boxings in all bearings except large bevel gear shaft and main axle. Main teel roller bearings.

THE FOOT LIFT.



radley foot lift is an invaluable feature in rough cutting. By means of this operator, by slight foot pressure, can quickly and easily raise cutter bar to pass over low stumps, stones, rough ground or other obstructions topping the machine from cutting. This device also makes it possible to eds or crops, to cut close up to stumps, on long steep banks and hillsides, y little grass uncut. Cutter bar is made of heavy special cold rolled steel ot sag, insuring free running surface for the knife at all times.

THE FLOATING INNER SHOE.

The inner shoe of the cutter bar automatically floats up to the point of touching the tongue, giving a ground clearance of 9 inches. It will pass over stones and rough ground without attention from the operator and without interfering with the cutting. The inner shoe will not dig into the ground on turns where the ground is rough, but conforms to the uneven surface, the mower doing excellent work under conditions where an ordinary mower without this improvement could not be used.

FLEXIBILITY OF CUTTER BAR.

The cutting mechanism is carried by a floating adjustment. The coil spring takes just enough weight of the bar off the ground to permit it to cut close and follow all irregularities of the surface. The bar is so flexible that the machine may be driven along the edge of a ditch with bar extending down into ditch, or with machine down in the ditch the bar will cut along the sloping bank. Even under such difficult conditions the Bradley will work satisfactorily.

The above illustration shows the Bradley all steel staggered spoke wheel, which reduces the possibility of breakage and insures great traction. Furnished in place of regular wheels at $1.50 per machine extra.

IMPROVED FRAME CONSTRUCTION.

All lever racks, braces and fulcrums are mounted on the frame proper, not on the tongue, so that much less weight falls on horses' necks and also makes easy the removal of tongue for storage. Differing from the usual construction of laying the tongue in an iron trough, which holds water and rots the tongue, we turn the channel open side down, thus covering and protecting the tongue. The absence of bolt holes in the tongue eliminates danger of breaks at such point.

PRICES.

Price is for mower complete with neckyoke, doubletrees, one extra knife, extra section, extra guard, wrench, punch, cold chisel and oil can.

ide Delivery Windrower and Buncher.

Prices do not include mower.

Can be attached to any make of mower without drilling any holes in cutter bar. Windrower platform is made of high carbon spring steel.

Used for windrowing or bunching clover, alfalfa, peas, soy beans, vetch, short grain, in fact, practically any crop that can be cut with a mower. They keep the hay clear of dirt and stubble. They soon pay for themselves in cutting of any seed or hay crop. The Side Delivery Windrower delivers the crop to the side, behind the track wer, out of the way of the team on the next round. The buncher or hes at bottom of seat spring and swings on a table supported on the d is operated automatically by a foot lever. When gate is closed it matically and is held there until the bunch is the desired size; then a sure of the foot lever opens the gate, and it remains open until the loses it with foot lever. The machine with buncher can be used as a by leaving the gate attachment open. **Shipped from factory in RN MINNESOTA or BRADLEY, ILL.**

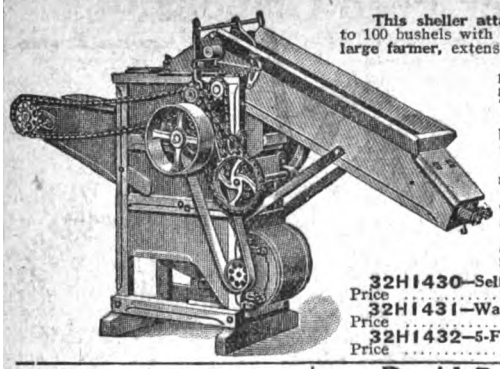
Standard Binder Twine.

We can furnish Standard Binder Twine at prices well below the market. If interested write for prices.

Rear Delivery Steel Buncher.

Prices do not include mower.



This buncher is used for bunching short light hay, prairie grass, clover, peas, short and down grain, etc., and will save many light crops that cannot be handled with a rake or are too light to be handled with our Side Delivery Windrower. The pickup bars are tough, springy steel and the hopper or gate is heavy sheet steel, strongly reinforced. It cannot split, check or warp like a wooden hopper and will give better satisfaction in every way.

Rear delivery bunchers are largely used in the West and Northwest and by cattle ranches to gather the short hay in bundles for Winter feeding. Hay thus gathered is free from dirt, weeds and stubble that a rake picks up. A foot lever releases the bunch at will of operator. The Rear Delivery Buncher attaches to any mower without drilling holes. **Shipped from factory in SOUTHERN MINNESOTA.**

X-L-ALL Self Feed Two-Hole Corn Sheller.

This sheller attains large capacity with very little power. It will easily shell 50 to 75 bushels per hour with 2 horse-power, to 100 bushels with 4 horse-power, and with good corn these capacities can be increased. **It will perfectly fulfill the requirements** large farmer, extensive stock raiser, warehouseman, or for general custom work, and we guarantee it to stand up under the w

The frame and all other parts are unusually heavy; the sheller is well proportioned and it will not pieces nor any parts get out of alignment no matter how heavy the work put on the machine. Shafting, gears and all mechanism are very heavy. Running parts are accurately fitted, insuring smoothness of op The interior of machine is easily accessible from the top through a hinged lid covering the adjusting spri

The sheller is quickly and easily adjusted for different kinds of corn, and is guaranteed to shell clean breaking the cobs or grinding the corn. Having an extra large and powerful fan, it delivers the shelled c from cobs and dirt.

Sheller is 5 feet high, 30 inches wide and 55 inches long over all. Frame is selected hardwood and m nicely painted, striped and varnished.

Gears are protected by guards and a shifting clutch throws feeder in or out of gear instantly. Solid wel wheel, 22 inches in diameter, weighing 65 pounds, insures steady operation. Pulley is 12x4 inches and sh about 700 revolutions per minute.

The cob stacker, wagon box elevator and the 5-foot sacking elevator are furnished only when ordere extra prices shown. The mounting trucks, 32H1585, are especially useful when sheller is used for custo **Sheller and attachments are shipped from factory near CHICAGO.**

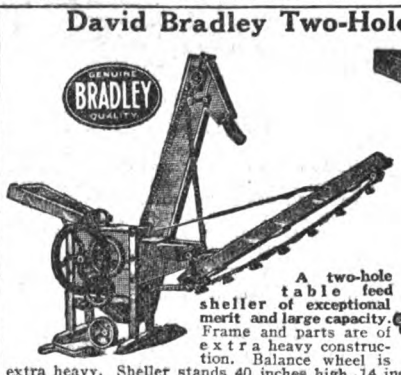
One-Hole Corn Shellers.

These are shellers of standard construction. Capacity is from 10 to 15 bushels of shelled corn per hour. Illustration shows sheller with feed table attached. **Shipped from factory near CHICAGO.**

32H1400—One-Hole Sheller, without **table or fan.** Weight, 130 pounds.
Price **$9.85**

32H1401—One-Hole Sheller, with **table only.** Weight, 137 lbs.
Price **$10.35**



32H1402—One-Hole Sheller, with **table and fan.** Weight, 145 pounds.
Price **$10.75**

32H1403—Clamp Pulley, 8x2½ inches. Weight, 6 pounds.
Price **60c**

For Small Hand Sheller see page 841.

We handle a complete line of **Grain Bins** and **Corn Cribs.** If interested write for prices.

David Bradley Two-Hole Corn Sheller.

A two-hole table feed sheller of exceptional merit and large capacity. Frame and parts are of extra heavy construction. Balance wheel is extra heavy. Sheller stands 40 inches high, 14 inches wide, 29 inches long. Frame over all is 52 inches long, including the cob carrier. Feed spouts have adjustable rag irons and springs. Fan has strong blast. Sheller has a capacity of 350 to 450 bushels a day with power. Pulley is 10 inches in diameter, with 3½-inch face, and should be speeded about 350 revolutions per minute. A 1 horse-power engine will handle sheller easily.

Large illustration shows sheller with sacking elevator; small illustration shows sheller with wagon elevator and cob stacker, but price on sheller does not include any of these attachments, which are furnished only at the extra prices quoted below. Price on sheller includes crank, pulley, fan and feed table.

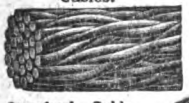
Triple Geared Ball Bearing Sweep Fe

For grinding corn and cobs, shelled corn, oats and other small grain for feeding, but will not grind ear corn with the husks.



Easy running and has good capacity. Ball bearings support the internal revolving mechanism. The gearing is enclosed. The cob breaker breaks the ear corn and forces it into the grinding rings. Grinding rings make three revolutions to one round of the horse. capacity, based on coarse grinding of and cobs, is from 8 to 15 bushels an h two horses are used. Grinding rings furnished with the mills are for coarse of corn and cobs or shelled corn for fee poses. For finer grinding of shelled co grinding wheat, oats, rye or other sm fine grinding rings are required. Ca shelled corn is from 10 to 25 bushels oats, 4 to 8 bushels an hour. Grindin or fine with fine rings reduces the capa third to one-half. The mill is mount platform. Price is for the mill complete pair of grinding rings only, sweep and h **When ordering mill or extra rings, state you want coarse or fine grinding rings. from factory near CHICAGO.**

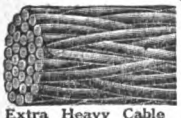
Copper Cable Lightning Rods—Furnished in Three Sizes



Illustrations Show Actual Diameters of Cables.

Standard Cable (30 Wires).

Heavy Cable (32 Wires).

Extra Heavy Cable (34 Wires).

In sections where electrical storms are unusually severe the heavier cables have been extensively adopted, especially for large buildings or those requiring three or more groundings. For all ordinary buildings, however, our Standard cable is sufficient.

Our two heaviest cables are so woven as to permit the greatest possible circulation of air around and between the wires. This reduces the danger of overheating and thus melting the cable.

Vanes are mounted on brass swivel to turn easily with the wind.

In measuring for cable allow enough so that all bends or turns over eaves or around corners will be gradual, and where cable passes close to metal cornices, water spouts, ornaments, gutters, etc., it should be connected to such points. At least two ground connections are needed for every building, and on large buildings with more than five tops or points, three groundings. Allow 10 feet for each ground connection.

Tops or points should not be over 25 feet apart. Each cupola and tower should have a point or top, and each gable or wing extending from main structure 10 feet or more should also have a point or top. There should also be a top or point at the side of each chimney.

An expert is not needed for measuring your building nor for putting on the rods. You can easily do this yourself and save this extra expense. **If your building is of unusual construction, or you want more information write us stating what you need, and make a rough sketch of the building and we will send you a special catalog giving full instruction for rodding buildings; also showing illustrations of our complete line of fixtures not shown on this page.**

Prices include sufficient copper clips and nails for fastening cable to the building.

A complete lightning rod outfit with cable and complete tops will weigh, packed for shipment, from ¾ to 1 pound to the foot. **Shipped from factory near CHICAGO.**

Price, each **$2.10**

High Quality Road Scrapers.

Made of Heavy Gauge Steel.

Bowls are pressed from a single sheet of special high carbon scraper steel, and by a special method of stamping the full thickness of steel is preserved at the point of greatest wear. Corners, sides and back are formed on a gradual curve, causing scrapers to fill and clean easily. Sides are stiffened by a projecting flange all around upper edge. Nose is rounded and enters ground easily. Bail and swivel are heavy forged steel. Hooks and handle sockets are heavy steel securely riveted in place. Hardwood handles. **Double runner scrapers** are the favorite, having two runners of hardened steel riveted to bottom. **Double bottom scrapers** have an extra bottom plate of hard steel, 13x21 inches, riveted to bottom. Our scrapers are unsurpassed for the heaviest work of farmers, contractors, townships and railroads. **Shipped from factory in WESTERN OHIO.**

David Bradley Cob Crusher Feed Grinder

Dusttight Burr Cover.

Instantaneous hand lever adjustment.

Angle Steel Legs, strongly braced.

Sacking Elevator is furnished only when ordered at the extra price.

Successfully grinds corn on the cob (without the shuck), shelled corn, oats or other small grain, and to most any degree of fineness from cracked feed to table meal.

The cob breakers which cut and crush the cobs are set spirally on the heavy shaft and force the grain to the corrugated ring crusher and worm feed, which set next to the burrs and keep them working to their full capacity. Gate between hopper and burrs regulates the amount according to the power available. Burrs are 8-inch, self aligning, are protected by a cushion spring, easily changed, and are instantly thrown out of gear by a handy safety lever. The frame bed is one solid casting with a hinged bottom held to place by wood break pins, which protect the grinder against solid obstructions that may be in the grain. The stanch construction of this grinder, with the heavy angle steel legs solidly braced, large, true running bearings with hard grease cups and the balanced heavy flywheel, insure long years of service.

Grinder should run 300 to 350 revolutions per minute and requires 4 to 6 horse-power. Pulley is 12 inches in diameter with 6-inch face, or we will furnish either 8x6, 10x6 or 14x6-inch pulley instead without extra charge. **Please state size of your engine pulley and its speed.** Capacity depends on the power, the speed, the kind of grain and its condition. The range of capacities is from 10 to 25 bushels of dry ear corn and 10 to 40 bushels of shelled corn, wheat, oats or barley per hour. Regularly furnished with one set of coarse burrs for crushing or cracking ear and shelled corn for rough feed and one set of coarse burrs for finer grinding of shelled corn and small grain. At the extra price we furnish special oat burrs, which are also suitable for grinding table meal.

The sacking elevator is furnished only when ordered at the extra price shown.

David Bradley Small Grain Grinder

A feed grinder and family meal and flour mill combined.

We have developed this mill to meet the demand for a general purpose mill which can be used for grinding meal and flour for table use as well as the coarser classes of work. It is designed for use with gasoline engines, 1 horse-power and larger. Its capacity, of course, depends upon the power furnished and the class of grinding desired, but in any event we believe you will be surprised at the results and highly satisfied. The self aligning 5¼-inch burrs are mounted in a dusttight case with hand wheel adjustment for fineness of grinding, and hand lever locknut which securely holds the adjustment desired. The removal of two bolts gives access to the burrs. A slide in the hopper regulates the quantity of grain admitted to the spiral FORCE FEED, which keeps the burrs working to their full capacity for the power available. The perforated bolting screen bolts corn meal, graham flour, etc., ready for table use and is operated by the wabble cam wheel on main shaft. The main shaft runs in long babbitted bearings which are lubricated by large grease cups. Pulley is 4x4 inches and should run 700 to 750 revolutions per minute. Capacity is from 5 to 15 bushels per hour, depending upon fineness of grinding, condition of grain and horse-power used. Furnished with one set of coarse burrs for grinding shelled corn, oats and other small grains for feed, and one set of fine burrs for grinding meal and flour for table use. We regard this mill as one of the best values we have ever offered in a small grinder and guarantee it to satisfy you in every respect. Each grinder is furnished with two sets of burrs and the bolting screen.

Model X-L-All Fanning Mill and Grain Grader

s, Grades and Separates Any Small Grain All in One Operation.

Seed Corn page 842.

This double-shoe mill, with its regular equipment of screens and riddles, will clean and grade wheat, oats, barley, beans, peas, corn, buckwheat, rice, cotton seed, clover, alfalfa, timothy, etc. The regular equipment consists of four riddles and four sieves and covers all ordinary work. For special separation and grading see list of extra attachments. Riddles and screens are all the same size, 25x27½ inches; this permits screens being used in upper shoe as riddles when desired and is a marked advantage over fixed riddles. Screens are kept clean and prevented from bagging by scrubbing bars. Upper shoe has side shake and lower shoe has end shake, the length of shake being adjustable. The **side spout** is the outlet for all small seeds before they strike the air blast. This saves for recleaning such seeds as timothy, which are ordinarily blown out with the chaff.

xtra large hopper, holding about 2 bushels, has two distinctive and features, the **feed regulator** and **agitator.** The slide regulator admits desired amount of grain to the riddle and the agitator keeps the wing evenly without the possibility of clogging. Another valuable the screening box or drawer shown in the bottom of the mill, which the screenings becoming mixed again with the grain.

s 3 feet 7 inches long, 3 feet 7 inches high and 3 feet wide. All lumber its construction is selected high quality and thoroughly kiln dried. 60 bushels of grain per hour.

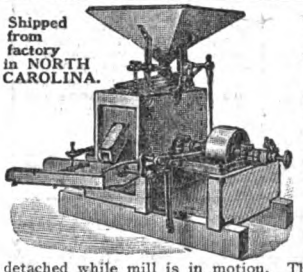
730—Flax Attachment. For ordinary clean threshed flax. Takes wheat, oats, weeds, etc., from flax. Weight, 10 pounds. **$3.70**



737—Lespedeza or Japanese Clover Attachment. Consists of five es and two screens. Weight, 20 pounds. **$7.45**

732—Barley Attachment. For separating barley from oats. Weight, **$6.40**

755—Timothy Attachment. Takes out sand, clover, alfalfa, millet, d top, also pepper grass, plantain, daisy and other weeds. Weight, **$6.95**

751—Power Attachment. Consists of 8x2-inch tight and loose pulleys et wheels and chains; should run about 350 revolutions per minute. 5 pounds. **$2.45**

E—These mills are not intended for hulling or shelling peas, but with the equipment regularly they will clean and grade peas already hulled. We do not handle pea hullers.

Shipped from factory in NORTH CAROLINA.

Eureka Stone Burr Mills

These mills are fitted with native stone burrs which make a soft meal. Are preferred in some sections, especially the Southern States, for making table meal. They also do good work on grinding shelled corn and small grains for feeding purposes, and are suitable for custom work, as well as for individual farmer's use.

The wood frame is made of extra heavy selected lumber. Entire construction is very strong and the mill is well finished throughout and nicely painted. Hopper is wood. Feed is adjustable for regulating flow of grain and is self locking. A fan cleaner blows out light trashy matter before reaching the burrs.

The bolter or sifter is driven from an eccentric on main shaft. Bolter can be attached or detached while mill is in motion. These mills will grind rapidly, coolly and evenly. Instructions are furnished for operating mills and for redressing stones. **Shipped from factory in NORTH CAROLINA.**

OUR FAMOUS CRYSTALLINE BELLS.

Guaranteed for Five Years Against Breakage.

For Small Farm Bells see page 840.

Cast from a special mixture of metal of high quality. Thousands of schools, churches and factories use our Crystalline bells with perfect satisfaction.

We allow sixty days' trial on every Crystalline bell we sell. During this period you can give it a thorough trial. Compare it in tone, volume and quality with composition bells of any other make, and if you find any reason to be dissatisfied you can return the bell to us at our expense and we will return to you every cent you paid for it and freight charges.

Thirty-eight inch and larger bells are mounted on **roller bearings.** These bearings enable one person to ring our largest bells with great ease. Bells 24 inches and larger are fitted with our **improved springs and clapper,** which insures a full stroke of the clapper without the possibility of a second stroke. Iron rope wheels are furnished with 20 to 36-inch bells and sectional wood rope wheels with 38 to 48-inch bells. **Tolling hammer is furnished with church bells.**

Prices are for the bells complete with frame, wheel and wood sills. **Shipped from factory in CENTRAL OHIO.**

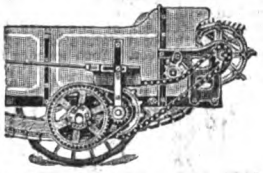
David Bradley Light Draft Auto-Steer Manure Spreade



Compare each feature of this new improved spreader with the best you know in spreader construction and we believe you will agree that no other spreader offers so many real worth while improvements, or so much quality in every square inch of its makeup. Honest capacity, stanch construction with minimum weight, extreme simplicity, the fewest parts possible, thorough pulverization with the least power demand, elimination of torsion strains and ease of handling for both man and team are accomplished facts in this superior spreader which we offer under the broadest guarantee possible: It must satisfy you perfectly after a fair trial, or we accept its return at our expense and cheerfully return your money.

All Steel Frame—One-piece channel steel side sills bound together by steel channels, crossed braced with tie rods and **bridge trussed** by angle steel apron guides underneath, form a solid unit that defies the most severe strains and maintains true alignment. Heavy beater supports rest directly on the sills and are braced by the heavy angle steel rake arch, thus relieving the box sides of any strain. Box sides are supported by steel bars extending from top to bottom and secured to main sills by bolts. Top edges of box are iron bound.

All Steel Spiral Beater—Formed of steel U-bars mounted spirally on three malleable heads of large diameter. This distinctive Bradley feature of setting the bars spirally has a fourfold purpose. It stiffens and renders them proof against side twist by the teeth. It relieves the bars of the usual strain of all teeth on a bar engaging the load at the same instant, the load or torque being taken on one tooth at a time. Spirals prevent the throwing out of chunks because at no time is there a wide opening where the load can fall between two bars, the open space between bars running crosswise from an upper to opposite lower corner. This also relieves the driving mechanism of the usual strain of a jerky, uneven load because with this overlap of the bars, before the last tooth of one bar leaves the solid part of the load the first tooth of the following bar is engaging it. Self aligning bearings prevent binding.

The All Steel Leveling Rake is hinged to the heavy angle steel arch, has long compression relief springs, permitting unyielding obstructions to pass through without detriment, and distributes the load evenly to the beater.

Showing the simple, accessible and powerful drive. Large spur gear permanent on axle, large sprocket permanent on countershaft, small pinion gear is always in mesh with large gear and slides on the countershaft to or from the large sprocket, which it engages with heavy jaw teeth when thrown in gear. Beater chains encircle both sprockets.

Powerful, Simple Double Drive.

The heavy rear axle is the driving member for all moving parts and receives with equal distribution the full tractive force of both rear wheels. Unequal demand on the drive wheels is the cause of wheels choking down and skidding, a condition that is impossible with the Bradley, regardless of the frozen or slippery condition of the ground. The differential, a simple three-dog clutch in the hub of one wheel (see illustration), permits the spreader to run full tilt when turning corners and without strain. The countershaft, which drives both the beater and apron, receives its power through the heavy spur gear mounted solidly to rear axle and the sliding pinion gear on the countershaft. The large beater driving sprocket is mounted solidly to the countershaft and has clutch teeth on its outer face which, when the left hand lever is thrown, engages the clutch teeth on the inner face of the sliding pinion gear. The valuable feature of this simple drive is that the large gear and sliding gear are always in mesh. The beater sprocket chain encircles both sprockets, thus distributing the strain around the sprockets, not on one side; a much better method than running a chain on one side of a sprocket with fewer teeth engaged and the enormous pressure necessary to keep it from jumping off. The apron cannot be started without the beater.

With the chain encircling the sprockets, gears always in mesh, the clutch gear removable independently of any other part and each drive wheel carrying equal share of the load, we believe this drive to be the simplest, stanchest and most accessible ever devised.

Silent, Positive Ratchet Feed.

Note the simplicity: The lever on the countershaft crank (see large illustration at top) works the curved lever up and down on a bearing midway between the ratchet fingers, and imparts to them alternately a pushing motion that turns the feed wheel with smoothness and regularity. The feed control lever at the operator's right slides the top of the crank lever in or out on the curved lever for different lengths of stroke, thus regulating the speed of the apron and consequently the thickness of spreading. Merely sliding this lever, without a gear, clutch, spring or intricate part, changes the thickness of spreading from a light top dressing to a heavy coat of manure. A highly efficient trouble apron feed. Few parts, all in plain sight, any part removable without di the others, and no adjustments necessary or possible.

Pivot Wheel, Auto-Steer Front Truck.

The Auto-Steer front trucks eliminate all tongue whip, permit wide tread with high wheels and short turning without cut under wheels.

This construction keeps the load sitting on all four wheels, eliminates the strain caused by fifth wheels permitting to rock over center and so much of the of balance. The front wheels pivot the on an automobile, and make short turns cutting under the box. This makes valuable feature of a wide front tread, as rear wheels, without the objection axle with its tongue whip and its cutting the box. In the Bradley every bit of whip is eliminated, in fact these spreaders loaded, have been driven over rough lev with the tongue removed.

Full Slatted Endless Apron; narrow slats fitted closely together and mounted endless link chain belts with bearing surfaces slide on smooth steel tracks. Apron ch over sprocket shafts at each end, which true alignment. The closely spaced tight fitting box slides form a box that liquid manure. Apron always starts easily because the box is wider at the in front.

Roller Bearings—All bearings are self aligning with hard grease cups. Large bearings carry the rear axle and are used in the front wheels also.

Wide Spread Pulverizing Attachment.

Rear view showing the Spread Attachment, which sists of four flat steel mounted slantingly on a volving shaft. This we to be the most efficient simplest Wide Spread ma verizer ever produced.

Peculiar to the development of anything mechanical, and strange as it may seem, the most complicated devices are tried out first, real progress being marked by the degree it is simplified.

One look at the powerful, smooth running Bradley Wide Spread in action evokes the thought; "Why didn't some one think of that long before?" It consists of only four round, flat discs mounted slantingly on a shaft running through their centers. Discs being round and mounted at their centers, the attachment is in balance, all jerkiness eliminated; discs being mounted on a slant, the revolving shaft imparts to them a smooth but powerful side slap motion that thoroughly pulverizes the manure and spreads both ways a fine even coat well beyond the wheel tracks.

Capacity—Box is 132 inches long, 45 inches wide and 15 inches deep, giving a larger capacity than the usual 65-bushel spreader, which will be most evident if you will compare with other makes. When comparing capacities, compare the measurements of spreader boxes and be sure the length does not include the beater and that there is no waste at the bottom for cut under wheels.

A Two-Horse Spreader—So light is the draft that under ordinary conditi horses handle the Bradley with ease. Only in very heavy going are three necessary and we provide a combination two and three-horse hitch to emergency.

High Wheels, Wide Tires, Low Down Box—Rear wheels have traction d are 42 inches high. Front wheels are 25 inches high. Top of box is 43 inches the center. Width of spreader over all is 74 inches.

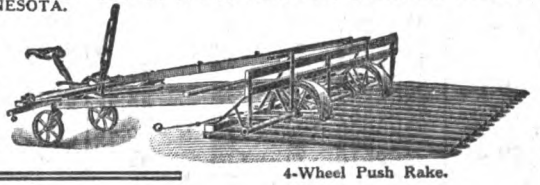
Trussed Frame 2-Wheel Sweep Rake and Power Lift 4-Wheel Push Rake.

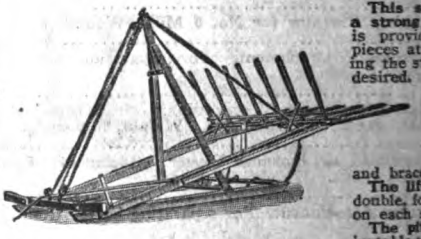
2-Wheel Sweep Rake.



Our Sweep Rakes and Stackers are of improved design, made of high quality materials and stanchly constructed throughout. As between this and cheaper lines we could offer we believe our customers will appreciate the quality for small additional cost.

The trussed frame of the two-wheel rake prevents sagging under heavy loads and the loose tongues allow the rake to follow unevenness of the ground freely. Rake is 12 feet wide, has 13 selected teeth and is carried on large wheels 16 inches in diameter with 3-inch faces. **The Power Lift 4-Wheel Rake** is of extra strong construction to meet the heaviest haying conditions. A special feature is the "power lift" which carries the teeth high from the ground, the horses supplying the lifting power. Teeth are doubly braced by the heavy axle, which is carried on extra large wheels. Only selected high grade material is used in both rakes. They are strongly built, nicely painted and varnished.

Shipped from SOUTHERN MINNESOTA.



32H5504—2-Wheel Sweep Rake. Weight, 450 pounds. Price $22.95

32H5509—4-Wheel Push Rake. Weight, 750 pounds. Price $45.85

4-Wheel Push Rake.

Overshot Hay Stacker.

This stacker is a strong ground is provided with pieces at the back ing the stack higher desired.

The "A is gover metal bea ing on a at the bo is strongly and braced.

The lifting arms double, forming a on each side.

The pitcher teeth justable to any desired

The spring attachment of this stacker is a most desirable is easy to adjust, and works automatically. In elevating a horse travels but 35 feet when the load is dumped in the a stack.

The teeth are 9 feet long and are provided with metal fitted and securely fastened.

Stacker is equipped with 3 pulleys, 50 feet of ¾-inch rope and of ¾-inch rope.

This stacker is made of well selected material, is manufactured first class workmanlike manner, is nicely painted and varnished from **SOUTHERN MINNESOTA.**

Kenwood Agricultural Boilers.

FULL CAPACITY GUARANTEED.

A strictly high grade boiler, and our own exclusive design. Popular among both farmers and butchers. Can be used for any purpose where a fine, smooth kettle is required, such as rendering lard, cooking feed for stock or boiling sap. **Caldrons are made of fine grain smooth iron, with black lead finish inside, and we guarantee them to be full capacity. Furnaces are cast iron throughout,** put together as well as any stove made, and the design is pleasing and ornamental. Price is for the furnace and caldron complete as shown, but does not include pipe. For coal they have iron grate and heavy firebrick lining, which can be taken out and replaced through the door. **Shipped from factory in CENTRAL OHIO.**

Design patented.

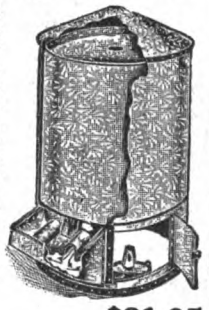
Farmers' Friend Feed Cooker and Caldron Furnace.



The jacket is heavy rolled steel plate, supported at the bottom by heavy iron bands. **Kettles are made of smooth, fine grained iron with black lead finish inside, and we guarantee them to be full capacity.** The rim of the kettle rests on top of the jacket and the kettle can be easily removed. Cooker is intended to set on the ground, as it has no bottom. For indoor use, set on a base made of brick and sand. Can be used for cooking feed, rendering lard, or for any other purpose where an ordinary kettle can be used. Prices are for the cooker for burning wood, complete with elbow, damper and one joint of pipe. Coal grates and cover are extra. **Shipped from factory in CENTRAL OHIO.**

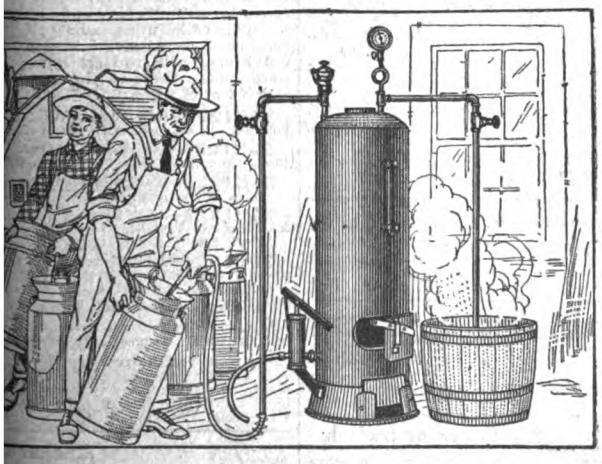
The All-Year Sanitary Hog Watering Fountain.



A sanitary waterer that will not freeze in Winter and will keep the water cool and clean in Summer. The water compartment being airtight after filling, the water is automatically fed to the drinking trough, which is always full, but never overflows. The drinking pan is made of cast iron and is large enough to accommodate two animals at a time. It is not necessary to build a runway, as hogs can stand on ground to drink. The air space in top and sides helps prevent freezing in Winter and keeps the water cool in Summer. Tank and outer casing are separate, with air space between. Water pan is heated with an oil lamp with large fount, holds oil enough to run thirty-six hours, and keeps water at right temperature. Lamp burns kerosene. Made of heavy galvanized steel. Height, 39 inches; diameter, 30 inches. Capacity, 70 gallons. **Shipped from factory in WESTERN ILLINOIS.**

32H1886—70-Gallon Hog Waterer and Heater.
Weight, 125 pounds. Price..... **$21.95**

For other Stock Waterers see page 838.

Dairy Boiler and Steal Feed Cooker.

Burn cobs, wood or coal. Are very quick steamers and very economical in use of fuel. Used for cooking feed, scalding hogs, scalding milk cans, thawing out water tanks, and for all steam cooking, washing or renovating purposes. Used indoors or out of doors. Requires no experience. No flues to clog or burn out. No danger from quick firing. Made of heavy boiler plate steel with steel head. Shell and head are welded together by a special process; there are no riveted or patched joints or seams to leak, and the welded seams are stronger than riveted seams. Has cast iron base and dump grate. Has a cone shaped fire box extending full height of boiler inside. This fire box is surrounded entirely by water and will not burn out. The water surface is least where the heating surface is greatest, making the boiler a quick steamer. Boilers are equipped with safety valve, adjusted to 15 pounds pressure, sufficient for all agricultural purposes. No. 2 boiler holds 30 gallons and No. 3 boiler holds 40 gallons. Boilers are furnished with two sets of

pes, shut off valves, one try cock, water glass, safety valve, steam gauge, hand pump and hand pump hose. m steam pipe not furnished. Each boiler when used for cooking will heat to the boiling point about four times water as it converts into steam. **Shipped from SOUTHWESTERN MICHIGAN.**

999—**No. 3 Boiler.** Height, 68 inches; diameter, 17 inches. Weight, 290 pounds. Price.... 60.45

Extra Strong Galvanized One-Piece Hog Trough.

Shipped nested at a saving of one-half in freight charges.

Trough is formed from one piece of No. 20-gauge galvanized steel, which makes a liquid tight trough without soldered or riveted joints. Legs are separate, and slotted to slip over the folded end, and creased at the top for easy bending over the trough end. Thus they are held there securely and cannot become loosened. Galvanized crossbars are spaced 12 inches apart. The troughs are shipped with legs and crossbars off, nested together, thus saving about half the freight you would pay on troughs which cannot be shipped nested. Troughs of same or different sizes can be nested. It requires but a moment to attach the ends and braces. Troughs are 11 inches across top, 6 inches deep. **Shipped from our store.**

	Wt.	Price

Cast Iron Hog Troughs.

On account of their weight and durability these troughs are very popular among hog raisers. They have smooth bottoms inside and can be easily kept clean. Made of a good quality of close grained iron and are sufficiently heavy so they are not easily tipped over. The 3-foot trough has one iron crossbar, the 4-foot trough has two, and the 5-foot trough has three crossbars. Troughs are 12 inches wide. **Shipped from our store.**

Simplex Automatic Hog Oiler.

A three-bar oiler, very simple in construction and automatic in operation. The only moving parts are the rubbing posts. When the animal rubs one of the bars, the plunger formed top of the bar is forced into a small cup, displacing the few drops of oil the cup contains and causing the oil to flow down over that rubbing bar. There are no valves to become clogged or held open and no half way point where a continuous flow of oil would be possible. The oil is contained in and supplied from an inverted tank clamped on the top of the post. Vacuum maintains a full supply chamber into which the plunger works and at the same time seals the only opening in the supply tank. Any oil draining from the rubbing post is caught in the recessed cup in the pedestal, and from there is applied to the under parts of the animal. Economical in handling of the oil, of simple and stanch construction. **Shipped from our store.**

32H1766—Simplex Automatic Hog Oiler. Wt., 47 lbs. Price, each.....$4.50

Hog Oil, Medicated.

For hogs that are irritated by lice and to keep hogs from getting lice. Used both as a spray and for hog oiling posts.

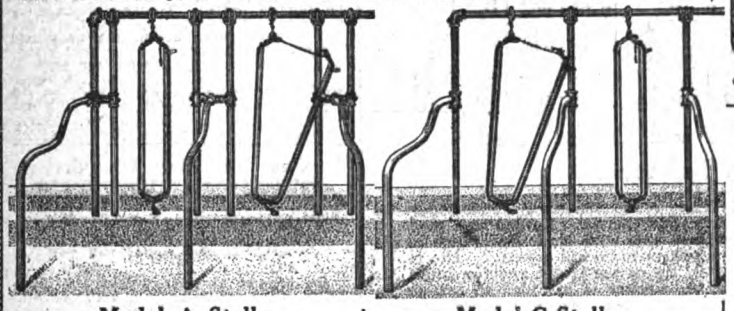
Peerless Dairy Barn Equipme



Simple, strong, practical. No complicated parts to get out of order, yet contain all the features necessary for cleanliness and convenience. Made from high carbon brazed steel tubing, 1⅝-inch outside diameter, 1⅜-inch inside diameter, very stiff and strong. Put together with heavy malleable clamp fittings. No threads in tubing or fittings, everything bolted together. Upright posts stand 5 feet 5 inches high above floor with 5 inches additional for imbedding in the concrete.

The triple bend stall partitions extend back 42 inches from uprights and are 42 inches high from floor. Partitions have a cast flange riveted to bottom end to hold them securely in the concrete.

Stalls are finished in a durable blue gray enamel paint. Shipped from factory near CHICAGO.

When ordering stalls be sure to give us the following information:
Into how many rows the stalls are to be divided.
The desired width of stalls.
Do the rows join the building wall at one or both ends?
Also furnish us with a rough pencil drawing showing the number of stalls in each row, the location and size of any posts that may be in the way of the rows, and the distances between posts from center to center in both directions.

For barns and silos, see page 973.

Model A Stalls.

Each stall has two uprights and crosspiece for supporting partition. Prices include top rail, two side uprights, one bent partition, one stanchion with anchor and necessary clamps and bolts. Furnished 3 feet 6 inches to 4 feet wide, as ordered. **State width.** Weight, about 75 pounds. Illustration shows two stalls with partitions and one extra end section.

The Stanchion furnished is our 32H2214 Peerless Oval Steel Stanchion described below.

32H2263—Model A Steel Stall.
Price, each **$8.20**

Model C Stalls.

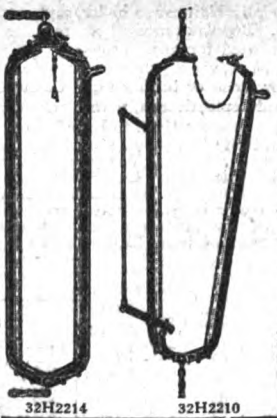


Illustration shows two stalls and one extra end section. Price is for stall complete, consisting of top rail, one side upright and partition, stanchion with hanger and bottom anchor and necessary clamps and bolts. Furnished any width, 3 to 4 feet. **State width desired.** Weight, about 56 lbs.

The Stanchion furnished is our 32H2214.

32H2267—Model C Steel Stall.
Price, each..... **$6.35**

Where both ends of a row of stalls are independent and do not join the wall of building, one extra section composed of an upright and bent partition is required for finishing off the end of row.

32H2268—Extra End Section for finishing end of row. Shipping weight, 25 lbs.
Price **$2.93**

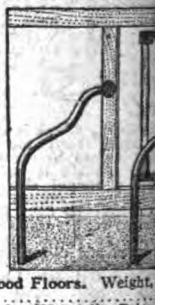
Write for This Special Catalog of Dairy Barn Equipment No. 476GC.

Besides showing larger illustrations with more complete descriptions of the items shown on these pages, it shows our complete line of Dairy Barn Equipment, including cow, calf and bull pens, mangers, etc.; also our complete line of Litter and Feed Carriers.

Peerless Quick Detachable Water Bowls.

Can be attached to either steel or wood posts.



A storage tank elevated a few feet will provide all the pressure necessary for these bowls. The valve consists of a rubber Fuller ball closing against a brass seat and held in place by a brass spring. The water can be piped from either above or below. When piped from below two ordinary elbows and a short nipple are required. These are not included in the price of the bowl, nor are the pieces of pipe and the coupling shown above the bowl in the illustration. The clamps for supporting the supply pipe and a clamp with lever for attaching the bowl to the stall post are furnished. Peerless bowls can be quickly detached for cleaning merely by moving the small lever, which locks the bowl securely in place. Bowls are made of malleable iron and are 10x10 inches in diameter and 4¼ inches deep, with rolled edges. Weight, 12 pounds.

hampion Square Mesh Farm Fencing

For attractive design and lasting qualities, Champion Fencing is unsurpassed. It stretches up straight and rigid, and requires the minimum number of posts. Of course, the heavier the fence you order, the longer the service you can expect, and while our Champion Standard meets all ordinary farm requirements, we recommend our Champion Extra Heavy Fencing to those whose needs will justify the additional expenditure.

Champion Square Mesh Fencing meets every requirement of an all around farm and stock fencing. Each wire is full U. S. Standard gauge steel wire, thoroughly galvanized for protection against rust. Wires are heavily crimped between each stay to compensate for expansion and contraction of heat and cold and also to provide a springiness to withstand strain or sudden impacts. Of special importance are the continuous one-piece stay wires which act in the relation of posts every 6 or 12 inches throughout the fence. They prevent sagging or bagging between posts in a way not possible with short flexible ties, and maintain more even spacing than would be possible if each tie represented a hinge joint. Careful to maintain the advantage of one-piece stay wires, we lock each line wire to the stay as tightly as the staples hold them to the post. The Champion tie or lock is put on with sufficient crimp and tension in both stay and line wires at the tie so that both wires carry their full share of strain, producing a fence that stands the most severe strains and comes back to its original upstanding position straight and stiff. Observe that the tie crosses the line wire on a slant, thus no pocket is formed any place in the tie to hold water and encourage rust. We recommend this fencing to those who desire building a fence once and for all. **Shipped from our fencing factory in CENTRAL INDIANA or from KANSAS CITY, MO.**

SIZES OF WIRE USED IN CHAMPION SQUARE MESH FENCING.

No. 9  No. 10  No. 12 

Champion Standard Fencing.
Is made with stays spaced either 6 or 12 inches apart and, excepting the 26 and 32-inch heights, which have No. 10 top and bottom wires and No. 12 intermediate wires, all other heights have No. 9 top wire, No. 10 bottom wire and No. 12 intermediate line and stay wires.

Champion Extra Heavy Fencing.
With stays spaced either 6 or 12 inches apart. All line wires made of No. 9 hard galvanized steel wire and vertical stays made of No. 10 hard galvanized steel wire.

Champion Fencing is made in 10, 20 or 40-rod bales. State size bales wanted.

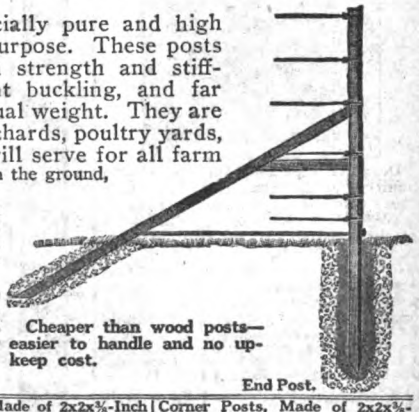
Indestructible Angle Steel Fence Posts

Pointed for Driving.

Showing punching of posts and method of attaching line wires with staples.



Made from rail carbon steel, an especially pure and high grade steel, particularly suitable for this purpose. These posts possess the advantages of lightness with strength and stiffness, yet sufficient springiness to prevent buckling, and far greater durability than a tubular post of equal weight. They are particularly well adapted for use around orchards, poultry yards, vineyards, etc., but when firmly set they will serve for all farm fencing purposes. The posts are pointed for driving in the ground, avoiding the back-breaking task of digging post holes.

Line posts are rigid angle steel, in which oval shape holes, ½x¾ inch, are punched 2 inches apart and through which ordinary fence staples can be driven and clinched or the fencing can be attached by tie wires.

Corner and end posts are not punched like the line posts, as it has been found most satisfactory to wrap the wires around them. Line posts are 20 inches longer, and corner and end posts 32 inches longer than the heights we name. All posts are painted. **Shipped from factory near CHICAGO.**

Line Post.

Cheaper than wood posts—easier to handle and no upkeep cost.

X-L-ALL Woven Wire Fencing

We guarantee our wire fencing to be made of the very best galvanized steel fencing wire, and every rod of it to stretch up perfectly and to give complete satisfaction in every respect; otherwise the fencing may be returned to us at our expense and we will return every cent paid for it and freight charges.

Sears, Roebuck and Co.

THE X-L-ALL INTERLOCKED STAY.

The X-L-ALL Interlocked Stay.

Our interlocked stay is a distinctive feature found only in X-ALL Fencing. The stay wires of X-L-ALL Fencing are in one continuous length and are interlocked with the intermediate line wires. This feature enables us to do away with all ties, thereby effecting a saving of about 2½ inches of wire at every junction of the wires. This method of construction makes X-L-ALL Fencing stretch up perfectly. The strain is evenly distributed over all wires of the fence. You can climb the entire height of the fence and each wire will spring back into place. There are no exposed ends to rust, a feature which adds to the life of the fence.

X-L-ALL Fencing is made from the very best galvanized fencing wire buy. Neither too hard nor too soft. The galvanizing will not scale off, insures a substantial fence that will last for years.

HEAVY STANDARD X-L-ALL WIRE FENCING.

No. 9 No. 10 No. 12

ACTUAL SIZES OF WIRE USED IN HEAVY STANDARD X-L-ALL FEN

Excepting the 26-inch and 33-inch heights, which have No. 10 top and wires, all X-L-ALL Standard Heavy Fencing is made with No. 9 top and bottom hard galvanized steel wires. Intermediate line wires and vertical stay are made from No. 12 hard galvanized steel wire, while our Heavy St X-L-ALL is a standard weight fencing with great strength and durability.

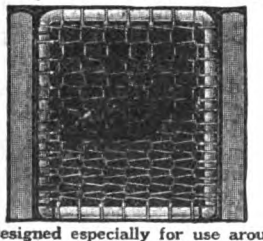
MEDIUM X-L-ALL WIRE FENCING.

No. 10 No. 13

ACTUAL SIZES OF WIRE USED IN MEDIUM X-L-ALL FENCIN

The top and bottom line wires are made from No. 10 galvanized steel The intermediate line wires and vertical stay wires are made from No. 13 galv steel wire. Medium X-L-ALL Fencing differs from corresponding heights of Standard X-L-ALL Fencing only in the size of the wires, otherwise it is of the same construction. It is a high grade, durable fencing and we do not h to recommend it for all farm purposes.

Spacing Between Line Wires.



Spacing between line wires in all X-L-ALL Fencing is the same in that mencing at the bottom the spaces are 3, 3½, 4, 4½, 5, 6, 7, 8, 9 and 10 inches, s ing to the height.

PRICES OF X-L-ALL FENCING.

NOTE—X-L-ALL Fencing is shipped in 10, 20 and 40-rod bales; weigh based on 10 rods. State size bales wanted. Shipped from factory in CEN INDIANA or KANSAS CITY, MO.

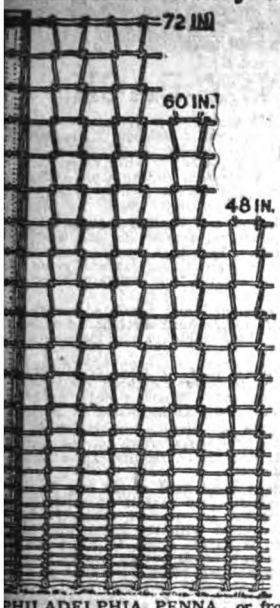
A Closely Woven, Durable General Purpose Fenci

ACTUAL SIZES OF WIRE USED IN X-L-ALL POULTRY FARM FENCING.

No. 11 No. 14

TOP AND BOTTOM LINE WIRES ARE No. 11; INTERMED WIRES No. 14 GALVANIZED STEEL WIRE. STAY WIR ARE SPACED 6 INCHES APART.



This fencing, while more particularly intended for poultry yards, orc gardens, etc., is really an all purpose fencing, and because of the close ing of the stay wires and the substantial way in which it is constructed strong enough for general farm use. With posts placed one rod apart stretch up as stiff and straight as a board and does not require top tom rails to support it. While strong enough to successfully confi larger kinds of stock, the smaller animals cannot squeeze through, will exclude from your garden any poultry large enough to do harm. fencing costs less than ordinary poultry netting, but it will give you longer and more satisfactory service. The 23-inch and 34-inch heights vide a close mesh sheep and hog fence and a stock fence of good height will serve ordinary farm purposes. The 58-inch height is the heig recommend for poultry use. The popularity of this fencing is evidenc the fact that it is one of the biggest sellers in the United States.

NOTE.—This fencing is shipped in 5, 10, 20 and 40-rod bales from fa 10, 20 and 40-rod bales only from Kansas City. State number of rod size bales desired. We do not cut bales.

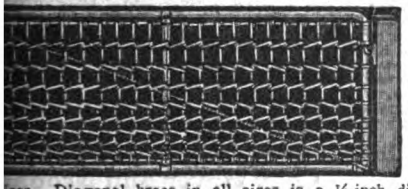
X-L-ALL Poultry and Rabbit Netting.

We recommend this netting for all purposes where a fabric lighter than regular field fencing will serve the purpose, yet something stronger and more durable than ordinary poultry netting is desired. It is closely spaced at bottom, the spaces between line wires being graduated from 1⅛ inches at the bottom to 4¼ inches at the top, as shown in the illustration. Vertical stay wires are spaced about 4½ inches apart. This netting can be stretched between posts without any top or bottom rail and makes a stiff tight fence. The heavy top and bottom line wires and the interlocked stay wires hold up the fabric and prevent sagging.

Do not overlook the fact that this netting being made of No. 17 wire is heavier than netting made of either number 18, 19 or 20-gauge wire and is consequently much stronger and of greater value.

This fencing is heavy enough to use for a light fencing around gardens and orchards, but is lighter than our X-L-ALL Poultry and Farm Fencing, and is not intended to serve as regular farm fencing. The top and bottom line wires of the heavy grade are No. 14 and the intermediate line wires and vertical stay wires are No. 17 galvanized steel wire.



Sold only in 10-rod and 20-rod bales.

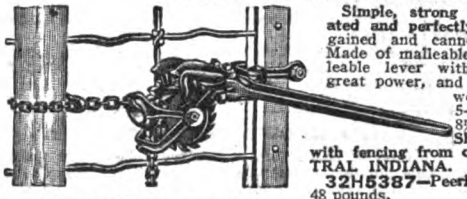
Champion Automatic Wire Fence Stretcher.



Our strongest, most powerful stretcher. The great power of this stretcher makes it possible to do a better job with a heavy fence and also to handle a longer stretch of any fence, thus saving time and labor. Attaches to fence quickly without the use of bolts. The two worm gear jacks are immensely powerful, are self locking at every point and, there being no back action to the handles, are perfectly safe. Jacks are made with heavy malleable castings; clamp bars are angle steel 60 inches long with malleable clamps. Furnished complete with two jacks, clamps, post chains and stretcher chains with swivels, as shown. A single wire stretcher is also included which can be used as a finishing tool, or for stretching single lines of barbed wire. **Shipped from our store, or with fencing from our fencing factory in CENTRAL INDIANA.**

32H5380—Champion Automatic Woven Wire Fence Stretcher, with Finishing Tool. Wt., 115 lbs. Price, at Chicago or factory..... **$11.98**

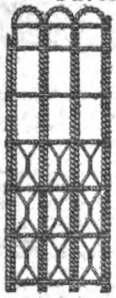
Ornamental Lawn and Cemetery Fencing

dsor Lawn Fencing.



One of our most popular designs of lawn fencing. The uprights are single No. 9 galvanized wires closely corrugated their entire length, which adds stiffness. The double cable line wires are two No. 13 galvanized wires tightly twisted together, and placed about 6 in. apart, excepting the two top line wires, which are about 2½ inches apart. This fabric is made with pickets spaced 2⅞ inches apart. Illustration shows 42-in. fencing. **Shipped from our factory in CENTRAL INDIANA.**

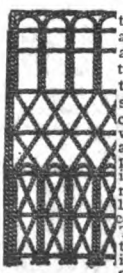
Favorite Lawn Fencing.



A strong, durable fabric, and a remarkably big value at our prices. Line wires are two No. 12½ galvanized wires wrapped around pickets with right and left twists, and are spaced about 8 inches apart, excepting that the two top line wires in the 24-inch and 48-inch heights are spaced about 4 inches apart. The bow top pickets are continuous from top to bottom and are spaced about 5 inches apart. They are formed from two No. 12½ galvanized wires closely twisted together. A single No. 13 galvanized wire is woven into the lower line wires in the different heights, as shown in the illustration, filling the space between the upright pickets, thus making the fabric practically poultry proof and adding to its appearance. **Shipped from our factory in CENTRAL INDIANA.**

Imperial Lawn Fencing.

Our best design. The double twisted line wires are wrapped around the pickets with right and left twists. Line wires are two No. 12½ galvanized wires tightly twisted together and are spaced about 8 inches apart, excepting that the two top line wires in the 48-inch height are about 4 inches apart. The bow pickets overlap at the top, adding to their stiffness and are made of two closely twisted No. 11½ galvanized wires and extend continuously from top to bottom. The bow pickets at bottom extend about 20 inches high, making a very close fabric. Upright pickets are spaced about 5 in. apart. **Shipped from our factory in CENTRAL INDIANA.**

SATISFACTION GUARANTEED, OR YOUR MONEY BACK

Our Incubator Guarantee

If any incubator purchased from us fails to give perfect satisfaction, write us promptly. We guarantee to make it entirely satisfactory, or it may be returned and we will return the purchase price and transportation charges.

Big Reductions in Prices.

A high quality machine throughout. No matter how much you pay, you obtain a better constructed or a more successful hatcher. Made by one most successful incubator builders in the country—a manufacturer who years of experience and has a reputation for producing only high class Thousands have been sold with perfect satisfaction to the user. They are used by many state experimental stations and expert poultry men who are satisfied with the very best.

Top radiant heat, down draft ventilation and applied moisture. These great principles, original with the Super-Hatcher, account for its superior qualities, regardless of climatic conditions. The high quality cabinet has double walls properly insulated and put together with screws and nails and locked. This extreme care in construction assures you constant even tempe under all conditions and saves oil expense.

THE HEATER. Powerful heater constructed and insulated so there is lutely no loss in the transmission of heat. Every joint airtight. Smoke and cannot enter into the hatching chamber. Removable safety lamp made of galvanized steel.

HEAT REGULATOR. Double expanding bars of zinc, reinforced with channels with a forceful power thrust, actuate levers balanced on knife edge ings. Most dependable regulator ever produced. Will not only hold tempe within fraction of a degree, but will last as long as incubator is in use.

HEAT DISTRIBUTION. Dead air space or sluggish circulation is a thi known in the Super-Hatcher. The sheet metal distributer, at the top of t chamber, receives the heated air current from the horizontal tube above a tributes it evenly to every part of the chamber.

VENTILATION. This was one of many incubators tested out by state mental station and it was conclusively demonstrated that it afforded the m cessful system of ventilation, far outstripping its nearest competitor. T air is filtered around the heater without contact with the flame and in a passage from the smoke or gases. Then it passes down to all parts of chamber just over the eggs, not down through them, but passes out exhaus above the eggs and down under the nursery and out below. No heat is applie the eggs, as they are insulated from the heat below and separated from it moist sand tray. The nursery is warmed only enough to remove the chill.

GALVANIZED SAND TRAY. Holds moistened sand and covers entire of egg chamber, giving more even distribution of moisture than is possibl sponges or open pans. Moisture coming from below the eggs prevents evap from them. This idea is the nearest approach to the "stolen nest on the ever produced, and is original in this hatcher.

CLEANLINESS. The removal and emptying of the sand tray removes particle of filth from the hatch. Refill it and the incubator is ready for hatch without cooling or loss of time.

EGG TRAYS. Well made with wooden frames and galvanized screens and removable chick drops.

Built of the most suitable materials, durable, free of any hanging catch-alls for dust, sanitary in every respect, and a system of incubation closest approach to nature ever produced, adaptable to any climate and part superbly fitted and finished, this hatcher offers value unsurpassed.

Price is for incubator complete with lamp, high grade thermometer, egg tester and full instructions for operating. **Shipped from CHICAGO, KANSAS CITY or factory in PENNSYLVANIA.**

32H3022—125-Egg Hot Air Incubator. Height on legs, 37 inches. Length of case, 28 inches. Width, 27 inches. Weight, 130 pounds. Price.....**$24.85**

32H3023—240-Egg Hot Air Incubator. Height on legs, 40 inches. Length of case, 38 inches. Width, 36 inches. Weight, 200 pounds. Price.....**$38.75**

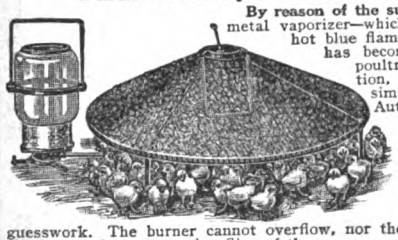
Little Brown Hen Incubator.

Tens of thousands of poultry raisers are using this incubator with perfect success. Simple in construction and convenient and easy to operate. Famous for the healthy, vigorous chicks it produces. Many large poultry farms use a number of these machines and set fresh eggs as fast as settings are collected. Give the Little Brown Hen a fair trial and if it does not suit you perfectly send it back and we will return the price you paid, with transportation charges.

The incubator is 18 inches in diameter, stands 15 inches high and holds about fifty average size hen eggs. It is made entirely of metal with double walled nest and top lined with insulating felt. Nest slopes toward center so that by taking out a few eggs the others can be rolled over, a simple method of turning.

Heat radiates above and around nest and is uniformly distributed, the fumes being carried off through side openings.

Regulator is of the expansion disc type, with brass disc.



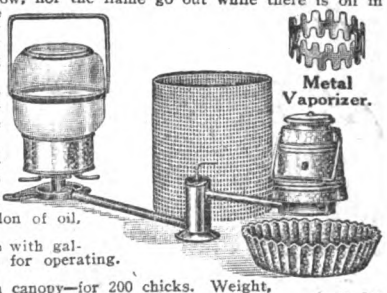
Thermometer is guaranteed high grade and can be easily read through glass window in top. Lamp has heavy one-piece bowl and burner and chimney of improved safety design. Incubator is finished outside in a durable brown enamel. Complete instructions furnished.

Can be shipped by parcel post, freight or express. When ordered by parcel post be sure to send amount of postage extra. **Shipped from our store.**

32H3011—Little Brown Hen Incubator. Weight, 15 pounds. Price.....**$4.98**

Auto-Hen (Oil Burning) Colony Brooder.

Burns Ordinary Commercial Grade of Kerosene.



By reason of the superiority of its wickless burner with metal vaporizer—which gasifies the oil and burns with a hot blue flame without smoke or odor—this brooder has become a favorite with a multitude of poultry raisers. Ever striving for perfection, our manufacturer has improved and simplified many features, making the Auto-Hen one of the most convenient, economical and safest brooding devices on the market.

The burner gives a constant uniform heat which can be instantly regulated by operator to meet varying weather conditions.

The new oil control completely eliminates hand adjustments and guesswork. The burner cannot overflow, nor the flame go out while there is oil in the heavy glass reservoir. Size of the flame is controlled simply by adjusting height of reservoir, and when desired height of flame is secured it will remain at that height without further attention.

There is but one valve, and that for opening the oil flow to the burner, or completely shutting it off when one wishes to put out flame.

A screen is furnished to protect the chicks from burner, and a metal floor pan to fill with earth. These features prevent litter coming in contact with the burner. When brooder is in steady use the reservoir, which holds 1 gallon of oil, requires filling but once a day.

Metal Vaporizer.

Prices are for the brooder complete with galvanized canopy and full instructions for operating.

Shipped from our store.

32H3070—Brooder with 32-inch canopy—for 200 chicks. Weight, 33 pounds. Price.....**$ 9.45**

32H3071—Brooder with 42-inch canopy—for 500 chicks or less. Weight, 40 pounds. Price.....**10.75**

32H3072—Brooder with 52-inch canopy—for 1,000 chicks or less. Weight, 51 lbs. Price.....**11.95**

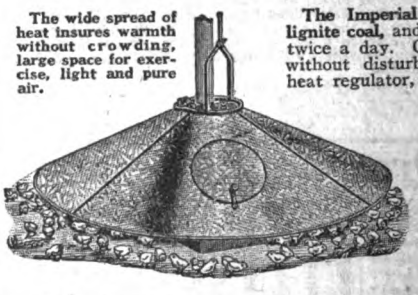
Hover Without Cage.

Cozy Hover and Brooder

Will give your chicks the necessary w and protection. Made of sheet metal with outing flannel curtains. Can be used in a shed or box. When set inside a box it an excellent outdoor brooder. Hover inches in diameter, 12 inches high a care for about fifty chicks.

Lamp compartment is galvanized ste brass screen and mica window in door and burner specially designed for safe economy in use of oil. Lamp fumes are carried off through pipe which gives steady draft for lamp and prevents fumes entering hover.

Hover With C



The cage, if wanted, must be ordered extra. It is made of close meshed galvanized wire and sheet steel. It can be spread to allow for exercise or closed tight around the hover to protect chicks from rats, etc. Order a Cozy Hover with your Little Brown Hen Incubator and you have an ideal outfit. Send extra money for postage if you wish shipped by parcel post. **Shipped from our store.**

32H3013—Cozy Hover, without cage. Weight, 15 pounds. Price.

32H3014—Pest Proof Cage for Cozy Hover. Wt., 11 lbs. Price.

Imperial (Coal Burning Stove) Colony Brood

The wide spread of heat insures warmth without crowding, large space for exercise, light and pure air.

The Imperial Brooder burns hard lignite coal, and requires attention but twice a day. Coal is put in through without disturbing the canopy hover. heat regulator, controlling the draft, matic and positive in taining an even temper Canopy is suspended from ceiling by cord and furnished, and can be while the floor is clean lowered to regulate perature desired.

Imperial Brooders are in two sizes. No. 1 will care for up to 500 chicks measures 20 inches high inches in diameter; 9 inches in diameter, and canopy 42 inches in diameter. No. 2 stove will care for up to 1,000 chicks. It measures 23 inches high, 12 inches in diameter; grate is 10¼ inches in diameter and canopy 52 inches in diameter.

Canopies are made of galvanized sheet steel. Prices include stove, canopy, pulleys and cord and thermostat regulator, but no stovepipe. Stove takes 3-inch pipe. Ordinary galvanized 3-inch drain pipe will serve the purpose. **Shipped from CHICAGO or factory in PENNSYLVANIA.**

Kenwood Ball Bearing Windmills

All Galvanizing Done After Cutting and Punching. No Raw Edges Left Unprotected.

Their construction represents the highest standard of windmill quality. They are extra heavy and strong and will give long service, withstand the stress of storms longer, and prove more satisfactory in every way than any light built windmill.

Back Geared Steel Wheel Windmills.

Direct Stroke Wood Wheel Windmills.

Wood wheels and rudders are made from clear straight grain material thoroughly painted with white lead paint and trimmed with red.

Ball Bearing Turntables and Ball Bearing End Thrust back of the wind wheel permit the Kenwood to respond readily to changes in direction of the wind, and pump

itest breezes. Testimonials from many purchasers prove the high quality of Windmills.

e self governing. The adjustable weight and lever governor is the most reli- of windmill governor. It will hold the windmill into any wind in which it is n. Should the wind become too high, the windmill will swing quietly out of When the wind abates, ill will swing back into nd resume pumping.

nship and materials are Shaft bearings are of ortions and lined with e babbitt. Gears are true. Large oil reser- ide ample lubrication. nstructions for erecting hed, with which any thout expert help can his windmill.

The steel wheels are made of heavy gauge steel and galvanized after all the parts are made. Each wheel section is thus practically soldered into one solid piece by the galvanizing. This is a most important feature, as it means thorough protection against rust. There are no raw edges or bolt holes exposed. All bolts on wheel and rudder are galvanized and have double nuts. Steel wheels and rudders are nicely striped with red paint.

Wood wheels and rudders are made from clear straight grain material, thoroughly painted with white lead paint and trimmed with red.

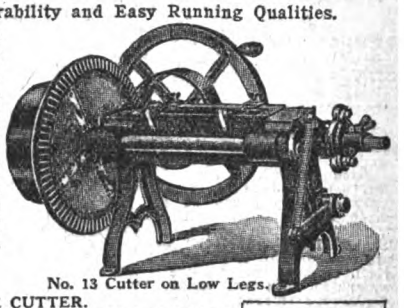
A 6-FOOT WINDMILL is intended for light service. For wells over 25 feet in depth and where considerable water is required we recommend a windmill 8 feet or larger. Even for light service they are preferable as a permanent investment.

For complete line of windmill pumps, pump cylinders and well boring tools see pages 721, 722 and 723.

Prices include pump pole, pull-out wire, reefing gear, bedplate and truing spider with which the mill is attached to tower, but prices do not include tower or platform. When windmill is ordered without towef we will ship it with bedplate and truing spider for a four-post wood tower, and with sufficient pump pole and pull-out wire for a tower 40 feet high, unless otherwise ordered.

ood Four-Post Windmill Towers



Our Steel Towers are strong and substantial. Every corner post, brace, band girth, bolt and nut is **heavily galvanized after all machine work is done. Our towers are braced diagonally as well as crosswise at every corner post joint** and will withstand the most severe storms. No. 1 towers have one set of bands for each 10 feet of their height, also a band at the platform and two bands above the platform which serve as steps. No. 1 towers are intended for use with 6-foot windmills. Nos. 2 and 3 towers have bands 5 feet apart for the entire height of the tower, also a band at the platform and two extra bands above the platform which serve as steps. No. 2 towers are suitable for 8-foot and 10-foot windmills. No. 3 towers are suitable for 10-foot or 12-foot windmills at any height. **Our towers are full height;** every corner post section is 10 feet 6 inches long, the extra 6 inches being allowed for the lap of one post over the one below it. This feature makes a stronger and better finished tower and also serves to prevent water from running into the corner post joints. **Illustration shows a 40-foot No. 2 or No. 3 tower.** Prices are for towers complete with platform, ladder, rod guides, anchor posts, anchor plates and instructions for erecting, but do not include windmill, bedplate, truing spider, pump pole, pull-out wire nor reefing gear, these being parts of the windmill.

Genuine Dandy Green Bone Cutters

Known Everywhere for Their Large Capacity, Durability and Easy Running Qualities.

The bones are placed in an oblong box, across the end of which revolves a large geared disc on which are placed four knives. These revolve across the end of the bones, reducing them to bone meal. Three of the knives are notched or grooved edged, which cut grooves in the bone, and the fourth is straight edged, which follows and planes off the grooves. The bits are easily removed and sharpened. Bones are forced against the disc by an automatic screw feed and follower block. Speed of the feed screw is adjustable in all sizes. To refill the bone box on the No. 9 and No. 11 machines when equipped with a solid nut on feed screw, the follower and feed screw must be screwed back by means of the handwheel with solid nut; however, at the extra price shown below we will equip either of these machines with the split nut illustrated which can be opened and allows the screw to be pulled back instantly. The No. 13 machine is equipped with the split nut regularly. **Shipped from factory in WESTERN PENNSYLVANIA.**

No. 13 Cutter on Low Legs.

No. 9 or No. 11 Cutter on High Legs.

No. 9 DANDY BONE CUTTER.

Bone Box, 3½x3x9 inches inside. Capacity to feed 100 to 150 fowls. Running machine by power will more than double capacity.

	Weight, Pounds	Price, With Solid Nut	Price, With Split Nut

Illustrating how split feed nut may be opened, allowing instant return of follower and screw, for refilling bone box.

No. 13 DANDY BONE CUTTER.

Bone Box, 4x4x20 inches inside. Capacity to feed 400 fowls by hand power; 1,500 fowls by engine power. Price includes split nut for feed screw on all No. 13 Cutters.

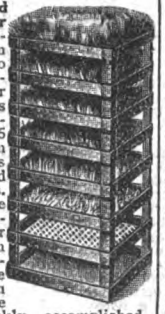
32H3240—Cutter, for hand power. Weight, 165 pounds. Price **$27.55**
32H3241—Cutter, for hand power, with crank and pulley. Weight, 170 pounds. Price **29.85**
32H3242—Cutter, with tight and loose pulley, for power only. Weight, 171 pounds. Price **30.95**

No. 0B Dandy Green Bone Cutter.

Constructed and operates on the same principles as our larger Dandy Green Bone Cutters, except it does not have an automatic feed. It is back geared, operated by handle on rim of large balance wheel; suitable for a flock of 50 to 75 fowls. The bone box is 3¼x4½x6 inches inside. It is fed by a hand feed screw which has a split nut that swings entirely out of the way when filling the bone box. Cutter has one straight and two corrugated knives. **Shipped from factory in WESTERN PENNSYLVANIA.**

32H3200—No. 0B Bone Cutter. Weight, 75 pounds. Price **$12.85**

p Heated Sectional Oats Sprouter.



Made of galvanized steel, insulated with a lining of rubberoid roofing which retains the heat. Made in two sections, the base section being a complete sprouter. For a larger flock you can purchase the extra top section. Base section is 20 inches square and 24 inches high and contains the lamp, two grain trays, moisture pan and perforated cover.

Top section is 20 inches square, 14 inches high and has two trays 18 inches square, each holding one gallon of unsprouted grain. Ventilating spaces prevent mold. Large glass panes stimulate growth of the grain. Made in a high class manner and, because of the way in which it is insulated, requires very little heat. Removal of the perforated cover permits watering the trays from the top. Your investment in this sprouter will be small in comparison with om increased egg production from laying hens or ted growth of small chicks. **Shipped from factory A.**

72—Sectional Sprouter (Base Section only). 4 bushel grain. Shpg. wt., 65 lbs. **$7.98**

73—Extra Top Sprouter Section. Capacity, ¼ Shipping weight, 35 lbs. Price **$5.45**

Oats Sprouters.

Furnish green feed for poultry the year around and stimulate the production of Winter eggs. No lamp or fuel required. Sprouter consists of a series of perforated galvanized pans 11x15 inches and a bottom drip pan. The pans are firmly supported by galvanized legs. The oats to be sprouted, after soaking twenty-four hours, are placed in the pans and sprinkled once or twice daily. By setting in a warm place the sprouting is quickly accomplished. Sprouters are shipped flat, packed in a box. Can be shipped by parcel post. **Shipped from our store.**

32H7067—Popular size with 8 pans. Weight, 15 pounds. Price **$2.97**

32H7066—Small size with 5 pans. Weight, 10 pounds. Price **$2.03**

Poultry Root Cutters.

Cut all kinds of roots and vegetables into fine ribbonlike shavings. Cutting is done by steel knives. An iron grating in the hopper allows dirt to drop through before reaching the knives. The small machine has crank only and is suitable for ordinary poultry yards. The larger machine, 32H1391, is furnished with crank only or with both pulley and crank for either hand or power, as desired. It cuts fine enough for sheep, lambs and fowls and still has ample capacity to cut for cattle. **32H1390 can be shipped either from our store or factory in NORTHERN OHIO; 32H1391 from factory only.**

32H1390—No. 1A Poultry Vegetable Cutter, with crank only. Wt., 40 pounds. Price **$5.65**

32H1391—No. 2A Poultry Vegetable Cutter, with crank only. Wt., 170 pounds. Price **$19.45**

32H1392 Pulley for 2A. Weight, 10 lbs. Price. **$1.25**

Stutzman Cook Stove Fruit Driers.

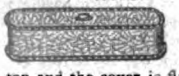
Can be used on any cook stove. Low priced, but a dependable and most convenient fruit drier. Made of galvanized steel and has divided current of hot air. **Size No. 1** is about 25 inches high, 26 inches wide and 11 inches deep. Has six galvanized wire trays, each 21x10½ inches. Capacity, 2 to 4 pecks per day. **Size No. 2** is about 31 inches high, 26 inches wide and 11 inches deep. Has ten trays, 21x 10½ inches. Capacity, 1 to 2 bushels per day. Capacity is based on green apples. **Shipped from factory in INDIANA.**

32H2373—No. 1 Fruit Drier. Weight, 50 lbs. Price **$6.48**

32H2374—No. 2 Fruit Drier. Weight, 65 lbs. Price **$7.35**

STANDARD GALVANIZED STEEL TANKS

We guarantee our STEEL TANKS to be first class in every respect and our prices to effect a saving for you, quality considered. Order a tank from us with the understanding that it must be exactly as we represent it and perfectly satisfactory to you or you can return it at our expense and we will return your money and freight charges. Prompt shipment of all sizes. When tanks are shipped knocked down, all holes are punched, every part is fitted together at the factory and sufficient solder and rivets are sent with which to put the tank together. All tanks made of No. 20-gauge steel unless otherwise specified. Will make regular No. 20-gauge tanks of No. 18-gauge at price one-fifth higher or No. 16-gauge at price two-fifths higher.



Certain Standard tanks which are regularly shipped set up can and will be shipped knocked down if so ordered.

Tanks in these two columns are shipped from factory in SOUTHWESTERN MICHIGAN or KANSAS CITY, MO., for the convenience of our Midwestern trade.

All seams in No. 20-gauge tanks are lock seams and are carefully soldered, no edges coming in contact with the water. Stock tanks made of No. 18 and No. 16-gauge steel have riveted and soldered seams. Tops are bound with angle steel. Bottoms of all tanks over 1 foot in height are secured between two pieces of flat steel or are bound with angle steel, depending upon size and shape of tank. (See illustration.) Sides of tanks 6 feet or longer are firmly braced with angle steel bars. Measurements in all cases are outside, over all.

WAGON TANKS.

In our wagon tanks a 1x1x⅛-inch galvanized steel angle is riveted around the inner side at the top and the cover is flanged over this angle and closely riveted between the angle and a strip of ⅜x⅛-inch band steel, extending all around the tank. A three-quarter partition is fitted across the center of 8-foot tanks and two partitions fitted in 10-foot tanks. All made 2 feet high, and with watertight top, having 14-inch round manhole. Have 1-inch pipe connection in rear end.

Tanks in these two columns are shipped from factory in CENTRAL for convenience of our Eastern trade.

These tanks are formed on a machine specially designed purpose, which insures uniformity of shape and size, and accuracy at all seams and joints. The bottom and side sea also folded by machine. Round end and round tanks are with special waterproof packing and then riveted. Squa and storage tanks are riveted and soldered.

The side sheets are folded over at top and bottom, gi all galvanized construction. All tanks are made with cor sides.

ROUND END TANKS.

Always shipped set up unless otherwise ordered. Seams packed and riveted. Sides folded over to make reinforced top all around. (See general description at top of page.)

STORAGE TANKS.

Always shipped set up. Made regularly of No. 20-gauge galvanized steel. Will make of No. 18-gauge at prices one-fifth higher. The sides are corrugated. Horizontal and vertical seams riveted and soldered. Tanks 4 feet high and larger are made in sections. The top and bottom of each section are folded over and the sections are riveted one section on top of the other, reinforcing. Some manufacturers storage tanks knocked down, but found it advisable to ship this style. This insures the purchaser receiving perfectly constructed tank, and is ing in time and money by not having do this work after the tank is rec

Foot Rest and Rack can be furnished only when ordered with the bolsters.

THRESHER TANKS.

Made of No. 20-gauge galvanized steel. Will make of No. 18-gauge at prices one-fifth higher. Trusses are heavy angle steel and entire tank is built far in excess of necessary strength. Seams are double locked. Fuel box is large and its bottom is lined with 1-inch plank. Rear end of top has a 14-inch round manhole. Has 1-inch feed pipe connection in the bottom between trusses. Just wide enough to fit a 38-inch bolster, but you can bolt a piece of 2x4-inch lumber to each side of each truss to make it fit a 42-inch bolster. A stationary metal bulkhead or splashboard is secured to fastenings on inside walls. Price does not include trucks. **Shipped set up from factory in NORTHERN INDIANA.**

WOOD TANKS.

A tank which is 2 feet or 2½ feet in height is called a stock tank, and a tank which is 4 feet or more in height is called a storage tank.

Made of first **quality Louisiana cypress tank stock, free from unsound sap and unsound knots.** Tanks made of this material will last longer by many years than other lumber. We advise that a tank be made of 2-inch stock when the bottom is 8 feet or more in diameter. The 1½-inch stock is dressed to about 1⅜ inches thick and the 2-inch stock is dressed to about 1¾ inches thick. Furnished with flat bands and adjustable draw lugs. Will furnish with round hoops at same price if so ordered. Always shipped in flat, unpainted. **Shipped from factory in CENTRAL WISCONSIN or WESTERN IOWA.**

Bee Keepers' Supplies

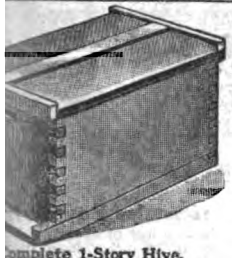
We can supply nearly everything used by bee keepers. If the articles you want are not listed on this page, write us for prices.

...ntire line of beehives and bee keepers' supplies represents the ...standard of quality. We guarantee them to satisfy any bee ...even the most particular professional, and solicit your orders ...understanding that if you do not find our goods fully equal to ...s on the market, regardless of price, and that you have saved ...r ordering from us, you may send them back at our expense and ...xiadly return your money.

...odies of our hives are made of clear white pine, free from sap. ...terial takes a smooth finish and cuts easily, permitting the very ...uracy of fit which is so necessary to insure a perfectly satis- ...ompleted hive.

...s are always shipped partly knocked down and are not painted. ...ll illustrations show how five complete hives are crated for ... The large crate contains the five 1-story hives with the covers, bottoms, frames and other parts. Three of the hive bodies are nailed together, and all other parts are packed inside. The small crate contains the supers, two of the super bodies being nailed up and the balance with other parts packed inside. It is a very easy matter for anyone, even without previous experience, to put the hives together. Complete and simple instructions for putting together are sent with each crate of brood chambers and supers, and a sufficient supply of nails is also included.

High Quality Guaranteed.



Five Complete Hives and Supers Crated for Shipment.

Beehives are generally used 1½ stories high, made up of a 1-story hive and the addition of a super or upper half-story. Hives are generally sold in lots of five, ten, etc., but we list single hives so that you can order any quantity.

Shipped from our store or factory in OHIO.

One-Story Dovetailed Hives.

...omplete 1-Story Hive.

These are the standard hives—universally used by bee keepers and are fitted with Hoffman frames, which are pierced for wiring, excelsior cover and reversible bottom. No foundation, starters or division board furnished. The metal roofed double cover, which we furnish at an additional price, has telescoping sides which fit down over the hive and an inner wood cover which can be used as an escape board.

Supers, or upper stories, are not included. To make 1½-story hives you must also order the styles of super desired; or you can make full depth 2-story hives by ordering the hive bodies we list below.

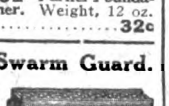
Wax Comb Foundation.

Very high quality, genuine Weed Process Foundation, clear and tough, and easily worked by the bees. Will suit the most particular bee keeper. Brood foundation sheets are about 7⅞x16¼ inches. Medium brood foundation runs 8 sheets to the pound, and is used without wiring. Light brood foundation sheets run 9½ sheets to the pound and should always be wired. Super foundation sheets are 3⅞x15½ inches. Thin super foundation runs about 28 sheets to the pound, extra thin super foundation about 32 sheets to the pound. Thin is used for starters, extra thin when full sheets are used. Medium brood and thin super foundation are recommended to the average bee keeper. Shipping weight, 1-pound boxes, about 1½ pounds; 5-pound boxes, about 6 pounds.

32H3528—Medium Brood Foundation. Price, 5 pounds, **$3.25**; per pound..**70c**
32H3533—Light Brood Foundation. Price, 5 pounds, **$3.35**; per pound..**72c**
32H3529—Thin Super Foundation. Price, 5 pounds, **$3.65**; per pound..**78c**
32H3534—Extra Thin Super Foundation. Price, 5 pounds, **$3.75**; per pound..**80c**



Parker Foundation Fastener.

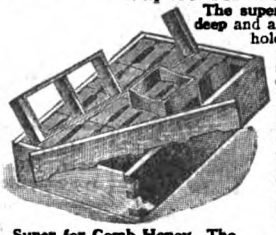
For fastening comb foundation into section boxes.

32H3532—Parker Foundation Fastener. Weight, 12 oz. Price **32c**

Drone Trap and Swarm Guard.

For exterminating drones and preventing loss of swarms. The openings permit the worker bees to pass, but the drones and queen cannot, and are compelled to pass to the upper compartment, or trap. The drones can then be destroyed, or if swarming the trap is placed on the new hive and when swarm returns, as it will, the slide is opened and the queen will go into the hive with the swarm. This is the improved trap with wire spacing, through which the bees can pass without injury.

32H3549—Wire Front Queen and Drone Trap. Weight, 1 pound. Price.....**66c**



Queen Excluder or Honey Board.

Generally used with extracting hives, to be placed over the frames to confine the queen to the brood chamber. We furnish the improved boards, wood bound with wood strips and wire spacing. Seven wires in each strip. The wood and wire boards are preferred by experienced bee keepers to the perforated zinc boards, as they preserve the bee space more accurately and the smooth wire passages do not injure the bees' wings. 8-frame boards weigh about 1½ pounds; 10-frame boards, about 1¾ pounds each.

32H3554—Wood and Wire Board. 8-frame size. Price.....**53c**
32H3555—Wood and Wire Board. 10-frame size. Price.....**59c**

Supers for Comb or Extracted Honey.

Super for Comb Honey. The sections or honey boxes shown in illustration must be ordered separately.

The supers for comb honeys are 4¼ inches deep and are fitted with scalloped section holders, scalloped separators, follower board and flat springs. No sections or starters are included, except that sections are included with the single supers. 4¼x4¼x1⅞ scalloped sections only can be used with this furniture.

Super With Extracting Frames.

Supers for extracted honey are 5⅛ inches deep and are complete with 5⅛-inch shallow frames. No wax foundation is included.

32H3504—Crate of five 8-Frame Supers for Comb Honey. Without sections. Weight, 30 pounds. Price.....**$3.43**
32H3509—Crate of five 10-Frame Supers for Comb Honey. Without sections. Weight, 35 pounds. Price.....**$3.87**
32H3490—Single 8-Frame Super for Comb Honey. Includes twenty-four 4¼x4¼x1⅞ sections. Weight, 8 lbs. Price.**$1.16**
32H3491—Single 10-Frame Super for Comb Honey. Includes twenty-eight 4¼x4¼x1⅞ sections. Weight, 10 lbs. Price.**$1.28**

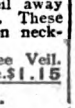
32H3512—Crate of five 8-Frame Supers for Extracted Honey. With frames. Weight, 37 pounds. Price.....**$3.69**
32H3516—Crate of five 10-Frame Supers for Extracted Honey. With frames. Weight, 42 pounds. Price.....**$4.10**
32H3492—Single 8-Frame Super for Extracted Honey. With frames. Weight, 7 pounds. Price.....**95c**
32H3493—Single 10-Frame Super for Extracted Honey. With frames. Weight, 9 pounds. Price.....**$1.02**

Honey Extractors.

Latest type of construction, containing all improvements, standard in every respect. Have slip gear which throws crank and pinion out of gear at maximum speed, allowing reel to continue in motion with crank hanging loose. Have ball bearings top and bottom. Frames of comb baskets are heavily tinned. The wire cloth against which the combs rest can be easily removed for cleaning. Improved pocket hinges permit rapid reversing to extract both sides of the comb. Cans are galvanized steel, strongly bound, with handles and are enameled outside. No. 15 is 20 inches in diameter, No. 17 is 23 inches in diameter. **Shipped from factory in OHIO only.**

For larger Hand or Power Extractors, write for prices.

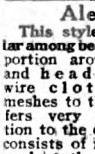
32H3475—No. 15 2-Frame Extractor. Comb pockets, 9½x16 inches. Weight, 110 pounds. Price.....**$31.25**
32H3476—No. 17 2-Frame Extractor. Pockets, 12x16 inches. Weight, 125 pounds. Price.....**$36.50**



Spur Wire Imbedder.

Used for imbedding the wire of a wired frame into a full sheet of foundation. The teeth of the wheel straddle the wire, thus forcing the wire into the wax.

32H3591—Spur Wire Imbedder. Weight, 3 ounces. Price.....**29c**



Tinned Steel Wire.

For wiring frames when full sheets of foundation are used; the No. 30 wire has been found to be the most suitable.

32H3595—Tinned Steel Wire.
½-lb. spool. Wt., 11 oz. **22c**
1-lb. spool. Wt., 1¼ lbs. **39c**

Globe Bee Veil With Springs.

Made of French cotton tulle with silk face piece. Five spring steel bars keep the veil away from the face and neck. These bars button to studs on neckbands of veil.

32H3544—Globe Bee Veil. Weight, 5 ounces. Price.**$1.15**

Alexander Bee Veil.

This style is very popular among beekeepers. The portion around the face and head consists of a wire cloth with eight meshes to the inch and offers very little obstruction to the eye. The top consists of muslin gathered at the center, and the bottom is of the same material made in the form of a skirt which may be drawn snugly around the collar by means of a draw string.

32H3542—Alexander Bee Veil. Weight, 1 pound. Price.....**$1.00**

Hand Section Press.

For putting together one-piece section honey boxes. Presses the dovetailed ends together squarely without breaking corners.

32H3538—Hand Section Press. Weight, 1¼ lbs. Price.....**54c**

Bee Gloves.

Furnished in two grades and large, medium or small sizes. Have fingers and long gauntlet with rubber cord to exclude bees. The canvas gloves are heavy and rendered stingproof by special treatment. The rubber gloves are made of a thin elastic material, rubber coated, with sewed seams. We recommend rubber gloves as most comfortable. **State size wanted.**

32H3546—Canvas Bee Gloves. Wt., 8 ounces. Per pair.....**82c**
32H3543—Rubber Bee Gloves. Wt., 8 oz. Pair.**$1.15**

Honey Shipping Cases.

Cases are made of smooth, sound basswood, and hold 24 sections in single tier, with 2-inch glass front. They have corrugated paper linings and a paper pan to go under the packing to catch any drippings. Made for 4¼x4¼x1⅞-inch scalloped sections, or 4¼x4¼x1⅜-inch or 4x5x1⅜-inch plain sections. **State size of section used.** Cases are packed in flat and sold only in packages of ten cases. **Shipped from factory in OHIO only.** Prices include nails.

32H3465—Crate of Ten Regular Shipping Cases. Weight, 36 lbs. Price.**$4.95**

Bee Smokers.

Latest Improved Model. Made in three sizes. The two larger sizes have flexible hinge which permits close, tight fit of nozzle over fire chamber. The small smoker has no hinge. All are made of heavy tin and guaranteed perfect.

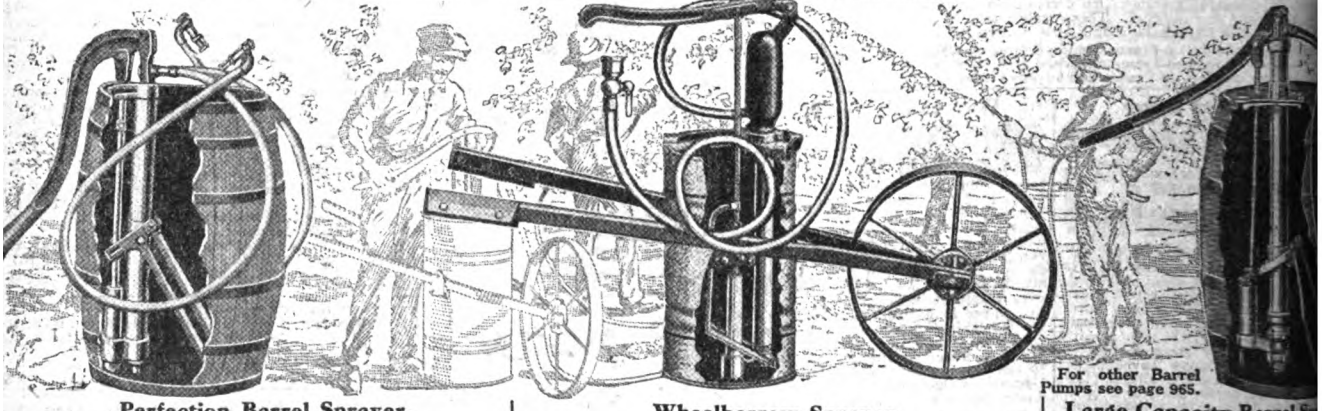
Spray Your Crops

42H1414¼—High Power Spray Gun only. Illustrated at left. For full description see opposite page. Shpg. wt., 3½ lbs....**$6.95**

Hercules Power Sp

Supplies two nozzles at a constant pressure of 125 pounds. A big labor saver for spraying orchards, truck gardens, etc., and whitewashing or cold water painting. Easily made portable by mounting on wagon or truck, as illustrated. Two men working with this outfit with two leads of hose can cover a large area in a surprisingly short time. Pump is heavy and well built. Has 2¼-inch seamless brass body cylinder, with brass ball valves and large cast iron air chamber; 4½-inch stroke, 11¼-inch drive pulley, and is back geared 4 to 1. Automatic agitator keeps solution thoroughly mixed.

The engine is our Economy Gasoline Engine with magneto; size, 1½ horse-power, as described on page 940.



Accessories include pressure gauge, relief or overflow valve, one 20-foot length of ½-inch spray hose with 3 feet of spray pipe, shut off cock and nozzle, 6 feet of suction hose with strainer, 5 feet of overflow hose from relief valve back to tank and 10 feet of 2½-inch rubber belting fit furnished for one lead of hose only. Connections are for ¾-inch hose coupling which fits either ½ or ¾-inch hose. If two hose are wanted, order ¾-inch brass twin hose connection 42H667 opposite page, also extra hose and nozzle. See bottom of opposite page. **Spray gun shown in illustration not included in price.**

Shipping—Engine shipped from factory. Shipping weight, 280 Pump and accessories, shipped from our store. Shipping weight,

Automatic Compressed Air Sprayer

For Insecticides and Spraying Materials See Page 464.

Gives Continuous Spray.

Automatic Cock.

For spraying trees, plants, animals, stables and chicken houses with insect killing chemicals. Also used for washing windows, automobiles, buggies, etc., but not for whitewashing. One of the most popular and satisfactory little spraying outfits ever placed on the market. A few minutes' pumping charges the tank, and it will then automatically spray, without further pumping, until pressure in tank gets low again. Two gallons of liquid can be pumped with three charges of air. Total capacity, 3 gallons. Tank tested to 60 pounds pressure. Pump cylinder is of brass tubing with rubber valve, brass valve spring, leather plunger and steel rod. Sprayer fitted with heavy web shoulder strap and length of ½-inch spray hose, about 2 feet long. By attaching a number of the extension pipes, listed below, tall trees can be reached. Spray calendar, telling how and when to spray, sent with each sprayer. Shipping weight, 10 pounds.

42H1760¼—Galvanized Sprayer with automatic cock. Price **$4.75**

42H1761¼—Brass Sprayer with automatic cock.. **7.50**

42H1417—Brass Extension Pipe. Length, about 2 feet. Shipping weight, 8 ounces. Price, each **40c**

High Power Spray Gun.

With This Device You Can Stand on the Ground and Spray Tall Trees.

For fast work and thorough spraying this spray gun is unexcelled. One man can do the work of three using old time methods and there is not half the effort. A positive necessity where a large amount of spraying is to be done and tall trees to be reached. It sprays the liquid most effectively and with least waste, as you can adjust the spray exactly to suit the distance by simply turning the handle at the bottom. Adjustment can be changed instantly to suit any distance within a range of twenty-five feet. Owing to the high pressure necessary to operate this gun we recommend it only for use with our power sprayers quoted at the top of the opposite page.

42H1414¼—High Power Spray Gun. Shpg. wt., 3½ lbs. **$6.95**

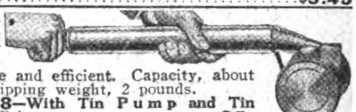
Bamboo Extension Poles.

For Spraying Tall Trees.

Connections are made to a seamless brass tube which extends clear through center of pole from end to end. Bamboo makes a light, substantial stiffening or reinforcement for the tube, so that tall trees are easily reached. Has shut off cock at lower end; ¼-inch pipe threads. Made 9 feet long only. Shipping wt., 5 lbs.

42H1416¼—Bamboo Extension Pole. 9-foot length with shut off cock. Price **$2.95**

Misty Spray Nozzle.



A standard nozzle for hand and power sprayers. Has fine and coarse spray discs for ¼-inch pipe. Shipping weight, 8 ounces.

42H956—Misty Straight Nozzle. Illustrated at left.... **36c**

Vermorel Nozzle.

One-Point Vermorel Nozzle Automatic, threaded for ¼-inch pipe. Has two discs, one for coarse and one for fine spray. Shipping weight, about 4 ounces.

42H964 —Vermorel Nozzle. Price **65c**

Cream Separators at New Low Prices

Big Price Reductions This Season

Recent declines in the cost of material and manufacture have made it possible to build our Economy King Cream Separators at a lower cost, and in accordance with our long established policy we are glad to be able this season to pass this saving along to our customers in the form of radical price reductions on every size.

In the Fall of 1920 we reduced prices on all sizes over the previous Spring and now we are able to make still greater reductions, ranging from $11.00 on the smallest size to over $19.00 on the larger sizes, bringing the Economy King within the reach of practically every dairyman, large or small.

Compare our new low prices for the sturdy, reliable, long lasting Economy King with prices asked by others for even flimsy light machines of equal capacity and see for yourself what a saving you can make in buying from us.

While prices are lowered, we still maintain the same high quality and skimming efficiency that have made the Economy King one of the biggest selling cream separators in the entire world. Economy King Cream Separators are all built in our own great factory in buying from us you have all the advantages of direct from fa prices.

Economy King Cream Separators cost practically the sa build as other high quality separators of equal capacity or w but in buying direct from us who are the makers of the Eco King, you pay only the maker's profit and hence save the p and handling expense of jobbers and retailers as well as the of traveling salesmen and a multitude of other expenses.

These extra expenses do not increase the worth of separator, as nothing is added to it after it leaves the factory they cost you big money. You can keep this extra money in own pocket and at the same time become the owner of a guara separator of highest quality by investing in an Economy King d from our own factory and at real factory prices.

The Road to Dairy Prosperity

The Economy Cream Separator has brought prosperity to tens of thousands of dairymen and today is saving millions of pounds of butter fat monthly that would have been wasted by old methods. There are about 700,000 Economy Separators in use in the United States. You will find them in every county and in almost every township where dairying is done, making and saving money for their owners.

They are turning losses into profits, turning losing dairies into money makers, and making paying dairies pay better than before. They reduce the dairy work from hours to minutes daily; take away the hardest and most disagreeable part of it; do away with most of the heavy lifting and fire building of the old methods, and make the daily dairy tasks light, agreeable and quickly finished.

They separate the cream from the milk while it is fresh, sweet and in its finest condition—give it to you purified, aerated and of any density wished for. They cleanse and purify the skim milk also, removing any dirt that may have fallen into it, and as it leaves the separator it is at its very best for feeding to young stock or chickens. This fresh, warm, nutritious separator skim milk, with a little corn meal or oil meal added, is fully as good as whole milk for promoting a quick, healthy growth in young animals, as proved by many careful farm tests.

Almost any dairyman, large or small, can use the Economy Cream Separator to advantage. It saves so much time and labor that you can often double your herd with a corresponding incr in profits, and still the dairy work will be less than before. It in fact, often make the dairy the best paying division of the e farm. It insures a regular cash income every week in the as the dairy crop is harvested daily and is always in dema good prices.

Dairying, as you know, builds up the fertility of the soil, you can, by using an Economy King Separator and enlarging herd, increase the yields of all crops, making the farm pay bi returns in every department.

Some of the results of using the Economy King, as prove thousands of our customers, are larger herds handled with work, more butter fat from each gallon of milk, better price cream and butter because of improved quality, more young s raised and sold at a good profit, increased soil fertility, larger better crops and increased prosperity and growing independ from year to year. Tenant farmers have become home ow and others, already owning, have increased their holdings thr the larger herds and greater profits made possible by using Economy King Cream Separator.

The Economy King will help you, too, just as it has so m others, and if you are not already using a good cream separa you can make no mistake in ordering one on trial and testi out under your own farm conditions.

Thirty Days' Trial in Your Own Dairy

Let us send you an Economy King Cream Separator on thirty days' trial with the understanding that if it does not please you in every way, you can box it up and return it to us.

Skim the milk morning and evening for a full month. Have the cream and skim milk tested at the creamery or test it yourself. Compare the Economy King with cream separators of other makes in your neighborhood; compare ease of running, close skimming, quick and thorough cleaning, sanitary features, strength and solidity of construction, and make any other comparison you see fit.

Take plenty of time and make your own decision after a fair square test, with the distinct understanding that if, for any re you decide not to keep the separator after the thirty days' t you can send it back to us and we will at once return any m you have paid for it and will also pay all freight charges both w

Our big cream separator business has been built up by and honest dealing. Every one of the 700,000 Economy Separa we have sold was sent out on trial. We make the buyer the and only judge; allow plenty of time for a long farm test in daily and accept his decision without question.

Quick Delivery—Low Freight Charges

To make speedy delivery certain and freight charges as low as possible, we aim to carry Economy King Cream Separators in all in stock in warehouses at the following points:

St. Paul, Minn.	**Kansas City, Mo.**	**Fargo, N. Dak.**	**Denver, Colo.**	**Omaha, Neb.**	**Buffalo, N**
Waterloo, Iowa	**Grand Rapids, Mich.**	**Billings, Mont.**	**Columbus, Ohio**	**Sioux Falls, S. Dak.**	**Chicago,**

Mail your order direct to Sears, Roebuck and Co., Chicago, Ill., or Philadelphia, Penna., whichever is nearer, and we will at once make shipment from the warehouse near you. All you pay is the local freight charges from the nearby warehouse, and they are only a small item in nearly every case.

Our warehouses are all located at **important railroad cen** so we can ship direct to almost **any point, and in most case** separator will be at your home town **in from two to five days** the time we receive the order.

MAKE YOUR OWN TEST. Order an Economy King on thirty days' trial. Then try it out alongside of any cream separator made and decide for yourself which is best.

Built for Hard Everyday Farm Use

conomy King Cream Separators in all sizes are strong, stantial machines and well adapted to stand the hard knocks of yday farm use. The frames are scientifically designed to vent shaking or weaving while running. Cranks are at the per height for easy turning without strain on the back and arms.

he crank speeds are moderate and easily maintained, varying n forty-eight to sixty turns a minute, according to the length of ık and capacity of machine. The supply tanks are so low that ' can be easily filled by a person of less than average height ı little effort. Cream and milk spouts are plenty high enough et big milk cans under them if desired.

he frame is smooth with full rounding surfaces and no sharp ıers or crevices where dirt can gather. A drip shelf with handy et for draining catches and saves the used oil, preventing oil ns on the floor. The base on the dairy sizes is open and easy weep or mop under, with no place where dampness or mold will ect.

ur sanitary skimming bowls are of the latest loose disc ern. They skim the cream practically to the last drop from warm or cold milk, giving it to you purified, aerated and of any red consistency from the thinnest to the heaviest.

very part of the Economy King is built for long wear. gears are heavy and wide faced with helically cut or slanting h, which are best for quiet and easy running. The shafting is ard carbon steel of extra large diameter and bearings are of ample length with large wearing surfaces. All parts are interchangeable, and if new parts should ever be required to replace others worn by long use they will fit into place exactly without hammering or filing and the exchange can be made by the user at a very moderate cost.

Our complete splash lubricating system by which all bearings run in a constant bath of fresh oil reduces friction and wear to almost nothing, insuring long life and easy running. Our patented crank speed timer supplied on all dairy sizes enables you to turn at the correct speed to insure perfect skimming and uniform cream. A patented oiling indicator shows that the oiling system is working properly. Our patented wide range cream regulation and other exclusive features give Economy King users advantages not to be obtained in cream separators of other makes.

We build the Economy King practically complete from base to tank in our great Buffalo, N. Y., factory. We have our own chemical laboratory where skilled chemists analyze and test the iron, steel and bronze used in its construction. The heavy wrought steel bowl shells, gear guards and other parts of this nature are drawn in our own press room. We make the frame, base and other castings in our great iron foundry. We have complete annealing and tinning plants, enameling furnaces and everything necessary in the way of machine equipment to turn out separators of highest quality at a low cost. We can manufacture economically because of our large production, and we save the middlemen's profit and expenses, all of which you get the benefit of in our low prices.

Add to Your Dairy Profits

) you know that when cream is raised in the old fashioned way in crocks, or cans, one-fifth to one-third of it, on the average, never comes to the top e it can be skimmed off, and this valuable butter fat, worth 40 to 50 cents ore a pound, is fed to calves or pigs in the sour skim milk?

e waste of cream in the dilution system of raising cream, by which water xed with the milk when set, is fully as great or greater than this, as proved by r careful tests. Old style cream separators, especially if the bearings are and the bowl out of balance, often waste one-tenth of the cream or more, this could as easily have been saved by using a more modern machine.

is loss of high priced cream going on from day to day amounts to a large n the course of a year, and will often make the dairy an actual loser, so that a year of toil you have not made enough to pay the cost of feeding your cows.

ost of the work and practically all of the waste of the old style systems can ne away with. The long hours of toil in the damp, cold dairy, washing and ling a big array of pans daily; the endless water carrying, fire building and y lifting, are not necessary now.

e an Economy King Cream Separator and, within half an hour after milking, ream is separated and set aside to cool; the warm, sweet, nourishing skim milk has been fed to the stock, the separator washed and the dairy work finished until the next milking.

The separator cream is fresh, sweet and purified. It can be shipped hundreds of miles if necessary and will arrive in good condition. This gives you the benefit of a wide market and if your local creamery will not pay you as much as you can get elsewhere, you can safely ship your cream to the point where it will bring the best price.

Butter made from separator cream is finer in flavor, more uniform in texture and will keep longer than butter made from gravity raised cream. If you make butter at home from your Economy cream you will find you can readily dispose of it at 5 to 10 cents a pound more than the market price of common dairy butter, (made from cream which has been raised by gravity), because of its elegant flavor and keeping qualities. Separator cream churns in about one-half the time of gravity raised cream. It churns out more completely and leaves less fat in the buttermilk. The saving in churning separator cream alone is often 15 to 20 pounds of butter extra from the milk of a single cow in a year.

An Economy King insures perfect products. It increases the profits but reduces the work, and is a modern, businesslike way of making the dairy pay.

Our Guarantee Protects You Fully

ith your Economy King Separator will receive our binding guarantee h protects you against defects in kmanship and material during all years you use the separator. uld any part give out through a in material or a defect in manuure, even after years of use, we at replace it with a new and perfect e entirely free of cost to you.

ur careful and thorough inspection em, by which we not only rigidly exne every part of the separator, but lyze and control the metals used in foundry and machine shop, is the guarantee that an Economy King erfect in every way. But should a len flaw, by any rare chance, escape watchful eyes of our inspectors, guarantee protects you fully.

Rubber Bowl Rings.

We sell Rubber Bowl Rings only in packages of six or twelve and we do not break packages. Directions for care of rings are printed on every package.

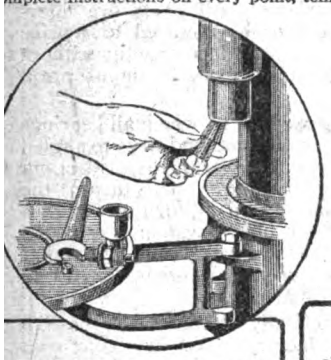
Repairs and Repairing.

Repairs cost nothing if they come under the terms of our guarantee. If, however, it is necessary to replace a part giving out through natural wear, or a part broken through accident, we supply the needed piece promptly and at a very low price.

We carry a complete stock of repairs for all Economy Separators, old and new, at Chicago and, of course, another stock at the factory. In addition we have complete repair shops at Chicago and Buffalo, N. Y., where we are equipped to do bowl repairing and balancing and Economy Separator repairing of all kinds skillfully and at reasonable prices.

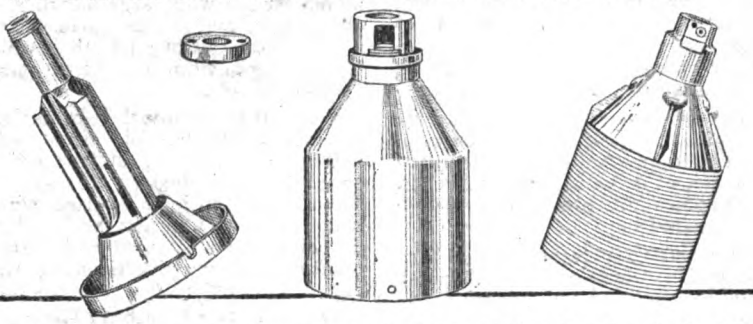
In the instruction booklet we supply with each separator you will find a repair list showing pictures of each part, together with a price list which makes it very easy to order just the part needed.

IF YOUR TEST does not prove the Economy King not only the best at the price but the best at any price we do not ask you to keep it.



We Invite Comparison

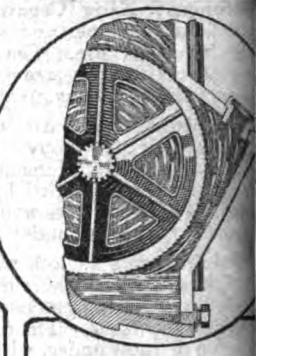
Each Economy King Cream Separator is packed complete with all the needed ools and supplies for setting up, cleaning and operating. We include cleaning brushes, supply of separator oil, wrench, cream screw key, bowl vise, rubber bowl rings, lag rews for fastening to the floor and everything needed.



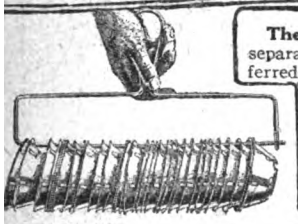
We also send directions for setting up and operating the machine, giving you full and mplete instructions on every point, telling you all you need to know about the separator in a plain, simple way that you will find easy to understand and follow, you know nothing about a cream separator and have never seen one in operation.

Our separators are packed in substantial cases of matched lumber.

All bright and tinned parts are coated with heavy oil to prevent damage from r in transit, and we guarantee your separator to reach you in the same new and condition that it leaves the factory.

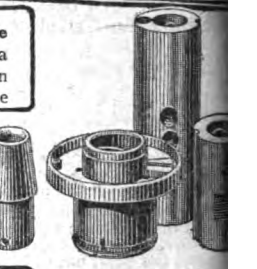


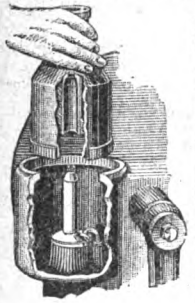
Lower bowl spindle bearing is quickly removed from the bottom without disturbing the gearing and, when replaced, centers itself accurately. Putting in a new bearing if ever necessary is the work of but a few minutes. A feature found in few other separators.



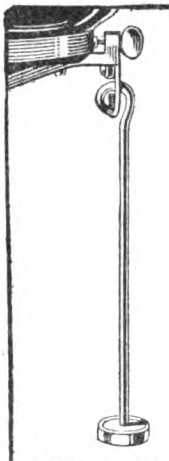
Here are the parts of our improved detachable spindle skimming bowl. It is very simple, easy to take apart, wash and assemble, and a wonderfully close skimmer. It will skim warm or cold milk, milk from cows on dry feed, stripper cows, and milk from breeds whose milk is most difficult to skim, taking the cream practically to the last drop.

It gives you a smooth, velvety cream of any desired density, from the thinnest to the heaviest, all regulated by turning a simple screw in the bowl head in or out. The cream as it leaves the Economy King bowl is purified, aerated and free from froth. The butter fat globules are unbroken and the cream is in elegant condition after cooling for shipping, or to ripen for home butter making.



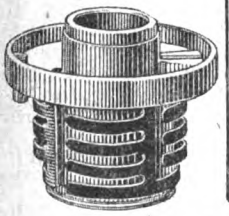


Our oiling indicator little glass window ag which the oil splashes cont ly in operation. It shows that the oiling system is w ing properly, and if the should be frozen or the supply too low you see i once.



The skimming discs for cleaning are not handled separately, but are removed from the bowl and transferred to our handy disc washer with almost the ease and speed of a single piece. This permits you to separate the discs so each can be cleaned individually, yet keeps them in their proper order. Washing and rinsing takes but a few minutes and the discs are then spread out on the washer and hung up to air

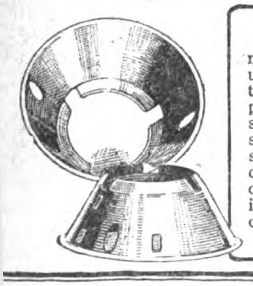
At the lower end of the bowl driving spindle is a tool steel bearing point, which turns on a hardened steel ball. The bowl spins like a top on this almost frictionless bearing and is held in true line by bushings of a special anti-friction alloy. The pinion shaft bearings are of extra length and all bearings run in a bath of oil, which makes them almost frictionless.



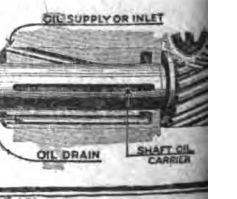
The skimming bowl, for emptying or washing, is lifted off the driving spindle and can be replaced just as easily. This makes the bowl lighter and easier to handle and also avoids damage to the spindle or driving worm by striking it or accidentally dropping the bowl. which often happens if the bowl is attached to the driving spindle. The driving spindle sockets in a bronze sleeve in the bowl, and a wedge shaped key locks it in place.

The crank speed timer is a simple pendulum suspended from the tank bracket, which swings at a uniform speed. A touch of the finger starts it and it continues to swing at the same speed during the entire time you are turning. No bell, no noise, no springs, and nothing to get out of order. Just time the turning of the crank occasionally with the speed timer and you will insure perfect skimming and uniform cream.

Our cream screw is quickly regulated, does not require a fine adjustment and gives you any cream from the thinnest to the heaviest. It is extra large and substantial, and much more durable than the small light cream screws necessary to save space in some separators and which if lost or mutilated prevent the use of the separator until replaced.



The upper bowl spindle bearing is flexible. It cushions and centers the bowl so it runs smoothly and easily without noise or vibration. This is due to our improved multiplex spring, which, though a single piece, has a series of flexible spring steel tongues which yield gently to the motion of the bowl, preventing undue vibration or friction, but at the same time holding it in perfect control.



Our no splash supply tank is formed with full curving sides and convex bottom, which prevents the milk splashing over on the floor and machine, no matter how hastily you pour it into the tank. The top rim is broad and easily grasped for lifting from any position. Feet are provided which protect the faucet if tank is set on a flat surface.

The spacers on our sanitary skimming discs are electrically welded to the upper surface of the discs. This unites the metal so the disc and spacers are practically one solid piece and will not separate. The spacers are on the upper side only and the lower side is perfectly smooth, making the discs very easy to clean. No dirt gathering holes or crevices as with the usual way of clinching the spacers through holes in the discs.

Reduced view of a pinion shaft bearing, cut away to show the oil circulation. Oil feeds in at the top and the flat spot on the shaft, in connection with an 8 shaped groove on the bushing, spread it evenly. Oil reaching the end of the shaft does not leak out, but is collected and drained back into the oil basin.

Our easily cleaned skimming bowl will delight the careful housewife. With a few minutes' easy work each day it will be just as clean and sweet after years of use as when new.

New Money Saving Prices

Don't Buy Too Small a Size

e many good reasons for selecting a cream separator of ample capacity, ienced cream separator user will tell you. The larger sizes skim the milk uickly, saving time and labor every day in the year. They are cleaned about as quickly as the smaller sizes and are practically as easy to run and care for. They easily handle the big milk flow you will have at certain times of the year and save much valuable time in the planting and harvest seasons when every moment counts.

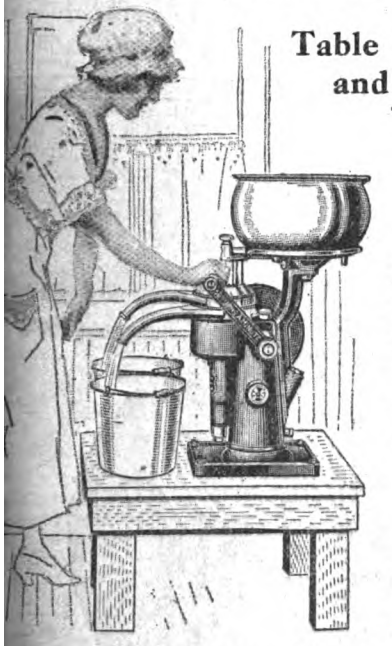

Table Sizes for Homes and Small Dairies

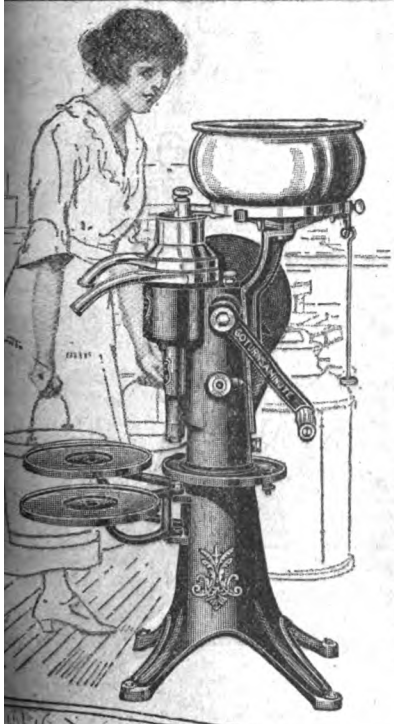
Economy King Cream Separator No. 10.

Skimming Capacity, 135 Pounds (About 65 Qts.) an Hour.

This size skims at the rate of a trifle over a quart a minute. Because of its small capacity we recommend its use in households where only one or two cows are milked and the quantity to be skimmed is always small. In most cases it is better to buy the larger capacity table machine, listed below, as it saves time with every skimming.

23H920—Economy King Cream Separator No. 10, without stand. Skimming capacity, 135 pounds of milk an hour. Shipping weight, 90 lbs.

1921 Fall Catalog price, $39.90. New reduced price..... **$28.85**



Economy King Cream Separator No. 11.

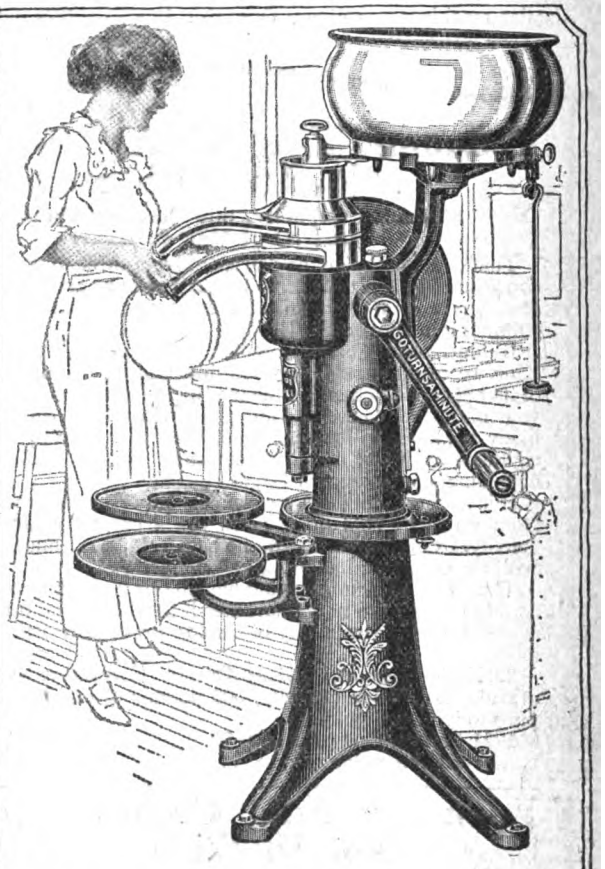
Skimming Capacity, 200 Pounds (About 95 Qts.) an Hour.

These sturdy little machines are built with greatest care. They have our sanitary loose disc bowls with detachable spindle, oil splash lubrication and the same improvements and conveniences as our regular dairy sizes, except the crank speed timer. For dairies of one to three cows, which you do not expect to enlarge later on, this is the rise buying. Before ordering, however, be sure to figure on future additions to your herd, which your purchase of a larger size advisable.

21—Economy King Cream Separator No. 11, without stand. Skimming 00 pounds of milk an hour. Shipping weight, 100 pounds. all Catalog price, $45.50. New reduced price..... **$33.35**

-The table size Economy Kings, listed above, are not supplied with stand and are intended to a small bench or table, about 20 inches high, to be supplied by the user.

Economy King Cream Separator No. 12.



Skimming Capacity, 250 Pounds (About 120 Qts.) an Hour.

This is the smallest of our regular dairy machines with stand and will give good satisfaction where the herd is small, two to four cows, and you do not intend to increase it. This size is easy to run, handle and to keep clean. It skims any quantity of milk from 1 gallon up and has all our latest features, including crank speed timer and detachable spindle loose disc skimming bowl.

23H922—Economy King Cream Separator No. 12, with stand. Skimming capacity, 250 pounds of milk an hour. Shipping weight, 175 pounds.

1921 Fall Catalog price, **$60.10.** New reduced price..... **$41.55**

The best size to buy. The 600-pound capacity size, listed on the following page, skims a milk pailful in about two minutes, while to skim the same amount with the 250-pound size will require nearly five minutes. A proportionate saving of time and labor for larger skimmings twice daily during all the years you use the separator is, of course, a wonderful advantage.

Economy King Cream Separator No. 14

Skimming Capacity, 375 Pounds (About 180 Qts.) an Hour.

A very good size for any herd of from two to five or six cows. For more than five cows we always recommend the No. 16 machine, shown on the following page, as it does any skimming in two-thirds the time or less, saving a world of time and labor in the course of a year. This size, however, will give splendid satisfaction with a small herd. It is a substantial, well built machine adapted for hard everyday dairy use and a splendid skimmer, taking practically every drop of cream from the milk in any condition in which milk can be skimmed.

It aerates and cleanses the cream and skim milk, giving you a cream of any wished for density. It is provided with our splash oiling system, separable spindle sanitary bowl, and has all the latest improvements.

23H924—Economy King Cream Separator No. 14, with stand. Skimming capacity, 375 pounds of milk an hour. Shipping weight, 190 pounds.

1921 Fall Catalog price, **$70.50.** New reduced price..... **$52.40**

Farm for Cream. Harvest your crop every day in the year with an Economy King and insure a liberal cash income the year round.

Digitized by Google

Every Economy King a Bargain

The two larger sizes listed below are extra heavy and substantial, with broad faced gearing, shafting of large diameter and long bearings giving plenty of wearing surface and thus insuring great durability.

Another advantage of these larger sizes is that they will last longer than the smaller machines. A cream separator, like any other machine, only wears as it is used, and as the larger sizes do any skimming in one-half the time of the smaller sizes, they are used only about long each day and naturally will run about twice as many days wearing out or needing repairs, so that although the price is a little in the first place, in the long run they cost you less per year t smaller sizes.

Economy King Cream Separator No. 16 With Stand

Skimming Capacity, 600 Pounds (About 290 Quarts) of Milk an Hour.

This is the best size for dairies of from three to twelve or fifteen cows, and is the size selected by most of our customers. It skims at the rate of a milk pailful every two minutes and does a big skimming in short order.

If you have a small or medium size herd, this is the Economy King we recommend. It saves time and labor daily, and because of its big capacity handles the big Spring milk flow easily. Should you enlarge your herd in coming seasons, as you will be more than likely to do, it will take care of the extra milk up to a herd of eighteen or twenty cows, if necessary, and save you the expense of buying a separator of larger capacity.

It is a wonderfully close skimmer and takes the cream to a trace from warm or cold milk, gives you a cream of any wished for density, from the thinnest to the heaviest, and cleanses and aerates both the cream and skim milk.

This No. 16 Economy King has all our latest improvements and conveniences. We fully guarantee it and allow you full thirty days for trial, giving you plenty of time to prove its worth in your own dairy.

23H926—Economy King Cream Separator No. 16 with stand. Skimming capacity, 600 pounds of milk an hour. Shipping weight, 240 pounds.

1921 Fall Catalog price, **$81.90.**

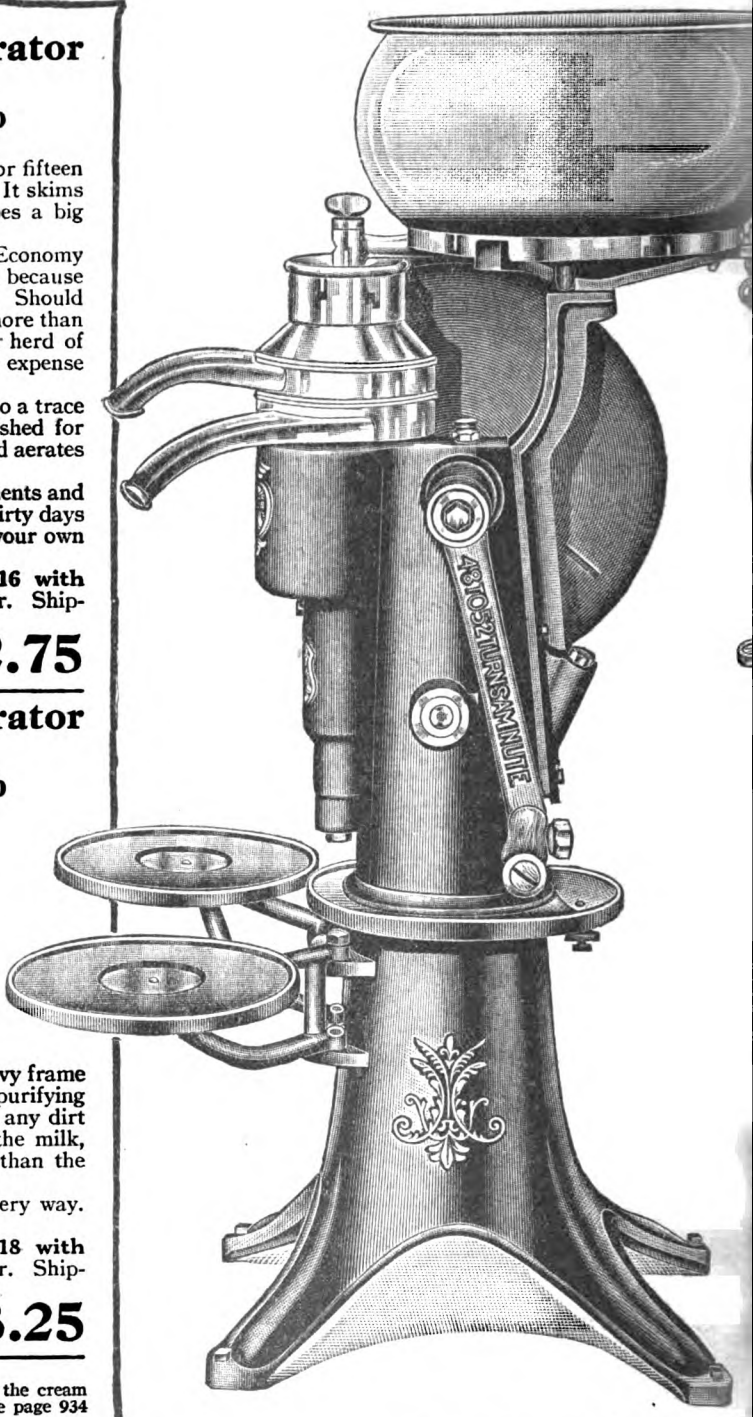
New reduced price..... $62.75

Economy King Cream Separator No. 18 With Stand

Skimming Capacity, 800 Pounds (About 390 Quarts) of Milk an Hour.

We advise buying this size for herds of ten or twelve to fifty cows or more. It readily takes care of an extra large milk flow when the cows are fresh or on Spring pasture, because of its big capacity, and runs so easily that you can handle a large quantity of milk without the use of power, if desired.

It skims at the rate of six and one-half quarts a minute, or a pailful in about one and one-half minutes. City milk dealers and ice cream makers who must separate large quantities of milk without loss of time will find this size just what they need.



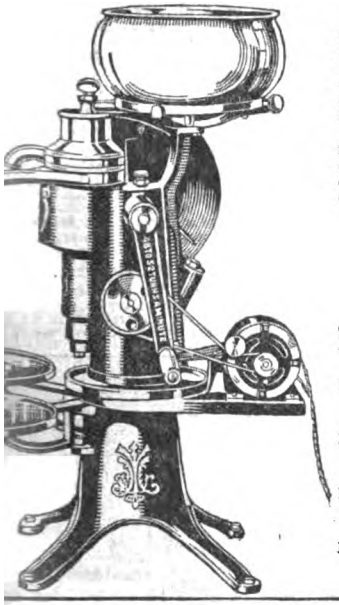
It is well adapted for use with power because of its heavy frame and base and substantial construction throughout. The purifying and aerating feature is of great advantage as it removes any dirt or any other foreign matter that may have fallen into the milk, so that both skim milk and cream are in better condition than the whole milk before skimming.

We guarantee this Economy King to please you in every way. Send us your trial order today.

23H928—Economy King Cream Separator No. 18 with stand. Skimming capacity, 800 pounds of milk an hour. Shipping weight, 255 pounds.

1921 Fall Catalog price, **$92.50.**

New reduced price..... $73.25



We Ship From a Warehouse Near You.

We insure speedy delivery and low freight charges by shipping the cream separator you order from a warehouse near your home town. See page 934 for list of warehouse points.

SELL YOUR POOREST COW if necessary and buy an Economy King. Three cows and a cream separator will pay as well as four cows without one.

Electric Drive Separators

We supply Economy King Cream Separators in the dairy sizes equipped with electric motors for operation with any form of electric power. If you have a home electric lighting plant, or can purchase electric current, this is one of the most satisfactory and economical methods of operating a cream separator.

Our electrically operated separators are provided with special heavy duty motors especially adapted to stand the heavy starting load. The motors are mounted on a bracket below the drip shelf and drive the separator through an endless belt connecting with a pulley mounted on an extension of the pinion shaft. They do not in any way interfere with hand operation and if the power is off, the belt can be slipped off the pulley and separating done by turning the hand crank.

In ordering give voltage and say whether you have direct or alternating current. If alternating current is used, find out from your electric company whether single phase, two-phase or three-phase, and the number of cycles, or frequencies. If different from those listed herewith, send us full information and we will quote special prices. We can also supply electric equipment at reasonable prices for the dairy size Economy King you are now using. If interested, write us. Electrically equipped separators are **shipped from CHICAGO, ILL., or BUFFALO, N. Y.**

Electric Drive Economy King Cream Separators.

32-Volt Direct Current.

Electric Drive Separator, complete with 32-volt DIRECT current motor, knife switch, fuse plugs and 40 feet of insulated wire. (Price of extra wire, if wanted, 3 cents per foot.)

23H922—Skimming capacity, 250 pounds an hour. Price..... **$ 82.50**

23H924—Skimming capacity, 375 pounds an hour. Price..... **93.40**

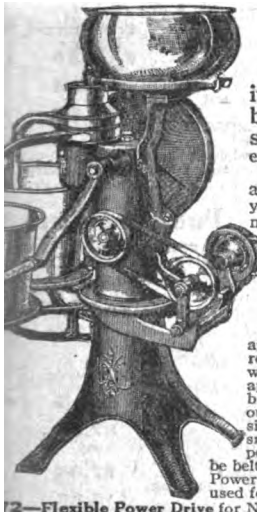
23H926—Skimming capacity, 600 pounds an hour. Price..... **103.75**

23H928—Skimming capacity, 800 pounds an hour. Price..... **114.25**

110-Volt Alternating Current.

Electric Drive Separator, complete with 110-volt, 60-cycle ALTERNATING current motor and 10 feet of cord, with attachment plug for lamp socket.

23H922—Skimming capacity, 250 pounds an hour. Price..... **$ 81.50**

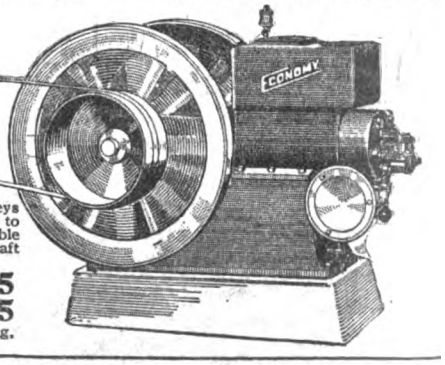


23H924—Skimming capacity, 375 pounds an hour. Price..... **92.25**

23H926—Skimming capacity, 600 pounds an hour. Price..... **123.75**

23H928—Skimming capacity, 800 pounds an hour. Price..... **134.25**

Average shipping weights as follows: 23H922, 235 pounds; 23H924, 250 pounds; 23H926, 300 pounds; 23H928, 315 pounds.

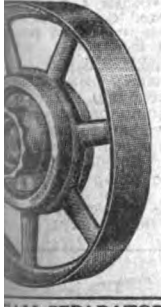


Our Best Power Drive

When our cream separators are to be operated by any form of power, either through a countershaft or direct, it is always advisable to use our Flexible Power Drive. If a gasoline engine is directly connected to the separator by means of a belt and the ordinary solid pulley, the continual shock and jar of the engine explosions put an undue strain on the gearing, causing the shafts, bearings and gears to wear rapidly and necessitating frequent and expensive repairs.

Our Flexible Power Drive prevents this by absorbing these explosion shocks and delivering a smooth, steady flow of power to the separator, so that it is under even less strain than with hand operation. It consists of a yoke fitting the base below the drip shelf. To this yoke is attached a rocker arm provided with a shaft consisting of a highly tempered, closely coiled steel spring. On one end are mounted the usual tight and loose pulleys for belting to source of power and on the other end a single pulley connected by a short belt to a pulley mounted on an extension of the pinion shaft.

When the power is applied suddenly the rocker arm swings inward, permitting the belt to slip and applying the power to the separator gearing gradually, bringing it up to skimming speed in two or three minutes without shock or undue strain. The sudden impulses due to the engine explosions are absorbed by the coiled steel spring shaft, which delivers the power in a smooth, even flow. In case of the sudden stoppage of the engine, a ratchet in the pulleys permits the separator to run unchecked until it runs down. Diameter of driving pulley to be belted to source of power is 3¼ inches and a belt 1 inch wide should be used. Our Flexible Power Drive is shipped complete with special extended pinion shaft to replace the regular shaft used for hand operation. Shipping weight, 50 pounds.



72—Flexible Power Drive for Nos. 12 and 14 Economy King. **$15.45**

76—Flexible Power Drive for Nos. 16 and 18 Economy King. **15.75**

-inch driving pulley on the flexible power drive should run at the following speeds: For Nos. 12 and 14 Economy King, a minute; for No. 16 Economy King, 645 to 696 turns a minute; for No. 18 Economy King, 619 to 671 turns a minute.

lleys for Power

Pulleys for use when our cream separators are to be operated by gasoline engine or other power are applied by simply removing the crank and replacing it with the pulley.

Never attempt to belt from gasoline engine direct to these pulleys, as it runs much too fast, and to do so is highly dangerous. Use a countershaft and have the size of the pulleys calculated by some one you know is competent.

23H135—Friction Clutch Pulley for Economy King Cream Separators Nos. 10, 11, 2, 4, 12 or 14. Size, 14 inches in diameter, 1½-inch face. Shipping weight, 25 pounds. Price..... **$3.90**

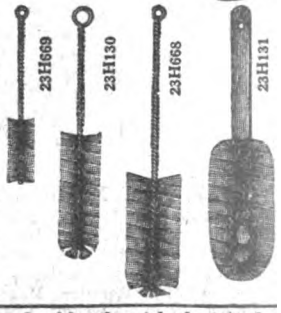
23H130—Friction Clutch Pulley for Economy King Cream Separators Nos. 6, 8, 16 or 18. Size, 14 inches in diameter, 2-inch face. Shipping weight, 30 pounds. Price..... **$4.25**

23H128—Friction Clutch Pulley for Improved Economy and Economy Chief Cream Separators, all sizes. Size, 14 inches in diameter, 2-inch face. Shipping weight, 30 pounds. Price..... **$4.20**

If pulley is ordered separately always state in your order which size separator it is for. We do not furnish pulleys to fit other cream separators.

Brushes for Cleaning

The best brushes we know of for cleaning Economy bowl parts and tinware. Made of extra quality stiff brush stock.



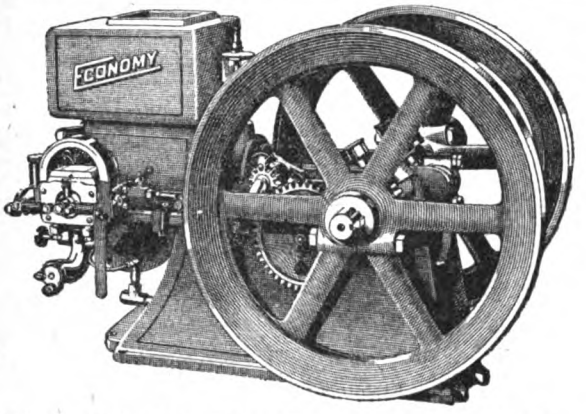
23H131—Wood Handle Brush for Economy King and Economy Chief. Length, 14 inches. Width across brush, 2¾ inches. Shipping weight, 8 ounces. Price..... **22c**

23H668—Wire Handle Brush for Economy Chief. Length, 13½ in. Width across brush, 2 in. Shipping weight, 7 ounces. Price..... **15c**

23H130—Wire Handle Brush for Economy King. Length, 12 inches. Width across brush, 1½ inches. Shipping weight, 6 ounces. Price..... **15c**

23H132—Wire Handle Tube Brush for Economy King. Same style as 23H130. Length, 12 inches. Width across brush, ⅝ inch. Shipping weight, 4 ounces. Price..... **10c**

23H669—Small Wire Handle Brush for Economy Chief. Length, 8½ inches. Width across brush, ⅝ inch. Shpg. wt., 2 oz. Price..... **5c**



AM SEPARATOR SUPPLIES. For prices on other supplies and repairs for Economy Cream Separators see direction booklet furnished with the . If you have lost or mislaid your direction booklet, write us, giving the name and bowl number of your separator, and we will gladly send you direction booklet postpaid.

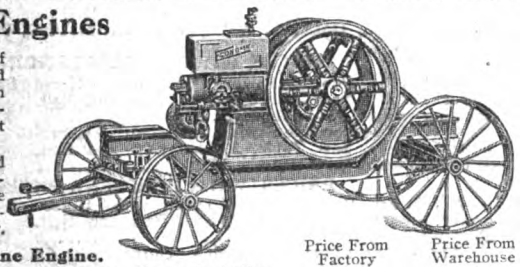
hermoil Cheap Fuel Engines

Save Two-Thirds of Your Fuel Cost

noil Engines start and run on kerosene, coal oil, fuel oil, crude oil, or ar fuel thin enough to flow through the pipes. They have no carburetor, or electrical ignition of any kind. The fuel is fired by the heat of ion. The piston compresses the air in the cylinder to 480 pounds per ch, heating it to about 1,000 degrees Fahrenheit, which sets fire to the e cylinder.

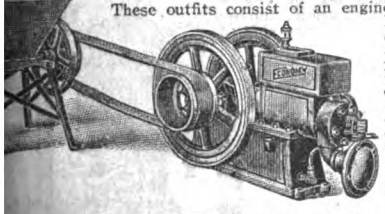


noil Engines can be started easily in Winter as well as in Summer. is not vaporized in the Thermoil engine, the heat of compression sets fire w fuel so that the engine can be started in below zero weather.

noil Engines use only about half as much fuel as other internal combustion o that it costs only about one-third as much to run a Thermoil Engine as gasoline engine, and about half as much as the so called throttling governor engine of the same power.

ill ship you any Thermoil Engine or outfit shown on this or the opposite receipt of the full purchase price, with the understanding that you are to ty days; if at the end of that time you are not satisfied, we will exchange at our expense or we will take it back and return your money, together freight charges you have paid.

uarantee a Thermoil Engine will last as long and give you just as satisrvice at a much lower cost for fuel than any gasoline or so called throttling kerosene engine.



rtable Engines

utfits consist of with pulley and eel truck with truck is of spection, with bent on frame. me well braced eel axles, rein- I beams. The all steel, 24- and 32-inch rear.

Portable Sawing Outfits

PRICE.

11H2232—Economy Portable Drag Saw Outfit, complete with engine and 5-foot saw, as shown. Price..... **$83.95**

11H330—4x4-Inch Pulley for power purposes, extra..**$1.25**

The Economy Drag Saw Oufit is up to date in every respect; it is equipped with a disc clutch, easily operated by a hand lever, which enables the operator to start the engine without starting the saw and to stop the saw without stopping the engine; you have absolute control over the machine at all times with this handy lever clutch. The outfit is equipped with two wheels so that it can be readily moved by one man and the wheels are mounted on swivel axles so they can be moved in two ways; one for road travel and the other for moving from cut to cut along the log.

The Economy Drag Saw Outfit has several improvements over other machines, such as a guide handle, which, together with the chain, holds the saw rigid while being moved. A long, continuous truss rod extends from the front to the rear end of the frame and strengthens the outfit, preventing vibration. The anchor hook which holds the outfit to the log is of special design. We adopted standard binder chain for driving the saw, as we found that chain drive is very flexible and easy to repair; it is very efficient and less liable to damage than gear drive. With chain drive it is a simple matter to disconnect and remove the engine and use it for other purposes. The Economy Engine used on this outfit is built in the same factory that has been building our Economy Engines for years; it is a four-cycle water cooled engine, equipped with Webster magneto, and is of a special design for this outfit. The engine furnishes plenty of power to drive the saw and we guarantee the Economy Drag Saw Outfit to give satisfactory service.

SPECIFICATIONS.

We use our well known 1½ horse-power Economy Gasoline Engine; four-cycle, water cooled, equipped with Webster magneto. A multiple disc hand operated lever clutch is installed on the engine crankshaft, which permits absolute control of the saw; standard binder chain is used for driving the saw. The frame is hardwood, about 9 feet long; all castings are properly designed and of ample strength to give satisfactory service. The wheels are mounted on swivel axles and are 18 inches high and 3 inches wide. The saw blade is 5 feet long, made of the finest grade of saw steel, and is filed and set, ready for work; the length of the stroke is 20 inches and the saw operates at 154 strokes per minute, which speed will give the best results for all classes of work. The outfit is well finished, nicely painted and weighs complete with the engine, about 490 pounds. Weight, crated for shipment, about 505 pounds. **Shipped from factory at EVANSVILLE, IND.**

Portable Sawing Outfits

These saw rigs are complete, ready to saw wood, consisting of an engine with pulley, an all steel truck with pole, and a saw frame fastened and hinged to the back of the truck. Saw frame consists of an all steel tilting or sliding table, a saw with guard, a belt tightener and rubber belt. **Be sure to state whether you want the tilting or sliding table.** Illustration shows sliding table.

Shipped from factory at **EVANSVILLE, IND.,** or from warehouse at **PAUL, MINN., OMAHA, NEB., or HARRISBURG, PENNA.,** as explained on page 940.

Motorgo Two-Cycle Boat Engines

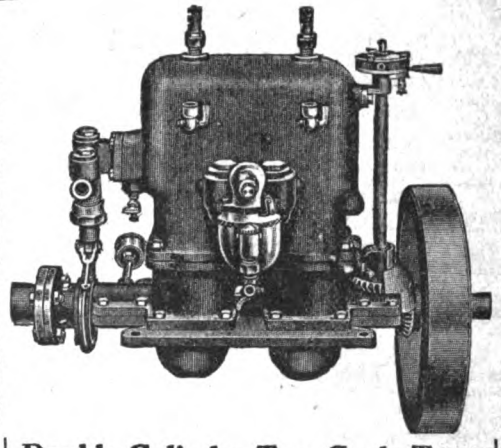
Motorgo Marine Engines are honestly built according to the most improved methods, made in one of the best equipped and most modern marine engine factories in the country. The materials and workmanship are high grade, and we guarantee to replace, without extra charge, any part of a Motorgo Marine Engine that gives out because of defect in material or workmanship.

All Motorgo Engines have a nice gloss finish of battleship gray enamel, all brass parts are polished and we send a book of instructions telling how to start, run and take care of them. They are complete with full equipment as described below and are shipped on 30 days' trial from factory in **SOUTHERN MICHIGAN.**

Rowboat Engines

The Motorgo is a high grade Rowboat Engine that we guarantee will give years of satisfactory service. The cylinder is 2⅝-inch bore, 2½-inch stroke, commonly called 2 horse-power, running 850 revolutions per minute. It can be easily and quickly attached to any standard rowboat. It steers with a rudder and will propel a rowboat 6 to 8 miles an hour.

It is equipped with a bronze weedless propeller, 9¼ inches in diameter, with 14-inch pitch. It draws from 9 to 10 inches of water. Can be used in either fresh or salt water.



The outfit is adjustable to any angle of stern. The tank holds about 3 quarts of gasoline, enough for about four hours' run.

The magneto outfit has the magneto in the flywheel. On the battery outfit the ignition consists of three dry cells and a spark coil in a neat wooden box, with wires all ready for attaching to the engine. Both outfits are complete, ready to run, and are **shipped from factory in SOUTHERN MICHIGAN.**

PRICES OF ROWBOAT ENGINES.

47H810—Motorgo Rowboat Engine, complete with battery ignition. Actual weight, 70 lbs.; shipping weight, 100 lbs. Price..... **$73.50**

Double Cylinder Two-Cycle Two-Port Engines.

47H817—6 Horse-Power Engine, complete with Schebler carburetor, battery ignition, 14-inch two-blade bronze speed propeller, 6-foot propeller shaft and bronze stuffing box. Shpg. wt., 268 lbs. Price..... Fresh Water **$132.50** Salt Water **$142.50**

47H822—8 Horse-Power Engine, complete with Schebler carburetor, battery ignition, 15-inch two-blade bronze speed propeller, 6-foot propeller shaft and bronze stuffing box. Shpg. wt., 350 lbs. Price..... Fresh Water **$147.85** Salt Water **$159.00**

If you do not want the propeller, propeller shaft and stuffing box, deduct $8.00 from the fresh water price.

Single Cylinder Two-Cycle Two-Port Engines.

47H803—2½ Horse-Power Engine complete with mixing valve, battery ignition, 12-inch two-blade bronze speed propeller, 6-ft. propeller shaft and bronze stuffing box. Shipping wt., 186 pounds. Price..... Fresh Water **$79.95** Salt Water $

47H806—4 Horse-Power Engine, complete with Schebler carburetor, battery ignition, 14-inch two-blade bronze speed propeller, 6-ft. propeller shaft and bronze stuffing box. Shpg. wt., 242 lbs. Price..... Fresh Water **$105.00** Salt Water $11

If you do not want the propeller, propeller shaft and stuffing box, deduct $7.45 from the fresh water price.

Equipment Furnished With Engines.

The engine is complete with timer, carburetor, mixing valve, plunger pump, grease cups, [illegible] plug for each cylinder priming cup, thrust bearing and a rear coupling for attaching to the propeller shaft.

Six feet of propeller shaft, a bronze stuffing box with lag screws, a two-blade bronze speed propeller (or weedless propeller, if desired), muffler, [illegible] crank and book of instructions.

Battery ignition, five dry cells, a high tension vibrating spark coil and the necessary wiring.

Fresh and salt water equipment is supplied the same, except we furnish bronze shafting in the salt water outfit in place of the regular cold rolled steel.

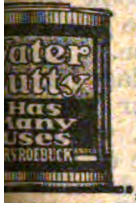
Lightning Furniture Polish



During the last few years we have examined hundreds of samples of furniture polishes submitted for our approval. As a result we know you will find our Lightning Furniture Polish the equal of any polish on the market regardless of price. We know from tests that it is better than many of the nationally advertised polishes and the equal of the best. We now make it in our own factory, and as a result can sell it to you at less than half what you pay for most polishes. It cleans rapidly and leaves a high luster. It is excellent for use on the finest furniture and will not injure any finish. Use it on your piano, phonograph, table tops and automobile and we assure you it will do all we claim for it, and save you money.

FURNI-FLOR Mop Oil

Furni-Flor is our own Trade Mark. Reg. in U. S. Patent Office.

The Universal Polish Oil. For Renewing Dustless Mops and Dust Cloths.

Same quality sells for more than twice as much elsewhere.

A superior mop oil for preparing as well as renewing dustless mops and cloths. The modern, up to date method of housekeeping. Cleans as well as polishes. Every housewife should have a can of this polish.

An oil mop needs frequent renewing. After a time the oil is all used up and the mop thereby loses much of its cleansing and polishing properties. An oil mop or dust cloth will give far better service if cleaned and renewed once or twice a month. It is really a good idea to add a few drops of oil each time you use the mop in order to keep it properly replenished. You can make them just like new again with Furni-Flor Mop Oil.

Housekeepers! Take advantage of the modern up to date methods of keeping the house clean and sanitary. Use a dustless mop and dust cloth. Collect the dust—don't just scatter it! By using Furni-Flor Oil the germ laden dust and dirt is collected in the cloth or mop, and when through can be taken outside and shaken and it is ready to use again. For just everyday dusting it is not necessary to clean the cloth and mop each time. About twice a week is often enough.

To make a good dustless cloth, saturate a piece of cheesecloth with water, remove the surplus water by wringing, then add a small quantity of Furni-Flor Oil. Just as simple as can be, and a can will last for a long time.

To replenish a mop, first wash it out with soap and warm water, rinse well and, when dry, add a good quantity of Furni-Flor.

Furni-Flor cleans and polishes all varnished, waxed and painted woodwork, furniture and floors.

Another Improvement

Again We Are the First to Offer the Public the Latest Improvement in Making Wall Paper.

Ordinary Wall Paper.

About five years ago we put the first ready trimmed Wall Paper on the market. Up to that time all wall paper was sold just as it came from the printing machines, with the selvage or plain edge left on. It was necessary to cut off one or both edges with a sharp knife and straight-edge or a pair of shears—a very difficult job, especially for the inexperienced home owner who undertook to hang his own paper. It meant spoiling the whole job if the trimmed edges were ragged or "out of true." It really required an expert workman to do a first class job of paperhanging until we came along with our time saving, labor saving, ready trimmed Wall Paper, which had one edge completely trimmed off. The home owner received it enthusiastically. Literally thousands did their own paperhanging who would not have even attempted it with the old style paper.

This Plain Edge Is Easily Removed.

We are now trimming our paper a new and better way. Instead of cutting the selvage edge entirely off, we are perforating it and leaving the strip attached to the paper. This makes it easier to apply the paste, since less care is needed to keep the paste from getting over the edge onto the face of the paper. After the strip of wall paper is pasted and folded, the perforated edge is easily and quickly detached, just like tearing two postage stamps apart or tearing a check out of a check book. This feature is fully protected by United States patent and is used only on Sears-Roebuck Paper, sold from our four stores at Chicago, Philadelphia, Dallas and Seattle.

Our Improved Trimmed Paper.

This helpful feature costs you nothing. You will find our prices for this high grade improved paper about one-half what you would have to pay for similar patterns in most of the wall paper stores. Sanitas Wall Oilcloth

The Modern Wall Covering.

THE well known widely advertised modern wall covering for kitchens, pantries, bathroom and bedroom walls. It combines beauty and practicability. Just think of the fact that the walls of your kitchen, pantry or bathroom can be washed with soap and water, making them clean and like new, without the trouble and expense of replacing, as is necessary with other wall coverings.

Wall Oilcloth is easy to apply—it is hung just like wall paper.

All the tile and figured patterns have a high gloss finish and have borders to match. The designs are printed in fadeless oil colors.

The plain dull finish patterns are pebble embossed solid tints and have a soft velvety finish, making them a very desirable decoration for bedrooms, living rooms, etc. Used with a stencil border these patterns will make some of the most attractive rooms possible to obtain.

To find the amount of 47-Inch Oilcloth Wall Covering required to cover a certain area divide the area in square feet by eleven (11). For example: Area to cover 132 square feet, divided by eleven, equals 12 yards, the quantity of oilcloth to order. For border, divide the distance around the room in feet by 3 to get the number of yards of border to order.

53H1411—Tan.
53H1412—Brown.
53H1413—Green.

Lincrusta Wall Covering is a practical and high class decoration closely resembling carved leather. The figures stand out boldly and in deep relief from the background, somewhat on the order of embossing, but in a much more pronounced manner.

It is used for wainscoting in libraries, vestibules, public halls and churches, for stairways and entrance halls, and is used for the lower third or two-thirds of the dining room walls, being placed just beneath the plate rail. It makes one of the most serviceable wall coverings it is possible to secure. It resists dampness and may be washed with soap and water without the least injury to material or finish. The colors are permanent. A coat or two of ordinary house paint may be applied at any time if a change of color is desired. Shipping weight, per yard, about 1 pound. All designs are 19¼ in. wide.

Paper Veneer

Paper veneer is a heavy manila paper printed in oil colors to resemble oak grain. It is used in place of wall paper in dining rooms, halls, stairways and dens and produces a dignified and beautiful effect. A coat of clear varnish, such as our Rubbed Finish Varnish 30H2712, applied after the veneer is perfectly dry adds greatly to the appearance of the veneer es it more durable. A very pretty panel be produced by covering the seams of the ith panel molding, a very complete line of shown in our Wall Paper Sample Book. It with ordinary paste. Directions for applying h roll. Especially recommended to be used der around rugs, but should be protected at ways, as it will not stand up under constant tion. Each roll is 36 inches wide. Shipping 2½ pounds per 8-yard roll. **Samples fur- on request.**

1178—Straight grained golden oak.
1179—Quarter sawed golden oak.
1180—Straight grained brown weath-

Cold Water Dry Paste.

Mixes easily and readily into a smooth, transparent paste. After testing numerous samples of paste submitted for our approval we have selected this one, which has several superior qualities. **It will make more paste per pound than any paste we have ever examined.** It mixes readily and spreads evenly. It will not sour within reasonable length of time and will hang any kind of wall paper. A cold water paste is very convenient, saving time, labor and trouble and gives as good service as anyone can possibly desire. One 2-pound bag will make enough paste for the walls and ceiling of a large room.

30H2787

RUBBERSET
TRADE MARK

These are the well known, nationally advertised Rubberset brushes. They are brushes that will give perfect satisfaction for either amateur or professional use. Satisfaction is doubly assured because you get not only our guarantee but the guarantee of a responsible manufacturer with a national reputation.

Every bristle in a Rubberset brush is gripped in a bed of hard vulcanized rubber. Vulcanizing makes the rubber exceptionally hard and **it is impossible for a bristle to come out, regardless of wear.**

Then, too, this rubber cannot be dissolved by any liquid in which a brush is used. This hard bed of rubber remains the same always—dryness or dampness does not affect it—as it positively will not swell or shrink. It is not necessary to soak Rubberset brushes in water before using, as you do with glue set brushes.

KALSOMINE

For the experienced kalsominer only.

Combination Stool and Stepladder.

Get one of these handy Stool Stepladders for the many little odd jobs about the house, such as cleaning windows, hanging curtains or putting up stovepipe. Standing on this Stool Stepladder you can reach the back of the top shelf of your pantry with ease. It is more compact than a chair. Stands 24 inches high, or 6 inches higher than the seat of an ordinary chair. Housewives use them as a seat while washing dishes, ironing, etc. Folds flat, as illustrated, and takes up little room. No better investment for kitchen comfort could be made than to spend $1.65 for this useful article. Shipping weight, 7 pounds.

30H2956
Price, each.....$1.65

Paint Pot Hooks.

Very convenient. Holds pot of paint in perfect vertical position at side of ladder and eliminates reaching between rungs to dip brush in paint. Shipping wt., 3 oz.

30H2939
Price, each..... 6c
Per dozen.....57c

Rung Replacers.

Used for replacing rungs, as shown in illustration. Malleable iron. Guaranteed to hold any rung. Shipping weight, about 10 ounces.

30H2955—Per set of 4 complete with screws..20c

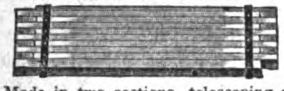
Ladder Jacks.

With a set of these attachments, two ladders and a plank, you can do away entirely with stage or scaffold on small jobs of painting. Carpenters will also find a set of these ladder jacks useful in repair work. Made of high grade [illegible]. Takes planks up to 18 [illegible] width. Shpg. wt., per pair,

30H2941—Per pair..

A Substantial Stepladder.

Every step is securely braced with an iron rod. There are large iron washers on the sides of the ladder which prevent the nails from coming out of the steps. Besides a handy pail shelf, the ladder has double flanged steel hinge cleats riveted to the top and sides and is fitted with a folding iron lock brace.



Each step is braced underneath with a strong iron rod.

Asphalt Roof Paint.

For painting felt or composition roofing, iron or shingle roofs, trestles, sheds, warehouses and other buildings. Second in quality only to our Rufix.

This Asphalt Roof Paint will give far better service for felt and composition roofing and for painting iron and shingle roofs than any of the coal tar preparations.

If you are looking for a good low priced paint, then send us your order for this Asphalt Roof Paint with the guarantee that the paint, considering its low price, will prove satisfactory.

One gallon of this Asphalt Roof Paint will cover about 250 square feet of smooth surface, one coat, or about 150 square feet of rough wood or felt roofing, one coat.

Seroco Chromate Paint.

A first coater for metal surfaces. An exceptionally high grade paint for water tanks, sheet iron buildings, metal grain bins, iron fences, bridges, iron work, etc.

It has always been difficult to get paint to stick on metal surfaces. We believe we have a better first coater in our Seroco Chromate Paint than any of the better known red lead or graphite paints that are offered for this purpose. We have made a study of the problem of painting metal surfaces, and our laboratories have tested out all the known materials. We used our Chromate Paint throughout our new Philadelphia store, inside and outside, and have had perfect results with it. We can recommend it to you as being the best metal first coater we know of. It is made in a pleasing medium brown shade, and while it is made for first coater work it can also be used for the finish coat if you wish. Any other kind of paint can be applied over our Chromate Paint with perfect satisfaction.

RUFIX

Rufix Is Our Own Trade Mark, Reg. in U. S. Pat. Office.

A high grade, thick, heavy roof paint for the man who wants the best.

For painting roofs and keeping them in good condition. May be used on any kind of a roof—tin, iron, slate or composition roofing.

A roof paint meets more severe tests than any other paint, for the roof receives more hard wear than any other part of the building. A roof paint must withstand the extremes of weather conditions—the hot Summer sun and the ice and snow of Winter. It must be adapted to different kinds of roofing. It must be reasonable in price.

Because of these requirements, we have spent much time in an effort to improve the quality of Rufix—our highest grade roof paint. We now have a paint which we feel confident will give you excellent service. Rufix is a combination of weather resisting gums and oils which forms a thick elastic waterproof coating over the surface to which it is applied. There is not an ounce of coal tar in Rufix, nor any other product that will soften during very hot weather.

Rufix is about the consistency of thick paint and should be applied with a brush, preferably a roof paint brush.

Rufix may be used on practically any kind of a roof—tin, iron, slate or composition roofing. It both preserves and protects and will make an ordinary roof last many years longer. Usually one coat is sufficient.

We have so much confidence in our Rufix that we have no hesitancy in guaranteeing it to give you the service you have a right to expect from a high grade roof paint. If for any reason it fails to come up to this standard, we agree to furnish you with new paint free of charge.

One gallon will cover approximately 200 square feet, one coat, on smooth surfaces.

Longlife Elastic and Liquid Roof Compounds

painting and repairing all kinds of roofs—wood, metal, concrete, tile, stone, composition roofing. Also excellent for repairing skylights, smokestacks, chimneys, ventilators, and dampproofing the exterior of brick foundations underground tanks.

don't have to wait for the tinner or the roofer to repair your roof when king. Here are two materials that may be used for repairing all types of ood, metal, concrete, tile and composition roofs. You can do the work These materials come ready to use and are easily applied. Elastic Com- ill not harden in the package and can be kept for any length of time. ilife Elastic and Liquid Compounds contain a large percentage of asbestos hich prevent these materials from running and spreading and consequently m more adhesive power so that they can be used practically any place, such lanting roofs, sides of buildings, etc., without the least danger of their and running.

Longlife Elastic Compound.

ilife Elastic Compound is of puttylike consistency and while it may be used itire roof coating, it is prepared especially for repair work, such as patching les and gaps, and repairing gutters, chimney flashings, skylights, cornices, etc. It should be applied about ⅛ inch thick with a trowel. If, after a badly worn roof with Longlife Elastic Compound, the roof is given a coat d Compound, it will be as good as new and, if repaired as often as needed, e years.

Longlife Liquid Compound.

Liquid Compound is a black liquid of paintlike consistency, rec- a preservative to be applied to the entire roof with a roof brush. for dampproofing the exterior of building foundations and under- it will spread without a single seam or joint exposed in the whole not bulge, crack or run.

Which Material to Use.

These compounds are made of exactly the same materials, but in two consistencies. The Elastic Compound is the plastic material, like putty, and the Liquid Compound is of paintlike consistency. The nature of the repair work will determine which to use, but in many cases either one will work. When used as a preservative coating on a new roof, the Liquid Compound should be used. When repairing an old roof, go over the surface first and repair the large cracks and holes with Elastic Compound and then give the entire roof a coat of Liquid Compound.

Longlife Elastic Compound. Apply With a Trowel.

10 pounds will cover about 25 square feet on a smooth surface.

WE GUARANTEE

Seroco Paint to represent good, honest value; that it is easy to apply; will make a nice appearing job; will fully protect the surface on which it is applied and give you as good service as any paint you could buy, regardless of kind or price. If after applying a portion of any Seroco Paint you are not satisfied in every way, you may send back the remainder and we will return the price you paid for the entire quantity, including all shipping charges.

Or if after you have applied all the paint carefully, following our directions—two coats to old painted surfaces in fairly good condition, three coats to new surfaces and old surfaces in bad condition—you are not satisfied with the service it gives, we agree to furnish new paint free of charge, ship it to you at our expense and PAY FOR PUTTING IT ON YOUR BUILDING.

Sears, Roebuck and Co.
CHICAGO—PHILADELPHIA—DALLAS—SEATTLE

Barn Paint

Added Protection for Seroco Barn Paint Users

Our New Paint Guarantee; Read It and Buy. Only $1.32 to $1.43 per Gallon.

We are so sure that our Seroco Barn Paint is an exceptional value, and will give unusual service, that we have decided to guarantee it to give you good service or we will not only furnish you with new paint but we will pay you for the labor of applying it. This gives you the greatest possible assurance that it is a high quality paint, regardless of the exceptionally low price. It is just as good economy to keep your barns and sheds well painted as it is to keep your house well painted.

In the past, many farmers and others, not realizing the protection a good paint gives to their barns and outbuildings, have used cheap paints, that have given poor results, with added expense for upkeep. We believe the farmer prefers to buy a quality paint which will pay him in service for the cost of the paint and labor of putting it on. Consequently we make one of the best barn paints on the market.

One gallon of Seroco Barn Paint will cover approximately 250 square feet of surface, two coats. All new wood and surfaces badly in need of paint should receive three coats for a good job. Many buildings were neglected during the war and are now badly in need of paint. In most cases they require three coats where formerly two coats would have been sufficient if they had been painted when they first needed it. Examine your building carefully and be sure to order enough paint for the required number of coats.

Directions on how to measure your barn for painting shown below.

For Color Samples See Page 953.

IMPORTANT!

You may need to buy some Linseed Oil with your Paint. See bottom of page 955. Directions for applying Barn Paint are the same as House Paint.

Wagon and Implement Paint

A paint made expressly for wagons and farm implements and one which has wonderful wearing qualities. Made of high grade materials with non-fading colors. Being extremely tough, it will not crack or peel off. It is cheaper to use paint than to allow your wagon or farm implements to go to decay. One gallon will, in many instances, refinish every implement on the farm. Having a beautiful glossy finish, any paint that is left over may be used for touch up work around the house.

1-gallon can	(Shpg. wt., 14 lbs.)	2.95

How to Measure Your House for Painting

Measure the length, width and height of the building. Add together the total length in feet of the two sides and two ends of the building. Multiply this by the height of the building. This gives you the number of square feet of surface to be painted.

For example, suppose your building measures 26 feet wide, 33 feet long and 22 feet high, you would figure it as follows:

Front	26 feet
One side	33 feet
Rear	26 feet
Other side	33 feet
Total	118 feet
Multiply this by height	22 feet
Total	2,596 sq. ft.

Divide this by 250, which represents the approximate number of square feet of surface that 1 gallon of our paint will cover, two coats. You will find this gives about 11 gallons. **If the surface has never been painted or is badly in need of paint, we recommend three coats, in which case divide the total number of square feet of surface by 165.** We cannot guarantee two-coat work in a case of this kind. In figuring the amount of trimming required, the rule of 1 gallon of trimming to 5 gallons of body is usually followed. If you want to paint a barn or a fence, measure the same way as we have measured this house, and figure the amount of our barn paint accordingly.

In figuring roof paint or stain, multiply the length of the house by the width, then add one-third that amount and the total will be the approximate area of the roof. Now divide by covering capacity per gallon of paint or stain you wish to use.

Seroco Creosote Stain

Seroco is our own Trade Mark, Reg. in U. S. Pat. Office.

A STAIN THAT PRESERVES AND BEAUTIFIES.

For Roofs, Shingled Bungalows, Summer Cottages Made of Soft Wood Siding, Etc.

Various uses both artistic and practical may be found for Creosote Stains. It is a mistake to think that stains are suitable for roofs only. While it is true that no house can have a finished appearance unless the roof has been stained, it is also true that stain should always be used on shingled gables and shingled sides. It should also be used on soft wood siding, such as fir and cypress, when the semi-rustic appearance of the popular bungalow style is desired. It is a mistake to use paint on such a house (except on the trim) for the gloss of paint destroys the natural wood effect which is so desirable a part of this style of house. Fine color combinations can be worked out by staining the roof one color, the sides another and by using a paint of a contrasting color on the trim.

A Combined Wood Preserver and Beautifier.

But there is a still more important reason why you should use our Creosote Stains. Creosote oil is the best wood preservative known, and we use the largest possible percentage of creosote oil in our stains. The creosote oil penetrates the wood very deeply, kills the fungi which causes wood decay, partially fills the pores of the wood and will add years to the life of your shingles and siding. In this way, by staining a roof which is new or in good condition, you can indefinitely postpone its replacement.

One gallon will cover approximately 75 to 80 square feet of shingles two coats. When dipped 2½ to 3 gallons will cover approximately 1,000 of the regulation 4x16-inch shingles. Two-thirds of the length of the shingle only need be dipped. Directions for measuring your roof for shingle stain are given at the left.

NOTE—Only the brown can be used on hardwood.

For Color Samples, See Page 953.

Seroco

New Paint Put On Free

If Seroco Paint Doesn't Live up to Our Guarantee

We Guarantee—

We agree to furnish new paint free of charge, ship it to you at our expense and PAY FOR PUTTING IT ON YOUR BUILDING, if Seroco Paint does not give you the service you have a right to expect when carefully applied according to our directions—two coats to old painted surfaces in fairly good condition, three coats to new surfaces and old surfaces in bad condition.

Or, if after applying a portion of any Seroco Paint you are not satisfied in every way, you may send back the remainder, and we will return the price you paid for the entire quantity, including all shipping charges.

We guarantee Seroco Paint to represent good honest value; that it will make a nice appearing job; will fully protect the surface on which it is applied; is easy to apply and will give you the service you have a right to expect of any paint, regardless of price.

Paint

The Universal House Paint

MADE IN OUR OWN FACTORY

Ask your neighbors! Seroco buyers are everywhere. Seroco paint is used on thousands and thousands of homes in a single year, and in every state from Maine to California. It commands respect in all communities—you find it on the most humble cottage and the most palatial home, on the farm buildings and the factory. We believe it will prove as satisfactory as any paint you have ever used, regardless of price. If it does not give you the service you have a right to expect, our guarantee protects you fully.

Send to the factory where Seroco Paint is made and get it at the factory price of $2.15 per gallon in 5-gallon pails.

"Save the surface and you save all." **Seroco Paint Saves All!** Its beautiful glossy surface and its amazing durability make a combination that is so nearly perfect that we are pleased to guarantee it with **the strongest paint guarantee ever written.**

Select the colors you wish. Turn to page 952 for directions on how to measure your house for painting. Send us an order for the quantity you need.

Do Your Own Painting.
No experience is necessary to do a good painting job. A few suggestions such as are given in our "How to Paint" Book are all the help you will need. Send for a copy today.

*The 25 and 50-gallon barrels are shipped from CHICAGO store.

You May Need Some Linseed Oil—On painted surfaces in fairly good condition apply two coats of Seroco Ready Mixed House Paint just as you receive it—add nothing. **On surfaces that have never been painted and on old porous surfaces badly in need of paint, three coats should be applied, the first coat thinned in proportion of about two quarts of pure raw linseed oil to each gallon of Ready Mixed Paint.** On new surfaces of pitchy lumber that have never been painted, you will need about one quart of turpentine and one quart of linseed oil per gallon for the first coat.

Many buildings have been badly neglected during the last few years, and as a result three coats of paint are necessary where two coats would have been sufficient if they had been painted when they first needed it. In ordering paint be sure to first examine your buildings carefully and order enough paint for the required number of coats.

PURE RAW LINSEED OIL—The prices of linseed oil are changing constantly, but, for your convenience, we are quoting the following prices which are based on the prevailing market price at the time this catalog goes to press. If prices have changed either higher or lower when we receive your order, we will ship the oil and notify you regarding the difference in price.

30H3464—Pure Raw Linseed Oil.

10-gallon can	(Shpg. wt., 80 lbs.)	Per gal. 83c
5-gallon can	(Shpg. wt., 40 lbs.)	Per gal. 86c

nake all our enamels own factory and sell direct to you with he profit added.

MADE IN OUR OWN FACTORY

Snowhite Enamel

OUR HIGHEST GRADE WHITE ENAMEL.

For Walls, Woodwork, Furniture, Etc.

Snowhite is our highest grade white enamel. It is of smooth, creamy consistency, free flowing and easily applied, so that it can be readily handled by the inexperienced painter. Of all paints, an enamel is usually considered the hardest to apply and get a perfect job. That is the reason we want to especially emphasize the free working qualities of our Snowhite. Any one who can handle a brush can apply Snowhite Enamel and obtain a beautiful, smooth, porcelain-like finish with very little work.

The secret of a beautiful enameling job does not lie in the final coat but in the foundation coats. Everyone knows that to obtain a first class white finish, unless you are applying white over white, about three to four coats of paint are needed. But when using enamel it is different. An enamel should never be used to **cover**—it is a finish only. Therefore, prepare the surface by applying two to three coats of white Undercoat such as our 30H2654 shown below and then one or at the most two coats of enamel. Many expert interior painters recommend one coat of enamel only. In this case, of course, enough foundation coats must be applied to properly prepare the surface for enameling.

Snowhite is made in our own factory under our own supervision and sold to you with only one profit added. That is why it can be sold for about half as much as other well known, nationally advertised white enamels. It is one of the highest grade products we make and we have devoted a great deal of time, thought and research to perfect this enamel. It was recently used throughout a large building, costing millions and millions of dollars, wherever a white enamel finish was desired. It was selected from many other white enamels because of its beautiful finish and our reputation for making paints that will stand the test of time and wear.

Snowhite is recommended for any and all places where a strictly high grade white enamel finish is desired. It is ideal for hospitals, operating rooms, restaurants, creameries, meat markets, bakeries, etc. One gallon will cover approximately 200 square feet, 2 coats. Apply with a good varnish brush.

30H2165—Snowhite.

1-quart can.....Shipping wt., 6 lbs.).....$1.17
½-gallon can.....(Shipping wt., 10 lbs.)..... 2.27
1-gallon can.....(Shipping wt., 19 lbs.)..... 4.40

Our Snowhite Enamel has become so popular for use on bathroom walls, interior woodwork, etc., that in answer to the demand for colors in this high grade product, we are offering the following tints, same price as Snowhite Enamel above.

30H2166—Pearl Gray.
30H2168—Ivory.
30H2169—Forget-Me-Not Blue.

Undercoat for Snowhite and Other Enamels

To be applied before enamel is put on. It produces a perfect surface on which to apply any enamel. Saves the cost of one coat of enamel and hardens quickly. Spreading capacity, about 250 square feet, two coats, per gallon.

Painters' Time Saver.

One of the handiest articles ever invented for the painter or for household use. No danger of soiling wall paper, window panes, etc., when this tool is employed. It is invaluable to the experienced painter as well as to the amateur. This article is also used when washing woodwork to prevent the wall decorations from being soiled. Shipping weight, 8 ounces.

30H2980—Price, each.....17c

Seroco Gloss Enamel

For Walls, Woodwork, Furniture, Etc.

A very good grade enamel offered in a variety of pleasing shades for interior use. We make this enamel in our own factory and have perfected it especially for the home owner and the inexperienced painter. It is also used by many contractors for large jobs. Can be used any place where a strictly sanitary, glossy, porcelain like finish is desired on woodwork, walls or furniture. It is second in quality only to our Snowhite Enamel. Our Seroco White Gloss Enamel will give excellent satisfaction for ordinary enameling jobs, but where a high grade, perfect enamel finish is desired, our Snowhite Enamel is recommended. The variety of colors offered makes this enamel attractive to those interested in beautifying their homes. It is especially recommended for enameling furniture. An old wooden bed, a dresser and an odd chair and table can be made into a dainty bedroom set by giving them two or three coats of undercoat and then a coat of white or ivory color enamel. Light gray enamel may also be very effectively used for refinishing bedroom, breakfast room and kitchen furniture. One gallon of Seroco Gloss Enamel will cover approximately 200 square feet, two coats. Apply with a good varnish brush. **Be sure to mention color wanted.**

MADE IN OUR OWN FACTORY

"Never mind, it can be washed—It's

FLAT FINISH PAINT"

The Popular Dull Velvety Finish—Waterproof and Washable

THE IDEAL PAINT for interior walls. It combines beauty with cleanliness and durability. the only kind of finish for walls, producing the popular dull velvety effect, so much in demand that can be washed with soap and water without injury to the finish or color. In homes there are small children Flat Finish Paint is a real joy because accidents which would mean a ruin decoration can be easily remedied when Flat Finish Paint is used. Just a cloth and some water sticky finger prints are gone. It has all the properties of paint, except the high gloss, which has been the undesirable feature of ordinary paint for interior walls. It is suitable for decorating any room in the home perhaps the kitchen and bathroom where a gloss paint or an enamel is suggested, because of the extremely hard wear given walls. A dainty stenciled border produces a very pretty effect at a moderate cost. Flat Finish Paint is very easy to apply anyone without any experience can turn out good work when using it. It is much easier to apply than enamel, because no danger of it running or lapping, so you need not hesitate to undertake your own decorating when using Flat Finish When painting large surfaces a 3½ or 4-inch paint brush can be used with good results.

Here are two good reasons why you should buy our Seroco Flat Finish Paint:

It is made in our own factory under our own supervision and is systematically tested for finish, color and durability.

It is sold direct to you from the factory with only one profit added. The selling price is positively based on actual factory cost. This is why we can sell it so much lower than other advertised brands of interior paints.

For Color Samples See Page 956.

We Guarantee our Velvet Kalsomine

FOR ITS BEAUTY. Seroco Velvet Kalsomine is furnished in a complete range of beautiful tints and colors. It dries with a smooth velvety finish that will not rub off. From a decorative and artistic standpoint the beautiful velvety finish produced by kalsomine cannot be surpassed. It is suitable for use in any room in the home. It can be used over paper or wood. It will form a perfect background for furnishings of any room. A stenciled border or panel on the walls or ceiling of a kalsomined room produces a beautiful effect at very little cost.

FOR ITS SANITARY QUALITIES. Our Velvet Kalsomine can be easily removed with a sponge and water, taking off all the dirt with it, and a new coat applied to the clean walls, making a perfectly clean and sanitary job of redecorating. No need to cover up or seal the dirt on walls when kalsomine is used.

FOR ITS ECONOMICAL QUALITIES. One package of kalsomine will decorate walls of the average 10x12-foot room, and it is so easy to apply that you can do the work yourself, making the entire cost of decorating a room only 40 cents. Kalsomine is not at all difficult to apply. Complete directions are given on each package.

For Color Samples See Page 956.

Kalsomine the Walls of Entire Room for Only 40c

One package will cover the walls of the average 10x12-foot room.

May be used for all kinds of cleaning about the house, especially removing grease and dirt from painted and surfaces. Positively will not finest finish. It can be used for tile, oilcloth, linoleum, bathtubs, tal fixtures, windows, etc. Very ex- use in the laundry, as it cleans clothes quickly, will not injure them in the saves on soap. Directions for its es are on each package.

784—10-ounce package.....9c
(Shipping weight, about 12 ounces.)

Undercoat for Kalsomine.

A special size to be used on plastered walls before applying Kalsomine. One pound will make sufficient size to cover the walls and ceiling of a room 10x12 feet, 9 feet high. It is very economical because it produces an extra hard, permanent surface which holds up the kalsomine, thus increasing the spreading capacity and making the color flow evenly. It prevents grease and stain spots from working through and killing the color of the kalsomine. Full directions on every package.

30H2736—Size (Undercoat for Kalsomine).

Extra Durable Floor Varnis

Our Highest Grade

Made to Withstand Wear

MADE IN OUR OWN FACTORY

A perfect floor varnish must have these five essential points of quali

1. It must dry quickly so that the floor can be used again wi reasonable time.
2. It must make a tough, durable film that will withstand hard u such as the heels of many shoes and the sliding of heavy furn
3. The film must not become brittle so as to show scratches, but remain always elastic.
4. It must have a high luster so as to be easily kept clean.
5. It must not turn white when water is spilled on it.

Our Extra Durable Floor Varnish is guaranteed to fulfill all five of these require and in addition we believe we can save you a great deal of money. It is made own factory and sold to you with only one profit added. We invite comparison of our with any other floor varnish no matter how high priced. We give it actual test, and year out, with other floor varnishes selling for more than twice as much, and it as well and looks as well as the highest priced in the lot. We make it just as as we know how and have tested and sold it for so many years that we guarantee full assurance.

This varnish will cover approximately 600 square feet on oak or 400 square feet o pine, one coat per gallon. For colored varnish see Chinese Gloss Lacquer on the page.

Price	$2.60	$2.80	$1.56	90c	54c

DURABLE FLOOR VARNISH. Our Second Quality. Cheaply made varnishes do not stand the wear caused by hard heels and heavy furniture pounding and scratching along the surface. This varnish, while not quite so good in quality as the one shown above, will answer all the requirements of a high grade varnish. It will cover approximately 600 square feet on oak or 400 square feet on soft pine floors, one coat, per gallon. Is easily applied, dries readily and has a permanently glossy surface.

Furniture Varnishes

Made to Withstand All Kinds of Wear and Tear. Why Pay More? Here Is a Guaranteed Product at Half the Price You Pay Elsewhere.

Special Rubbed Finish Varnish.

The popular dull rubbed finish can be produced with this varnish without the old time necessity of rubbing. Persons who wish to obtain a rubbed finish on their varnished woodwork and furniture have heretofore found it necessary to apply a coat of rubbing varnish, which required much labor in rubbing to obtain a dull finish. One coat of this Special Rubbed Finish Varnish over old shellacked or varnished surfaces, or two coats over new wood, will produce a finish that looks like a carefully hand rubbed surface. One gallon will cover about 500 square feet one coat.

30H2712

5 Gal., per Gal.	1 Gal.	½ Gal.	Quart	Pint
$2.60	$2.85	$1.60	88c	55c

Extra Fine Furniture Varnish.

An extra fine varnish which is used by high grade furniture manufacturers. Very tough, and dries with a high gloss which can be rubbed and polished. Recommended for first class furniture finishing. About 1 pint is needed to revarnish a dining table.

30H2715

5 Gal., per Gal.	1 Gal.	½ Gal.	Quart	Pint
$2.00	$2.18	$1.22	68c	42c

Furniture Varnish.

This varnish may be used to brighten up worn and lusterless furniture of every description. It dries over night and imparts a fine gloss finish. For general repair work in the household on articles in daily use that must be finished hurriedly, this material is recommended. About 1 pint is needed to revarnish a dining table.

30H2714

5 Gal., per Gal.	1 Gal.	½ Gal.	Quart	Pint
$1.16	$1.36	80c	48c	32c

Cabinet Varnish.

For highest grade interior woodwork that is to be rubbed and polished; also gives a beautiful finish when left in the gloss. Extremely durable. Dries free from dust in three to four hours and sufficiently hard for rubbing in forty-eight hours. One gallon will cover about 500 square feet one coat.

30H2716

5 Gal., per Gal.	1 Gal.	½ Gal.	Quart	Pint
$2.35	$2.55	$1.40	78c	43c

Church and School Seat Varnish.

Specially recommended for revarnishing chairs. Hard drying and durable and made especially for use on church and schoo. seats. It will not soften up under heat of the body. Dries dust free in five to six hours and hardens in forty-eight hours. About 1 quart is needed to revarnish six dining chairs.

30H2721

5 Gal., per Gal.	1 Gal.	½ Gal.	Quart	Pint
$2.78	$3.00	$1.65	93c	50c

Linoleum and Floor Oilcloth Varnish.

This varnish dries hard, but remains elastic like the linoleum or oilcloth itself, therefore it will not crack or check. It is especially recommended for use on new linoleum or oilcloth before it is subjected to wear. By using Seroco Linoleum Varnish the linoleum or oilcloth will retain all its original brightness and luster even under the severe wear it receives at doorways and in halls, thus making the life of linoleum much longer. Hot or cold water does not affect it. One coat will do the work; applied in the evening, it will be dry in the morning. About 1 quart is needed to cover a square 12x15 feet.

30H2642

	Quart	Pint
Price	60	40c

Transparent Damar Varnish.

Made from imported Batavia gum. For use on any interior enameled surfaces, white or ivory, without producing discoloration. Especially recommended for varnished tile wall paper or on delicately tinted painted walls. It is of good body and dries well. One gallon will cover about 500 square feet one coat.

30H2724

5 Gal., per Gal.	1 Gal.	½ Gal.	Quart	Pint
$3.42	$3.60	$1.92	$1.02	60c

Automobile Body Varnish.

A brilliant transparent and durable varnish for finishing automobile, carriage and buggy bodies. Flows easily and evenly, and may be used on the largest surface with the greatest safety and satisfaction. Will not darken or injure the lightest shades of body color. Dries free from dust in twelve to sixteen hours and hardens properly in from two to three days. About 1 quart is needed to revarnish the body of an average size auto.

30H2740

1 Gal.	½ Gal.	Quart	Pint
$3.12	$1.70	93c	56c

Architectural Varnishes.

Interior Spar Varnish.

Specially adapted for finishing highest class of interior woodwork that is to be left in the gloss; may, however, be rubbed if desired. Exceptionally pale, free working and durable. Dries hard in two to three days. One gallon will cover about 500 square feet one coat.

30H2719

5 Gal., per Gal.	1 Gal.	½ Gal.	Quart	Pint
$2.24	$2.42	$1.34	74c	46c

Outside Spar Varnish.

For finishing all kinds of exposed surfaces, such as outside doors, vestibules and store fronts. It is also especially recommended for finishing inside blinds and the woodwork in bathrooms and on sinks, where a very elastic and durable varnish should be employed. One gallon will cover about 500 square feet one coat.

A COLORED VARNISH.
your old chairs, tables, bookcases, floors, woodwork, etc., any color

homes, after a few years, cottage and mansion alike, have a collection tched furniture—a mahogany rocker, an oak table, a walnut writing e living room, or perhaps in the dining room, a set of golden oak chairs table that does not match the mahogany buffet. This incongruity is ource of annoyance to a woman who wants a pretty home where the harmonize. But it is all easily remedied with Chinese Gloss Lacquer. rial is a high grade colored varnish made especially for this kind of is ready mixed and very easy to apply. Just open the can, pour a little of the Lacquer into a cup or saucer and apply it with a small flat varnish brush. It will dry in about 24 hours. If your woodwork is dark and dingy, or of a shade you dislike, it may be made any color desired—mahogany, oak, cherry, walnut or a beautiful green, by applying one or two coats of Chinese Gloss Lacquer. It is not necessary to remove the original finish. If the shade of Chinese Gloss Lacquer you desire to use is darker than the original color, the Lacquer may be used alone. If the woodwork is dark and a light finish is desired, apply one coat of Undercoat, 30H2697, shown below, and then apply the desired shade of Chinese Gloss Lacquer. One gallon will cover approximately 600 square feet, one coat.

Sero-Var

Sero-Var Is Our Own Trade Mark, Registered in U. S. Pat. Off.

A Universal Varnish

One Varnish for All Kinds of Uses.

A "Universal" Varnish for Floors, Interiors, Exteriors, Staircases, Window Sills, Tables, Chairs and Furniture.

rsal" because it may be used any every place that a varnish is re- its usefulness is practically unlimited, e readily seen from the above list of and articles for which it is recom-

sy to apply, dries hard over night and well that we feel perfectly free in ing it. It fulfills every requirement h grade, durable varnish. It is not by hot or cold water and water will it white. It is therefore ideal as a outside doors, porch ceilings, under s, or boats, or wherever a varnish is hat can be depended upon to stand up vere exposure to the weather.

niture it imparts that beautiful, bright, e finish so characteristic of new and m the store goods. It may be used on ith perfect confidence that it will not nder the heat from the body.

Made in our own factory. Guaranteed to be the equal of any of the nationally advertised "—— spar" varnishes usually sold for $5.00 to $8.00 per gallon.

Our price is only $2.48 per gallon!

30H2727—Sero-Var.

1-pint can	(Shipping wt., 2½ lbs.)	$0.48
1-quart can	(Shipping wt., 4 lbs.)	.79
½-gallon can	(Shipping wt., 6 lbs.)	1.38
1-gallon can	(Shipping wt., 12 lbs.)	2.48
5-gal. can, per gal.	(Shipping wt., 50 lbs.)	2.24

On table tops especially is it desirable, because it satisfies every requirement of a high grade table top varnish. High gloss, tough and elastic—cannot be easily scratched or marred.

For floors it is excelled only by our Extra Durable Floor Varnish, which we strongly urge be used for that purpose.

Every home owner especially should have a can of this universal varnish on hand. It is economical because it serves so many purposes which otherwise would require a large stock of special varnishes.

This is a clear, transparent varnish that will not change color of the wood over which it is applied. One gallon will cover about 500 square feet, one coat.

There's the Paint!

For Bedroom, Play Room, Kitchen and Pantry Floors.

Seroco Interior Floor Paint

It satisfies thousands. Its durability is unexcelled and the beauty of the finish satisfies perfectly. It is made in our own factory, under our own supervision, and it is systematically tested and inspected for uniformity of color and quality. We guarantee it to answer every requirement of a high grade floor paint. A floor paint must be excellent in every way or it is not worth the trouble of applying, because the severe wear to which it is necessarily subjected will soon cause a cheap paint to break down. Our Seroco Interior Floor Paint contains a large percentage of tough, hard drying varnish, which gives the paint a beautiful, bright glossy finish and forms a wear resisting surface film. Painted floors are easily kept clean and in old houses where the floors are made of rough, uneven boards of soft wood, two or three coats of Seroco Interior Floor Paint will make them easy to keep clean and greatly improve their appearance.

Seroco Interior Floor Paint will dry in a single night so that the second coat may be applied in the morning and in some cases may be walked upon, depending largely on the weather. New or old floors, which have not been previously painted, require three coats. One gallon will cover about 300 to 350 square feet, two coats, and about 200 to 250 square feet, three coats. Apply with a medium size paint brush.

For color samples see page 953.

Furnished only in the following colors:

30H500—Buff.	**30H550—Maroon.**
30H510—Yellow.	**30H555—Light Brown.**
30H530—Drab.	**30H570—Gray.**

Seroco Is Our Own Trade Mark, Registered in U. S. Patent Office.

Seroco Porch Floor Paint

One of the highest quality paints in our line. Produces a beautiful finish that will stand all kinds of wear. A porch floor paint must of necessity be a high grade paint, because it is exposed to all the destructive weather, the entire family walks on it almost daily and it is swept and scrubbed regularly. We consider our Porch Floor Paint formula one of the most successful we have ever developed. The paint answers every requirement demanded of it. We recommend that in every case you use our Seroco Porch Floor Paint for your floors, because it is made to withstand the wear and tear to which a porch floor paint is necessarily subjected. Many people use house paint for their porch floors. This is always a mistake, because a house paint is made to withstand the weather and not to stand up under the hard wear a floor paint receives.

Porch Floor Paint has the same covering capacity as Interior Floor Paint shown above. Apply with a good paint brush.

Made in five colors which match colors of the same name in our Interior Floor Paint as shown on page 953.

Furnished only in the following colors:

30H600—Gray.
30H610—Lead Color.
30H620—Drab.
30H630—Light Brown.
30H640—Moss Green.

For Pure Linseed Oil See Page 955.

White Lead.

Science has proved beyond a doubt the superiority of carefully balanced prepared paint over hand mixed white lead and oil. We have decided, therefore, out of fairness to our customers, to discontinue selling white lead. We know that our Seroco Paint will give far better service and cost less than any hand mixed white lead and oil paint, and since we now guarantee our Seroco Paint in stronger terms than anyone can guarantee white lead, we feel that our customers would be no longer interested in mixing their own paint.

Pure Shellac. (Orange and Clear.)

This is a high grade standard light body liquid shellac of the proper consistency to be used as a first coater on furniture and woodwork. Clear shellac is used when it is desired to preserve the natural color of the wood. Orange shellac gives the wood a light oak color. It dries in from three to four hours. It is light bodied, cut in the proportion of 2½ pounds of gums to the gallon. One gallon will cover approximately 600 square feet, one coat. We do not recommend using shellac as a first coat on floors. In place of shellac use the varnish itself thinned with 10 per cent turpentine as a first coater. You will find that it wears far better than the shellac. Shellac is recommended only for woodwork and furniture.

Seroco Substitute for Shellac.

This shellac substitute is offered at a low price. It is a product made especially from high grade, selected gums cut in denatured alcohol, has the same consistency as shellac, and dries in about the same time with the characteristic shellac finish. It is made in both orange and clear and can be reduced with denatured alcohol. It can be successfully used instead of shellac in practically every place except on floors.

Cold Water Paint for Interiors. (No Oil.)

We prepare the pigment—You add the water.

In powder form, to be mixed with cold water, for coating interiors of barns, basements, chicken houses, factories, factory offices, Summer cottages, etc. Used in place of whitewash. Forms a hard, firm and sanitary coating; will not chalk, scale or peel off. Not suitable for outside work. Can be applied with a brush or spraying machine. (See Spraying Machine 30H2382 listed below.) We use this Cold Water Paint in our warehouses, factories and factory offices and therefore know from actual test that this Cold Water Paint will give absolute satisfaction. Full directions for use with spraying machine or brush shown on package. Ten pounds will cover approximately from 600 to 800 square feet one coat.

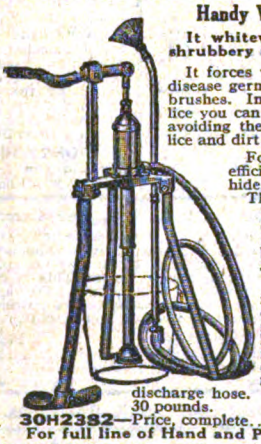
Outside White Cold Water Paint.



In dry powder form, to be mixed with cold water for painting exteriors of factories, warehouses, docks, stables, farm buildings, sheds, benches, etc. It makes a good interior washable paint, and may be used on sand finished walls, brick, stone, wood, etc. A very good coating for temporary or rough buildings. For permanent buildings of any kind we recommend our Barn Paint as much more durable and protective, and cheaper in the long run. Five pounds will cover approximately from 300 to 400 square feet one coat. Directions for applying with brush or spraying machine shown on package.

Handy Whitewashing and Spraying Machine.

It whitewashes, sprays sheep, cattle, trees and shrubbery and does many other useful things.

It forces whitewash into corners and crevices where disease germs lodge and which cannot be reached with brushes. In whitewashing chicken houses infested with lice you can do the work from a door or window, thus avoiding the discomfort of being covered with chicken lice and dirt from head to foot.

For spraying sheep and cattle it is especially efficient, as it forces the liquid through to the hide, where it is really wanted.

The machine is simple and easy to operate. The legs can be removed instantly and thus occupy little space. It is always ready, nothing to take apart or attach, and with a bucket of water you are ready to throw a 30-foot stream at any time.

Equipment consists of a 6-foot wrought iron spray pipe with ¼-inch brass shut off cock and brass spray nozzle, extra brass nozzle for straight stream work, iron follower wrench (used for tightening plunger ring in bottom pump cylinder), rubber suction hose with screen attachment, and 8 feet of ⅜-inch special high pressure rubber discharge hose. Net weight, 20 pounds. Shipping weight, 30 pounds.

30H2382—Price, complete..... **$8.42**

For full line of Hand and Power Sprayers see pages 932 and 933.

Powdered Pumice Stone.

TRACTOR OIL

Regardless of the make of your tractor engine, this oil will prove your insurance against friction. The heat generated in the cylinders of the kerosene or distillate tractor is enormous. It therefore requires an oil which will not break down under the highest temperature, but which will retain its lubricating efficiency, maintaining a frictionproof film between moving parts, protecting them from wear and giving you the utmost power from your engine.

We recommend this Tractor Oil as possessing every requirement of a high grade lubricant. By passing an exceptionally high fire test it insures lubrication, even under the very high temperatures, saves power, reduces friction and lengthens the life of your engine.

Our guarantee of satisfaction or money returned assures you that it will do all we claim for it. In all our practical and laboratory tests we have not found an oil which we could recommend so highly as the grade which we are listing. Shipping weights same as 30H4442 at bottom of page.

Gasoline Engine Cylinder Oil.

Special Blended Cylinder Oil for use in the stationary type of internal combustion engines. Red in color. Whether you are using artificial gas, natural gas, gasoline or kerosene we are confident this oil will satisfy you perfectly. It is strictly high grade and guaranteed. The right oil will more than pay for itself. It will lengthen the life of your machinery and save repair bills. It will reduce your gasoline consumption and give you increased power. Do not experiment with cheap oils and ruin the cylinder of your engine. Shipping weights same as 30H4442 at bottom of page.

Special Oil for Ford Cars

You Need a Special Oil for Your Ford Car or Ford Truck.

The Ford engine runs at a high rate of speed and is cooled by the thermo-siphon system, two features which cause the engine to attain a higher temperature than most water cooled engines.

We have devoted considerable time and study to the problem of properly lubricating the motor and transmission of the Ford automobile. We had to produce an oil which would lubricate perfectly in spite of existing conditions. After exhaustive laboratory experiments and actual tests in cars in daily use we have perfected an oil which will overcome your most common source of trouble and annoyance. It is an oil that we recommend with the assurance that it will give you the service you have a right to expect from oil sold under our guarantee. It will lubricate the cylinder walls and pistons of your car at the highest temperature which the engine attains.

It is an oil of slightly lower viscosity than the oils which are commonly used in other cars. We recommend it especially because most people over oil their Ford engines and the oil is liable to work up into the explosion chamber. By using our Special Oil for Ford Cars and Ford Trucks the troubles due to over oiling are eliminated. Whatever oil may happen to work up into the explosion chamber will be immediately burnt and blown out of the exhaust, thus preventing carbon trouble, instead of depositing carbon on the piston heads and spark plugs, as a heavier oil might do.

Send for a gallon of this Special Oil with the understanding that it will give you the service you have a right to expect; that your money will be returned to you if you are not entirely satisfied.

Cross Country Automobile Oil

A Guaranteed Pennsylvania Oil.

Mr. Automobile Owner! Do you drive into the garage or filling station and say, "Give me a quart of oil," of course, you want the best and you pay for the best, but do you know whether you are getting the oil that is best for your car? And furthermore, do you get the same kind of oil each time? These are your two most important problems. Find the oil that is best for your car and stick to it. Don't mix a dozen different kinds of oil in your car and expect it to give the maximum of service. You probably wonder sometimes whether you are using the right kind of oil and just how you are going to find out about it since you have neither the time nor facilities for making tests of your own. But it is not necessary for you to worry about these technicalities. **Just buy your oil in a labeled drum with a reliable firm's name on it.**

Quality Guaranteed—and We Save You Money.

Quality is the only thing that should interest you **when you buy auto oil and you should be satisfied** when you have found an oil you know is right. Look for **quality** in Cross Country and forget the price—then see how much money you have saved.

Order a quantity of this high grade automobile oil and try it out. If not perfectly satisfied, return what you have left and get your money back, including freight charges.

Longlife Harness Oil.

Since harness seldom **wears** out until it **dries** out, it is real economy to keep it well oiled. Rain, sun, dust and perspiration shorten the life of harness because they **dry up the natural oil.** Oil your harness and keep it from cracking. A few hours spent oiling your harness with this Longlife Harness Oil will be time well invested. Get your harness ready for work during your spare time.

This is a special high grade compounded oil that will renew leather harness, make it pliable and prevent leather from cracking. It contains sufficient coloring matter to color the cracks in old harness and make the leather look like new without any injury to it. Send us a trial order; if you are not satisfied after a fair trial, send back the balance of the oil and your money will be promptly returned.

30H3410—Harness Oil.

1-quart can	(Shpg. wt., 3½ lbs.)	24c
1-gallon can	(Shpg. wt., 10 lbs.)	58c
5-gallon can, per gallon	(Shpg. wt., 40 lbs.)	55c

★**30-gallon barrel,** per gallon	(Shpg. wt., 265 lbs.)	40c
★**50-gallon barrel,** per gallon	(Shpg. wt., 430 lbs.)	30c

★30 and 50-gallon barrels are shipped from factory in NORTHEASTERN ILLINOIS.

Harness Dipping Tank.

This Harness Dipping Tank will save its cost many times over for the busy farmer who has a lot of harness to oil and little time to do it. When a farmer has one of these convenient tanks, the harness can be gathered together, thrown in the tank and left there a while so that the oil can penetrate the leather and then lifted out, every part thoroughly oiled, saving a great deal of time and labor in comparison with the old way of oiling each piece by hand. These tanks are made of galvanized steel with extra heavy tinned wire baskets.

30H3282—30-Gallon Tank. Height over all, 27 inches; diameter of body, 19½ inches. Shipping weight, 41 pounds. Price, each.....$6.10

30H3284—60-Gallon Tank. Height over all, 30 inches; diameter of body, 24½ inches. Shipping weight, 55 pounds. Price, each.....$7.27

Longlife Harness Soap.

An excellent black soap for cleaning harness and other leather goods. Softens and cleans harness preparatory to oiling. In making up this soap enough coloring matter has been added to greatly improve the appearance of your old harness.

30H3424

	Shpg. Wt.	Price		Shpg. Wt.	Price

Longlife Leather Preservative.

A Neatsfoot Oil Compound.

A superior leather preservative blended from Neatsfoot oil and other oils beneficial to leather. Perfected in our own factory and subjected to various tests so that we feel safe in recommending it as a very high grade Leather Preservative. Excellent for leather gloves, harness, automobile leather clutches, and as a rust preventive on guns, knives, etc.

Farmers, liverymen, railroad men, policemen, army men, and, in fact, everyone exposed to wet, sloppy weather should have a can of this excellent Leather Preservative and give their shoes several thorough applications during the wet and cold seasons. The oil preserves the leather by making it soft and pliable, thus preventing it from cracking and splitting.

Strictly Pure Pine Tar.

Used by horseshoers for packing, healing and dressing the hoof. Used by the farmer for tarring the hands before husking, for healing sores on horses and cattle and as a sheep dip. Pine tar will keep buffalo gnats off your live stock. Used by nurserymen to protect the bark on trees and to keep off the insects. Also used for tarring seines, rope and steel cables.

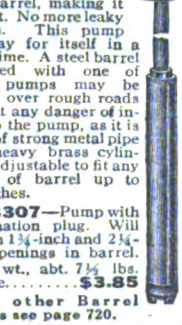
...pty Steel Barrels. (Without Faucet.)

Painted Red or Black, as Desired.



These barrels are furnished without a faucet because many of our customers prefer to use a pump. The faucets which are usually furnished with steel barrels are too small to be of any service. So rather than include the faucet, we are quoting the barrels, pumps and faucets separately, so that should you prefer a faucet to a pump we are prepared to serve you. If faucet is wanted, order 30H3277, shown at the right.

Some states have laws making it a misdemeanor with a severe penalty to store or ship gasoline in anything but a red ...ner. It is also unlawful in such states to ship ...e any other liquid than gasoline in a red contain... We have therefore arranged to supply you with ...a red or a black barrel to suit your requirements. ...dering state which color you wish. If no ...s stated, black will be furnished.

Steel Barrel Pump.

A handy pump for pumping lubricating oils, kerosene, gasoline and other oils from steel barrels. It is screwed into the large opening of the steel barrel, making it airtight. No more leaky faucets. This pump will pay for itself in a short time. A steel barrel equipped with one of these pumps may be hauled over rough roads without any danger of injury to the pump, as it is made of strong metal pipe with heavy brass cylinder. Adjustable to fit any height of barrel up to 34 inches.

30H3307—Pump with combination plug. Will fit both 1¾-inch and 2¼-inch openings in barrel. Shpg. wt., abt. 7½ lbs. Price.....$3.85

For other Barrel Pumps see page 720.

Tanks With Brass Faucets.

Galvanized Iron Tanks Painted Red for Gasoline Storage.

The 30, 60 and 110-gallon tanks are made of 26-gauge galvanized iron in body and bottom. The 200 and 300-gallon tanks are made of 22-gauge galvanized iron. Wood bottom under metal. Have 4-inch screw top and lock faucet. Gasoline cannot be shipped in these tanks, as the railroad companies will not accept them filled. We do not guarantee these tanks against rough usage. If a tank is wanted in which to carry oil, one which must be hauled around in a wagon, we recommend our Barrel 30H3315, shown at the left. Brass Lock Faucet furnished with each tank.

The 200 and 300-gallon tanks are shipped from factory in NORTHEASTERN ILLINOIS.

Catalog No.	Capacity, Gallons	Diam., Inches	Height, Inches	BrassLock Faucet	Shipping Wt., Lbs.	Price

Faucets for Steel Barrels.

30H3277 Brass Lock Faucet, fits 1-inch opening. Fits our Steel Barrels 30H3313 and 30H3315. Shipping wt. about 1 lb. Price.....84c

Hose for Use in Transferring Oils.

Much time and many steps can be saved by using a hose to transfer oil instead of using a bucket. Especially where the supply tank can be drawn close to the engine is the use of hose desirable. This is a heavy non-collapsible hose sold by the foot. A hose clamp is furnished with each length of hose. Inside size opening of hose is ¾ inch. Can be used with Pump 30H3307. We do not cut less than 5-ft. lengths.

30H2385—Hose for transferring oils. Shpg. wt., per foot, 12 oz. Price, per foot.....22c

Steel Roofing and Siding

2½ and 1¼-Inch Corrugated Steel.

2½-INCH AND 1¼-INCH CORRUGATED SHEETS are furnished in sheets which actually measure 26 inches wide. Both have a covering width of only 24 inches on account of the side lap. When ordering, allow from 4 to 6 inches for end laps, depending upon the pitch or slant of the roof. If used for siding, a 2-inch end lap is sufficient. When ordering remember that it requires 109 square feet to cover 100 square feet of surface; this does not include the end laps.

When Ordering Always Specify Length.

We furnish two thicknesses, United States Standard 28-gauge, which is known the country over as standard weight and thickness, and United States Standard 26-gauge, which we describe as EXTRA HEAVY and which is fully 20 per cent or one-fifth heavier than standard 28-gauge. We recommend the 26-gauge in preference to the standard weight, as it costs but a trifle more, costs no more to lay and gives nearly double the wear. Steel Roofing and Siding are **shipped from our factory in CENTRAL OHIO.**

Two-V and Three-V Crimp Steel.

Two-V and Three-V Crimp Steel Roofing have a covering width of 24 inches after lapping one crimp over the other.

Requires no soldering, folding or hammering of seams or joints; any who has ordinary mechanical ability can put it on

Fire Chief Shingle Roll Roofing

Makes Fire Resisting Roofs

Our Own Trade Mark, Registered in U. S. Patent Office.

APPROVED BY FIRE UNDERWRITERS

LOOKS LIKE PAINTED RED OR GREEN WOOD SHINGLES, but costs less than half as much. Wears practically twice as long and does not catch fire from flying sparks. Fire-Chief Shingle Roll Roofing does not have the defects, such as curled or warped shingles, so often found in wood shingle roofs. Made of heavy roofing felt, **imported asphalt** and genuine crushed slate.

THE PATTERN is made of real red or sea green crushed slate, with black shaded lines inlaid between shingles, a treatment that is permanent and beautiful.

RESISTS FIRE. Fire-Chief Shingle Roll Roofing actually resists fire.

EXCLUDES SNOW AND WATER BETTER THAN WOOD SHINGLES. Fire-Chief Shingle Roll Roofing is airtight and watertight.

WARMER THAN WOOD SHINGLES and helps make a house warmer in Winter. Can be used over old shingles, giving double roof protection.

GUARANTEED FOR SEVENTEEN YEARS.

IT PAYS TO BUY GOOD ROOFING because the roof of a building has to stand the hardest weather conditions.

WEARING QUALITY FULLY TESTED. The formula and process for making Fire-Chief Shingle Roll Roofing have been in use for years. It has been put to the most severe tests. Roofing laid sixteen years ago is practically as good as the day it was laid. It is an imported asphalt roofing that defies heat, cold, rain and snow.

We have made THIS THE HEAVIEST, THICKEST, STRONGEST AND MOST BEAUTIFUL of all our roofings. Each roll weighs 90 pounds.

ROLLS contain 108 square feet, 36 inches wide and 36 feet long, with 8 square feet allowed for 2-inch laps, and will cover 100 square feet. All in one piece.

CEMENT AND GALVANIZED 1-INCH NAILS INCLUDED.

48H3320—Red.
48H3321—Sea Green.

$3.60 Per Roll. 108 Sq. Feet.

Shipped from CHICAGO, ILL., PHILADELPHIA, PENNA., ALBANY, N. Y., SOUTHERN OHIO, KANSAS CITY, MO., ATLANTA, GA., or ST. PAUL, MINN.

Be SURE to ask for long nails if this roofing is to be used over old shingles and allow 10 cents per roll extra.

Roma-Tile Slate Surfaced Roofing

Newest Idea in Roofing—Makes Your Home Distinctive

Tile is Our Mark, Registered U. S. Patent Office. Sold Only

Beautiful Dark Red and Sea Green Colors

"You Can Lay It Yourself."

ITS SMOOTH EDGE MAKES TIGHT JOINTS

GUARANTEED 17 YEARS

APPROVED BY FIRE UNDERWRITERS

Contains Imported Asphalt.

This roofing, as its name implies, looks like real Roman Tile when on the house. The picture above is an accurate reproduction of **ROMA-TILE ROOFING** as it looks today on more than a thousand buildings throughout the country. Every house roofed with **ROMA-TILE** brings new orders on account of its beautiful appearance—dark red or sea green—and the air of strength and durability which it imparts.

This is a slate surfaced, fire resisting roofing, manufactured especially for fine residences, yet low enough in price for the average dwelling. You probably have observed that many of the new, up to date big residences of the more expensive kind in exclusive sections are now roofed with real tile, red or green in color. **ROMA-TILE ROOFING** can be laid on the same roof as any prepared roofing, it is **extra heavy** prepared roofing, and looks almost as attractive as real tile. Can be laid over old shingles.

Like Best-of-all, Oriental and Fire-Chief Shingle Roll Roofing, it is made of highest grade felt with extra saturating quality. It also contains **IMPORTED LONG FIBERED ASPHALT** with a melting point of about 260 degrees heat, and cannot melt or run in the hottest climate.

Guaranteed for seventeen years, but will outlast its guarantee. Being made of the same materials as our other high grade roofings, we guarantee **ROMA-TILE ROOFING** to wear and retain its color for seventeen years—no paint or stain needed in all that time.

Warmer in Winter than wood shingles. Comes all in one piece, with no cracks to let in snow or rain. Looks better after every shower, as the rain only washes it clean. The slate surfacing is rolled in under tremendous pressure and will not wear off or discolor under the most severe weather conditions.

ROMA-TILE ROOFING weighs 90 full pounds to the roll and is known to the trade as extra heavy stock. Each roll contains 108 square feet, 36 inches wide and 36 feet long, with 8 square feet extra allowed for 2-inch laps, and will cover 100 square feet.

Cement and galvanized 1-inch nails included. For Eaves Trough and Down Spout see page 971.

48H1000—Red.

48H1001—Sea Green.

$3.85 Per Roll 108 Sq. Feet.

Shipped from CHICAGO, ILL., PHILADELPHIA, PENNA., ALBANY, N. Y., SOUTHERN OHIO, KANSAS CITY, MO., ATLANTA, GA., or ST. PAUL, MINN.

Be sure to ask for long nails if this roofing is to be used over old shingles and allow 10 cents per roll extra.

Imported Asphalt-Mica Coate

Best-Of-All Roofing

Sold Only By Us

"You Can Lay It Yourself."

Guaranteed 16 Years

65 LBS.

Roofing Experts Say This Is THE BEST SMOOTH FINISH ROOFING MADE.

Due to its lasting qualities it will prove the most economical roofing for you to buy, if you want a smooth finish roofing.

It is manufactured from the highest grade materials we can purchase in the world's markets.

Cannot Melt in the Hottest Climate.

The imported long fibered asphalt used in the coating of Best-of-all Roofing has a melting point of about 260 degrees heat. This means that in the hottest climate, Best-of-all Roofing cannot evaporate or melt. The life of the waterproofing remains even longer than our guarantee.

The thick, heavy roofing felt used in our guaranteed roofing is the highest grade obtainable for the purpose. It will absorb more asphalt and retain it more effectively than inferior grades of felt used in such roofing as our Composition Roofing shown at the bottom of this page.

Best-of-all Roofing is made according to our own formula. The blending of the imported asphalt compound is controlled by our special process and by actual test has worn longer than the years specified in our liberal guarantee. It is tested for thickness, weight, flexibility, strength and quality before it leaves the factory. For these reasons **we guarantee our extra heavy 65-pound Best-of-all Roofing to wear sixteen years.**

Best-of-all Roofing will outwear wood shingles, tin, tar or steel roofing. It has stood the test in all climates. It is rainproof, snowproof, sunproof, elastic, pliable and tough. No danger of cracking. It is free from odor and will not discolor rain water. You can lay this roofing yourself. Suitable for any roof with a pitch of 1½ inches or more per running foot. **It is double coated with an imported** elastic compound with a beautiful mica finish and **needs no paint.**

The same high grade imported asphalt compound and thick, heavy felt with extra absorbing quality are used in our Oriental, Fire-Chief and Roma-Tile Slate Surfaced Roofings, illustrated and described on the preceding pages. **Each roll of Best-of-all Roofing contains 108 square feet and will cover 100 square feet, 8 square feet being allowed for 2-inch laps. Rolls are 36 inches wide, 36 feet long.**

BEAR HIDE ROOFING

"You Can Lay it Yourself"

(Bear-Hide Is Our Own Trade Mark, Registered in U. S. Patent Office.)

GOOD ROOFING AT LOW PRICES

Bear-Hide Asphalt Roofing is STRONG, TOUGH and DURABLE. It is made of good grade materials—felt and asphalt—no tar or other low grade ingredients being used. It comes in standard weights, 35, 45 and 55 pounds to the roll.

This roofing is a superior quality of standard asphalt roofing. It is easy to lay, looks well on the roof and will last for an indefinite period. It looks nearly as good as our GUARANTEED BEST-OF-ALL ROOFING and you can be assured that Bear-Hide Roofing will give you the maximum wear and service, price considered.

If you want strictly first quality roofing, guaranteed for long service, buy our Best-of-all, Roma-Tile Slate Surfaced, Oriental Slate Surfaced or Fire-Chief Slate Surfaced Shingle Roll Roofing, listed on pages 967, 968, 969 and 970 of this book.

Bear-Hide Asphalt Roofing has been adopted by us to prove to our customers that a good roofing can be sold at a reasonable price. It has been our aim in the manufacture of our different brands of roofing to make them so good in every way, so thick, so heavy and so durable that people everywhere would not hesitate to use them on the better class of buildings. The great POPULARITY OF OUR GUARANTEED ROOFINGS is the result of this policy. Bear-Hide Asphalt Roofing for $1.35 to $1.95 a roll is second only to our very highest grades. Bear-Hide Roofing is BETTER than most smooth finish roofings sold throughout the country but if you want the BEST turn to page 970 and order our BEST-OF-ALL ROOFING. Rolls are 36 inches wide, 36 feet long and contain 108 square feet; covering surface, 100 square feet. Nails and cement included.

Prices for Standard Grades Bear-Hide Roofing. Shipped from CHICAGO or PHILADELPHIA Store or Factory in SOUTHERN OHIO.

EAVES TROUGH, PIPE AND FITTINGS

Galvanized Steel. No Soldering—the Joints Slip Together

WE FURNISH TWO THICKNESSES. United States Standard 29-gauge, which is known the country over as standard weight and thickness, and United States Standard 26-gauge, which we describe as extra heavy and which is about 11½ per cent thicker and heavier than the standard 29-gauge. We recommend the extra heavy grade or 26-gauge in preference to the standard weight 29-gauge, as it costs but little more, costs no more to hang and gives nearly double the wear. All eaves troughs, conductor pipes and flashes are **shipped from our CHICAGO or PHILADELPHIA store.**

OUR SLIP JOINT REQUIRES NO SOLDER. No experience necessary to put up our Slip Joint Eaves Troughs and Conductor Pipes.

Corrugated conductor makes a stiff, strong pipe, is easily put together and is most commonly used. Furnished only in 10-foot lengths. They are made to fit the following eaves troughs.

Size of eaves troughs, inches	3½	4	4½	5	6
Size of conductor, inches	2	2	3	3	4

48H3180—Standard Weight, U. S. Standard 29-Gauge.

Fitted for conductor, size, in.	2	2	3	3	4
Price, each	19c	21c	23c	24c	27c

HOW TO ORDER PIPE AND GUTTER

First. Be sure to state how much left hand and how much right hand Eaves Trough you need.

Second. Make a list of fittings for Eaves Troughs, such as Miters, Hangers, End Caps and Outlets. These should be exactly the same size as the Eaves Trough.

Third. State how much Conductor Pipe you will need and be sure to order the proper size to fit the Eaves Trough. **Conductor Pipe is always smaller than the Eaves Trough.** For instance, 3-inch Conductor Pipe should be used with 5-inch Eaves Trough.

Fourth. Make a list of fittings which go with Conductor Pipe, such as Elbows, Conductor Hooks, Strainers, Funnels and Cut-Offs. These should be ordered exactly the same size as Conductor Pipe.

Sizes in column headed "Size" are for lumber fresh from saw. Shrinkage due to seasoning and planing one side and one edge to reduce to an equal thickness and width will result in finished sizes as follows: 2x4, planed to 1⅝x3⅛ inches; 2x6, planed to 1⅝x5⅝ inches; 2x8, planed to 1⅝x7¼ inches; 2x10, planed to 1⅝x9½ inches; 2x12, planed to 1⅝x11½ inches.

No. 1 Yellow Pine Timbers, planed on four sides, furnished at proportionate prices. Example: For 4x4-16 foot allow double the price of 2x4-16 foot; for 8x8-16 foot allow four times the price of 2x8-16 foot.

Yellow Pine Boards

No. 1 Grade we recommend for sheds, fencing and other purposes where a good sound board is required that contains only a medium quantity of tight knots that will not weaken the strength of the piece.
No. 2 Grade is the next lower grade. It is specially suitable for sheathing purposes, sub-floors or roof boards.
No. 3 Grade is the lowest grade we carry, but may be used for low grade floor lining and sheathing with some waste.
Weight, per 100 Square Feet, 250 Pounds.

Havana, Ill., R. R. No. 1.
Sears, Roebuck and Co.
Everything worked up nicely. It was the best lot of lumber money will buy. I saved one-third.
Yours truly,
HENRY FANTER.

INEAL FEET" means enough material to extend 100 feet in length. "100 SQUARE FEET" means terial to cover 100 square feet, without any allowance for tongue and groove, lapping or dressing edges. **rmine number of square feet in surface to be covered,** multiply length by width. Example: A room 10 feet feet long contains 120 square feet. The size upon which lumber is sold is the rough size from which the finished ie. Therefore, a piece of flooring finished 13/16-inch thick and 3¼-inch face is counted 1x4. mber is all manufactured to standard sizes of the Lumber Manufacturers' Association. **Please be CATALOG NUMBER and state size, kind and grade wanted.**

Tarred Felt—Building Paper—Deadening Felt

Tarred Felt—Used for Sheathing or General Building Purposes.

Tarred Felt is one of the best kinds of building paper for lining floors and for use between sheathing and siding. Can be used under and brick veneers. It is also used for gravel roofs. It is made of carefully selected felt, thoroughly saturated with redistilled low heat A coal tar.

48H3050—TARRED FELT. We recommend this for all first class jobs, because it is the thickest. This felt is used extensi roofing sheds and temporary buildings. It makes an excellent deadening felt and should be used under all floors where a good job is wan

48H3054—TARRED FELT, medium thickness. This thickness of tarred felt is also used for gravel roofing where several layers are specified. It is a lighter weight (not so thick), and where a medium grade of work is required a 48H3054 Tarred Felt will be found very satisfactory.

48H3055 — TARRED FELT. This thickness of felt is made with the same care as the two heavier grades, but is much thinner.

Catalog No.	Weight, Per Roll	Number of Sq. Ft. to Roll	W'th, Inches	Price, per Roll
48H3050	60 lbs.	250	32	$2.05
48H3054	60 lbs.	400	32

Shipped from our CHICAGO or PHILADELPHIA store. Average shipping weight of above, per roll, 60 lbs.

Homan Brand Deadening Felt.

Deadening Felt is used to deaden the sound between floors and in walls. It is made of a good grade of felt, soft and pliable, and will add much to the warmth of your building. Homan Brand Deadening Felt should be under every floor. **Shipped from our CHICAGO or PHILADELPHIA store.**

Prices of Homan Brand Deadening Felt.

Screen Windows and Doors

WE DO NOT SELL LOW GRADE SCREEN DOORS OR WINDOW SCREENS.

Screens should not be compared with ordinary screens made of light weight material and wire. Our screens are carefully made of sound grades of cypress or pine. All are mortised and only highest grades screen wire are used. The wire is tightly and evenly stretched and held in place with a good screen molding fastened securely in place. SCREENS ARE 1⅛ INCHES THICK, with the exception of half-sized window screens which, being smaller, are ⅞ inches thick. All screens have wide upright and cross rails, and are made with the same care used in the manufacture of our regular doors and windows.

Furnished with either galvanized wire or black wire. Black Wire Screen has 12 squares to the inch and is enameled black. Galvanized Wire Screen has 14 squares to the inch and is galvanized before weaving, therefore, is rustproof.

The frames of all of our door and window screens are furnished painted black. Carefully crated, shipped direct from our BIG MILL WORK FACTORY IN OHIO. Guaranteed to arrive in perfect condition. When ordering be sure to give width first.

Screen Doors. 1⅛ inches thick.

Side, top, and center rails—3 inches wide, bottom rail 6 inches wide. This allows a small margin for trimming to insure a snug fit. Painted black. Substantial, well made. Suitable for front or rear door. Furnished with galvanized or black wire. Prices shown below.

Suitable for front or rear door.

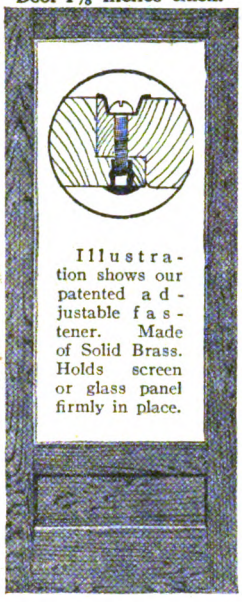
DOUBLE DUTY COMBINATION SCREEN AND STORM DOORS.

(Patented fastener.)
Door 1⅜ inches thick.



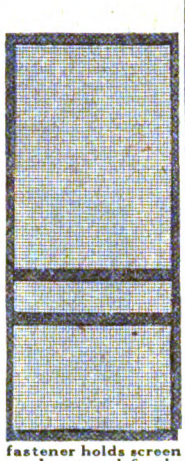


Illustration shows our patented adjustable fastener. Made of Solid Brass. Holds screen or glass panel firmly in place.

Here's a very dependable high class combination screen and storm door, "two in one," in our opinion, the best on the market. A high grade screen door in summer—a substantial storm door in winter—at the price of a single door. The door remains on hinges all year round—you simply change the center panel in spring and fall. Price includes both screen and glass panels. A **strong, solid, brass patented adjustable fastener holds screen or glass panel firmly** in place. So easy to operate that a woman can make the change.

Made of clear White Pine, clear window glass, and high grade wire screen. Side and top rails 4¾ inches wide; bottom rail 8¾ inches wide. This allows a small margin for trimming to insure snug fit. Wood panel at bottom of door 8 in. wide. Furnished in the white, painted black or varnished. See prices below.

NOTE—At prices quoted we furnish black wire in screen panel. If galvanized wire is wanted allow 15 cents extra per door and ask for "Galvanized Wire."

Size, 1¾ inches thick. Width Ft.	In.	Height Ft.	In.	Price, Each Not painted or varnished 63H2401	Price, Each Painted black 63H2404	Price, Each Varnished 63H2405

DOOR AND WINDOW TRIM

In Sets, Ready to Nail in Place.

Design A.

Design B.

To order trim sets for trimming the inside of a door or window, give the size of the door or window you want to trim. Every piece of molding is cut to exact size. The head trim for over doors and windows will be nailed together and the ends of the cap will be molded, as shown in the illustration. Smoothly sanded, ready to nail them in place. Moldings are of full standard size. The side casing is ¾x4¼ inches; the base blocks are 4½x10x1⅛ inches; and the head trim, composed of three moldings nailed together, is 6½ inches wide, ready to nail in place.

Every part is carefully sandpapered and each set of trim is carefully wrapped, one set in a carton. It will reach you clean, ready to use.

PRICE ON TRIM FOR DOORS—DESIGN A.

Price quoted includes stops, and covers any size door up to 3 by 7 feet. Outside doors require one side of trim and inside doors two sides.

63H5901—Clear Yellow Pine Inside Door Trim.

PEERLESS WALL BOARD

Less Than 4c per Square Foot.

Made of three layers of heavy cardboard cemented together by two layers of asphalt, which helps make it dampproof and prevents rats and mice from gnawing through. It is used instead of plaster, and can be applied by anyone. Comes in three finishes—plain light brown, quarter sawed oak and Circassian walnut. Plain finish wall board **CAN BE PAINTED ANY COLOR.** Fine for basements or attics and for dividing large rooms into small ones.

You save time when wall board is used instead of lath and plaster. The carpenter can put on the trim and the painter can apply the stain or varnish to it while the wall board is being put on—three operations going on at about the same time **without any muss or dirt.** ...iting, **no dampness.** You can put on this wall board right ...e studding or apply it to old plaster if you wish. Can be ...and solidly nailed without danger of splitting. Wall board ...ished in sheets from 8 to 12 feet long, each sheet being 32 ...wide and about 3/16 inch thick. We sell Joint Tape in all ...inishes to cover the joints, but we recommend the wood ...trips for rooms where a fine effect is desired. Packed in ...rates, guaranteed to reach you in good condition. **Shipped ...actory in SOUTHERN OHIO only.** When ordering give ... of sheets for side walls and ceilings.

GOODWALL SHEET PLASTER

Fire Resisting, Clean, Inexpensive, Lasting, Easy to Apply.

Goodwall Sheet Plaster is a fire resisting gypsum rock composition plaster of even thickness between two sheets of heavy cardboard. These cardboards are so saturated with the fire resisting gypsum composition that they make Goodwall Sheet Plaster far more fire resisting than regular lath and plaster. It comes in sheets 32x36 inches, and long sheets for panel work, and takes the place of regular lath and plaster at less cost and with less labor.

Illustration at left shows Goodwall Sheet Plaster applied to studding. It can be given a coat of our specially prepared Hard Plaster Finish, which will give same result as lath and plaster job. It can also be wall papered without the use of Hard Plaster Finish by using Joint Tape over the joints. (See above.) For best results we recommend a 3/8-inch coat of Hard Plaster for first coat and 1/8 of an inch Top Coat Finish for second coat. You will then have fire resisting walls, which can be tinted any desired color or decorated like any other wall.

Actual Thickness 3/8-Inch Sheets.

3/8	40	86 lbs.	2.15

Above to the right is illustrated a piece of Goodwall Sheet Plaster in actual thickness of the 3/8-inch sheets.

The large sheets can be used same as any wall board, without the use of plaster finish.

READ ABOUT ITS MANY ADVANTAGES.

It enables you to do a better job for less money and can be applied by yourself.
It is equal in service and strength to a lath and plaster wall.
It deadens sound as effectively as lath and plaster.
It is vermin proof and can be painted, papered or kalsomined.
It can be covered with a plaster coat of any thickness, but 3/8 of an inch hard plaster for first coat and 1/8 of an inch top coat finish for second coat will be sufficient to make a smooth and seamless wall.
It is dry. No need to wait for weeks to drive the dampness out.
It is clean. No muss and dirt when you apply it.
It is strong. Send for a sample and try to break it with your hands.
It cuts out cost of lath; none needed with Goodwall Sheet Plaster.
It will not break when being nailed.
It can be cut with a saw, or broken with a clean edge by scoring the cardboard on both sides with a knife, breaking where scored.

SPECIALLY PREPARED HARD PLASTER.
(For first coat.)
Shipped in good strong bags with Sheet Plaster.
Quantity required to cover 100 square feet, 3/8-inch coat, 150 pounds.

Nails—One pound will be required for 16 sheets of Goodwall Sheet Plaster, 32x36 inches. Ordinary 3-penny nails can be used, placed not more than 4 inches apart.

BLUE PLASTER CARDBOARD

...out one-half of a cent a square foot for our Fulton Brand Blue Plaster Cardboard. This material is ...sed very extensively in camps, cottages, bungalows, etc., as a cheap material to take the place of lath ...ster. Wall paper may be used over it, or by covering the seams with one-half round molding or flat ...trips a very neat paneled effect may be had. See illustration.

...lton Brand Blue Plaster Cardboard is light weight cardboard, less than 1/16 inch in thickness, made only in AA grade from carefully selected stock ...kes a sheet strong and durable. In color it is a pleasing shade of blue. It ...on with an ordinary large headed tack. If Blue Plaster Cardboard is to be ... with wall paper, we recommend that a narrow strip of cheesecloth be pasted ...l joints. This prevents the wall paper from cracking at the seams. For ...ng purposes it would be hard to obtain a stronger or tougher material for ...pose than our Fulton Brand Blue Plaster Cardboard.

...are 36 inches wide. Shipped from CHICAGO or PHILADELPHIA store.
...can be included with your order for wall paper or other merchandise.

t "HONOR BILT" Means.

NOR BILT" homes are not portable or sec- "HONOR BILT" houses have 2x4-inch stud- ick sheathing and clear cypress siding, making alls. They also have double floors and 1¼-inch outside window and door casing. They are gh grade, **extra** substantial and very carefully Study the illustrations at the right. See ONOR BILT" houses are better than ordinary houses. Read the twelve reasons why you buy an "HONOR BILT" Modern Home if you PERMANENT, SUBSTANTIAL DWELLING lowest possible price.

u do NOT want a permanent house as high nd substantial as "HONOR BILT" Modern are designed to be, then you will be interested SIMPLEX SECTIONAL HOUSES, illustrated cribed on the opposite page. Simplex Sectional and "HONOR BILT" Modern Homes are not he same. They are two separate and distinct of construction. This page describes high HONOR BILT" Modern Homes. On the oppo- e you will find the Simplex Sectional Buildings.

Save 40 Per Cent.

The illustrations to the right show better than words can tell exactly how the HONOR BILT SYSTEM makes it easy for you to SAVE 40 PER CENT on the cost of carpenter labor in building your new home.

An actual test completed August 2, 1921, proves our "HONOR BILT" SYSTEM SAVES 40 PER CENT IN CARPENTER LABOR. Affidavit, photographs and full details certifying to the truthfulness of this saving are shown in our book of "HONOR BILT" Modern Homes illustrated below.

In addition to the items shown at the right, we also furnish ready to nail in place all of the porch material, window and door trim, all studding, all rafters; in fact, every piece of material that we have found by experience can be cut more economically by power driven machinery in our factory than it can be cut by hand on the job.

Concrete Machinery

ELLIS CONCRETE MIXER.

While this page shows our very best sellers and quotes our lowest prices on Concrete Machinery, we also show other designs of mixers, forms and molds for making blocks, bricks, fence posts, porch material of practically all standard sizes and designs used in ordinary building in our Special Concrete Machinery Catalog illustrated to the left.

If you don't find what you need on this page, write and ask for Special Concrete Machinery Catalog 532GC.

Our Booklet, "Concrete Products and How to Make Them," is sent free with every order. This is a text book on concrete, giving full instructions regarding the care and operation of the various machines we sell, and complete formulas for mixing, molding and curing concrete.

The Ellis Concrete Mixer, with engine and side loader, illustrated directly above, is practical for large or small concrete work. Our price is extremely low for this HIGH GRADE machine, which is guaranteed to be perfect in material and workmanship. Built for service. The kind of service you would expect from a machine of much higher price. 40 to 60 cubic yards of concrete per day can be mixed by two men. It would take three men about four days to mix the same amount of concrete by hand with hoe and shovel. Full directions are furnished so you will have no trouble in starting or taking care of the Economy Gasoline Engine sent with the mixer. Ellis Mixers are **shipped complete from factory in CENTRAL OHIO.**

COMPLETE SPECIFICATIONS.

Mixing Drum—Made of 10-gauge steel; 36 inches in diameter; 30 inches wide. Drum openings, 14 inches.

Capacity—Five cubic feet of unmixed materials.

Side Loader—Made of heavy sheet steel properly braced. Holds one batch, 5 cubic feet. Has steel cable and hoist operated by a simple internal expansion ring clutch. Automatically stops when bucket is at top.

Frame—Made of 5x1¼-inch steel channel, with three cross channels of same material.

Trunion Rollers, on which mixing drum is supported, have 2-inch chilled face and measure 10 inches in diameter.

Truck Wheels are all steel with cast hub. Diameter of front wheels, 18 inches; rear wheels, 24 inches; with 4-inch reinforced tires. Axles are cold rolled steel.

Track—Standard 4 feet 8 inches, so wheels will follow the road track.

Power—Equipped with our famous 2½ horse-power Economy Gasoline Engine, with built-in magneto. All important bearings are provided with compression grease cups.

63H5980—Ellis Concrete Mixer complete with engine, and power driven side loader, as illustrated above. Shipping weight, 2,700 pounds.
Price **$435.90**

63H5984—Same as above, but with wood loading platform. Shipping weight, 2,600 pounds.
Price **$391.70**

63H5982—Same as above, but without wood loading platform. Shipping weight, 2,350 pounds.
Price **$379.00**

A Big Capacity Block Making Outfit.

$75.55

Our Wizard Machine.

Simple and Speedy.

Anyone Can Operate It.

$75.55

A complete outfit for quantity production of high grade building blocks. Used by many leading block manufacturers. Priced low enough to make its use profitable on farms or other places where concrete products are in demand. Each outfit contains:

One Wizard Machine on heavy stand.
Two Face Plates for making whole blocks.
Two Face Plates for making half and quarter blocks.
Two Core Endgates.
Four Return Endgates.
Two Dividing Plates.
Two Core Dividing Plates.
One Cast Iron Pallet.
One Face Plate for making inside corner blocks.
Two Joist Block Attachments.
One Dividing Plate for making gable blocks.
Two Wall Plugs for making solid blocks.
Two Pallet Plugs for making solid blocks.
One Strike-Off Tool.
One Double End Tamper.

We furnish outfits with one plain and one rock face plate. Two men can make 250 to 300 blocks a day. **IRON PALLETS** are used. A smooth rounded handle on each end of pallet permits lifting of block with ease. Will not split, warp or swell. Barring accidents, will last forever.

63H5515—8x8x16-Inch Wizard Block Making Outfit. Shipping weight, 425 pounds. Price **$75.55**

63H5537—Pallets for 8x8x16-Inch Blocks. Weight, each, 7 pounds. Price, each ..... **$ 0.60**
Price, per 100 ..... **58.00**

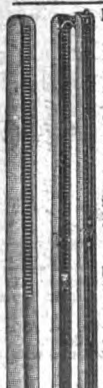
The Harvard Mixer.

A good power mixer. Cement, sand and gravel are fed into hopper. Water is added through galvanized iron tank. Mixing done by paddles which put mixture forward four inches and back one inch. Can be used as batch mixer or continuous mixer.

SPECIFICATIONS: Hopper and mixing drum made of 16-gauge rolled sheet steel, securely riveted and held with heavy castings. Fitted with heavy bevel gears with necessary grease cups. Water tank holds 3 gallons and is provided with brass water valve. Capacity, up to 25 cubic yards of concrete per day. **Shipped from factory in CENTRAL OHIO.**

63H5674—Harvard Concrete Mixer on [illegible]
Shipping weight, 240 pounds. Price ..... **$38.**



Silo Block Mold.

A good efficient silo can be constructed of concrete blocks and proper reinforcing. Our Silo Block Mold will enable any farmer owner with a little practice to make his own blocks.

Mold is made of heavy castings for making 16-inch blocks of the proper curve for silo. Each block has two hollow cores and space for reinforcing rods. With the mold we send a wooden pallet, side plates for whole blocks and two half blocks, dividing plate and tamper. Additional pallets are very easily made from any smooth lumber. Blocks are suitable for any size silo from 10 to 18 feet in diameter. Full directions sent with each machine.

63H5756—Triumph Silo Block Mold. Shipping weight, 75 pounds. Price ..... **$17.**

Shipped direct from factory in CENTRAL OHIO.

Fence Post Mold.

Made of two pieces of channel shaped castings which form the sides. Ends are formed by small castings fitting in grooves. A series of knobs or buttons on upper portion of mold provide for holding fence wire firmly in place. The mold is securely held together by thumb bolts. Can be opened or closed in an instant. Makes a post 7 feet long, 3¼ in. thick and 5 inches wide at the bottom, tapering to 3¼ inches at the top. Instructions furnished for making and reinforcing posts.

63H5896
Single Line Fence Post Mold (for making one post at a time), complete with grooving block and wire tie. Shipping weight, about 50 pounds.
Price, each **$11.80**

Special Farm Owners' Outfits.

Concrete Machinery Outfit for the farm. Concrete is the ideal material for floors, walks, driveways, foundations, cellars, feeding and drinking troughs, manure pits and hog wallows; also concrete fence posts, which are being universally used.

We offer a **Farm Owners' Concrete Machinery Outfit,** which consists of a Tilting Drum Steel Barrel Hand Power Mixer, or a Triumph Concrete Block Machine and one Fence Post Mold. This low priced outfit will enable the average farm owner to do almost all of his own concrete work. All machines are guaranteed to be perfect in material and workmanship and to give satisfaction. Each item is listed and priced separately, but if you buy the complete outfit you will make a saving of $3.55. Our booklet, "Concrete Products and How to Make Them," sent with every order.

63H5585—Farm Owners' Concrete Machinery Outfit, as described, including Tilting Drum Steel Barrel Hand Power Mixer, Block Machine and Fence Post Mold. Shipping wt., about 490 lbs.
Price, complete outfit **$66.95**

63H5586—Farm Owners' Concrete Machinery Outfit, as described, including Tilting Drum Steel Barrel Belt Power Mixer, Block Machine and Fence Post Mold. Shipping weight, about 500 lbs.
Price, complete outfit **$74.70**

Shipped direct from our factory in CENTRAL OHIO.

Triumph Block Machine.

A durable cast iron machine for making 8x8x16-inch concrete blocks with rock face and double air space. We furnish with the machine:

One Rock Face Plate for whole blocks.
One Rock Face Plate for half blocks.
Two Rock Endgates.
Two Core Endgates.
Two Dividing Plates.
One Gable Block Dividing Plate.
Two Joist Block Attachments.
Plugs, Sticker, Tamper.
One Wood Pallet (others can be made).

63H5704—Triumph Block Machine, for 8x8x16-inch blocks, with double air space. Shipping weight, about 140 pounds. Price **$21.00**

$37.7

Tilting Drum Steel Barrel Mixer.

The important feature of the Tilting Drum Steel Barrel Mixer is the tapering of the barrel, which with the help of the three mixing blades attached on the inside of the barrel will throw the material from the mouth and back to the center of the drum, thereby giving a more thorough mixture than obtained by an ordinary wooden barrel mixer. The Tilting Drum Steel Barrel Mixer will mix concrete, mortar or plaster, wet or dry. Especially suited for farm use.

63H5600

Height of frame, 32 inches; height over all, 5 feet; length over all, 4 feet 6 inches; floor space occupied, 5x3 feet; material in frame, 1¼x1¼-inch angle iron; weight of steel in drum, 16-gauge; drum carriage yoke, 1¼-inch cold rolled steel; mixing capacity, 2½ to 3 cubic feet.

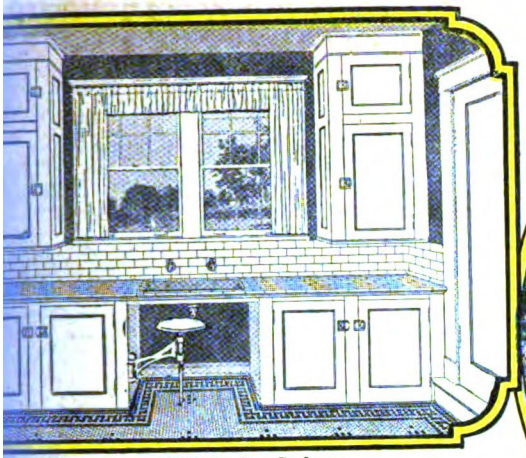


Illustration shows hand power mixer. Mixer can also be furnished with sprocket, chain and pulley, for belt power.

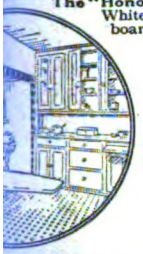
Price



63H5600—Tilting Drum Steel Barrel Hand Power Mixer $37.70
63H5601—Tilting Drum Steel Barrel Belt Power Mixer. 45.45
Shipped from factory in CENTRAL OHIO. Shpg. wt., abt. 300 lbs.

ALREADY CUT AND FITTED MODERN HOMES

Honor Bilt

"HONOR BILT" Homes are extra high grade. They have double floors, double walls and 2x4-inch studding. Outside Door and Window Casings are CLEAR CYPRESS 1⅛ inches thick. "HONOR BILT" means a more Substantial Home—a more Comfortable Home—a Better Home at a big saving in money and time.

You need our book on "HONOR BILT" Modern Homes if you are thinking of building. It illustrates over a hundred homes for city, suburb and farm, including the very newest designs in bungalows. Each home is completely illustrated and described. Floor plans are shown for every design with an estimate of the cost of the house BUILT COMPLETE, including high grade plumbing, guaranteed heating plant, electric wiring, solid brass lighting fixtures and material such as brick, cement, and plaster which we do not furnish. Also cost of all labor by first class workmen.

The "HONOR BILT" System Saves 40 Per Cent.

Our homes are furnished Already Cut and Fitted, according to the "HONOR BILT" System. We now have **actual proof** that you can SAVE 40 PER CENT on carpenters' labor by our "HONOR BILT" Already Cut System—the result of a test completed August, 1921. Our new book of "HONOR BILT" Modern Homes contains certified details of this great saving with photographs, affidavits, etc.

Page 979 of this General Catalog explains the extra solid construction, the sturdiness and warmth of "HONOR BILT" Houses and the excellent quality throughout. **Be sure to read the important facts on page 979.**

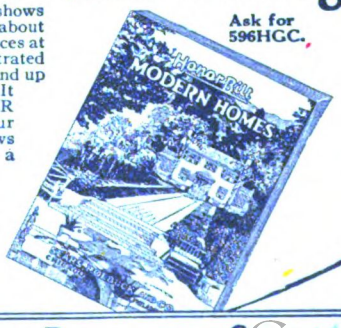
One order brings all our material. Our guarantee is behind every "HONOR BILT" Modern Home. It protects you against extras and shortages. It insures prompt shipments and complete satisfaction. Our guarantee is backed by our entire resources.

"HONOR BILT" Houses are high class in every respect. The prices are very low but they include up to date conveniences (a few of which are illustrated on this page) found only in high priced residences. Many "HONOR BILT" plans include the following:

- Mirror Doors.
- Broom Closet.
- Coal Chutes.
- Built-In Bookcases.
- Self Closing Windows.
- Pullman Breakfast Alcove.
- Wall Safes.
- Linen Closets.
- Medicine Cases.
- Wardrobe Clothes Closets.
- Built-In Folding Ironing Boards.
- Labor Saving Kitchen Cupboards.
- Mantels.
- Clothes Chutes.

A Valuable Big Building Book Sent Postpaid.

Ask for Modern Homes Catalog No. 596HGC, if you are going to build.



It is complete in every detail. It shows homes ranging from three rooms, at about $600.00, to spacious ten-room residences at near $6,000.00. Several houses illustrated in colors showing beautiful interiors and up to date treatment in decorating. It proves the "HONOR BILT" 40 PER CENT SAVING. It explains our EASY PAYMENT PLAN and shows how you can become the owner of a brand new, substantial modern home on small monthly payments.

This is the book that has taken thousands of people out of the rent paying class. It will do the same for you. **Send for it today.**
